CABARRUS AND MECKLENBURG COUNTIES

Amendment No. 6 to Water and Sewer Agreement

A. Introduction

The Water and Sewer Authority of Cabarrus County ("WSACC") and the City of Charlotte ("CITY") entered into a Water and Sewer Agreement (as amended, "AGREEMENT") on June 13, 1996, whereby the CITY would construct certain sanitary sewer lines along Rocky River and whereby WSACC would accept and treat wastewater discharged into those lines from the Charlotte Water Wastewater Collection System. This is Amendment No. 6 ("AMENDMENT"), which is proposed and if approved, would be executed in accordance with the provisions of Paragraph 23(f) of the AGREEMENT.

WSACC and the CITY agree that it is in the best interests of their respective citizens and sewer customers to construct certain sanitary sewer interceptors. Part B describes the provisions and amendments to the AGREEMENT including apportionment of Project Costs and capacities, as defined in the AGREEMENT; Part C describes the implementation and scheduling responsibilities; Part D describes the Project Management responsibilities; Part E describes project ownership; Part F describes project capacity allocations; Part G describes the Industrial Pretreatment Program; and Part H describes the Terms of the AMENDMENT.

B. Sanitary Sewer Interceptors

The Upper Back Creek Parallel Interceptor and Extension ("PROJECT") consist of paralleling of the existing Back Creek Interceptor from the confluence of the Back and Fuda creeks to the end of the current Back Creek Interceptor. The extension will extend the PROJECT to approximately 1,000 feet beyond the Cabarrus County line into Mecklenburg County, terminating at the Back Creek Pumping Station in Mecklenburg County. The parallel and extension portions of the PROJECT will be designed, bid, and built as one project.

The PROJECT will collect and transmit wastewater generated in both Cabarrus and Mecklenburg Counties. The CITY and WSACC agree to share in the overall PROJECT costs based on projected sewer flows in a study completed by Black & Veatch as shown in Exhibit 1. This study assigned a prorata share of eighty-three percent (83%) for the CITY and seventeen percent (17%) for WSACC:

1. For the PROJECT, the CITY agrees to pay for eighty-three percent (83%) of the total PROJECT costs, with the exception of property acquisition cost within Mecklenburg County, which the CITY agrees to pay at the CITY's sole cost and expense. WSACC agrees to pay for the remaining seventeen percent (17%) of the total PROJECT costs.

2. The CITY, at the CITY's sole cost and expense, agrees to acquire the necessary property for the construction of the PROJECT within Mecklenburg County outside of the total PROJECT costs.
3. WSACC anticipates using System Development Fees to fund its share of the project. During design and construction, WSACC will prepare an invoice for the CITY, and the CITY will be responsible for reimbursing WSACC for the CITY's share of the costs within 30 days. A final accounting and settlement will be conducted between WSACC and the CITY at the end of the PROJECT.

C. Implementation

WSACC will construct the PROJECT using a public bidding process in accordance with all applicable laws and regulations. The CITY and WSACC anticipate that the construction of the PROJECT will be completed by January 2022.

The approval of any construction contract for the PROJECT by the CITY is required as described in Paragraph 8(d) of the AGREEMENT. WSACC will provide for design, permitting, contract administration, construction inspection, and any other services required for the construction projects. The CITY will pay for its share of the project costs within 30 days of receiving the WSACC invoices for these services. WSACC will not invoice for these services more frequently than monthly.

WSACC will provide for right-of-way acquisition for the PROJECT in Cabarrus County. The CITY will provide for right-of-way acquisition for the PROJECT in Mecklenburg County. WSACC and the CITY will acquire rights-of-way for the PROJECT in a timely manner according to a schedule agreed upon by the Directors for WSACC and Charlotte Water.

WSACC will design the PROJECT to WSACC standards and design criteria in Cabarrus County. This equates to using 2045 population projections and a 10-year design storm on the basin to calculate peak flows.

WSACC will submit to the CITY, upon reasonable request, copies of all bid proposals, contracts, pay requests, invoices, inspection reports, other reports, or any other information that WSACC may have related to the construction of the PROJECT.

D. Project Management

WSACC will select the consultant to design and manage the construction of the PROJECT inside both Cabarrus County and Mecklenburg County. The CITY agrees to participate in the selection process of the design consultant(s). The contracts with consultants shall be negotiated and held by WSACC with input from the CITY and subject to timely approval by Charlotte Water's Director. This approval shall not be unreasonably withheld.

The CITY and WSACC agree that both entities will participate in all Project Management activities for which project costs will be incurred.

E. Ownership

The PROJECT, located within Cabarrus County and Mecklenburg County, will involve joint ownership by the CITY and WSACC of Interceptor capacity with the CITY's allocation being eighty-three percent (83%) and seventeen percent (17%) being owned by WSACC.

Upon substantial completion of construction of the facilities, WSACC will retain record title ownership of one hundred percent (100%) of the substantially completed facilities and associated rights-of-way located in Cabarrus County.

The portion of the PROJECT located in Mecklenburg County will be owned by the CITY.

F. Capacity Allocation and Availability

No additional treatment capacity allocation in the Rocky River Regional Wastewater Treatment Plant will be granted to the CITY in this AMENDMENT.

It shall remain WSACC's responsibility to accept up to a combined 6.0 MGD of wastewater at the county line from all CITY interceptor lines and transport for treatment.

G. Industrial Pretreatment Program

The CITY agrees that industrial wastewater shall not be discharged into the PROJECT system without prior WSACC approval. Therefore, WSACC shall include the wastewater from Mecklenburg County in the PROJECT in its Industrial Pretreatment Permit (the "PRETREATMENT PERMIT") issued to the CITY. If the CITY has an industrial customer desiring service in the PROJECT basin, the CITY may apply to WSACC to include the flow in the PRETREATMENT PERMIT. WSACC will include such flow in the PRETREATMENT PERMIT consistent with the CITY's capacity rights in the Rocky River Regional Wastewater Treatment Plant, as such rights exist at the time of the application, and consistent with other pretreatment permits issued by WSACC.

H. Terms of the Amendment

All of the definitions in Paragraph 2 of the AGREEMENT apply to this AMENDMENT and are incorporated herewith.

Except as expressly set forth herein, this AMENDMENT does not alter or otherwise modify any of the rights, terms, or conditions set forth in the AGREEMENT or AMENDMENTS No. 1, No. 2, No. 3, No. 4 or No. 5, including but not limited to, the

Rocky River Regional Wastewater Treatment Plant, the Rocky River Interceptor, Charlotte Water Treatment Allocation, payment for treatment services, construction obligations, provision for future parallel sewers or any other provisions.

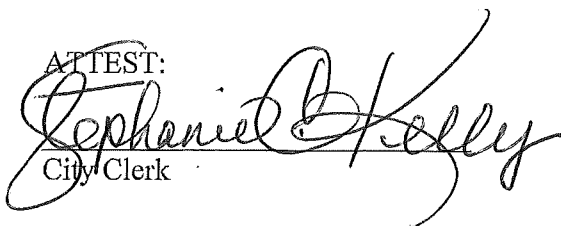

The provisions of the AMENDMENT shall apply solely to the design and construction of the PROJECT, and shall not have the effect of amending the AGREEMENT, as it applies to other project costs or other financed facilities.
