

ORDINANCE NO. 3125-X

**AN ORDINANCE TO EXTEND THE CORPORATE LIMITED
OF THE CITY OF CHARLOTTE, NORTH CAROLINA**

WHEREAS, the City Council of the City of Charlotte, North Carolina, has been petitioned under G.S. 160A-31, as amended, to annex the area described herein, and

WHEREAS, the City Clerk has certified the sufficiency of said petition and a public hearing on the question of this annexation was held 600 E. Fourth Street at 7:00 o'clock P.M., on the 25th day of March, 1991, and

WHEREAS, the City Council does hereby find as a fact that said petition meets the requirements of G.S. 160A-31, as amended.

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Charlotte, North Carolina:

Section 1. By virtue of the authority granted by G.S. 160A-31, as amended, the following described territory is hereby annexed and made part of the City of Charlotte, as of the 25th day of March, 1991.

Lying and being situated in Morning Star Township, Mecklenburg County, North Carolina, being the property described in a deed from Martin Marietta, a Maryland corporation to Sardis North Associates, Ltd., A North Carolina Limited Partnership as described in deed recorded in Deed Book 5683 at Page 797 in the Mecklenburg County Public Registry and being more particularly described as follows:

BEGINNING at the southwest corner of Block C of CROWN POINT BUSINESS PARK as same is shown on map thereof recorded in Map Book 22 at Page 289 in the Mecklenburg County Public Registry, said point also being located in the centerline of Beards Creek and in the southerly line of the property conveyed to Sardis North Associates, Ltd., A North Carolina Limited Partnership as same is described in deed recorded in Deed Book 4861 at Page 525 in the aforesaid Public Registry, and running thence from said Beginning Point with the centerline of Beards Creek four calls and distances as follows: (1) S. 19-30-17 E. 90.91 feet to a point; (2) S. 23-51-28 E. 85.47 feet to a point; (3) S. 33-28-58 E. 112.92 feet to a point; and (4) S. 25-38-42 E. 82.88 feet to a point; thence S. 58-50-16 W. 1135.96 feet to a new iron pin located within a 68 foot Duke Power Company transmission line right-of-way, said iron pin being located in the southerly line of the property conveyed to Sardis North Associates, Ltd., A North Carolina Limited Partnership, as same is described in deed recorded in Deed Book 4861 at Page 525 in

the aforesaid Public Registry; thence with the Sardis North Associates, Ltd. property six calls and distances as follows: (1) N. 23-41-21 E. 209.03 feet to a concrete monument; (2) N. 00-00-55 W. 202.88 feet to an existing iron pin; (3) N. 22-57-43 W. 756.21 feet to a concrete monument in the southwesterly margin of the right-of-way of Crown Centre Drive (82' R/W); (4) N. 84-05-56 E. 329.78 feet to a concrete monument; (5) S. 18-34-14 E. 140.74 feet to a concrete monument; and (6) S. 83-46-55 E. 651.02 feet to a point, the Point or Place of BEGINNING, containing 15.000 acres as shown on Boundary Survey for Sardis North Associates, Ltd. dated August 23, 1990 by Jack R. Christian, N.C.R.L.S., reference to which survey is hereby made for a more particular description of the property.

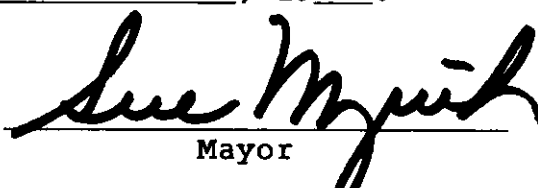

Section 2. Upon and after the 25th date of March, 1991, the above described territory and its citizens and property shall be subject to all debts, laws, ordinances and regulations in force in the City of Charlotte and shall be entitled to the same privileges and benefits as other parts of the City of Charlotte. Said territory shall be subject to municipal taxes in accordance with G.S. 160A-58.10.

Section 3. The Mayor of the City of Charlotte shall cause to be recorded in the Office of the Register of Deeds of Mecklenburg County, and in the Office of the Secretary of State at Raleigh, North Carolina, an accurate map of the annexed territory, described in Section 1 hereof, together with a duly certified copy of this ordinance.

Adopted this 25th date of March, 1991.

Attest:

City Clerk

Mayor

APPROVED AS TO FORM:

Deputy City Attorney

CERTIFICATION

I, Pat Sharkey, City Clerk of the City of Charlotte, North Carolina, do hereby certify that the foregoing is a true and exact copy of an Ordinance adopted by the City Council of the City of Charlotte, North Carolina in regular session convened on the 25th day of March, 1991 the reference having been made in Minute Book 98, and recorded in full in Ordinance Book 40, at Page(s) 15-17.

