

REPORT OF PHASE I ENVIRONMENTAL SITE ASSESSMENT

SUGAR CREEK – I-85 SITE

Charlotte, North Carolina ESP Project Number: E6-KS80.602

Prepared For: City of Charlotte 600 East 4th Street Charlotte, NC 28202

Prepared By:

ESP Associates, Inc. P. O. Box 7030 Charlotte, NC 28241

February 23, 2023

February 23, 2023

Mr. Doug Pierotti Project Manager - Environmental Services Division City of Charlotte 600 East 4th Street Charlotte, NC 28202

Reference: REPORT OF PHASE I ENVIRONMENTAL SITE ASSESSMENT SUGAR CREEK – I-85 SITE Charlotte, North Carolina ESP Project No. E6-KS80.602

Dear Mr. Pierotti:

ESP Associates, Inc. (ESP) has completed a Phase I environmental site assessment at the above-referenced property (Site). The purpose of our services, as described in the attached report, was to review the Site for evidence of recognized environmental conditions resulting from past or present on-Site or nearby off-Site activities.

This report is intended for the use of the City of Charlotte. The contents of this report should not be relied upon by any other parties without the express written consent of ESP. Use or reliance on this report signifies agreement to the terms and conditions of our contract with City of Charlotte. The findings are relevant to the dates of our Site work and should not be relied upon to represent Site conditions on other dates.

ESP appreciates the opportunity to provide our environmental-related services on this project. If you should have any questions concerning this report, or if we may be of further assistance, please contact Chris Ward at (704) 506-7618.

Sincerely,

Ein Follinger

Erin Tollinger Staff Scientist

Attachment - Report of Phase I ESA

Christopher J. Ward, PG, RSM Department Manager

1.0 PROPERTY SUMMARY

1.1 Summary of Property History

Property Name	Sugar Creek –	I-85 Site	
Property Tax Parcel IDs	Parcel ID	Roadway	Street Number
and Addresses	08906431	Reagan Drive	5350
		Tom Hunter Road	1415
	08906447	Reagan Drive	5342
User of this report:	City of Charlotte	e	
Reason for requesting the Phase I ESA:	Acquisition of p	roperty	
Date of Site Reconnaissance:	February 9, 2023		
Property description:	Parcel ID	Description	
	08906431	Developed land with	motel
	08906447	Developed land with	motel
Current property operations:	Parcel ID	Current Operati	on
	08906431	Economy Inn	
	08906447	Budget Stay	

Figures are presented in **Appendix A**. Figure 1 presents the Project Area Location Map within the Charlotte area. Figure 2 presents the project area, with nearby parcels outlined and identified on the USGS Topographic Map. Figure 3 presents the Project Area and Vicinity on an aerial photograph.

Historical documentation for the Project Area including topographic maps, aerial photographs, Fire Insurance Maps (if available) and City Directories was provided by Environmental Data Resources, Inc. (EDR) and is further described later in Section 5.2.

Year	Property Use
1938 to 1971	Site is comprised entirely of woods and is undeveloped.
1972 to present	The Site's existing motels are present on the Site.
2022 to present	Fenced apparent natural gas substation along southern boundary of Site.

1.2 Uses-Adjoining Properties

North	Reagan Drive (N I-85 Service Road), I-85, and beyond by Circle K gas station (1300 W Sugar Creek Rd), Mobil gas station (1339 W Sugar Creek Rd), and hotels
East	Tom Hunter Road and beyond by apartment complexes (various addresses)
South	Vancouver Drive, residential subdivision (various addresses), and Exxon gas station (1120 W Sugar Creek Rd)
West	West Sugar Creek Road, Shell gas station (1125 W Sugar Creek Rd), and beyond by commercial businesses and hotels.

Figure 3 in Appendix A presents the Project Area and Vicinity details on an Aerial Map.

2.0 INTRODUCTION

2.1 Project Environmental Professionals

PROJECT ENVIRONMENTAL PROFESSIONALS

Environmental Professional:	Christopher Ward
Person(s) conducting site reconnaissance and interviews:	Erin Tollinger
Senior Report Reviewer:	Christopher Ward

The resume(s) for the individual(s) acting as Environmental Professional for ESP and involved in preparing this report are included in **Appendix H**.

2.2 Scope of Services

Scope of Services:	This Phase I environmental site assessment (ESA) was performed pursuant to our City of Charlotte Unspecified Environmental Consulting Contract No. 2022000908, the scope of services for conducting a Phase I ESA, outlined in ASTM E 1527-21 "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process", and also in accordance with our January
	27, 2023 task order submitted to The City.

2.3 Objectives of This Phase I ESA

Objective of this Phase I ESA:	This Phase I ESA is intended to satisfy one of the requirements to permit the City of Charlotte to qualify for the innocent landowner, adjoining property owner, or bona fide prospective purchaser limitations on liability under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (landowner liability protections). This Phase I ESA conforms to standards for "all appropriate inquiries" into the previous ownership and uses of the Project Area as specified by the US Environmental Protection Agency (EPA) in 40 CFR Part 312, and in accordance with good commercial or customary practice.
	The goal of the Phase I ESA process is to identify recognized environmental conditions. The term REC means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a site: (1) due to any release to the environment, (2) under conditions indicative of a release to the environment, or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not RECs. A de minimis condition generally does not present a threat to human health or the environment and generally

would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Separate and distinct from a REC are two other types of conditions that may be noted in a Phase I ESA: a controlled REC (CREC) and/or an historical REC (HREC).
A CREC is a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the current satisfaction of the applicable regulatory authority (for example, as evidenced by a no further action [NFA] letter or the equivalent, or meeting risk-based criteria established by the regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls, such as site use restrictions, activity and use limitations (AULs), institutional controls, or engineering controls.
An HREC is a REC from a past release of any hazardous substances or petroleum products that has occurred in connection with the Project Area and has been addressed to the satisfaction of the applicable regulatory authority (using current criteria) or meets the unrestricted residential use criteria established by the regulatory authority and applicable at the time of this Phase I ESA without subjecting the Project Area to any required controls.
In addition, ESP identified potential environmental concerns (PECs) with regard to surrounding properties. ESP defines a PEC as the possible presence of any hazardous substances or petroleum products on a property under conditions that indicate the possibility of an existing release, a past release, or a threat of a future release of any hazardous substances or petroleum products into structures on the property or into the ground, ground water, or surface water of the property.
This Phase I ESA is being performed related to a land acquisition by a government entity, and the normal reference to 'RECs' has been modified for this report to 'PECs' based on the acquisition of property by a municipal entity. That is, the property will likely be acquired as right-of-way by the City of Charlotte, and management of adverse environmental conditions identified by the Phase I ESA are potential activities based on whether the property will be affected by the adverse environmental conditions.

2.4 Significant Data Gaps, Exceptions and Limitations

Exceptions and Limitations, including significant data gaps:	This report summarizes work performed to fulfill the process specified under ASTM Standard E 1527-21. The ASTM standard is intended to permit a user to satisfy one of the requirements to qualify for the federal CERCLA liability exemptions. Reasonable efforts were limited to observation of accessible areas, review of referenced public records, and the user interview. ESP was allowed full access to the open site areas and building exteriors and there were no obstructions to limit a visual review of the Project Area, except where noted in this Phase I ESA.
	This report is intended to be used by City of Charlotte for property acquisition, subject to the terms and conditions of its contract with ESP. Any other use of, or reliance on, this report by any third party is at that party's sole risk.
	Environmental impairment of a property may result from many activities, such as illegal or unreported dumping, or the spilling of hazardous wastes or materials. The presence of contaminants at a particular property may not always be apparent, and the completion of a Phase I ESA in accordance with ASTM E 1527-21 cannot provide a guarantee that hazardous wastes or materials do not exist. The scope of services executed for this project does not include an audit for regulatory compliance, ecological resources, cultural resources, indoor air quality, industrial hygiene, health and safety, or high-voltage power lines. It also does not include a detailed condition survey for asbestos, lead, radon, lead in drinking water, or other potential hazards or for wetlands, naturally occurring materials, or other items not outlined in ESP's scope of services.
	The findings contained herein are relevant to the date of ESP's Site reconnaissance and should not be relied upon to represent conditions at later dates. In the event that changes in the nature, usage, or layout of the property or nearby properties are made, the conclusions and recommendations contained in this report may not be valid. If additional information becomes available, it should be provided to ESP so the original conclusions and recommendations can be modified as necessary.
	Regardless of findings stated in this Phase I ESA, ESP is not responsible for consequences of conditions arising from facts that were withheld or not fully disclosed to ESP during this Phase I ESA.
	This report does not address permit compliance or safety concerns, if any, associated with the Project Area. It is the responsibility of the user of this Phase I ESA to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
Weather-related Property restrictions:	None
Facility access restrictions:	No facility access restrictions were encountered.

