MEETING SUMMARY

This document summarizes the outreach, logistics, participation and meeting content for the public meeting held on July 10, 2018, in Charlotte, NC.

PUBLIC WORKSHOP MEETING OVERVIEW

An open house meeting was held at the Extravaganza Depot, located at 1610 North Tryon Street, Charlotte, North Carolina, on Tuesday, July 10, 2018 from 5:30 to 7:30 p.m. The meeting location was identified and reserved by HDR. The meeting featured two City projects: the 16th Street Streetscape Project and the North Tryon Street Gateway Project.

The format of the meeting was drop-in style with no formal presentation provided. As participants arrived, they were greeted at the door with handouts and sign-in forms and directed to the meeting room. The meeting room contained boards and stations with roll-plot maps for both projects. A project team member would explain the boards to the participant before guiding the participant to the roll map. There were other representatives in attendance of the meeting with information to discuss other City projects in the area; the storm water and sewer improvements that extend along 16th Street, North Tryon Business Corridor, and 36th Street Streetscape.

Project team members included staff from the City of Charlotte and HDR.

Meeting materials can be found in Appendix C. Comment forms can be found in Appendix D and sign in sheets can be found in Appendix E.

PUBLIC WORKSHOP MEETING DETAILS

Date	Time	Location	Location Contact	Refreshments	# of Attendees
Thursday, July 10, 2018	5:30 – 7:30 p.m.	Extravaganza Depot 1610 N. Tryon Street Charlotte, NC 28206	Jacqueline Shiu officemanager@extravaganzaevents.com 704-343-9200	Water + snacks	34

AGENDA

4:00 p.m. – PI Team set-up
 4:45 p.m. – Team arrival
 5:00 p.m. – Team pre-meeting and safety briefing
 5:15 p.m. – Doors open
 5:30 p.m. – Meeting begins
 7:30 p.m. – Doors close, team clean up
 7:45 p.m. – Team debrief
 8:00 p.m. – Depart facility

STAFFING

Project team members from the City of Charlotte and HDR staffed the public meeting. All staff was knowledgeable of the project and was prepared to communicate with the public. Staffing for the public meeting is detailed below.

Name	Role	Organization
Jesica Mackey	Meeting Manager/ Floater	HDR
Michelle Podeszwa	Board Set 1	HDR
Brooke Parker	Roll Plot Map 2	HDR
Leslie Bing	Board Set 2	City of Charlotte
Tom Sorrentino	Board Set 1	City of Charlotte
Grant Meacci	Board Set 2	City of Charlotte
Matt Magnasco	Roll Plot Map 2	City of Charlotte
Lori Garlitos	Sign-in	City of Charlotte

OUTREACH ACTIVITIES

The City of Charlotte sent an email invite to the project's distribution/ mailing list. Additionally, a total of 1,570 postcards were mailed to all addresses in the project area, as well as all stakeholders that had previously opted in for mailings.

See Appendix A for outreach materials.

Type	Number Distributed	Responsibility	Date

Facebook ad for online meeting	\$50.00	96	4,698

COMMENT SUMMARY

In order to collect feedback during the open house, two different comment forms, one for each project, were made available to every attendee. Fourteen (14) paper comments were collected during the public meeting – all collected comment forms were for the North Tryon Street Gateway Project. No paper comments were received on the 16th Street Streetscape Project. In addition, one (1) email comment and eleven (11) comments were received via the online meeting during the comment period (July 10, 2018 – July 25, 2018).

Type of Comment	# of Comments Received
In-person comment forms	14
Mail	0
E-mail	1
Online Meeting	9
Total	24

COMMENT THEMES

Comment forms for the 16th Street Streetscape Project allowed participants space to give general feedback on the project.