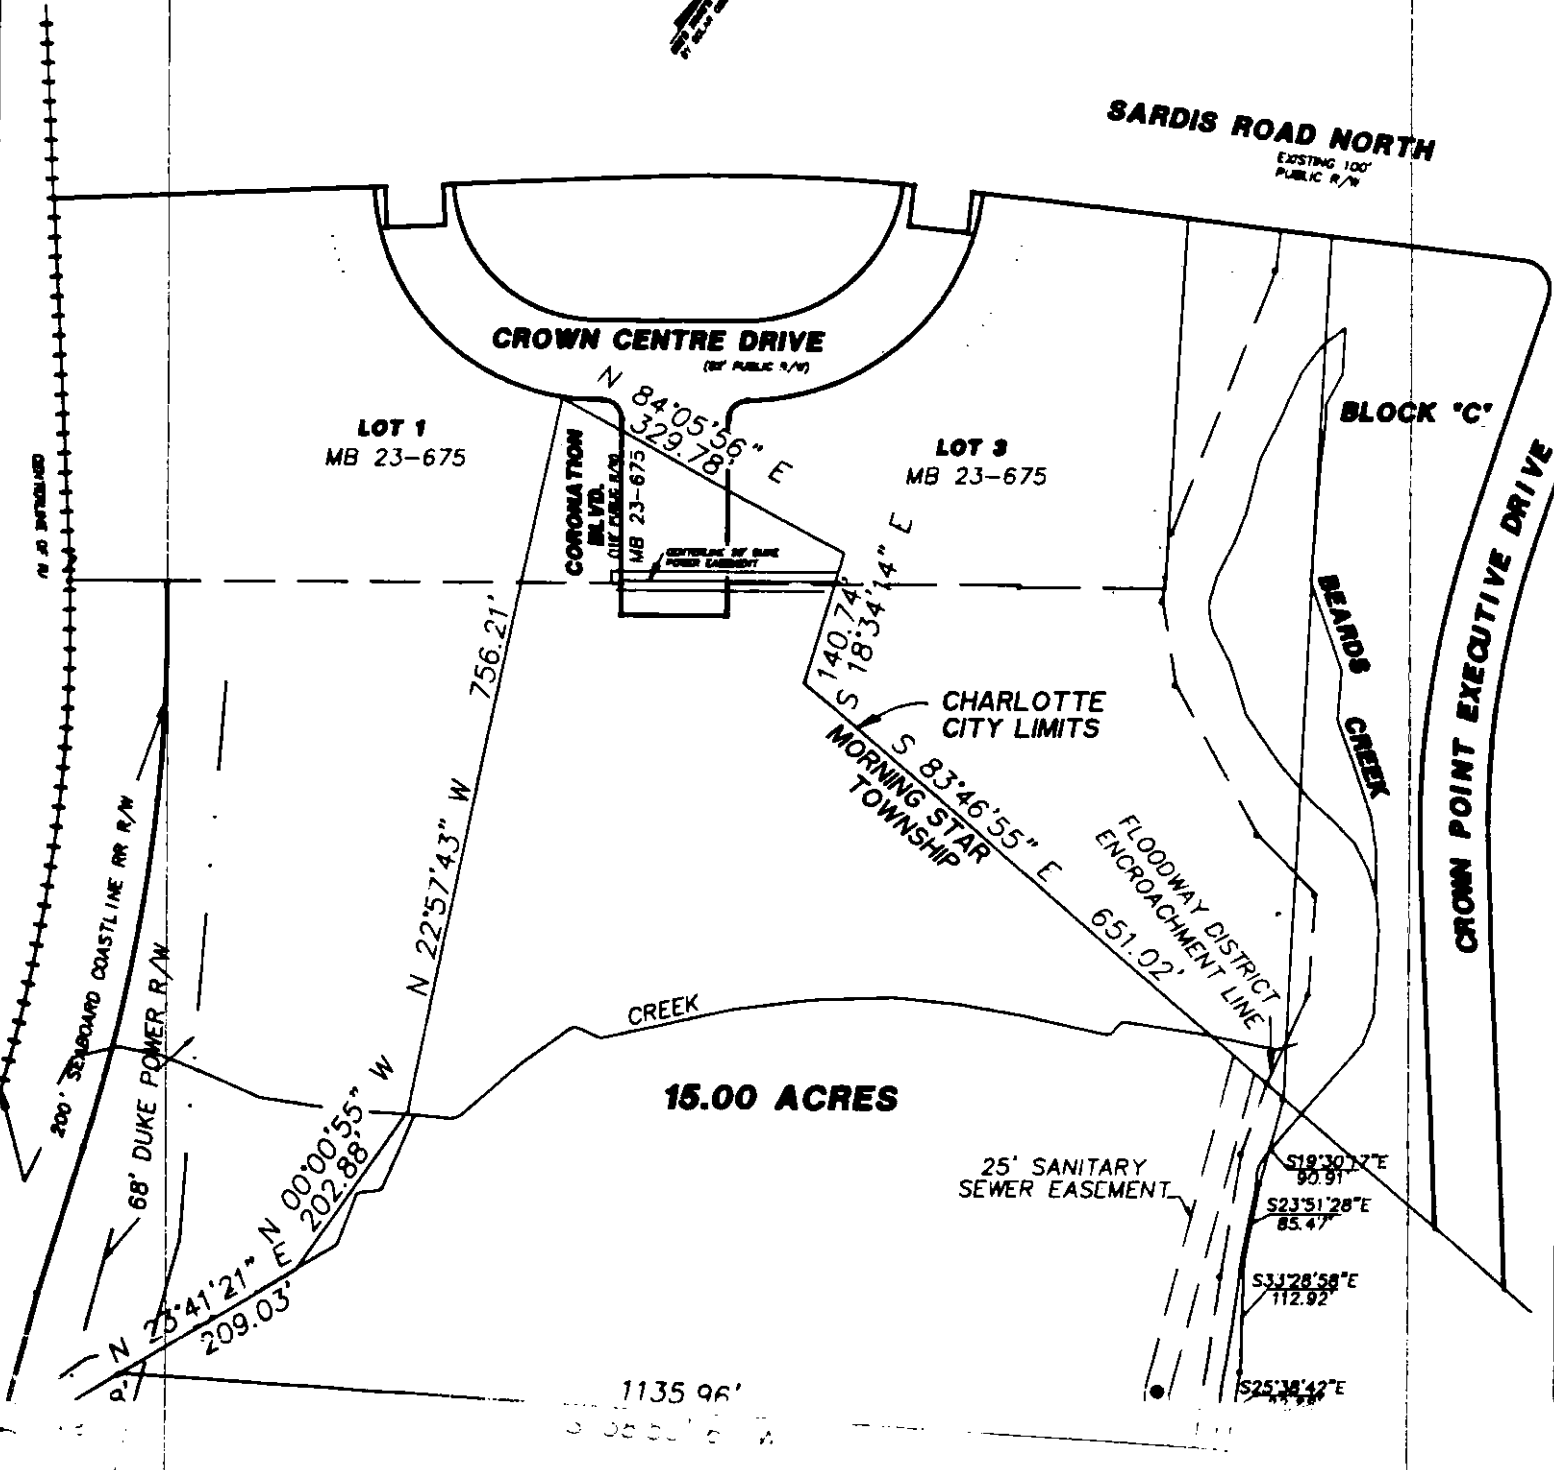

WITNESS my hand the corporate seal of the City of Charlotte, North Carolina, this the 4th day of April, 1991.

Pat Sharkey, City Clerk

THIS IS TO CERTIFY THAT ON THE 23RD DAY OF AUGUST, 1990 I, SURVEYED THE PROPERTY SHOWN ON THIS PLAT, AND THAT THE TITLE LINES AND THE WALLS OF THE BUILDINGS IF ANY ARE SHOWN HEREON.

ORDINANCE NO. 3126

AMENDING CHAPTER 14

ORDINANCE AMENDING CHAPTER 14 OF THE CHARLOTTE CITY CODE ENTITLED
"MOTOR VEHICLES AND TRAFFIC"

BE IT ORDAINED, by the City Council of the City of
Charlotte, North Carolina that:

Section 1. Chapter 14, "Motor Vehicles and Traffic" of
the Charlotte City Code shall be amended as follows:

1. Amend previously reserved Section 14-26 by designating
such section "Regulation of Traffic on City Streets" to read as
follows:

"Section 14-26. Regulation of traffic on City streets.

(a) It shall be unlawful for any person, corporation,
organization, or other public or private entity
(hereinafter referred to as "entity") to engage or employ
any individual, off-duty police officer or traffic control
officer to regulate or control traffic in or along any
public street within the corporate limits of the City of
Charlotte without complying with the provisions of this
section. For purposes of this section, "off-duty police
officer" shall mean a police officer as defined in Section
14.1 of this chapter who is not currently engaged in duty
assignment. A police officer shall include any officer of
the City of Charlotte Police Department, the Mecklenburg
County Police Department, the Mecklenburg County Sheriff's
Department, the North Carolina State Highway Patrol or any
other law enforcement agency authorized by state statute to
regulate, direct or control traffic on City streets. A
traffic control officer shall mean a law enforcement
officer for purposes of this chapter invested by law with
the sole authority to direct, control, or regulate
traffic. Such officer shall be appointed by the Charlotte
Police Department, Mecklenburg County Police Department,
the Mecklenburg County Sheriff's Department or any other
law enforcement agency as authorized by state statute, and
must have obtained the age of 18 years old, must have
completed minimum police certification standards training,
and must otherwise comply with all provisions contained in
the North Carolina General Statutes, Section 20-114.1.