3.0 PROPERTY DESCRIPTION

3.1 Property Location

Property Name	Sugar Creek – I-85 Site
Property Street Addresses	5350 Reagan Drive, Charlotte, Mecklenburg County, North Carolina
Addresses	1415 Tom Hunter Road, Charlotte, Mecklenburg County, North Carolina
	5342 Reagan Drive, Charlotte, Mecklenburg County, North Carolina

3.2 Property Description

The following property information was obtained by a review of the Mecklenburg County Property Ownership and Land Records Information System (POLARIS), ESP's general knowledge of the Project Area vicinity and our site observations.

Property Description	Address	Parcel ID	Acreage	Structures	Other Improvements		
Sugar Creek – I-85 Site	5350 Reagan Drive and 1415 Tom Hunter Road	08906431	2.688	- Two (2-story motels), 31,616 sqft total, built in 1972; and - One (1-story office), 4,028 sqft, built in 1972	Asphalt paved parking lot		
	5342 Reagan Drive	08906447	1.64	- One (2-story motel), 12,688 sqft, built in 1972	Asphalt paved parking lot		
Estimated percentage of property covered by buildings and/or pavements:	70%						
Current property operations:	Motels						
Type and age of sewage disposal system:	Site structures are connected to Charlotte Water municipal system.						

Potable water source:	Site structures are connected to Charlotte Water municipal system.
Electric utility:	Site structures are connected to Duke Energy electrical service.
Natural gas:	Site structures are connected to Piedmont Natural Gas natural gas service while an apparent natural gas substation is located along the southern boundary of the Site.
Energy source(s) for heating:	Electrical and natural gas.
Current uses of adjoining properties:	Single-family residences, apartments, hotel/motel, convenience store, and I-85.

3.3 Physical Setting of Property

Topography:	The Mecklenburg County Polaris website was examined in determination of the Project Area's elevation. The elevation at the Site ranges from approximately 785 - 760 feet above mean sea level (msl) with a downward slope to the west.
Geology:	Based on a review of the North Carolina Geologic Map, the Project Area is located within the Charlotte Belt of the Piedmont physiographic province, which consists of low rounded hills and long rolling northeast to southwest trending ridges with incised creek channels. The Project Area is underlain by metamorphosed Quartz Diorite - foliated to massive.
Hydrogeology:	The general direction of groundwater flow can be inferred from ground surface elevations and expression of surface water as identified on the Mecklenburg County Polaris website. Surface water occurrences generally include permanent lakes, streams, and wetland areas. Based on ESP's review of topographic maps and observations of the Project Area vicinity, the Project Area's groundwater flow direction was inferred to be generally to the west.
Flood Plain:	The Project Area is not located within a floodway as indicated on FEMA Flood Insurance Rate Map (FIRM) # 3710456600K dated November 16, 2018.
Depth to groundwater:	No previous data indicating groundwater depths at the Project Area were reviewed as part of this Phase I ESA.

4.0 USER-PROVIDED INFORMATION

For the purposes of this assessment, City of Charlotte is the user of this Phase I ESA report. In accordance with Section 6 of ASTM E 1527-21, the user of this Phase I ESA was informed that they were responsible for providing the following information to ESP's environmental professional for consideration during the assessment:

- Reasonably ascertainable title or judicial records related to environmental liens and AULs for the Site;
- Actual knowledge from the user of any environmental liens or AULs;
- Specialized knowledge or experience of the user with regard to the Site and activities thereon that may be material to any potential RECs;
- Information as to whether the purchase price of the Site is lower than the fair market value due to contamination;
- Commonly known (within the local community) or reasonably ascertainable information regarding
 past releases, conditions indicative of releases, or threatened releases of hazardous substances or
 petroleum; and,
- Obviousness of the presence or likely presence of contamination at the property.

ESP provided the user with a questionnaire. The user questionnaire was completed by Mr. Steven Gucciardi, Project Manager with the City of Charlotte Environmental Services Division (User) and is included in **Appendix F**. The information obtained from the questionnaire is summarized in the sections below.

Land Title Records or Judicial Records identifying Environmental liens:	Mr. Gucciardi stated that it is unknown if any environmental cleanup liens against the Project Area parcel that are filed or recorded under federal, tribal, state, or local law.
Land Title Records or Judicial Records identifying Activity and Use Limitations (AULs):	Mr. Gucciardi stated that it is unknown if any AULs, such as engineering controls, land-use restrictions, or institutional controls, that are in place within the Project Area and/or have been filed or recorded in a registry under federal, tribal, state, or local law.
Specialized Knowledge or experience of the User	Mr. Gucciardi stated that he did not have specialized knowledge or experience related to the property or nearby properties.
Relationship of the purchase price to the fair market value of the property if it were not contaminated	Mr. Gucciardi stated that he was unaware of the purchase price being paid for the property.
Commonly known or reasonably ascertainable information about the property	Mr. Gucciardi stated that it is unknown regarding the past uses of the property. He was not aware of specific chemicals, spills or other chemical releases, or environmental cleanups at the Project Area.

The degree of obviousness of the presence or likely presence of	Mr. Gucciardi stated that as the User of this Phase I ESA, it is unknown if any obvious indicators that point to the presence or
contamination at the property, and the ability to detect the contamination by appropriate investigation	likely presence of contamination at the property.

The following additional information is intended to assist the environmental professional but is not necessarily required to qualify for one of the landowner liability protections (LLPs).

Reason for Performing Phase I ESA	Identify recognized environmental conditions (RECs) associated with the site and to qualify for one of the landowner liability protections under CERCLA by performing all appropriate inquiry into the previous ownership and uses of the site in accordance with good commercial or customary practice. City of Charlotte has indicated that they requested the Phase I ESA because they are a prospective purchaser of the subject property.
Type of property and type of property transaction	The Project Area to be purchased by the City is a developed, commercial lot with two motels.
Requirements beyond standard Phase I ESA ASTM 1527-21 scope of services	None requested
Site Contact	Mr. Sanjeev and Mr. B (856-669-4604)
Property plans and/or descriptions:	None provided.
Special Terms and Conditions to be agreed upon by the Environmental Professional	None Provided
Previous Environmental Reports or other knowledge	None provided.

5.0 RECORDS REVIEW

5.1 Regulatory Agency Database Records

ESP reviewed the results of a search of standard environmental records sources as required by ASTM Standard E 1527-21 EDR provided results of a regulatory agency database search in their report, which is included in **Appendix E**.

Below is a summary of EDR listings for the surrounding properties beyond the Project Area in distance up to 1,300 feet.

Facility Name	Facility Address	Database Listing	Gradient	Distance (feet) and Direction	Comments	REC determination
B P Oil Co Gulf Tom Montgomery MGR	1300 Sugar Creek Road	EDR Hist Auto	Lower	344, W	EPA ID: 1009111354. No violations reported, gas station from approximately 1975 to 1994.	No REC
EXXON 4-6323 *2	1301 Sugar Creek Road	IMD	Lower	538, WNW	Facility ID: 27403. Source was underground gasoline/diesel leak. Groundwater contamination detected. Incident phase: Closed out.	No REC
Texaco Food Mart #2	1120 Sugar Creek Road	IMD	Lower	562, SSW	Facility ID: 7072. Source was underground gasoline/diesel leak. Groundwater contamination detected. Incident phase: Closed out: 1999.	No REC
Lee's Truck Stop	1300 West Sugar Creek Road	EDR Hist Auto	Higher	636, NW	EPA ID: 1021085298. No violations reported, gas station from approximately 1970 to 2010.	No REC
Circle K #2705107	1300 West Sugar Creek Road	LUST	Higher	636, NW	Incident Number: 27661. Source not reported. Incident Phase: Closed out: 2004.	No REC
BP Station #24171	1300 West Sugar Creek Road	INST CONTROL, IMD	Higher	636, NW	Facility ID: 27661/12562 Source was underground gasoline/diesel leak. Groundwater contamination detected. Confirmed soil contamination with MTBE and Benzene found in monitor wells. Incident Phase: Closed Out. INST	No REC

5.1.1 Regulatory File Review

The ASTM E 1527-21 Standard indicates that it is necessary to review regulatory files maintained by local, state and/or federal agencies for the Site and/or the adjoining or nearby properties that are identified on regulatory databases. No adjoining or nearby properties with a documented release were identified necessitating a file review.

