

# Kenilworth/ Romany

Storm Drainage  
Improvement Project

**Construction is underway**

## Project Status

April 2020

Construction is underway on the Kenilworth/Romany Storm Drainage Improvement Project. Hall Contracting Corporation was awarded the contract on November 25, 2019. Crews are currently working along Little Sugar Creek on the Atrium campus and will progress along Romany Road to Dilworth Road and adjacent streets. Construction is expected to be complete by September 2022.

The contractor will maintain access to the neighborhood, with signs assisting motorists. If you have questions, please contact a project team member. A construction inspector will be on site daily and is your best contact to address construction-related issues that need immediate attention.