(b) Any entity may engage or employ any off-duty police officer or traffic control officer to regulate or control traffic in or along any public street within the corporate limits of the City of Charlotte under the following conditions:

1. Such entity shall apply to the Charlotte Department of Transportation ("CDOT") or Charlotte Police Department ("CPD") for a permit authorizing the employment or engagement of an off-duty police officer or traffic control officer to provide traffic control services at a designated location.
2. The application shall, include at a minimum, the name and address of the entity, the name and address of the site location, the type of traffic control sought and the hours and days which the traffic control would be utilized.
3. CDOT and CPD shall determine that the provision of traffic control services at the designated site location during the designated hours fairly serve the interests of all motorists and promote the preservation of public safety.
4. The entity must agree to indemnify and hold the City harmless from and against any liability of the off-duty police officer or traffic control officer for wrongful death, bodily injury or property damage that is proximately caused by the negligence of the police officer or traffic control officer while directing or controlling traffic for compensation for the entity at the designated site location.
5. The indemnity agreement shall provide for a minimum of \$25,000.00 for the death or bodily injury to one person in any one accident; \$50,000.00 for the death of or bodily injury to two or more persons in any one accident; and \$10,000.00 for the injury or destruction of property to others in any one accident as authorized pursuant to G.S. Section 20-114.1. Notwithstanding the above, in its discretion, CDOT may set higher limits where warranted.
6. The entity shall pay to the CDOT an initial application fee of \$25.00. This fee shall be non-refundable. In addition, the entity shall pay a permit fee of \$50.00 per site location per off-duty police officer or traffic control officer engaged or employed to direct, control or regulate traffic in any public street within the City of Charlotte. This permit shall be renewed annually at an annual renewal fee of \$50.00.

7. An entity may apply to the CDOT or CPD for a limited use permit to engage or employ an off-duty police officer or traffic control officer to direct, control or regulate traffic in any public street within the City of Charlotte. A limited use permit shall be restricted to the period or periods set out on the permit. The permit fee shall be \$5.00 per five day period; however, no limited use permit fee shall exceed \$50.00 per year. No application fee shall be charged for the limited use permit.

8. All permits issued by the CDOT shall be in writing and shall be executed by the Director of the CDOT or his designee. All permits shall be kept on the premises of the approved site location. Permits shall be issued in accordance with written standards established by the CDOT.

9. The Director of CDOT or Chief of Police may revoke any permit issued under this section where either determines that the conditions of the permit have been violated or where he determines that the continued control or regulation of traffic at the site location unnecessarily interferes with public safety or convenience.

(c) Exceptions: Nothing contained in this section shall prohibit the employment or engagement of off-duty police officers or traffic control officers to provide traffic control services to the following events and locations: Springfest, funeral homes, house movers, construction sites, (provided such site has an "official" traffic-control plan approved by the Charlotte Department of Transportation), and parades and other events approved by the Parade Permit Committee.

(d) Nothing contained in this section shall prevent or prohibit any on-duty or off-duty police officer, law enforcement officer or traffic control officer from exercising and fulfilling all duties and responsibilities of his or her position.

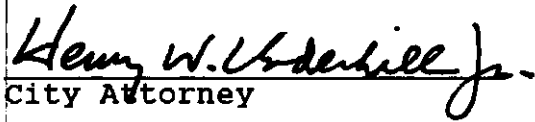

(e) Enforcement: Any entity which engages or employs any individual, off-duty police officer or traffic control officer to regulate or control traffic on City streets in violation of this section, shall, upon conviction, be guilty of a misdemeanor and shall be subject to punishments provided in Section 1.7 of this Code. Each day that a violation continues to exist shall be considered to be a separate offense.

Any entity which engages or employs any individual, off-duty police officer or traffic control officer to regulate or control traffic on the public streets of the

City of Charlotte in violation of this section shall be subject to a civil penalty of \$500.00. Each day that the violation continues shall subject the offender to an additional \$500.00 penalty.

Section 2. This Ordinance shall become effective immediately upon its adoption.

Pat Sharkey,
City Clerk

ORDINANCE 3131

AN ORDINANCE TO PROVIDE FOR THE CONTROL OF SOIL EROSION AND SEDIMENTATION.

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Charlotte that:

Section 1. Chapter 18 of the City Code shall be repealed in its entirety, and the following shall be substituted in lieu thereof:

"Section 18-1. Title

This ordinance may be cited as the City of Charlotte Soil Erosion and Sedimentation Control Ordinance.

Section 18-2. Purposes

This ordinance is adopted for the purpose of:

- a. regulating certain land-disturbing activity to control accelerated erosion and sedimentation in order to prevent the pollution of water and other damage to lakes, watercourses, and other public and private property by sedimentation; and
- b. establishing procedures through which these purposes can be fulfilled.

Section 18-3. Definitions

As used in this ordinance, unless the context clearly indicates otherwise, the following definitions apply. It is to be noted that amendments to this ordinance have resulted in additional definitions for this ordinance and such additional definitions have been designated by (aa), (bb), ect.

- a. Accelerated Erosion - means any increase over the rate of natural erosion as a result of land-disturbing activity.
- b. Act - means the North Carolina Sedimentation Pollution Control Act of 1973 and all rules and orders adopted pursuant to it.
- c. Adequate Erosion Control Measure, Structure, or Device - means one which controls the soil

material within the land area under responsible control of the person conducting the land-disturbing activity.

- d. Borrow - means fill material which is required for on-site construction and is obtained from other locations.
- e. Buffer Zone - means the strip of land adjacent to a lake or natural watercourse, the width of which is measured from the edge of the water to the nearest edge of the disturbed area, with the twenty-five percent (25%) of the strip nearer the land-disturbing activity containing natural or artificial means of confining visible siltation.
- f. Commission - means the North Carolina Sedimentation Control Commission.
- g. Completion of Construction or Development - means that no further land-disturbing activity is required on a phase of a project except that which is necessary for establishing a permanent ground cover.
- h. Director - means the Director of the Division of Land Resources of the Department of Environment, Health, and Natural Resources.
- i. District - means the Mecklenburg Soil and Water Conservation District created pursuant to Chapter 139, North Carolina General Statutes.
- j. Discharge Point - means that point at which runoff leaves a tract of land.
- k. Energy Dissipator - means a structure or a shaped channel section with mechanical armoring placed at the outlet of pipes or conduits to receive and break down the energy from high velocity flow.
- l. Erosion - means the wearing away of land surface by the action of wind, water, gravity, or any combination thereof.
- m. Ground Cover - means any natural vegetative growth or other material which renders the soil surface stable against accelerated erosion.
- n. High Quality Waters - means those classified as such in 15A NCAC 2B.0101(e) (5) - General

Procedures, which is incorporated herein by reference to include further amendments pursuant to G.S. 150B-14(c).