Any facilities necessitating an agency file review are shown on Figure 4 as nearby facilities of concern.

5.1.2 Local Fire Department Records

Agency Contacted	Description of records		
ESP submitted a request to the City of Charlotte Fire Department regarding records of hazardous materials responses or environmental incidents that have affected the Project Area.	The City of Charlotte Fire Department responded through email on February 8, 2023 claiming their records show no open fire code violations for the referenced addresses.		

5.1.3 Local Health Department/State Environmental Agency Records

Agency Contacted	Description of records
ESP reviewed the Mecklenburg County Well Information System 4.0 on-line system for records of impacted properties.	No wells were depicted to exist on the property or adjoining properties.

5.2 History

The tables below present a summary of the operational history of the Project Area and surrounding properties. The summary is an integration of the findings of the individual historical record sources provided by EDR presented in subsequent sections. Copies of the EDR Historical records are included in **Appendix D**.

	Summary of Project Area History	
Year(s) Property Use		
1938 to 1971	Site is comprised entirely of woods and is undeveloped.	
1972 to present	The Site's existing motels are present on the Site.	
2022 to present	Fenced apparent natural gas substation along southern boundary of Site.	

Sumr	Summary of History of Properties in Surrounding Area				
Year		Past Surrounding Property Use(s)			
	North	East	South	West	
1938 to 1965	Mixed use farmland and residential	Mixed use farmland and residential	Mixed use farmland and residential	Mixed use farmland and residential	
1965 to 1976	Mixed use farmland, residential, and commercial	Mixed use farmland and residential	Mixed use farmland, residential	Wooded and residential	
1976 to 1983	Commercial and residential	Residential	Commercial and residential	Wooded and residential	
1983 to Present	Commercial and residential	Residential	Commercial and residential	Commercial and residentia	

5.2.1 Aerial Photographs

Year	Direction	Observations
1938, 1948, and 1951	Project Area	Site is comprised entirely of woods.
	North	Portion of current Reagan Drive, mixed use farmland, and beyond by residence and small storage structures and wooded areas.
	East	Current Tom Hunter Road, mixed use farmland, and beyond by residence and small storage structures.
	South	Wooded area, mixed use farmland, and beyond by residence and small storage structures.
	West	Current West Sugar Creek Road and beyond by mixed use farmland and residences.

1965	Project Area	Site is comprised entirely of woods.
	North	Portion of current Reagan Drive, mixed use farmland, and beyond by residence and small storage structures and wooded areas.
	East	Current Tom Hunter Road, mixed use farmland, wooded areas and beyond by residence and small storage structures.
	South	Wooded areas and beyond by residences and adjacent structures.
	West	Current West Sugar Creek Road and beyond by wooded areas and residences.
1968 and 1971	Project Area	Site is comprised entirely of woods.
	North	Portion of current Reagan Drive, I-85, and beyond by mixed use farmland, residences, barn structures, apparent commercial structures, and wooded areas.
	East	Current Tom Hunter Road, mixed use farmland, woods, and beyond by residence and small storage structures.
	South	Current Vancouver Drive, residential subdivisions, and beyond by woods and single-family residences.
	West	Current West Sugar Creek Road and beyond by wooded area and residences.
1976	Project Area	Mostly cleared land with current motels.
	North	Current Reagan Drive, I-85, and beyond by apparent commercial structures, motels/hotels, cleared and wooded areas.
	East	Current Tom Hunter Road and beyond by residential apartment complexes.
	South	Wooded area, residential subdivisions, apparent commercial structures, and beyond by residential structures.
	West	Current West Sugar Creek Road and beyond by wooded area and residences.
1983	Project Area	Mostly cleared with current motels.

	North	Current Reagan Drive, I-85, and beyond by apparent commercial structures, motels/hotels, and wooded areas.
	East	Current Tom Hunter Road and beyond by residential apartment complexes.
	South	Wooded area, residential subdivision, current gas station, apparent commercial structures, and beyond by residential structures.
	West	Current West Sugar Creek Road and beyond by current gas station, motels/hotels, wooded area, and residences.
1988, 1993, 1996, 1999, 2006, 2009, 2012, 2020	Project Area	Mostly cleared with current motels.
	North	Current Reagan Drive, I-85, and beyond by apparent commercial structures, motels/hotels, and wooded areas.
	East	Current Tom Hunter Road and beyond by residential apartment complexes.
	South	Wooded area, residential subdivision, current gas station, apparent commercial structures, and beyond by residential structures.
	West	Current West Sugar Creek Road and beyond by current gas station, motels/hotels, commercial businesses, and residences.

5.2.2 City Directories

Below is a summary of city directory listings for project area and adjoining properties:

	Project Area 5342 / 5350 Reagan Drive & 1415 Tom Hunter Road, Charlotte, No	
Date		
Any Year	5342 Reagan Drive	No Listing
2017	5350 Reagan Drive	Economy Inn, Econo Lodge, Windshield Replacement
2014	1415 Tom Hunter Road	Economy Inn, Econo Lodge
2009	1415 Tom Hunter Road	Vasudev Enterprises LLC, Economy Inn
2005	1415 Tom Hunter Road	Patel Ajit, Economy Inn 2 s
2004	1415 Tom Hunter Road	CM International
1999	1415 Tom Hunter Road	CM International, Patel Ajit, Patel Vikram
1994	1415 Tom Hunter Road	Econo Lodge Motel, Communication Amer

Adjoining Properties			
Street Number	Street	Year(s)	Listing
Various	Prospect Drive 2017, 2014, 2009, 2005, 2004, 1999, 1994		Residential listings
Various	Vancouver Drive	2017, 2014, 2009, 2005, 2004, 1999, 1994	Residential listings
Various	Tom Hunter Road	2017, 2014, 2009, 2004, 1999, 1994	Commercial businesses, retail businesses, hotels, residential listings
Various	Equipment Drive	2017, 2014, 2009, 2005, 1999	Commercial businesses and hotels
Various	N I-85 Service Road	2005, 1994	Hotels

5.2.3 Property Ownership Files

Parcel ID	Current Owner	Address #	Roadway
08906431	Rising Tides LLC	5350	Reagan Drive
08906447	Mara Enterprises LLC	5342	Reagan Drive

5.2.4 Building Department Records

Year	Description
2017	Building department records indicated an inspection of the property revealed a number of violations including issues with unsafe wiring, appliance installation, maintenance of exterior structures, signage, etc.

5.2.5 Zoning/Land Use Records

Property/Vicinity	Observation
Project Area B-1 - Business (neighborhood business)	
North	B-2 - Business (general business) I-2(CD) - Industrial (general industrial) - (conditional zoning)
East	R-17MF - Multi-family (17 units per acre)
South	R-4 - Single family (4 units per acre) B-1 (CD) - Business (neighborhood business, conditional use)
West	B-1 (CD) - Business (neighborhood business, conditional use)

5.2.6 Historical Fire Insurance Maps

Year	Direction	Observations
		Fire Insurance Maps were unavailable for the Project Area

5.2.7 Historical Topographic Maps

Year	Direction	Observations
1942	Project Area	Topographic Map is not legible.
	North	
	East	
	South	
	West	
1948	Project Area	Wooded with one structure on the southeast portion of Site.
	North	Portion of current Reagan Drive and beyond by agricultural and cleared land with residential and barn structures.
	East	Railway and current Tom Hunter Road and beyond by agricultural and cleared land with residential and barn structures.
	South	Agricultural, wooded, and cleared land with residential and barn structures.
	West	Sugar Creek Road and beyond by agricultural and cleared land with residential and barn structures.
1972	Project Area	Two structures on the western portion of the Site with Reagan Drive bisecting the northern portion of the Site.
	North	Portion of current Reagan Drive, I-85, and beyond by residential and commercial structures, along with wooded and cleared land.
	East	Hunter Road and beyond by agricultural and cleared land with residential structures.
	South	Agricultural and cleared land with residential structures.
	West	Sugar Creek Road and beyond by cleared land with residential structures.
1996	Project Area	Two structures on the western portion of the Site with Reagan Drive bisecting the northern portion of the Site.
	North	I-85, Reagan Drive, and beyond by residential and commercial structures.
	East	Hunter Road and beyond by agricultural and cleared land with residential structures.

