10 17 1995 14:16

October 16, 1995

In line with the Government join use effort:

I move that we establish a Committee composed of representatives of the City, County, Schools, WTVI, and CPCC to review existing television production, broadcasting, bommunication and cable access resources and determine the future community needs. Then report back to this body in ninety (90) days with recommendations and an implementation plan on how to deliver these Community wide services in a more efficient and cost effective manner.