- o. High Quality Water (HOW) zones - means areas in the Coastal Counties that are within 575 feet of High Quality Waters and for the remainder of the state areas that are within one mile and drain to HQW's.
- p. Lake or Natural Watercourse - means any stream, river, brook, swamp, sound, bay, creek, run, branch, canal, waterway, estuary, and any reservoir, lake or pond, natural or impounded, in which sediment may be removed or carried in suspension, and which could be damaged by accumulation of sediment.
- q. Land-disturbing Activity - means any use of the land by any person in residential, industrial, educational, institutional, or commercial development, highway and road construction and maintenance that results in a change in the natural cover or topography and that may cause or contribute to sedimentation.
- r. Local Government - means any county, incorporated village, town, or city, or any combination of counties, incorporated villages, towns, and cities, acting through a joint program pursuant to the provisions of the Act.
- s. Natural Erosion - means the wearing away of the earth's surface by water, wind, or other natural agents under natural environmental conditions undisturbed by man.
- t. Person - means any individual, partnership, firm, association, joint venture, public or private corporation, trust, estate, commission, board, public or private institution, utility, cooperative, interstate body, or other legal entity.
- u. Person Conducting Land-Disturbing Activity - means any person who may be held responsible for a violation unless expressly provided otherwise by this Ordinance, the Act, or any order adopted pursuant to this Ordinance or the Act.
- v. Person Responsible for the Violation - as used in this Ordinance, and G.S. 113A-64, means:

(a) the developer or other person who has or holds himself out as having financial or operational control over the land-disturbing activity; and/or

(b) The landowner or person in possession or control of the land when he has directly or indirectly allowed the land-disturbing activity or has benefitted from it or he has failed to comply with any provision of this Ordinance, the Act, or any order adopted pursuant to this Ordinance or the Act as imposes a duty upon him.

- w. Phase of Grading - means one of two types of grading, rough or fine.
- x. Plan - means an erosion and sedimentation control plan.
- y. Sediment - means solid particulate matter, both mineral and organic, that has been or is being transported by water, air, gravity, or ice from its site of origin.
- z. Sedimentation - means the process by which sediment resulting from accelerated erosion has been or is being transported off the site of the land-disturbing activity or into a lake or natural watercourse.
- aa. Siltation - means sediment resulting from accelerated erosion which is settable or removable by properly designed, constructed, and maintained control measures; and which has been transported from its point of origin within the site of a land-disturbing activity; and which has been deposited, or is in suspension in water.
- bb. Storm Drainage Facilities - means the system of inlets, conduits, channels, ditches and appurtenances which serve to collect and convey storm water through and from a given drainage area.
- cc. Storm Water Runoff - means the direct runoff of water resulting from precipitation in any form.
- dd. Ten-Year Storm - means the surface runoff resulting from a rainfall of an intensity expected to be equalled or exceeded, on the average, once in ten years, and of a duration

which will produce the maximum peak rate of runoff, for the watershed of interest under average antecedent wetness conditions.

- ee. Tract - means all contiguous land and bodies of water in one ownership, or contiguous land and bodies of water in diverse ownership being developed as a unit, although not necessarily all at one time.
- ff. Uncovered - means the removal of ground cover from, on, or above the soil surface.
- gg. Undertaken - means the initiating of any activity, or phase of activity, which results or will result in a change in the ground cover or topography of a tract of land.
- hh. Velocity - means the average velocity of flow through the cross section of the main channel at the peak flow of the storm of interest. The cross section of the main channel shall be that area defined by the geometry of the channel plus the area of flow below the flood height defined by vertical lines at the main channel banks. Overload flows are not to be included for the purpose of computing velocity of flow.
- ii. Waste - means surplus materials resulting from on-site construction and disposed of at other locations.
- jj. Working Days - means days exclusive of Saturday and Sunday during which weather conditions or soil conditions permit land-disturbing activity to be undertaken.

Section 18-4. Scope and Exclusions

This ordinance shall apply to land-disturbing activities undertaken by any person, with the following exclusions:

- a. those undertaken on agricultural land for the production of plants and animals useful to man, including but not limited to: forage and sod crops, grain and feed crops, tobacco, cotton and peanuts; dairy animals and dairy products; poultry and poultry products; livestock, including beef cattle, sheep, swine, horses, ponies, mules or goats, including the breeding and grazing of any or all such animals; bees and apiary products; fur animals; and

- b. those undertaken on forestland for the production and harvesting of timber and timber products and which are conducted in accordance with Forest Practice Guidelines Related to Water Quality (best management practices) as adopted by the Department. If land-disturbing activity undertaken on forestland for the production and harvesting of timber and timber products is not conducted in accordance with Forest Practice Guidelines Related to Water Quality, the provisions of this ordinance shall apply to such activity and any related land-disturbing activity on the tract; and
- c. activity undertaken by persons as defined in G.S. 113A-52(8) who are otherwise regulated by the provisions of The Mining Act of 1971, G.S. 74-46 through G.S. 74-68; and
- d. Land-disturbing activity over which the State has exclusive regulatory jurisdiction as provided in G.S. 113A-56(a).

Section 18-5. General Requirements

- a. Plan Required - No person shall initiate any land-disturbing activity which uncovers more than one contiguous acre without having an erosion control plan approved by the City Engineer.
- b. Protection of Property - Persons conducting land-disturbing activity shall take all reasonable measures to protect all public and private property from damage caused by such activity.
- c. More Restrictive Rules Shall Apply - Whenever conflicts exist between federal, state or local laws, ordinances, or rules, the more restrictive provision shall apply.

Section 18-6. Basic Control Objectives

An erosion and sedimentation control plan may be disapproved pursuant to Section 17 of this ordinance if the plan fails to address the following control objectives:

- a. Identify Critical Areas - On-site areas which are subject to severe erosion, and off-site areas which are especially vulnerable to damage from erosion and/or sedimentation, are to be identified and receive special attention.

- b. Limit Time of Exposure - All land-disturbing activity is to be planned and conducted to limit exposure to the shortest feasible time.
- c. Limit Exposed Areas - All land-disturbing activity is to be planned and conducted to minimize the size of the area to be exposed at any one time.
- d. Control Surface Water - Surface water runoff originating upgrate of exposed areas should be controlled to reduce erosion and sediment loss during the period of exposure.
- e. Control Sedimentation - All land-disturbing activity is to be planned and conducted so as to prevent off-site sedimentation damage.
- f. Manage Storm Water Runoff - When the increase in the velocity of storm water runoff resulting from a land-disturbing activity is sufficient to cause accelerated erosion of the receiving watercourse, plans are to include measures to control the velocity at the point of discharge so as to minimize accelerated erosion of the site and increased sedimentation of the stream.