	South	Reagan Drive and wooded land with residential structures.
	West	Sugar Creek Road and beyond by wooded land with residential structures.
2013	Project Area	Cleared land with no structures.
	North	Mineral Springs Road and beyond by Rumple Road and cleared land with residential structures.
	East	Mineral Springs Road and beyond by cleared and wooded land with residential structures.
	South	Burgandy Drive and beyond by The Roman Road and cleared land.
	West	Burgandy Drive and beyond by West Sugar Creek Road and cleared land.
2016	Project Area	Cleared land with no structures.
	North	Mineral Springs Road and beyond by Rumple Road and cleared land with residential structures.
	East	Mineral Springs Road and beyond by cleared and wooded land with residential structures.
	South	Burgandy Drive and beyond by The Roman Road and cleared land.
	West	Burgandy Drive and beyond by West Sugar Creek Road and cleared land.
2019	Project Area	Area of Site is noted as being urban land.
	North	
	East	
	South	
	West	

5.2.8 Other Historical Records

ESP was not provided with other historical records.

6.0 SITE RECONNAISSANCE

Ms. Erin Tollinger of ESP completed a site reconnaissance on February 9, 2023, observing the general Site conditions and operations on the Project Area. ESP was accompanied by a André Collins, the broker, and Mr. Sanjeev and Mr. B, the property owners, during the Site visit. This section presents the findings of the Site reconnaissance. These observations pertain to the general conditions of the physical land, including location and presence of any ponded water, wetlands, stained and stressed vegetation, monitoring wells, wastewater, and solid or liquid waste.

On the day of the February 9, 2023 Site reconnaissance, the weather conditions were approximately 49 degrees (F) and partly cloudy. Photographs were taken of notable Project Area features and are included in **Appendix C** while a site walk checklist is included in **Appendix G**.

6.1 Methodology

The Project Area was visually and/or physically observed from the periphery, including adjacent public thoroughfares, and then systematically traversed to view features within the Project Area.

6.2 Site Reconnaissance Observations

Name of Property representative and relationship to the Property	Company	Title	Years of Experience with Property and Other Site Qualifications
Mr. Sanjeev and Mr. B	N/A	Property Owners	7

6.2.1 Property Representative Escorting Site Assessor

6.2.2 Interior Observations

Issue	Comments
Hazardous materials or petroleum products	AMERIGAS steel propane tank (Building A) and half-filled 5-gallon gasoline cans (Building B).

	6.2.3	Exterior	Observations
--	-------	----------	--------------

Issue	Comments			
Hazardous materials or petroleum productsApparent natural gas substation on southeastern portion of Site easement crossing southern portion of Site.				
Hazardous waste	None observed			
Solid waste	Small areas of solid waste on northwestern and southern portions of Site.			
Wells	None			
Process wastewater	None			
Storm water	None			
Drains, sumps, and drywells	Multiple stormwater drains throughout parking lot and floor drains within the laundry room. Stormwater drainage grates were seen throughout paved parking lot.			
Odors	None			
PCB-containing equipment	Five pole-mounted transformers and one pad-mounted transformer was observed in the Project Area.			
Pits, ponds, and lagoons: Property	None			
Stained soil or pavement	Slight staining near stormwater drainage grate on southeastern portion of Site.			
Stressed vegetation	None			
General exterior yard keeping	Grassed and plantings landscaping and paved parking lot.			

6.2.4 Underground Storage Tanks/Structures

Existing USTs:	No evidence of existing USTs was observed or reported.	
Former USTs:	No evidence of former USTs was observed or reported.	

6.2.5 Aboveground Storage Tanks

Existing ASTs:	No evidence of existing ASTs was observed or reported.	
Former ASTs:	No evidence of former ASTs was observed or reported.	

7.0 INTERVIEWS

7.1 Current Owner/Operator Interviews

ESP was provided with owner contact information for the Project Area parcels. The property owners Mr. Sanjeev and Mr. B (856-669-4604) were interviewed in person during our February 9, 2023 site reconnaissance. Mr. Sanjeev and Mr. B stated that they purchased the property in December of 2016. To their knowledge, the property has always been a motel for commercial use. No maintenance was completed on Site to their knowledge with the exception of room renovations in the 5350 Reagan Drive structure a few years ago. Mr. Sanjeev and Mr. B have no knowledge of previous structures on the Site. The Site uses city water and sewer connections while the heat and air is electric. Mr. Sanjeev and Mr. B reported there are no pending environmental liens or Land Use Restrictions associated with the Site. They mentioned a bedroom fire in room 245 of 5350 Reagan Drive building. They stated that they have no knowledge of existing or former USTs or ASTs on Site or on any adjacent or adjoining properties.

7.2 Past Property Owner/Operator Interview

ESP was not provided contact information for the past property owners or operators.

7.3 Local Government Official Interviews

ESP submitted a request to the City of Charlotte Fire Department regarding records of hazardous materials responses or environmental incidents that have affected the site. The City of Charlotte Fire Department responded through email on February 1, 2023 claiming their records show no open fire code violations for the referenced addresses.

No other state government officials were interviewed; however, ESP accessed NCDEQ's Site Locator online database,

https://ncdenr.maps.arcgis.com/apps/webappviewer/index.html?id=7dd59be2750b40bebebfa49fc383f688, to search for possible environmental regulatory incidents associated with the Site or adjacent off-Site properties. No incidents that were not noted in Section 5.1 of this report (or the orphan site list) were identified on NCDEQ's online environmental database within their respective search distances.

7.4 Interview with Neighboring Owners or Occupants

According to ASTM E-1527-21 Section 10.5.5, interviews with one or more owners or occupants of neighboring or nearby properties shall be conducted for an abandoned site where there is evidence of potential unauthorized uses of the abandoned site or evidence of uncontrolled access to the abandoned site. No evidence of unauthorized uses or potential dumping or trespassing was observed on the Site. Therefore, ESP did not conduct interviews with neighboring property owners or occupants.

7.5 Other Interviews

No other interviews were attempted for this assessment.

8.0 OTHER ENVIRONMENTAL CONSIDERATIONS

ESP did not provide additional services outside the Scope of Services as described in Section 2.2 of this report.

8.1 Asbestos-Containing Material (ACM)

An assessment for the presence of ACM was not conducted.

8.2 Radon

According to EPA's map of radon zones in North Carolina, Mecklenburg County is located in Federal Environmental Protection Agency (EPA) radon zone 3, with predicted average indoor radon screening levels less than 2 picocuries per liter (pCi/L). Federal area radon information indicates that 3 radon test locations in the Project Area's Zip Code reported an average radon level of 0.433 pCi/L on the 1st floor living area and 1.100 pCi/L in the basement area. No other data related to radon were supplied in the EDR Radius Map report.

8.3 Potable Water Quality

Potable water is provided to the Project Area by Charlotte Water. Charlotte Water obtains its drinking water from Mountain Island Lake and Lake Norman, which are part of the Catawba River Basin. Based on review of the 2021 Water Quality Report for Charlotte Water, the municipal water is in compliance with current EPA regulations.

8.4 Lead-Based Paint (LBP)

An assessment for the presence of LBP was not conducted.

8.5 Endangered Species

ESP reviewed the US Fish and Wildlife Service (FWS) Information, Planning and Conservation System (IPaC) on February 1, 2023 to evaluate the documented presence of endangered species at the Project Area, as defined and regulated by the Endangered Species Act. According to the FWS IPaC system, no critical habitats are present in the Project Area. The following threatened or endangered species are listed as having the potential of being present in the Project Area:

Species	Status	
Mammal - Northern Long-eared Bat	Proposed Endangered	
Insects - Monarch Butterfly	Candidate	
Flowering Plant - Michaux's Sumac	Endangered	
Flowering Plant - Schweinitz's Sunflower	Endangered	
Flowering Plant - Smooth Coneflower	Threatened	

Also, according to the FWS IPAC system the following Migratory Birds of Concern are listed as being potentially impacted by project activities:

Species	Seasonal Occurrence in Site Area		
Bald Eagle	Year-round		
Black-billed Cuckoo	Breeding		
Kentucky Warbler	Breeding		
Prairie Warbler	Breeding		
Prothonotary Warbler	Breeding		
Red-headed Woodpecker	Breeding		
Rusty Blackbird	Wintering		
Wood Thrush	Breeding		
Chimney Swift	Breeding		

No critical habitats were listed as being within the Project Area. A formal protected species survey was not conducted at the Project Area.