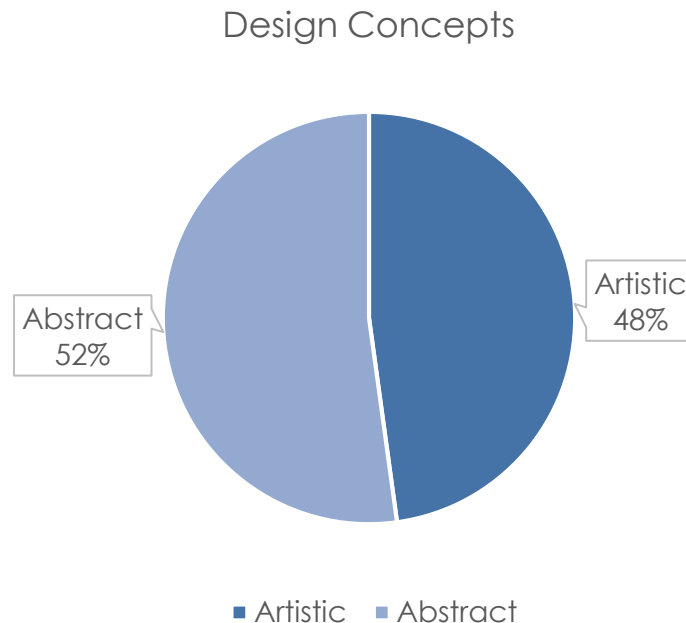

The comment forms for the North Tryon Street Gateway Project allowed participants to choose and/ or rank preferred design concepts and lighting options for two railroad bridges near 16th Street and near 13th Street/ Church Street. Space for additional feedback was also provided.

The below summary of comment results reflects all comments received through in-person forms, mail, email and online meeting.

16th Street Streetscape Project

Overall, two comments were received on the 16th Street Streetscape Project. One expressed overall support for the project. The other expressed desire for street art under lighted portions on the corridor.

North Tryon Street Gateway - Railroad bridge near 16th Street – Design Concepts

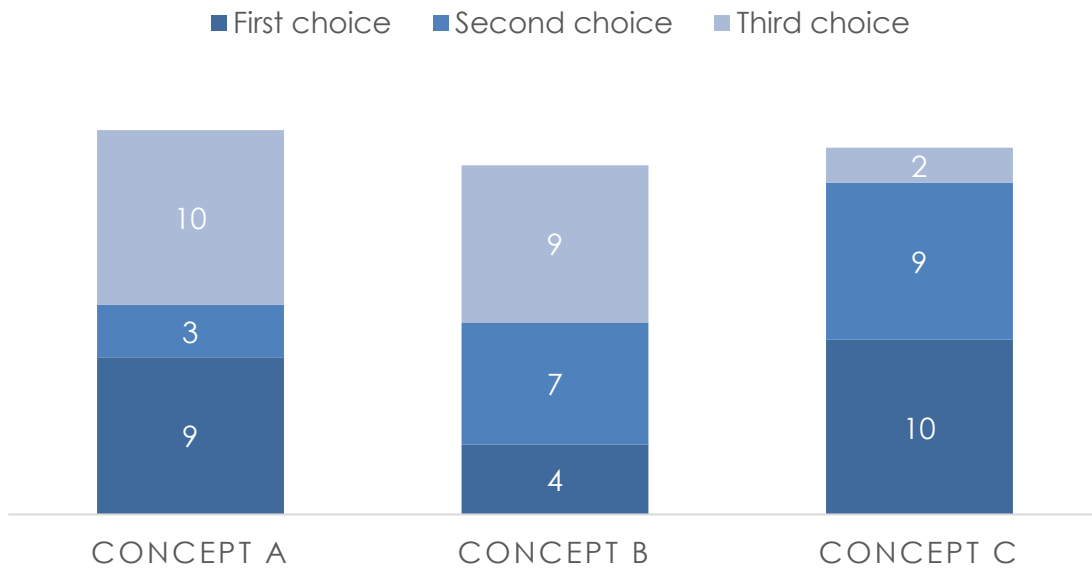

Additional feedback on design concept for Railroad Bridge Near 16th Street:

- Participants appreciated color variety
- Demonstrated desire for bright and colorful designs to combat bleak/ industrial feel of area – suggested NODA area for inspiration
- Expressed interest in mixing and matching design elements (i.e. use bridge design of “Abstract” but apply crosswalk design from “Artistic”)

North Tryon Street Gateway - Railroad bridge near 13th Street/ Church Street – Design Concepts

RANKING OPTIONS

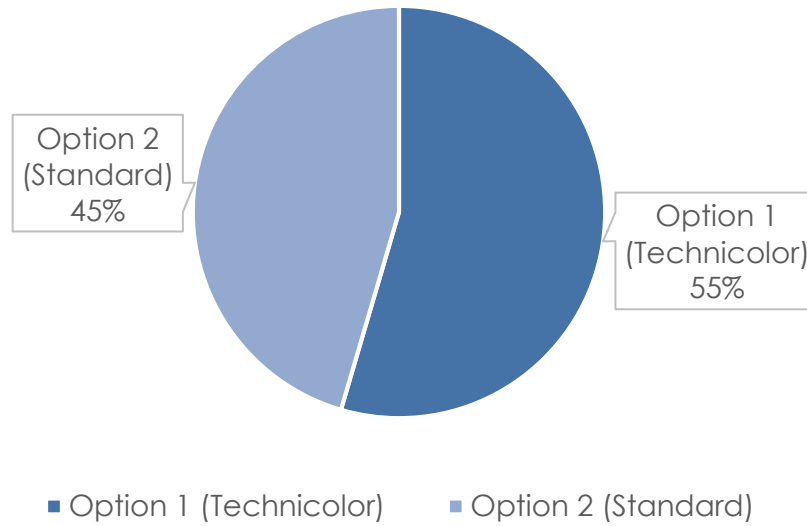

*** Note:** Data is imperfect. Several participants chose not to rank options at all, or chose only their favorite option.