Section 18-7. Mandatory Standards for Land-disturbing Activity

No land-disturbing activity subject to the control of this ordinance shall be undertaken except in accordance with the following mandatory standards:

- a. Buffer zone
 - 1. No land-disturbing activity during periods of construction or improvement to land shall be permitted in proximity to a lake or natural watercourse unless a buffer zone is provided along the margin of the water-course of sufficient width to confine visible siltation within the twenty-five percent (25%) of the buffer zone nearest the land-disturbing activity. Waters that have been classified as trout waters by the Environmental Management Commission shall have an undisturbed buffer zone 25 feet wide or of sufficient width to confine visible siltation within the twenty-five percent (25%) of the buffer zone nearest the land-disturbing activity, whichever is greater. Provided, however, that the City Engineer may

approve plans which include land-disturbing activity along trout waters when the duration of said disturbance would be temporary and the extent of said disturbance would be minimal. This subdivision shall not apply to a land-disturbing activity in connection with the construction of facilities to be located on, over, or under a lake or natural watercourse.

2. The 25 foot minimum width for an undisturbed buffer zone adjacent to designated trout waters shall be measured horizontally from the top of the bank.
 3. Where a temporary and minimal disturbance is permitted as an exception by Section 7 (a) (1) of this ordinance, land-disturbing activities in the buffer zone adjacent to designated trout waters shall be limited to a maximum of 10% of the total length of the buffer zone within the tract to be distributed such that there is no more than 100 linear feet of disturbance in each 1000 linear feet of buffer zone. Larger areas may be disturbed with the written approval of the Director of the Department of Environment, Health and Natural Resources.
 4. No land-disturbing activity shall be undertaken within a buffer zone adjacent to designated trout waters that will cause adverse temperature fluctuations, as set forth in 15 NCAC 2B.0211 "Fresh Surface Water Classification and Standards", in these waters.
- b. Graded Slopes and Fills - The angle for graded slopes and fills shall be no greater than the angle which can be retained by vegetative cover or other adequate erosion control devices or structures. In any event, slopes left exposed will, within 30 working days of completion of any phase of grading, be planted or otherwise provided with ground cover, devices, or structures sufficient to restrain erosion.
- c. Ground Cover - Whenever land-disturbing activity is undertaken on a tract comprising more than one acre, if more than one contiguous acre is uncovered, the person conducting the land-disturbing activity shall install such

sedimentation and erosion control devices and practices as are sufficient to retain the sediment generated by the land-disturbing activity within the boundaries of the tract during construction upon and development of said tract, and shall plant or otherwise provide a permanent ground cover sufficient to restrain erosion after completion of construction or development. Except as provided in Section 8 (b) (5) of this ordinance, provisions for a ground cover sufficient to restrain erosion must be accomplished within 30 working days or 120 calendar days following completion of construction or development whichever period is shorter.

- d. Prior Plan Approval - No person shall initiate any land-disturbing activity if more than one contiguous acre is to be uncovered unless, "30" or more days prior to initiating the activity, an erosion and sedimentation control plan for such activity is filed with and approved by the City Engineer. Should the erosion control plan be filed with and approved and a grading permit be issued in less than 30 days from the filing of the plan, the land-disturbing activity may commence.
- e. The person(s) conducting land-disturbing activity or an agent of that party shall contact the City Engineer at least 48 hours before commencement of the land-disturbing activity for the purpose of arranging an on-site meeting with the City Engineer or his representative to review and discuss the approved erosion control plan and the proposed land-disturbing activity. Failure to do so shall constitute a violation of this ordinance.

Section 18-8. Design and Performance Standards

- a. Except as provided in Section 8 (b) (2) of this ordinance erosion and sedimentation control measures, structures, and devices shall be so planned, designed, and constructed as to provide protection from the calculated maximum peak of runoff from the 10-year storm. Runoff rates shall be calculated using the procedures in the USDA, Soil Conservation Service's "National Engineering Field Manual for Conservation Practices," or other acceptable calculation procedures.

- b. In High Quality Water (HQW) zones the following design standards shall apply.
1. Uncovered areas in HQW zones shall be limited at any time to a maximum total area within the boundaries of the tract of 20 acres. Only the portion of the land-disturbing activity within a HQW zone shall be governed by this section. Larger areas may be uncovered within the boundaries of the tract with the written approval of the Director of the Department of Environment, Health, and Natural Resources.
 2. Erosion and sedimentation control measures, structures, and devices within HQW zones shall be so planned, designed and constructed to provide protection from the run off of the 25-year storm which produces the maximum peak rate of runoff as calculated according to procedures in the United States Department of Agriculture Soil Conservation Service's "National Engineering Field Manual for Conservation Practices" or according to procedures adopted by any other agency of this site or the United States or any generally recognized organization or association.
 3. Sediment basins within HQW zones shall be designed and constructed such that the basin will have a settling efficiency of at least 70% for the 40 micron (0.04 mm) size soil particle transported into the basin by the runoff of that 2-year storm which produces the maximum peak rate of runoff as calculated according to procedures in the United States Department of Agriculture Soil Conservation Services "National Engineering Field Manual for Conservation Practices" or according to procedures adopted by any other agency of this state or the United States or any generally recognized organization or association.
 4. Newly constructed open channels in HQW zones shall be designed and constructed with side slopes no steeper than 2 horizontal to 1 vertical if a vegetative cover is used for stabilization unless soil conditions permit a steeper slope or

where the slopes are stabilized by using mechanical devices, structural devices or other acceptable ditch liners. In any event, the angle for side slopes shall be sufficient to restrain accelerated erosion.

5. Ground cover sufficient to restrain erosion must be provided for any portion of a land-disturbing activity in a HQW zone within 15 working days or 60 calendar days following completion of construction or development, whichever period is shorter.

Section 18-9. Stormwater Outlet Protection

- a. Persons shall conduct land-disturbing activity so that the post construction velocity of the 10-year storm runoff in the receiving watercourse to the discharge point does not exceed the greater of:
 1. the velocity established by the table in paragraph (d) of this Section; or
 2. the velocity of the 10-year storm runoff in the receiving watercourse prior to development.

If conditions (1) or (2) of this Paragraph cannot be met, then the receiving watercourse to and including the discharge point shall be designed and constructed to withstand the expected velocity anywhere the velocity exceeds the "prior to development" velocity by 10%.

- b. Acceptable Management Measures - Measures applied alone or in combination to satisfy the intent of this section are acceptable if there are no objectionable secondary consequences. The Commission recognizes that the management of stormwater runoff to minimize or control downstream channel and bank erosion is a developing technology. Innovative techniques and ideas will be considered and may be used when shown to have the potential to produce successful results. Some alternatives are to:
 - (1) avoid increases in surface runoff volume and velocity by including measures to promote infiltration to compensate for increased runoff from areas rendered

impervious,

- (2) avoid increases in stormwater discharge velocities by using vegetated or roughened swales and waterways in lieu of closed drains and high velocity paved sections,
 - (3) provide energy dissipators at outlets of storm drainage facilities to reduce flow velocities at the point of discharge. These may range from simple rip-rapped sections to complex structures,
 - (4) protect watercourses subject to accelerated erosion by improving cross sections and/or providing erosion-resistant lining.
- c. Exceptions - This rule shall not apply where it can be demonstrated that stormwater discharge velocities will not create an erosion problem in the receiving watercourse.
- d. The following is a table for maximum permissible velocity for storm water discharges:

Maximum permissible velocities

<u>Material</u>	F.P.S.	M.P.S.
Fine sand (noncolloidal)	2.5	.8
Sandy loam (noncolloidal)	2.5	.8
Silt loam (noncolloidal)	3.0	.9
Ordinary firm loam	3.5	1.1
Fine gravel	5.0	1.5
Stiff clay (very colloidal)	5.0	1.5
Graded, loam to cobbles (noncolloidal)	5.0	1.5
Graded, silt to cobbles (colloidal)	5.5	1.7
Alluvial silts (noncolloidal)	3.5	1.1
Alluvial silts (colloidal)	5.0	1.5
Coarse gravel (noncolloidal)	6.0	1.8
Cobbles and shingles	5.5	1.7
Shales and hard pans	6.0	1.8

Source - Adapted from recommendations by Special Committee on Irrigation Research, American Society of Civil Engineers, 1926, for channels with straight alignment. For sinuous channels, multiply allowable velocity by 0.95 for slightly sinuous, by 0.9 for moderately sinuous channels, and by 0.8 for highly sinuous channels.

