The City has no financial obligation under this Contract absent the City's execution of a valid and binding PO or contract addendum containing a pre-audit certificate. [OR if NTE Contract and the funds are going to be encumbered via addendum/task order:] The Company will execute and submit to the City a proposed Task Order for each scope of work that the Company proposes to provide to the City under this Contract. The City may accept the proposed Task Order by issuing a purchase order. Upon issuance of such purchase order the Task Order and purchase order shall be deemed incorporated into and made a part of this Contract, and each reference to an accepted Contract Addendum in this Contract shall be deemed to include both the Task Order in the form accepted by the City and the purchase order. In the event of a conflict between the main body of this Contract and the Task Order, the main body of this Contract shall prevail. The City will not be legally obligated by a Task Order absent a City issued purchase order.

37. **NON-APPROPRIATION OF FUNDS.** If the City Council does not appropriate the funding needed by the City to make payments under this Contract for a given fiscal year, the City will not be obligated to pay amounts due beyond the end of the last fiscal year for which funds were appropriated. In such event, the City will promptly notify the Company of the non-appropriation and this Contract will be terminated at the end of the last fiscal year for which funds were appropriated. No act or omission by the City,

which is attributable to non-appropriation of funds shall constitute a breach of or default under this Contract.

IN WITNESS WHEREOF, and in acknowledgment that the parties hereto have read and understood each and every provision hereof, the parties have caused this Contract to be executed on the date first written above.

In the event the City elects to proceed with the Substitute Components and Services, the Company shall provide the Substitute Components and Services at no additional charge to the City. In the event the City elects to proceed with the current components and/or services, the Company shall not be responsible for Defects which are solely attributable to the deficiency identified by the Company in the Deficiency Notice with respect to such components and Services.

2. PROJECT PLAN. Company shall be required to submit a Project Plan no later than fifteen (15) days prior to the estimated project start as set forth in the Project Schedule unless such requirement is waived in writing by the City. The Project Plan

should outline each task the Company plans to complete during the Work. If providing Implementation services, these tasks should be broken into the phases set forth in **Exhibit E**.

3. PROJECT SCHEDULE. Time is of the essence in having the Company perform the Work. The Company shall perform all Work within the time periods set forth in the Project Schedule. The Project Schedule shall be submitted to the City no later than fifteen (15) days prior to the Work beginning unless such requirement is waived in writing by the City.

Both the Project Plan and Project Schedule and any changes are incorporated herein by reference. Changes to the Project Plan and Project Schedule must be accepted in writing by both parties. For purposes of this section, email is an acceptable form of written confirmation.

4. Extensions of Time. There shall be no extensions of such time periods without the mutual written consent of both parties; provided, however, that:
 - a. If the City fails to complete any task assigned to it by the completion date set forth in the Project Schedule, and if such failure is reasonably likely to cause a delay in the completion of the remaining tasks, then the Company shall give the City written notice that its delay is causing the Company to fall behind (a "Delay Notice"). The completion dates for all remaining tasks shall be automatically extended by the number of Business Days between the date the City receives the Delay Notice and the date the City completes the overdue task identified in the Delay Notice;
 - b. If the Company fails to meet a completion date set forth in the Project Schedule, the completion dates for tasks assigned to the City shall be automatically extended by the number of Business Days between the date the task should have been completed and the date the Company actually completes such task; and
 - c. The City shall in its sole discretion be entitled to postpone the Work at any time for any reason by giving written notice to the Company. This postponement shall result in the extension of all deadlines set forth in the Project Schedule, provided that such extensions shall not total more than six (6) months in the aggregate without the Company's prior written consent.