8.6 Wetlands

ESP reviewed the US FWS National Wetlands Inventory (NWI) mapper on-line service on February 1, 2023 to evaluate the documented presence of apparent Waters of the USA and jurisdictional wetlands, as defined and regulated by US Code of Federal Regulation 33 CFR Parts 320-330. This review may not identify state and/or locally designated wetlands with the exception of a riverine wetland along the western portion of the Project Area.

8.7 Archaeological Resources/Historic Sites and Structures

ESP reviewed the State Historic Preservation Office's (SHPO) historical listings for the area and surrounding properties on February 1, 2023. No listings of archaeological or historic sites were identified within the Project Area or adjoining properties.

8.8 Recreational Areas

Tom Hunter Neighborhood Park and Sugar Creek Community Park are located approximately 1-mile southeast and southwest of the Project Area.

8.9 Vapor Encroachment

No potential sources of vapor encroachment were identified in the Project Area.

8.10 Other Non-Scope Considerations

No other environmental considerations outside the Scope of Services were assessed related to the Project Area.

9.0 FINDINGS AND OPINIONS

ESP has performed this Phase I ESA in general conformance with the scope and limitations of ASTM Standard E 1527-21 for the site identified as Sugar Creek I-85 Site located in Charlotte, Mecklenburg County, North Carolina. The findings are summarized as follows:

Based on our review of historical records and regulatory information, Project Area walkthrough, and interviews, ESP did not identify RECs, CRECs, HRECs, or PECs.

No de minimis conditions were identified during the completion of this Phase I ESA.

10.0 CONCLUSIONS AND RECOMMENDATIONS

ESP has performed a Phase I ESA in conformance with the scope and limitations of ASTM Standard E 1527-21 for the Project Area identified as Sugar Creek I-85 Site located in Charlotte, Mecklenburg County, North Carolina. Exceptions to, or deviations from, this practice are described in Section 2.4 of this report.

10.1 Conclusions

Based on the results of this Phase I ESA, ESP's assessment has not revealed evidence of RECs, CRECs, HRECs, or PECs in connection with the Project Area.

ESP does not guarantee the Site is free of contamination or hazardous waste material due to unknown or latent conditions that may become evident in the future, either on the Site or on adjoining or nearby properties. In addition, Site conditions might change over time. Should additional surface, subsurface, chemical, or other data become available after the date of issue of this report, the findings, conclusions, and recommendations contained herein may have to be modified. Review by ESP of such additional information would be conducted upon receipt of a written request from our client.

10.2 Recommendations for Additional Investigation

ESP does not recommend further investigation at this time.

11.0DEVIATIONS AND DATA GAPS

ESP did not deviate from the ASTM E 1527-21 standard in conducting this assessment and no significant data gaps were associated with the assessment.

12.0SIGNATURE OF ENVIRONMENTAL PROFESSIONAL(S)

I declare that, to the best of my professional knowledge, and belief, I meet the definition of Environmental Professional as defined in §312.10 of CFR 312 and I have the specified qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

APPENDIX B

EP-02	Consideration of Hazardous Substances in the Appraisal Process		
	Rev. Date: 24May21	Revision No.: 5	
BUILDING		City of Charlotte	
FOR CHARLOTTE	Author: D. Wolfe	General Services Environmental Services Program	

1.0 Purpose

The purpose of this procedure is to outline guidance and input for an environmental professional to prepare in order to assist a commercial real estate appraiser during the appraisal process. The intent is to provide the information described in The Appraisal Institute Guide Note 6: Consideration of Hazardous Substances in the Appraisal Process.

2.0 Scope

This procedure will be used by environmental consultants under contract with the City of Charlotte, to assist the City's Real Estate Division in the property appraisal process or for other uses.

3.0 **Responsibilities**

The Environmental Services Program Manager will maintain this Procedure. Project Managers will ensure project compliance.

4.0 References & Associated Documents

<u>Internal</u>	
EP-01	Phase I Environmental Site Assessment Process
<u>External</u>	
Appraisal Institute	Consideration of Hazardous Substances in the Appraisal
Guide Note 6	Process

5.0 Definitions

Environmental Professional (EP): a person who possesses sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding conditions indicative of releases or threatened releases on, at, in, or to a property.

See Appraisal Institute Guide Note 6 for additional definitions.

6.0 Exclusions & Limitations

The information prepared by this procedure is intended to assist the commercial real estate appraiser. The information makes no comment on the marketability of a property or to fair market value.

No environmental due diligence effort can wholly eliminate all uncertainty regarding the potential for contamination in connection with a property.

7.0 Procedure

The EP shall create a table similar to the example below, with responses for each of the 3 types of environmental 'effects' that contamination can have on market value. Dollar values (or ranges) should be assigned to any of the three columns if sufficient information is available.

Impaired Value of Property = Unimpaired Value – Cost Effects – Use Effects – Risk Effects

Appraiser determines the 'Unimpaired Value' and uses our information to establish the Cost, Use and Risk Effect values.

Site ⁽¹⁾	Cost Effects ⁽²⁾	Use Effects ⁽³⁾	Risk Effects ⁽⁴⁾
(description)	Those costs necessary to achieve regulatory compliance and reduce contaminants to below appropriate regulatory standard WITHIN THE PROPOSED RIGHT-OF- WAY/LAND TO BE PURCHASED – and which would have to be borne by prospective purchaser (instead of current owner or off-site responsible party). These costs may generally be based on available Phase 2 information.	Limitations on the utility of a site – typically a deed recordation for a site which used 'risk- based' cleanup standards.	Describe any uncertainties concerning the contamination and its remediation including: Stage of remediation (before, during, after cleanup); and whether subject site is the source, non- source, adjacent or proximate to the actual source; Note: Appraiser uses this
	(ROW strip takings) the cost is typically limited to remedial costs for soil known to be contaminated above action levels.		information to evaluate whether there is environmental 'stigma' associated with

EP-02	Consideration of Hazardous Substances in the Appraisal Process	Page 3 of 4

	City would not typically be liable for groundwater cleanup within ROW.		property.
Example 1: Sam's Mart Typical Gas Station, 1000 Independence Blvd.; Parcel ID 010-17- 854	0\$ - Site has an NFA was remediated to Industrial/Commercial Standards. No further cleanup required by EPA	NORP deed restrictions limits site to industrial/commercial use. Additional cleanup may be needed for other uses ie. Residential	Cleanup conducted 2003. State reserves right to reopen based on any new information.
<i>Example 2:</i> Pete's Commercial HVAC, 4000 Industrial Street; Parcel ID 015-23-471	0\$ - No obvious evidence of contamination within the proposed area of purchase. Site not on EDR Radius database	No land use restrictions identified.	No environmental due diligence effort can wholly eliminate all uncertainty regarding the potential for contamination in connection with a property. Additional investigation, such as site- specific Phase I and II studies, would complement the existing research.

Add following notes to table:

- 1) No comment is made regarding the marketability of a property or to fair market value.
- 2) The market may not recognize any and all potential costs but only those costs necessary to achieve regulatory compliance and reduce concentrations of hazardous materials to below the appropriate regulatory standard.
- 3) The appraiser should be aware that not all site use limitations will have an effect on market value and it is the market and its reaction, as borne out in actual market data, to these limitations that should be the primary focus of the appraiser's work in estimating Use Effects.
- 4) The appraiser is cautioned that not all uncertainty and increased concern and perceptions in the market may reduce property values, and that any analysis of

EP-02	Consideration of Hazardous Substances in the Appraisal Process	Page 4 of 4

Risk Effects and stigma must be based on actual data from the relevant market or submarket and should not be assumed to occur without such evidence.

8.0 Revision History

Revision No.	Description of Change	Date
0	Original	2/26/14
1	Added note about ROW strip takings within 'Cost' column	3/4/14
2	Deleted second sentence of Sec. 7.0 regarding costs in first column only	9/4/14
3	Added Notes 1, 2, 3, and 4 following Table	11/3/14
4	Minor Grammar edits	2/5/18
5	Change Text from E7PM to General Services	5/24/21

TABLE B Real Estate Environmental Summaries for Phase I ESA Sugar Creek - I-85 Site Charlotte, North Carolina ESP Job No. E6-KS80.602

Map ID	Parcel ID	Property Name	Property Address	Property Owner	Property Summary	Cost Effects	Use Effects	Risk Effects
	Properties with Recognized Environmental Conditions (RECs)							
Neither th	e Project Area i	nor any nearby off-si	te properties were identified as	RECs.				