Section 18-10. Borrow and Waste Areas

When the person conducting the land-disturbing activity is also the person conducting the borrow or waste disposal activity, areas from which borrow is obtained and which are not regulated by the provisions of the Mining Act of 1971, and waste areas for surplus materials other than landfills regulated by the Department's Division of Solid Waste Management shall be considered as part of the land-disturbing activity where the borrow material originated. When the person conducting the land-disturbing activity is not the person obtaining the borrow and/or disposing of the waste, these areas shall be considered a separate land-disturbing activity.

Section 18-11. Access and Haul Roads

Temporary access and haul roads, other than public roads, constructed or used in connection with any land-disturbing activity shall be considered a part of such activity.

Section 18-12. Operations in Lakes or Natural Watercourses

Land-disturbing activity in connection with construction in, on, over, or under a lake or natural watercourse shall be planned and conducted in such a manner as to minimize the extent and duration of disturbance of the stream channel. The relocation of a stream, where relocation is an essential part of the proposed activity, shall be planned and executed so as to minimize changes in the stream flow characteristics, except when justification for significant alteration to flow characteristic is provided.

Section 18-13. Responsibility for Maintenance

During the development of a site, the person conducting the land-disturbing activity shall install and maintain all temporary and permanent erosion and sedimentation control measures as required by the approved plan or any provision of this Ordinance, the Act, or any order adopted pursuant to this Ordinance or the Act. After site development, the landowner or person in possession or control of the land shall install and/or maintain all necessary permanent erosion and sediment control measures, except those measures installed within a road or street right-of-way or easement accepted for maintenance by a governmental agency.

Section 18-14. Additional Measures

Whenever the City Engineer, determines that significant sedimentation is occurring as a result of land-disturbing activity, despite application and maintenance of protective practices, the person conducting the land-disturbing activity will be required to and shall take additional protective action.

Section 18-15. Existing Uncovered Areas

- a. All uncovered areas existing on the effective date of this ordinance which resulted from land-disturbing activity, exceed one contiguous acre, are subject to continued accelerated erosion, and are causing off-site damage from sedimentation, shall be provided with a ground cover or other protective measures, structures, or devices sufficient to restrain accelerated erosion and control off-site sedimentation.
- b. The City Engineer will serve upon the landowner or other person in possession or control of the land a written notice of violation by registered or certified mail, return receipt requested, or other means reasonably calculated to give actual notice. The notice will set forth the measures needed to comply and will state the time within which such measures must be completed. In determining the measures required and the time allowed for compliance, the authority serving notice shall take into consideration the economic feasibility, technology, and quantity of work required, and shall set reasonable and attainable time limits of compliance.
- c. The City Engineer reserves the right to require preparation and approval of an erosion control plan in any instance where extensive control measures are required.

Section 18-16. Permits

- a. No person shall undertake any land-disturbing activity subject to this ordinance without first obtaining a permit therefore from the City Engineer, except that no permit shall be required for any land-disturbing activity:
 - (1) for the purpose of fighting fires; or
 - (2) for the stock piling of raw or processed sand, stone, or gravel in material processing plans and storage yards,

provided that sediment control measures have been utilized to protect against off-site damage; or

- (3) that does not exceed one acre in surface area. In determining the area, contiguous lands under one or diverse ownership being developed as a unit will be aggregated. Although a permit is not required for activity comprising less than one acre, such activity is subject to all other requirements and penalties imposed by this Ordinance to the full extent of Section 5(b) and (c) and penalties described herein.

Section 18-17. Erosion and Sedimentation Control Plans

- a. Person(s) conducting land-disturbing activity shall be responsible for preparing an erosion control plan for all land-disturbing activities subject to this ordinance whenever the proposed activity is to be undertaken on a tract comprising more than one acre, if more than one contiguous acre is to be uncovered. Copies of the plan shall be filed with the City Engineer and the Mecklenburg Soil and Water Conservation District.
- b. Persons conducting land-disturbing activity which covers one or more contiguous acre shall file copies of the erosion control plan with the City Engineer and secure a grading permit before the land disturbing activity shall commence. A copy of the approved erosion control plan and grading permit shall be maintained on the job site by the persons conducting the land-disturbing activity. After approving the plan, if the City Engineer, either upon review of such plan or on inspection of the job site, determines that a significant risk of accelerated erosion or off-site sedimentation exists, the City Engineer will require a revised plan. Pending the preparation of the revised plan, work shall cease or shall continue under conditions outlined by the appropriate authority.
- c. Erosion control plans may be disapproved unless accompanied by an authorized statement of financial responsibility and ownership. This statement shall be signed by the person financially responsible for the land-disturbing

activity or his attorney in fact. The statement shall include the mailing and street addresses of the principal place of business of the person financially responsible and of the owner of the land or their registered agents. If the person financially responsible is not a resident of North Carolina, a North Carolina agent must be designated in the statement for the purpose of receiving notice of compliance or non-compliance with the plan, the Act, this ordinance, or rules or orders adopted or issued pursuant to this ordinance.

- d. The Mecklenburg Soil and Water Conservation District within 20 days of receipt of any plan, or within such additional time as may be prescribed by the City Engineer, shall review such plan and submit its comments and recommendations to the City Engineer. Failure of the Soil and Water Conservation District to submit its comments and recommendations within 20 days or within the prescribed additional time will not delay final action on the plan.
- e. The City Engineer will review each complete plan submitted to them and within 30 days of receipt thereof will notify the person submitting the plan that it has been approved, approved with modifications, approved with performance reservations, or disapproved. Failure to approve or disapprove a complete erosion and sedimentation control plan within 30 days of receipt shall be deemed approval. Denial of a plan must specifically state in writing the reasons for denial. The City Engineer must approve or deny a revised plan within 15 days of receipt, or it is deemed to be approved. If, following commencement of a land-disturbing activity pursuant to an approved plan, the City Engineer determines that the plan is inadequate to meet the requirements of this ordinance, the City Engineer may require such revisions as are necessary to comply with this ordinance.
- f. Any plan submitted for a land disturbing activity for which an environmental document is required by the North Carolina Environmental Policy Act (G.S. 113A-1, et seq.) shall be deemed incomplete until a complete environmental document is available for review. The City Engineer shall promptly notify the person submitting the plan that the 30 day time limit for review of the plan pursuant to

Section 17(e) of this ordinance shall not begin until a complete environmental document is available for review.