Additional feedback on Railroad Bridge Near 13th Street/ Church Street:

- Several participants appreciated understated look and feel and focus on highlighting features of original structure in Concept C
- One participant did not like the look and feel of a "single face" in mural related to Concept B
- Several participants stated appreciation for variety of colors in Concept B
- One participant expressed concern that designs in Concept B and C are similar to "graffiti"

North Tryon Street Gateway - Railroad bridge near 13th Street/ Church Street – Lighting Options

Lighting Options

Additional feedback on Railroad Bridge Near 13th Street/ Church Street:

- Participants expressed interest in "Standard" option for safety reasons – clear of distraction
- One participant suggested "Technicolor" option be combined only with other black and white design elements
- Participants expressed support for "Technicolor" option if surroundings well-maintained
- Some participants expressed desire to have lights thematically programmed – change colors to different days, seasons, or occasions such as Panther game days, etc.

Other general feedback from participants:

- General support for projects
- Shared regard for safety measures
- Desire for greater lighting
- Interest in colorful designs/ patterns

Comments in their entirety can be viewed in Appendix D.

DROP-IN PUBLIC MEETING

Tuesday, July 10, 2018

5:30-7:30 p.m. (drop in anytime)

Extravaganza Depot, 1610 North Tryon Street, Charlotte, NC 28206

Drop in anytime to get the latest on the **16th Street Streetscape** and **North Tryon Gateway** projects. Learn about progress made so far, storm drainage and wastewater improvements on 16th Street and on North Tryon Street, as well as possible aesthetic improvement options on North Tryon Street at the railroad bridges.

Project teams will be on hand to discuss both projects, answer your questions and get your input.

Can't attend?

Participate in a virtual meeting July 10-25 at CharlotteFuture.com/AIC.

Future, Together.

IMPROVEMENTS TO THE RAILROAD BRIDGES ON NORTH TRYON

Updated lighting

Aesthetic improvements

RAILROAD BRIDGE NEAR 16TH STREET

PROPOSED ENHANCEMENTS

Current View

ABSTRACT

Traditional patterns give way to abstract design. Features punchy color and feeling of being inside a kaleidoscope.

Mural design from: Brand the North, Sam Gustie and Lane Morris

ARTISTIC

Features bold colors, strong shapes. Celebrates Queen City's artistic flair and urban vibe.

COMMUNITY INVESTMENT PLAN

Creating Charlotte's Future, Together.

RAILROAD BRIDGE NEAR 13TH STREET/CHURCH STREET

PROPOSED ENHANCEMENTS

Current View - Front

Current View - Mural Wall

Concept A
Offers a clean, crisp feel. The gray wall highlights existing architectural elements and is a nod to industrial past.

Concept B
Embraces the Queen City's rich rail and urban past. Power lines and brick walls are a throwback to the '70s.

Concept C
A nod to the city's manufacturing and industrial past. The mural, focus of the everyday citizen that built this city and continues their historic legacy and industrial past.

POTENTIAL LIGHTING SCHEMES

Lighting Option 1
Technicolor brings the bridge to life in a rainbow of colors.

Lighting Option 2
Subtle, warm lighting illuminates the underside of the bridge.

HANDOUT

16TH STREET STREETSCAPE PROJECT - HANDOUT

**COMMUNITY
INVESTMENT
PLAN** Creating Charlotte's
Future, Together.

16TH STREET STREETSCAPE PROJECT

Project Update
The City has progressed the design of the 16th Street Streetscape Project. The proposed design will include a two lane roadway, bicycle lanes, planting strips, sidewalks and street lights on 16th Street between North Tryon Street and Parkwood Avenue.

Additional improvements along 16th Street include storm drainage to reduce flooding in the area and wastewater improvements needed for future private development. The project team is partnering with Charlotte-Mecklenburg Storm Water Services and Charlotte Water to implement these three City projects at the same time.