- d. The failure by the Company to meet a given completion date in the Project Schedule shall not entitle the Company to receive an extension for the completion of any other task assigned to the Company, even if such failure has caused the City to delay in completing one or more tasks as allowed herein.
5. PROGRESS REPORTS. Throughout Implementation, the Company shall prepare and submit weekly written reports to the City Project Manager. The weekly reports shall:
 - a. Update the Project Plan indicating progress for each task;
 - b. Identify and report the status of all tasks that have fallen behind schedule, the reason for the delay, and the projected completion date;
 - c. Identify and summarize all risks and problems identified by the Company which may affect the Work;
 - d. For each risk and problem, identify the action and person(s) responsible for mitigating the risk and resolving the problem;
 - e. For each risk and problem identified, state the impact on the Project Plan; and
 - f. Identify all personnel, equipment, facilities, and resources of the City that will be required for the Company to perform the Work at least (2) weeks in advance of the need.
 6. REVIEW AND CORRECTION OF INTERIM DELIVERABLES. Upon completion of each Deliverable and/or project milestone, the Company shall give the City a written notice of completion. Within a reasonable time after receiving such completion notice, the City shall notify the Company in writing of the City's acceptance or rejection of the applicable Deliverable and/or project milestone. The City shall be entitled to reject the Deliverable and/or project milestone if it fails in any way to comply with the Contract or if it fails to comply with the highest industry standards, or if it contains time periods that are not reasonably attainable. If the City fails to accept or reject the Deliverable and/or project milestone within a reasonable time period, then: (a) the Deliverable and/or project milestone shall be deemed rejected; (b) the Company shall give the City written notice of such failure to accept or reject; and (c) work on all contingent tasks shall cease until all issues about the Deliverable and/or project milestone have been resolved and the City issues an acceptance. As used in this paragraph, the term "reasonable time" means the time reasonably necessary to review and evaluate the Deliverable and/or project milestone based on

its length, complexity and the number of people who need to review it. Under no circumstances shall the "reasonable time" be less than fifteen Business Days unless the City has agreed in writing to a shorter review time.

If the City rejects a Deliverable and/or project milestone the Company shall: (a) act diligently and continuously to correct all Defects and deficiencies identified by the City, and (b) immediately upon completing such corrections give the City a written, dated certification that all Defects and deficiencies have been corrected (the "Certification"). In the event the Company fails to correct all Defects and deficiencies identified in by the City and provide a Certification within a reasonable time after receipt of the rejection notice (which time shall in no event exceed fifteen Business Days), the City shall be entitled to terminate this Contract for default without further obligation to the Company.

7. Upon the City's receipt of the corrected Deliverable and/or project milestone, or a Certification, whichever is later, the above-described acceptance procedure shall recommence. The City shall not be obligated to allow the Company to recommence curative action with respect to any Defect or deficiency previously identified by the City or more than twice for any given Deliverable and/or project milestone and shall be entitled to terminate this Contract for default if the criteria for acceptance are not met within this time frame or in the alternative reduce the cost of the Work in a proportional amount equaled to the value of the unaccepted Deliverable or project milestone.

Under no circumstances shall the City's acceptance of a Deliverable and/or project milestone be deemed to constitute a waiver of any of the Specifications, the completion dates in the Project Plan, or any of the Company's other obligations under this Contract. No such waiver shall be effective unless specifically agreed to in writing by City staff holding the proper authority. Likewise, the Company shall not be relieved of such obligations by any Defect or deficiency in the Deliverable, nor by any failure on the part of the Company or City to detect such Defect or deficiency.

The Company is to develop a thorough, step-by-step, documented testing procedure with checklist and pass/fail/comments columns, to inspect/test all content, functionality, and interoperability of the Systems, per the developed specifications and design. CLT will review the test procedure and provide feedback for the Company to incorporate as needed. The Company will use this test procedure to perform their own QC/QA testing. Once the Company has satisfied their internal QC/QA documented process, CLT will use the same test procedure to conduct integrated acceptance testing in CLT's Technology Lab, or other location designated by the Airport, to confirm build accuracy, functionality, and interoperability with required Airport systems.
 - b. A punch list will be created as an extension to the test procedure used during CLT acceptance testing and the Company will correct any inaccuracies, contradictions, and issues with functionality and/or interoperability, etc. This test/punch list process will repeat as needed until CLT accepts the Systems build.
 - c. ACCEPTANCE TEST PLAN AND PROCEDURES.
