## Introduction and General Information

### 1. INTRODUCTION.

#### 1.1. Objective.

The Building Services Division of the General Services Department/Engineering & Project Management is responsible for maintaining a portfolio of approximately 180 buildings, including offices, fire stations, police division offices, and equipment shops, that house various city activities. The city also maintains cultural facilities, including museums and arenas that serve as venues for sports, entertainment, and other events. Contracts resulting from this RFP may be used by various city departments for needs across the entire City organization.

The city plans to contract with one or more Companies to provide installation, maintenance, and programming services (Services) for Automatic Lighting controls in city facilities (Project) that are not part of an integrated Building Automation System. The city is seeking firms whose combination of experience and expertise will provide professional, timely, and cost-effective services to the city.

Some City facilities have automatic lighting controls that are not part of a building automation system due to special requirements of the lighting systems and their associated technologies. One example is systems found in fire stations that are triggered by fire alarm calls. Cultural facilities also have special lighting needs related to the varied purposes that these venues serve.

All control systems require periodic maintenance and confirmation that they are still functioning correctly. Lighting controls may include occupancy sensors, timeclocks, and photocells, relays, light control switches, or touchscreens. At least once a year, lighting controls should be inspected to ensure proper operation of all control devices. Photoelectric controls, whether switching or dimming, require occasional cleaning of the photosensitive surface. Frequency of cleaning depends on the cleanliness of the environment. Relay based scheduling systems also require occasional checking and any override settings should be reviewed.

The Company shall provide Services at various locations as needed. No representation or guarantee is made regarding the quantity of work to be awarded under any as-needed service contract. A Company may be awarded multiple tasks or none at all. It is not anticipated that any single task will exceed \$50,000.

The City will issue Task Orders with details concerning the services to be provided by the Company. Each Task Order will identify key staff who will be assigned by the Company to work on the specific project identified in the Task Order.

The City reserves the right to prepare an individual Scope of Work and require a proposal with complete breakdown of material, equipment and labor cost for each project consistent with the prices established. The City may solicit a quote for Services from one or more companies prior to assigning an individual project

The Company chosen for award should be prepared to have its Proposal and any relevant correspondence incorporated into the Contract, either in part or in its entirety, at the City's election. 1.6.9. Charlotte Business INclusion Program.

Pursuant to Charlotte City Council's adoption of the Charlotte Business INclusion (CBI) Policy, the CBI program seeks to enhance competition and participation of Minority-owned, Women-owned, and Small Business Enterprises (MWSBEs) in City contracting. To accomplish this, the City has examined its procurements and set specific MWSBE participation goals on a contract-by-contract basis. In addition, CBI makes a concerted effort to expand its certified MWSBE vendor pool and assist city-certified firms in growing, enhancing, and developing their businesses. CBI currently offers numerous development programs that support certified businesses in organizational training, strategic development, and networking opportunities.

The CBI Policy and CBI Manual are posted online here: [www.charlottebusinessinclusion.com](http://www.charlottebusinessinclusion.com)

To determine whether disparities exist in City contracting based on race, gender or other factors, and also to measure the effectiveness of the City's Charlotte Business INclusion ("CBI") Program, the City tracks the utilization of subconsultants and suppliers on certain City contracts based on race, gender, small business status, and other factors. For analysis purposes, it is important that the City obtain this data not only for minority-owned, women-owned, and small business suppliers and subconsultants, but also for other subconsultants and suppliers. As a condition for receiving payments under this Contract, the Proposer agrees to submit any payment record into InclusionCLT, or any subsequent system designated by the City, detailing the amounts paid by the Consultant to all subconsultants and suppliers receiving payment in connection with this Contract.

There is a **Goal Waiver** for this listing.

**The city strongly encourages participation whenever possible.**

City certified MWSBE firms can be found in the City's InclusionCLT system:

The City retains the right to approve all subcontractors. Additionally, the City must be named as a third-party beneficiary in all subcontracts.

1.6.11. Equal Opportunity.

The City has an equal opportunity purchasing policy. The City seeks to ensure that all segments of the business community have access to supplying the goods and services needed by City programs.