Notes:

1) Environmental Data Resources, The EDR Radius Map Report with GeoCheck dated January 31, 2023.

2) The Mecklenburg County Polaris 3G Website was utilized to obtain property information (http://polaris3g.mecklenburgcounty.gov).

3) No comment is made regarding the marketability of a property or to fair market value.

4) The market may not recognize any and all potential costs but only those costs necessary to achieve regulatory compliance and reduce concentrations of hazardous materials to below the appropriate regulatory standard.

4) The appraiser should be aware that not all site use limitations will have an effect on market value and it is the market and its reaction, as borne out in actual market data, to these limitations that should be the primary focus of the appraiser's work in estimating Use Effects.

6) The appraiser is cautioned that not all uncertainty and increased concern and perceptions in the market may reduce property values, and that any analysis of Risk Effects and stigma must be based on actual data from the relevant market or submarket and should not be assumed to occur without such evidence.

7) This table has been prepared in accordance with City of Charlotte EP-02 Consideration of Hazardous Substances in the Appraisal Process, Rev. 5 dated May 24, 2021.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each ad dress, the directory lists the name of the corresponding occupant at five year intervals.

Bus i ness directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1921 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

As ummary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Brad street. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDRis licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by ESP Associates, P.A. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each ad dress, the directory lists the name of the corresponding occupant at five year intervals.

Bus i ness directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1921 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

As ummary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Brad street. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDRis licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in *bold italics* are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 11/21/2022 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
EXXON RAS #46323	1301 SUGAR CREEK RD	WNW 1/8 - 1/4 (0.127 mi.)	C13	31
EPA ID:: NCD986182590				

Lists of state- and tribal hazardous waste facilities

SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Environment & Natural Resources' Inactive Hazardous Sites Program.

A review of the SHWS list, as provided by EDR, and dated 09/01/2022 has revealed that there are 2 SHWS sites within approximately 1 mile of the target property.

Lists of state and tribal leaking storage tanks

LUST: The Leaking Underground Storage Tank Incidents Management Database contains an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environment, & Natural Resources' Incidents by Address.

A review of the LUST list, as provided by EDR, and dated 01/13/2023 has revealed that there are 9 LUST sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 11/21/2022 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include

gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.125 miles of the target property.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 10/27/2022 Date Data Arrived at EDR: 11/01/2022 Date Made Active in Reports: 11/15/2022 Number of Days to Update: 14 Source: EPA Telephone: N/A Last EDR Contact: 01/03/2023 Next Scheduled EDR Contact: 04/10/2023 Data Release Frequency: Quarterly

EPA Region 8 Telephone: 303-312-6774

EPA Region 9 Telephone: 415-947-4246

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 10/27/2022 Date Data Arrived at EDR: 11/01/2022 Date Made Active in Reports: 11/15/2022 Number of Days to Update: 14 Source: EPA Telephone: N/A Last EDR Contact: 01/03/2023 Next Scheduled EDR Contact: 04/10/2023 Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991 Date Data Arrived at EDR: 02/02/1994 Date Made Active in Reports: 03/30/1994 Number of Days to Update: 56 Source: EPA Telephone: 202-564-4267 Last EDR Contact: 08/15/2011 Next Scheduled EDR Contact: 11/28/2011 Data Release Frequency: No Update Planned

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 10/27/2022 Date Data Arrived at EDR: 11/01/2022 Date Made Active in Reports: 11/15/2022 Number of Days to Update: 14 Source: EPA Telephone: N/A Last EDR Contact: 01/03/2023 Next Scheduled EDR Contact: 04/10/2023 Data Release Frequency: Quarterly

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 10/27/2022 Date Data Arrived at EDR: 11/01/2022 Date Made Active in Reports: 11/15/2022 Number of Days to Update: 14 Source: EPA Telephone: 800-424-9346 Last EDR Contact: 01/03/2023 Next Scheduled EDR Contact: 04/24/2023 Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 10/27/2022 Date Data Arrived at EDR: 11/01/2022 Date Made Active in Reports: 11/15/2022 Number of Days to Update: 14 Source: EPA Telephone: 800-424-9346 Last EDR Contact: 01/03/2023 Next Scheduled EDR Contact: 04/24/2023 Data Release Frequency: Quarterly

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 11/21/2022	Source: EPA
Date Data Arrived at EDR: 11/21/2022	Telephone: 800-424-9346

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 11/21/2022 Date Data Arrived at EDR: 11/21/2022 Date Made Active in Reports: 12/05/2022 Number of Days to Update: 14 Source: Environmental Protection Agency Telephone: (404) 562-8651 Last EDR Contact: 12/21/2022 Next Scheduled EDR Contact: 04/03/2023 Data Release Frequency: Quarterly

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 11/21/2022 Date Data Arrived at EDR: 11/21/2022 Date Made Active in Reports: 12/05/2022 Number of Days to Update: 14 Source: Environmental Protection Agency Telephone: (404) 562-8651 Last EDR Contact: 12/21/2022 Next Scheduled EDR Contact: 04/03/2023 Data Release Frequency: Quarterly

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 11/21/2022 Date Data Arrived at EDR: 11/21/2022 Date Made Active in Reports: 12/05/2022 Number of Days to Update: 14 Source: Environmental Protection Agency Telephone: (404) 562-8651 Last EDR Contact: 12/21/2022 Next Scheduled EDR Contact: 04/03/2023 Data Release Frequency: Quarterly

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators) RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 11/21/2022 Date Data Arrived at EDR: 11/21/2022 Date Made Active in Reports: 12/05/2022 Number of Days to Update: 14 Source: Environmental Protection Agency Telephone: (404) 562-8651 Last EDR Contact: 12/21/2022 Next Scheduled EDR Contact: 04/03/2023 Data Release Frequency: Quarterly

Federal institutional controls / engineering controls registries

LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 11/02/2022 Date Data Arrived at EDR: 11/08/2022 Date Made Active in Reports: 01/10/2023 Number of Days to Update: 63 Source: Department of the Navy Telephone: 843-820-7326 Last EDR Contact: 11/01/2022 Next Scheduled EDR Contact: 02/20/2023 Data Release Frequency: Varies

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 08/15/2022	Source: Environmental Protection Agency
Date Data Arrived at EDR: 08/17/2022	Telephone: 703-603-0695

Lists of state- and tribal hazardous waste facilities

SHWS: Inactive Hazardous Sites Inventory

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 09/01/2022	Source: Department of Environment, Health and Natural Resources
Date Data Arrived at EDR: 09/06/2022	Telephone: 919-508-8400

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF: List of Solid Waste Facilities

Solid Waste Facilities/Landfill Sites. SWF/LF type records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. Depending on the state, these may be active or inactive facilities or open dumps that failed to meet RCRA Subtitle D Section 4004 criteria for solid waste landfills or disposal sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL: National Clandestine Laboratory Register

A listing of clandestine drug lab locations that have been removed from the DEAs National Clandestine Laboratory Register.

Date of Government Version: 07/29/2022 Date Data Arrived at EDR: 08/18/2022 Date Made Active in Reports: 10/24/2022 Number of Days to Update: 67 Source: Drug Enforcement Administration Telephone: 202-307-1000 Last EDR Contact: 11/16/2022 Next Scheduled EDR Contact: 03/06/2023 Data Release Frequency: No Update Planned

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 09/30/2017 Date Data Arrived at EDR: 05/08/2018 Date Made Active in Reports: 07/20/2018 Number of Days to Update: 73

TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2016 Date Data Arrived at EDR: 06/17/2020 Date Made Active in Reports: 09/10/2020 Number of Days to Update: 85 Source: EPA Telephone: 202-260-5521 Last EDR Contact: 12/12/2022 Next Scheduled EDR Contact: 03/27/2023 Data Release Frequency: Every 4 Years

TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2018 Date Data Arrived at EDR: 08/14/2020 Date Made Active in Reports: 11/04/2020 Number of Days to Update: 82 Source: EPA Telephone: 202-566-0250 Last EDR Contact: 11/01/2022 Next Scheduled EDR Contact: 02/27/2023 Data Release Frequency: Annually

SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 10/17/2022 Date Data Arrived at EDR: 10/18/2022 Date Made Active in Reports: 01/10/2023 Number of Days to Update: 84 Source: EPA Telephone: 202-564-4203 Last EDR Contact: 01/18/2023 Next Scheduled EDR Contact: 05/01/2023 Data Release Frequency: Annually

ROD: Records Of Decision

Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 10/27/2022 Date Data Arrived at EDR: 11/01/2022 Date Made Active in Reports: 11/15/2022 Number of Days to Update: 14 Source: EPA Telephone: 703-416-0223 Last EDR Contact: 01/03/2023 Next Scheduled EDR Contact: 03/13/2023 Data Release Frequency: Annually

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 04/27/2022 Date Data Arrived at EDR: 05/04/2022 Date Made Active in Reports: 05/10/2022 Number of Days to Update: 6

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995 Date Data Arrived at EDR: 07/03/1995 Date Made Active in Reports: 08/07/1995 Number of Days to Update: 35

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006 Date Data Arrived at EDR: 03/01/2007 Date Made Active in Reports: 04/10/2007 Number of Days to Update: 40 Source: Environmental Protection Agency Telephone: 202-564-2501 Last EDR Contact: 12/17/2007 Next Scheduled EDR Contact: 03/17/2008 Data Release Frequency: No Update Planned

HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing

A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits.