- g. The plan required by this section shall contain architectural and engineering drawings, maps, assumptions, calculations, and narrative statements as needed to adequately describe the proposed development of the tract and the measures planned to comply with the requirements of this ordinance. Plan content may vary to meet the needs of specific site requirements. Detailed guidelines for plan preparation may be obtained from the City Engineer on request.
- h. An erosion control plan may be disapproved upon a finding that an applicant, or any parent or subsidiary corporation if the applicant is a corporation:
 - (1) Is conducting or has conducted land-disturbing activity without an approved plan, or has received notice of violation or a plan previously approved by the Commission or a local government pursuant to the Act and has not complied with the notice within the time specified in the notice;
 - (2) Has failed to pay a civil penalty assessed pursuant to the Act or a local ordinance adopted pursuant to the Act which is due and for which no appeal is pending;
 - (3) Has been convicted of a misdemeanor pursuant to G.S. 113A-64(b) or any criminal provision of a local ordinance adopted pursuant to the Act or;
 - (4) Has failed to substantially comply with State rules or local ordinances and regulations adopted pursuant to the Act.

For purposes of this subsection (h) an applicant's record may be considered for only the two years prior to the application date.

- i. Applications for amendment of an erosion control plan in written and/or graphic form may be made at any time under the same conditions as the original application. Until such time as said amendment is approved by the City

Engineer the land-disturbing activity shall not proceed except in accordance with the erosion control plan as originally approved.

- j. Any person engaged in land-disturbing activity who fails to file a plan in accordance with this ordinance, or who conducts a land-disturbing activity except in accordance with provisions of an approved plan shall be deemed in violation of this ordinance.

Section 18-18. Appeals

- a. Except as provided in Section 18 (b) of this ordinance the appeal of a disapproval or approval with modifications of a plan shall be governed by the following provisions:
 1. This disapproval or modification of any proposed erosion control plan by the City Engineer shall entitle the person submitting the plan to a public hearing if such person submits written demand for a hearing within 15 days after receipt of written notice of disapproval or modification.
 2. Hearings held pursuant to this section shall be conducted by the Charlotte Mecklenburg Planning Commission. A simple majority of the members of the Commission shall constitute a quorum. The Commission shall keep minutes of its proceedings, showing the vote of each member upon each question and the absence or failure of any member to vote. The final disposition of the board therefore based on findings of fact and conclusions of law, all of which shall be immediately forwarded to the City Engineer.
 3. The person submitting the erosion control plan shall have 15 days following the disapproval or modification of a proposed erosion control plan to appeal the Charlotte-Mecklenburg Planning Commission's decision to the North Carolina Sedimentation Control Commission pursuant to Title 15, Chapter 4B Section .0018(b) of the North Carolina Administrative Code and G. S. 113A-61(c).
- b. In the event that an erosion control plan is

disapproved pursuant to Section 17 (h) of this ordinance, the City Engineer shall notify the Director of the Division of Land Resources of such disapproval within 10 days. The City Engineer shall advise the applicant and the Director in writing as to the specific reasons that the plan was disapproved. The applicant may appeal the City Engineer's disapproval of the plan pursuant to Section 17 (h) of this ordinance directly to the Commission.

Section 18-19. Inspections and Investigations

- a. Agents, officials, or other qualified persons authorized by the City Engineer, will periodically inspect the sites of land-disturbing activity to determine compliance with the Act, this ordinance, or rules or orders adopted or issued pursuant to this ordinance, and to determine whether the activity is being conducted in accordance with an approved plan and whether the measures required in the plan are effective in controlling erosion and sediment resulting from land-disturbing activity. Notice of the right to inspect shall be included in the notification of plan approval.
- b. If, through inspection, it is determined that a person engaged in land-disturbing activity has failed to comply with the Act, this ordinance, or rules, or orders adopted or issued pursuant to this ordinance, or has failed to comply with an approved plan, a notice of violation shall be served upon that person by registered or certified mail or other means reasonably calculated to give actual notice. The notice shall set forth the measures necessary to achieve compliance with the plan, specify a reasonable time period within which such measures must be completed, and warn that failure to correct the violation within the time period will result in the assessment of a civil penalty or other enforcement action. However, no time period for compliance need be given for failure to submit an erosion control plan for approval or for obstructing, hampering or interfering with an authorized representative while in the process of carrying out his official duties. If the person engaged in land-disturbing activity fails to comply within the time specified, enforcement action shall be initiated.

- c. The City Engineer shall have the power to conduct such investigation as it may reasonably deem necessary to carry out its duties as prescribed in this ordinance, and for this purpose to enter at reasonable times upon any property, public or private, for the purpose of investigating and inspecting the sites of any land-disturbing activity.
No person shall refuse entry or access to any authorized representative or agent of the City Engineer who requests entry for purpose of inspection, and who presents appropriate credentials, nor shall any person obstruct, hamper, or interfere with any such representative while in the process of carrying out his official duties.
- d. The City Engineer shall also have the power to require written statements, or the filing of reports under oath, with respect to pertinent questions relating to land-disturbing activity.

Section 18-20. Penalties

a. Civil Penalties

- (1) Any person who violates any of the provisions of this ordinance, or rules or orders adopted or issued pursuant to this ordinance, or who initiates or continues a land-disturbing activity for which an erosion control plan is required except in accordance with the terms, conditions, and provisions of an approved plan, shall be subject to a civil penalty of not more than \$500, except that the penalty for failure to submit an erosion control plan shall be as provided in subdivision (3) of this subsection. No penalty shall be assessed until the person alleged to be in violation has been notified of the violation by registered or certified mail, return receipt requested, or other means reasonably calculated to give actual notice. The notice shall describe the violation with reasonable particularity, specify a reasonable time period within which the violation must be corrected, and warn that failure to correct the violation within the time period will result in the assessment of a civil penalty or other enforcement action. However, no time period for compliance need be given for failure to submit an erosion control plan for approval or for obstructing, hampering or interfering with an authorized representative while in the process of carrying out his official duties.

Each day of continuing violation shall constitute a separate violation.

- (2) The City Engineer of the City of Charlotte shall determine the amount of the civil penalty to be assessed under this subsection and shall make written demand for payment upon the person in violation, and shall set forth in detail a description of the violation for which the penalty has been imposed. In determining the amount of the penalty the degree and extent of harm caused by the violation and the cost of rectifying the damage shall be considered. Notice of the assessment shall be by registered or certified mail or other means reasonably calculated to give actual notice. If payment is not received or equitable settlement reached within 30 days after demand for payment is made the matter shall be referred to the City Attorney for institution of a civil action in the name of the City of Charlotte in the appropriate division of the General Courts of Justice for recovery of the penalty.
- (3) Any person who fails to submit an erosion control plan for approval as required by this ordinance shall be subject to a single, noncontinuing civil penalty of not more than one thousand dollars (\$1,000). Any person who is subject to a civil penalty under this subdivision may be subject to additional civil penalties for violation of any other provision of this ordinance, or rules or orders adopted or issued pursuant to this ordinance.
- (4) Civil penalties collected pursuant to this ordinance shall be used or disbursed as directed by G.S. 113A-64(a).

b. Criminal Penalties

Any person who knowingly or willfully violates any provision of this ordinance, or rule or order adopted or issued pursuant to this ordinance, or who knowingly or willfully initiates or continues a land-disturbing activity for which an erosion control plan is required except in accordance with the terms, conditions, and provisions of an approved plan, shall be guilty of a misdemeanor punishable by imprisonment not to exceed 90 days, or by a fine not to exceed \$5,000, or by both, in the discretion of the court.

