

## Project Goals

- To complete the infrastructure needs in the neighborhood by providing buffered bicycle lanes, median/turning lane, storm drainage, curb and gutter and sidewalk
- To provide a greenway passage beneath DeArmon Road for the future extension of Clark's Creek Greenway

## Project Overview

The DeArmon Road Improvements Project is part of the City of Charlotte's Prosperity Village Comprehensive Neighborhood Improvement Program (CNIP), a program focused on growing a mix of land uses, the growth of single-family neighborhoods and nearby job centers, and connectivity for vehicles, pedestrians, bicyclists, and all users of greenways and open space.

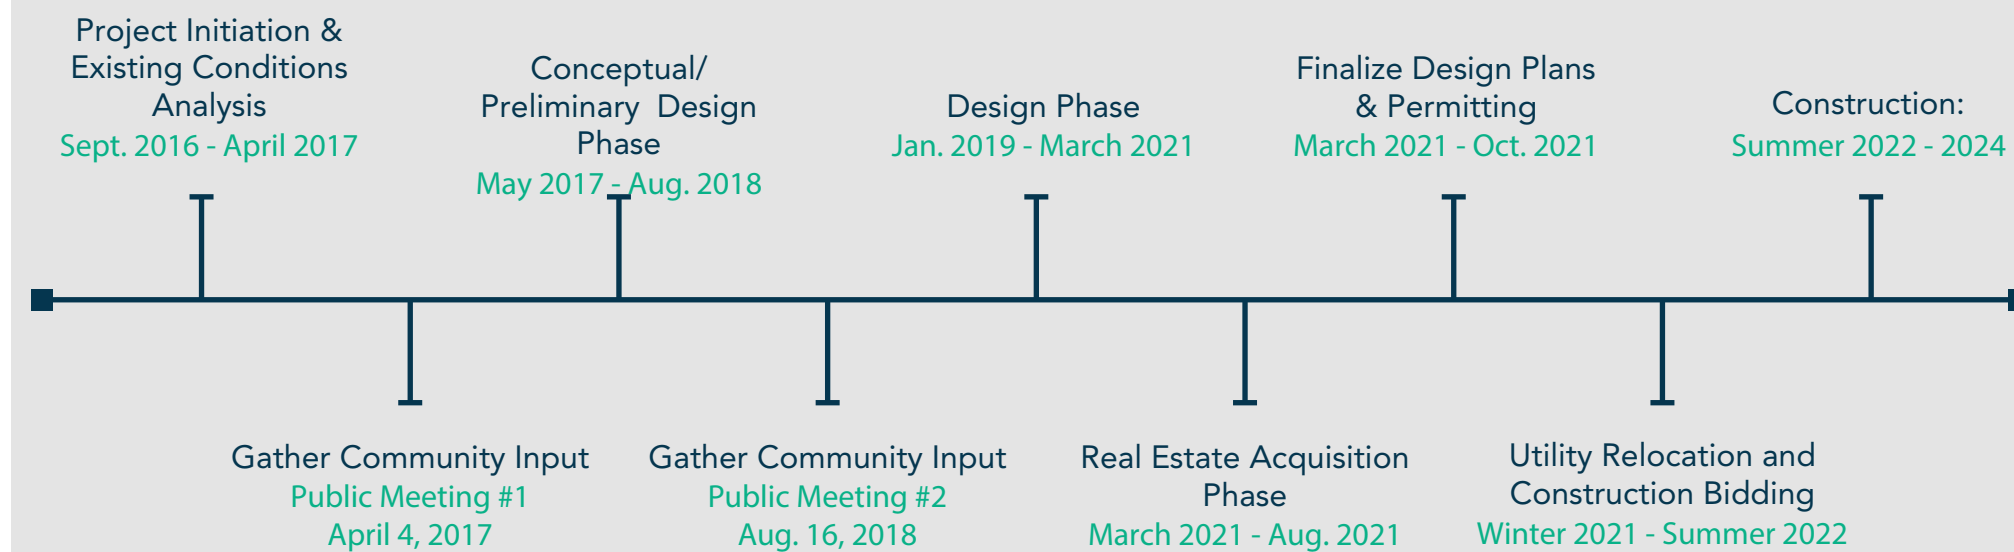

## Project Status

The real estate acquisition phase will begin in April. During this phase, the city acquires the property rights needed to build and maintain the improvements. City real estate agents will begin contacting the affected property owners soon with information about the real estate acquisition process.

## Project Typical Section

## Project Highlights

- Creates a pedestrian- and bicyclist-friendly street by providing buffered bicycle lanes, medians and sidewalks
- Improves safety for all users by upgrading the storm drainage and installing street lights
- Provides a passage beneath DeArmon Road for the future extension of Clark's Creek Greenway
