September 2023 update

The Oakhurst Amity Gardens Multiuse Path was completed in January 2023 and landscaping was installed this past spring. Earlier this summer, the city noticed a large hickory tree in distress likely from construction activities. The city has since determined the tree needs to be removed and two additional trees need to be pruned. The trees are located on city-owned property near the Erickson Road entrance to the multiuse path.

The city along with the contractor will be working in the area of the multiuse path within the next few weeks to complete this tree work. Your property will not be disturbed by the activity, and the contractor will not need to enter any structures.

Your cooperation during this process is appreciated.