Section 18-21. Injunctive Relief

- a. Whenever the City Engineer has reasonable cause to believe that any person is violating or threatening to violate this ordinance or any term, condition, or provision of an approved erosion control plan, he may, either before or after the institution of any other action or proceeding authorized by this ordinance, authorize the City Attorney to institute a civil action in the name of the City of Charlotte, for injunctive relief to restrain the violation or threatened violation. The action shall be brought in the Superior Court of Mecklenburg County.
- b. Upon determination by a court that an alleged violation is occurring or is threatened, it shall enter such orders or judgements as are necessary to abate the violation or to prevent the threatened violation. The institution of an action for injunctive relief under this section shall not relieve any party to such proceedings from any civil or criminal penalty prescribed for violations of this ordinance.

Section 18-22. Severability

If any section or sections of this ordinance is/are held to be invalid or unenforceable, all other sections shall nevertheless continue in full force and effect.

Section 18-23. Effective Date

This Ordinance shall be effective upon adoption.

Section 18-24. Revisions

The City of Charlotte shall incorporate revisions required by the Commission within 8 months following receipt of the required revisions. If standards and provisions of this ordinance currently meet or exceed the required revisions of the Commission shall be so notified within 90 days of their receipt."

Section 2. This ordinance shall become effective upon adoption.

ORDINANCE NO. 3132-X

AN ORDINANCE ORDERING THE DEMOLITION AND REMOVAL OF THE DWELLING AT 2418 LYDIA AVENUE PURSUANT TO THE HOUSING CODE OF THE CITY OF CHARLOTTE AND ARTICLE 19, PART 6, CHAPTER 160A OF THE GENERAL STATUTES OF NORTH CAROLINA, SAID BUILDING BEING THE PROPERTY OF THOMAS L. REID & W/JOANNE RESIDING AT 1824 CEPHAS STREET, NASHVILLE, TENNESSEE, 27308-1435.

WHEREAS, the dwelling located at 2417 Lydia Avenue in the City of Charlotte has been found by the Director of the Community Development Department to be unfit for human habitation and the owners thereof have been ordered to demolish and remove said dwelling, all pursuant to the Housing Code of the City of Charlotte and Article 19, Part 6, Chapter 160A of the General Statutes of North Carolina, and

WHEREAS, said owners have failed to comply with said order served by hand delivery on July 19, 1989 and by advertisement on January 2, 1991:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Charlotte, North Carolina, that the Director of the Community Development Department is hereby ordered to cause the demolition and removal of the dwelling located at 2419 Lydia Avenue in the City of Charlotte in accordance with the Housing Code of the City of Charlotte and Article 19, Part 6, Chapter 160A of the General Statutes of North Carolina.

APPROVED AS TO FORM:

CITY ATTORNEY

CERTIFICATION

I, PAT SHARKEY, City Clerk of the City of Charlotte, North Carolina, DO HEREBY CERTIFY that the foregoing is a true and exact copy of an Ordinance adopted by the City Council of the City of Charlotte, North Carolina, in regular session convened on the 25th day of March, 1991, the reference having been made in Minute Book 98, and recorded in full in Ordinance Book 40, at Page(s) 51.

WITNESS my hand and the corporate seal of the City of Charlotte, North Carolina, this the 28th day of March, 1991.

PAT SHARKEY, CITY CLERK

ORDINANCE NO. 3133-X

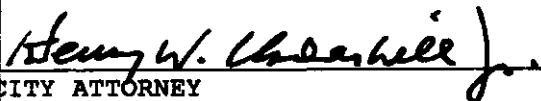

AN ORDINANCE ORDERING THE DEMOLITION AND REMOVAL OF THE DWELLING AT 1025-27 HARRILL STREET PURSUANT TO THE HOUSING CODE OF THE CITY OF CHARLOTTE AND ARTICLE 19, PART 6, CHAPTER 160A OF THE GENERAL STATUTES OF NORTH CAROLINA, SAID BUILDING BEING THE PROPERTY OF L. K. FARRAR & W/MARGUERITE RESIDING AT 1830 THE PLAZA, CHARLOTTE, NORTH CAROLINA, 28205.

WHEREAS, the dwelling located at 1025-27 Harrill Street in the City of Charlotte has been found by the Director of the Community Development Department to be unfit for human habitation and the owners thereof have been ordered to demolish and remove said dwelling, all pursuant to the Housing Code of the City of Charlotte and Article 19, Part 6, Chapter 160A of the General Statutes of North Carolina, and

WHEREAS, said owners have failed to comply with said order served by registered mail on November 27, 1989 and by hand delivery on December 18, 1990:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Charlotte, North Carolina, that the Director of the Community Development Department is hereby ordered to cause the demolition and removal of the dwelling located at 1025-27 Harrill Street in the City of Charlotte in accordance with the Housing Code of the City of Charlotte and Article 19, Part 6, Chapter 160A of the General Statutes of North Carolina.

PAT SHARKEY, CITY CLERK

ORDINANCE NO. 3137-X

AN ORDINANCE ORDERING THE DEMOLITION AND REMOVAL OF THE DWELLING AT 528 E. 18TH STREET PURSUANT TO THE HOUSING CODE OF THE CITY OF CHARLOTTE AND ARTICLE 19, PART 6, CHAPTER 160A OF THE GENERAL STATUTES OF NORTH CAROLINA, SAID BUILDING BEING THE PROPERTY OF KURTIS H. JOYNER RESIDING AT 4301 CRAIG AVENUE, CHARLOTTE, NORTH CAROLINA, 28214.

WHEREAS, the dwelling located at 528 E. 18th Street in the City of Charlotte has been found by the Director of the Community Development Department to be unfit for human habitation and the owners thereof have been ordered to demolish and remove said dwelling, all pursuant to the Housing Code of the City of Charlotte and Article 19, Part 6, Chapter 160A of the General Statutes of North Carolina, and

WHEREAS, said owners have failed to comply with said order served by registered mail on June 14, 1990 and advertised on October 26, 1990:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Charlotte, North Carolina, that the Director of the Community Development Department is hereby ordered to cause the demolition and removal of the dwelling located at 528 E. 18th Street in the City of Charlotte in accordance with the Housing Code of the City of Charlotte and Article 19, Part 6, Chapter 160A of the General Statutes of North Carolina.

APPROVED AS TO FORM:

Henry W. Underhill Jr.

CITY ATTORNEY