Date of Government Version: 01/03/2022 Date Data Arrived at EDR: 03/31/2022 Date Made Active in Reports: 11/08/2022 Number of Days to Update: 222 Source: Environmental Protection Agency Telephone: 202-272-0167 Last EDR Contact: 01/05/2023 Next Scheduled EDR Contact: 04/17/2023 Data Release Frequency: Varies

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

Elevation:	785 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	13837425 DERITA, NC
Version Date:	2019

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
3710456600J	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY	
NWI Quad at Target Property DERITA	NWI Electronic <u>Data Coverage</u> YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

5G	1/2 - 1 Mile SSW	NW to SE

MAP ID 6G LOCATION FROM TP 1/2 - 1 Mile SSW GENERAL DIRECTION GROUNDWATER FLOW S

For additional site information, refer to Physical Setting Source Map Findings.

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1	
Soil Component Name:	Urban land
Soil Surface Texture:	variable
Hydrologic Group:	Not reported
Soil Drainage Class: Hydric Status: Not hydric	
Corrosion Potential - Uncoated Steel:	Not Reported
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 0 inches

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA Telephone: 877-336-2627 Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory Source: US Fish & Wildlife Service Telephone: 703-358-2171

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS) The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS) Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

APPENDIX F

PHASE I ESA USER QUESTIONNAIRE Sugar Creek – I-85 Project Charlotte, North Carolina ESP Proposal No. E6-KS80.602

(Page 1 of 3)

To qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"), the *user* must conduct the following inquiries required by 40 C.F.R. §§ 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must also be conducted by EPA Brownfield Assessment and Characterization grantees. The *user* should provide the following information to the *environmental professional*. Failure to conduct these inquiries could result in a determination that "*all appropriate inquiries*" is not complete

Upon completion, please return this Phase I ESA User Questionnaire to ESP for inclusion in the Phase I ESA report.

1. Did a search of land title records (or judicial records where appropriate) identify any environmental liens filed or recorded against the subject property under federal, tribal, state or local law?

Unknown

2. Did a search of land title records (or judicial records where appropriate) identify any activity and use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or that have been filed or recorded against the subject property under federal, tribal, state or local law?

Unknown

3. Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the subject property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

None

SG 10Feb23

Initial and Date

PHASE I ESA USER QUESTIONNAIRE Sugar Creek – I-85 Project Charlotte, North Carolina ESP Proposal No. E6-KS80.602

(Page 2 of 3)

4. Does the purchase price being paid for this subject property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present of the property?

Unkown

- 5. Are you aware of commonly known or reasonably ascertainable information about the subject property that would help in the environmental professional to identify conditions indicative of releases or threatened releases? For example,
 - a) Do you know the past uses of the subject property?
 - b) Do you know of specific chemicals that are present or once were present at the subject property?
 - c) Do you know of spills or other chemical releases that have taken place at the subject property?
 - d) Do you know of any environmental cleanups that have taken place at the subject property?

a)	No
b)	Unkown
c)	Unknown
d)	Unknown

6. Based on your knowledge and experience related to the subject property, are there any obvious indicators that point to the presence or likely presence of releases at the subject property?

Unknown

SG 10Feb23

Initial and Date

PHASE I ESA USER QUESTIONNAIRE Sugar Creek – I-85 Project Charlotte, North Carolina ESP Proposal No. E6-KS80.602

(Page 3 of 3)

7. Any other knowledge or experience with the subject property that may be pertinent to the environmental professional (for example, copies of any available environmental assessment reports, documents, correspondence, etc. concerning the subject property and its environmental condition).

None

8. What is the subject property's physical address(es); current property owner(s) name and how can they be contacted (*i.e.*, telephone number, email address, and/or mailing address)?

5350 & 5342 Regan Dr & 1413 & 1415 Tom Hunter Rd

Owner info unknown

- 9. Has chain of title research been performed? If so, please provide a copy to ESP. Unknown
- 10. Type of property transaction (for example, sale, purchase, exchange, etc.)?

Purchase

 Do you have any required scope of services or considerations beyond the requirements of Practice E1527?

None

12. Identify all parties who will rely on the Phase I ESA report.

OWNER INTERVIEW ESP ASSOCIATES, INC.

Date: 02-09-23 Site: 1-85 Sugar Cruck By: Erin Tollinger

1) Contact Name and Telephone Number.

Sanjeev and Mr. B. 856-669-4604

2) Relationship to site and number of years of site knowledge.

bought in actober 2016, closed december 2016.

3) Past history of site, its owners and activities conducted on site. When was site first developed?

4) If farming, industrial or maintenance operations were conducted on site, what chemicals were used and where and how were chemicals stored and disposed?

Maintener redid and remodered all rooms in 5350 a few years ago. 5) Have there been any previous structures on the site?

just hotel to their knowledge

6) What utilities are present on the site (i.e., septic system, water supply well)?

no septic, city server and water

7) Any existing or former USTs or ASTs located on site (i.e., heating oil, gasoline, diesel)?

none

8) Any past releases/fires associated with petroleum or hazardous material on the site? Any existing or pending environmental liens or Land Use Restrictions (LURs) associated with site?

none besides 5350 room 245 someone 114 a fine in the room? 9) Any information on adjacent properties that could potentially environmentally impact the subject

NIA

10) Any areas of buried waste/debris or former lagoons, pits or ponds on the site?

none

site?

11) Any other information about the environmental health of the site that we should know?

NIA

No.		Yes	No	Unk	N/A	
	Describe present use of site (residential, gas station, commercial, industrial, agriculture, undeveloped, etc.)	V	•			Economy Inn, developed, hotel
	Are structures located on the site? Describe nature and condition of any existing structures. Note site	V				yes, management office rowners appartment, 5350 and 5342
	improvements. Any surface water features on or adjacent to site		V	-		2 seperate - connected hotels none seen
	including Industrial Pits, Ponds or Lagoons? On a map, note name and type of adjacent properties. Also, note if a gas station or site with USTs or ASTs is located in immediate vicinity.	~				to North is Shell, Quality Inn, and Wyndham. to East is Duke I think or Vacant lot w/ building
5	Any electrical transformers on site? Note location of any transformer and any sign of a release (staining, stressed vegetation). Is a non-PCB sticker present?	V				five pour-mounteel transformer
	Any USTs present on site? Look for stickup and signs associated with a UST (i.e., fill or vent ports, cuts in asphalt, ground depressions, piping on building walls). Note its content.		V	ĺ		none seren
7	Any ASTs present on site? Measure length and width of tank and note its content. Any signs of a release (staining, stressed vegetation)?		\checkmark			none seen
8	Any water supply wells or monitor wells on site? If so mark their location and type on a map.	V				city water connections
	Are site structures connected to an on-site septic system? If so note its possible location on a map.		V	Ĺ		city sewer connections
	Areas of stressed vegetation, soil staining, pools of liquid, noxious odors, corrosion or petroleum sheen?		V			none seen
	Any drums, empty or filled or other containers present? Describe their size, labeling, condition, number and whether they are empty or not.	V				gasoline, bleach, general defergents, cleaners, etc.
	Areas of dumped debris? If so, note location and general makeup. Note any staining or chemical odor.	V				2 areas w furniture, house items toilet, empty 5-99/100 buckets, etc
	Any signs of significant equipment maintenance conducted on site (i.e., stained soils or concrete pad, discarded car parts, etc.)?	V				toilet, empty S-99/100 buckets, etc concrute pad mar street but potentially when old sign was
	Any signs of fill or soil mounds which could indicate buried waste or impacted soil brought on site?		V			none seen
	What utilities are present at site? Any underground or aboveground utility easements (i.e., petroleum pipeline, sewer/stormwater, overhead power).	V				site & pole -mounted, 1 large pad mounted all city connect
16	How is waste disposed at the site? Dumpsters?	1				dumpsters waste connections pickup 3× a meek
17	What chemicals or products are used on the site? Are MSDS available?	V				general allaning willabel
18	How is the site's building's HVAC system powered? i.e., natural gas, electricity, fuel oil, etc.	V				said no gas so electric
	Is site equipped with an oil/water separator?				V	N/A
20	Can you see tanks or other environmental concerns on adjacent property?	V			ii.	Just shell gas station but no
ŀ	Other remarks	1]			but was told they're on city

sewer I water, etc.

