WHEREAS, the City of Charlotte recognizes the recovery of direct costs as being a valid and reasonable means of establishing appropriate user fees and charges; and

WHEREAS, the City of Charlotte endorses developing Engineering related fees in conjunction with Mecklenburg County staff (for the fees to be as close as reasonably possible) with the goal being to recover 100% direct costs only. The coordination of fees with Mecklenburg County will ensure that consistent fees are presented to the development community for services rendered by the City or the County; and

WHEREAS, the City of Charlotte approves planning fees which are established with the goal to recover 100% of direct costs only; and

WHEREAS, the City of Charlotte approves adult athletic fees and rental fees for Parks and Recreation facilities which are established to recover 100% of direct costs only; and

WHEREAS, the City of Charlotte determines that youth athletic associations and City-organized youth athletic programs are exempt from user fees and charges for reserving and using parks and recreation facilities; and

WHEREAS, the City of Charlotte has provided a means whereby individuals identified as indigent will be exempt from user fees; and

WHEREAS, the City of Charlotte approves an annual User Fee Review Process which will serve as the vehicle for Council to review user fees as part of the budget process; and

WHEREAS, the City of Charlotte believes that cost recovery for all other services should be 100% of all direct costs except when fees are charged to another governmental agency or when fees would negatively impact the demand for the service; and

WHEREAS, the City of Charlotte bases its user fee methodology on the Arthur Young and Company "User Fee Study", dated August 26, 1987, for the City of Charlotte and on file with the City Clerk.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Charlotte, in its regular session duly assembled that it does hereby adopt the user fee policy, methodology and annual user fee review process.