A private developer at the Parkwood Avenue intersection is implementing some of the streetscape improvements, including realigning a portion of 16th Street. The developer will begin construction first, and the City will follow. The City anticipates its construction efforts to be underway before the end of 2019. Once construction begins, road closures may be necessary. Residents will be notified prior to any road closure.

Streetscape Project
This project will incorporate pedestrian, bicycle, and street lighting improvements on 16th Street between North Tryon Street and Parkwood Avenue. The proposed improvements will provide access to the Blue Line Extension and improve connections across the railroad/light rail tracks.

- New bike lanes in both directions
- New sidewalk with a planting strip that will allow for street trees
- Addition of street and pedestrian lighting along the roadway
- Realignment of a portion of 16th Street between the light rail tracks and Parkwood Avenue

Visit www.CharlotteFuture.com/16 to view the online rendering materials and provide comments.

NORTH TRYON STREET GATEWAY PROJECT

Part of the Applied Innovation Corridor's North End

Project Update
The North Tryon Street Gateway Project was established to provide an improved pedestrian environment on North Tryon Street between 11th Street and Calton Avenue. Initially, the City considered implementing its first sidewalks with a varying planting strip along this section of North Tryon, as well as safety and aesthetic enhancements in and around the two railroad bridges near the 16th Street intersection and the 15th Street/Church Street intersection.

The City of Charlotte has decided to focus on improvements to the railroad bridges to improve pedestrian conditions and create gateways to the North End. This is because:

- Feedback from previous public meetings indicated the majority favored safety and aesthetic improvements at the railroad bridges.
- As the City explored sidewalk enhancements, it was determined that any changes would result in multiple impacts to adjacent properties.
- Current sidewalks on both sides of this section of North Tryon Street were deemed to be adequate.

The community ranked pedestrian safety as one of the highest priorities for the two railroad bridges. The City is currently in the process of implementing additional lighting under the bridges.

Gateway Concepts

In addition to improved lighting and safety features at the two railroad bridges on North Tryon Street, the City has developed several aesthetic concepts for each bridge. These designs are intended to create gateways into the North End.

16th Street - Artistic
With its bold colors, strong shapes and people-focused mural, this design celebrates the Queen City's artistic, fun and urban vibe.

15th Street & Church - Concept A
Concept A offers a clean, crisp feel. The gray wash highlights existing architectural elements and is a nod to the area's industrial feel.

16th Street - Abstract
Traditional patterns give way to abstract design. These fun, punchy colors give the feeling of a kaleidoscope.

15th Street & Church - Concept B
Concept B celebrates the Queen City's artistic, fun and urban vibe. Flower power and bold colors are a throwback to the '60s - a time of youth and vitality.

15th Street & Church - Concept C
We pay homage to North Carolina's manufacturing and industrial roots. The proposed mural focuses on the everyday citizens that built this city and celebrates their resilience, ingenuity and industriousness.

Please note that these concepts are preliminary. The City will select a design and the design-build team will develop the final design. It is important that the final design is not seen as a final design, but rather a starting point for the design-build team to develop the final design.

Lighting Schemes

The City has also developed two potential lighting options for the underside of both of the two bridges. The options are depicted here for the bridge at 15th Street/Church Street.

Lighting Option 1

Email Comments

On Wed, Jul 11, 2018 at 11:45 AM,

At last night's meeting:

Did we get a stop light at Dalton and Extravaganza? It is a safety issue for the young people who have their Jr. Sr. Prom there.

Thank you for your continued study of this very important dangerous intersection in the area being addressed.

Subject: Re: [EXT] Re: TOMORROW! Drop-in public meeting for 16th St. Streetscape and N. Tryon Gateway projects

Dear Leslie,

Thank you so much for your quick and positive response.

Since Highway 29/North Tryon Street is a State Highway, we are happy to ask for help from the NC DOT if you think that would speed up the process for this safety issue which involves students attending events there and the City hosting events there. Let us know if there is anything further you would like for us to do.

We will keep this on our Board agenda and hope to have a response from you for our August 1 meeting. We hope you will be able to attend so we can thank you in person.

Railroad Bridge near 16th Street

Preference: Artistic

Comment:

Railroad Bridge near 13th Street / Church Street Concept A: 1 Concept B: 3 Concept C: 0

Comment:

Potential Lighting Schemes

Preference: Lighting Option 1

Comment:

Feedback: I did notice on the Project Area Map that the railroad track is labeled Dalton Ave . Dalton Ave is actually north of the railroad spur.

Thank you for providing this information for our review.

I own property on Dalton Ave and have followed the progress on all the projects that will improve the North End,with great interest.