APPENDIX H

CHRISTOPHER J. WARD, PG, RSM

SENIOR GEOLOGIST

Mr. Ward joined ESP in 2004 and with over 30 years of experience, has successfully managed a variety of environmental projects including petroleum distribution terminal and pipeline, UST, NPL, school, landfill, Brownfields, roadway, industrial, and metal plating sites. His experience includes multimedia sampling, stratigraphic mapping, aquifer characterization, monitor and recovery well network design and installation, fate and transport modeling, remedial system design, installation and operation, soil vapor studies, RBCA, expert witness, surface water sedimentation studies, Phase I ESAs, NEPA reviews, Brownfields, RCRA, asbestos/LBP/mold/radon surveys, environmental permitting, and regulatory compliance management.

NCDEQ Pre-Regulatory Landfill Contract | Various, NC

As part of a five-year contract, managed assessment and remedial activities at 17 landfill/dump sites across North Carolina. Assessment activities included soil, sediment, waste, surface water and groundwater sampling and laboratory analysis, waste boundary delineation and characterization using geophysical and intrusive methods, landfill gas screening, and sensitive environment and receptor surveys.

Pfizer Inc./Skate Stadium REC Site | Greensboro, NC

Performed assessment activities at this REC site which involved assessment of soil and groundwater conditions relative to a reported 1970s surficial release of solvents and alcohols. Demonstrated that the reported surficial release had not impacted soil above applicable standards and had not resulted in groundwater impact above standards. Site received no further action and was removed from the active REC List.

Former Covington's Garage | Rock Hill, SC

As part of pre-purchase due diligence, performed a Phase I ESA at this former automotive repair facility which began operations in the 1940's. A number of RECs were identified and Phase II assessment activities were conducted to characterize risks to both soil and groundwater. Results of Phase II activities identified areas of soil impacted with metal and petroleum contaminants. A total of 218 tons of buried automotive debris and underlying impacted soil were subsequently excavated for off-site permitted disposal. Subsequent confirmatory sampling confirmed the successful removal of impacted soil.

Ranlo Dump Site | Ranlo, NC

Following discovery of debris filled drainage feature on property being cleared for residential development, an assessment identified petroleum, metals and pesticide impact within the debris and underlying soils. Approximately 2,300 tons of impacted debris and soil were excavated and transported off site for permitted disposal. Following receipt of acceptable confirmatory sampling results, submitted a Soil Closure Report requesting and obtaining a NFA notice through the NC IHSB.

Alston-Bailey Elementary School | Summerville, SC

Project manager for the assessment and off-site permitted disposal of petroleumimpacted soil associated with past site operations. Managed the assessment and closure of several orphan USTs, while overseeing the abatement and reporting associated with a release from one of the USTs. Assisted the school district in the performance of moisture intrusion and mold surveys following a major water line leak within the school. Following a contractor's abatement of identified moisture and mold impacted areas, ESP performed a follow-up survey and confirmed that the abatement had been successful.

EDUCATION

Bachelor of Science, Geology, University of South Carolina

LICENSURE AND CERTIFICATION

OSHA 40-hour HAZWOPER Professional Geologist, South Carolina # 980 Professional Geologist, North Carolina # 1600

YEARS OF EXPERIENCE Years with ESP 15 Prior Experience 16

Harborview Tower | Charleston, SC

Project manager for a Phase I ESA on this 9-story office building as part of our client's due diligence prior to purchase of the property for conversion into a hotel. Due to environmental concerns identified in the Phase I ESA, ESP is presently assisting our client and their attorney with assessment of the site as part of a voluntary cleanup contract (VCC) under SCDHEC's Brownfields Program. Assessment activities including collection and analysis of multi-media samples including soil, soil gas, sub-slab gas, indoor air, and groundwater to further evaluate risks associated with the property and possible mitigation measures is currently ongoing.

University Center at Knowledge Park Brownfields Site | Rock Hill, SC

Project Manager for Phase I ESAs; UST removals; remedial investigations for soil, groundwater, and soil gas; permitting of impacted groundwater discharge; groundwater modeling; and vapor intrusion mitigation system design and specifications for this Brownfield site.

Richmond Steel and Welding Facility | Rockingham, NC

Project involved completion of a Phase I ESA as part of a property transaction. A number of RECs were noted during the Phase I including four former USTs and stained soils adjacent to several drum storage areas. Based on these RECs, installed temporary monitor wells and collected groundwater samples in the former UST areas and collected shallow soil samples in the drum storage areas. Based on these results, impacted soils were excavated and disposed off-site at a permitted landfill.

Lexington Housing Authority | Various NC Sites

On behalf of the Lexington Housing Authority, managed the performance of over twenty Phase I ESAs and NEPA environmental assessments on various properties located in Lexington, North Carolina. The projects were generally associated with obtaining US HUD grants for low-income housing. Project sites included existing occupied multi-family housing developments, single-family residences, commercial space, and vacant land. Additionally, managed hazardous material surveys which included LBP, asbestos and mold surveys while providing clearance letters following abatement completion.

South Carolina State Housing Finance & Development Authority | Columbia, SC

Senior Environmental Manager for NEPA and Phase I environmental assessments on fourteen properties located across South Carolina. Properties have included both vacant parcels, an abandoned textile mill listed on the National Registry of Historic Places, and blighted residential neighborhoods. Many of the sites were located in potential high noise areas which required noise assessments which were performed by ESP in accordance with US HUD requirements. These environmental assessments have evaluated site conditions ranging from presence of hazardous materials and other environmental conditions, to the project's potential impact on existing community facilities and services.

Future Pleasant Road Middle School | Fort Mill, SC

Senior Environmental Manager for the Phase I ESA on this approximately 38-acre site located in Fort Mill, York County, South Carolina. The site, the future location of a middle school, was mostly wooded and undeveloped. A former home site was identified on the southwest portion of the site along with significant accumulations of household type debris. No RECs were identified associated with the site.

ESP ASSOCIATES, INC.

ERIN C. TOLLINGER

STAFF ENVIRONMENTAL SCIENTIST

Ms. Tollinger joined ESP in 2022 and is currently a staff scientist involved in due diligence, assessment, and abatement activities as well as ArcGIS mapping. Her environmental experience includes subsurface geologic investigations, soil, soil gas, and groundwater assessments, UST closures, monitor well installations, NEPA evaluations, and Phase I ESAs.

KEY PROJECT EXPERIENCE

Parkwood at Optimist Park Brownfields Site | Charlotte, NC

Assists in the collection and regulatory reporting of vacuum readings from sub-slab points to document the continued successful operation of the site's vapor intrusion mitigation system.

Spencer Mountain Site | Gaston County, NC

Assisted in the installation of soil gas points and the collection of air samples for laboratory analysis using summa canisters and the collection of groundwater samples from monitoring wells for laboratory analysis to assess potential impact to the site from an off-site sludge landfill.

Miller Road Site | China Grove, NC

Documented the closure by removal of a residential heating oil UST while collecting appropriate closure soil samples for laboratory analysis.

City of Charlotte NEPA Environmental Review and Assessment Services | Charlotte, NC

Assists in NEPA reporting associated with residential and commercial sites across Charlotte as part of an on-call contract with the City.

City of Greensboro NEPA Environmental Review and Assessment Services | Greensboro, NC

Assists in NEPA reporting associated with residential and commercial sites across Greensboro as part of an on-call contract with the City.

Phase I ESAs / Various locations throughout North and South Carolina

Assists in the performance of Phase I ESAs across the Carolinas for sites ranging from large undeveloped tracks to developed residential/commercial properties.
