Article 15. Use Regulations

- 15.1 GENERAL USE REGULATIONS**
- 15.2 GLOBAL USE MATRIX**
- 15.3 USE DEFINITIONS**
- 15.4 PRINCIPAL USES: PRESCRIBED CONDITIONS**
- 15.5 TEMPORARY USES: PRESCRIBED CONDITIONS**
- 15.6 ACCESSORY USES: PRESCRIBED CONDITIONS**

15.1 GENERAL USE REGULATIONS

A. No structure or land may be used or occupied unless allowed as a permitted, temporary, or accessory use within the zoning district. These use regulations apply to the use of private property, including City-owned property, but exclude the right-of-way.

B. All uses shall comply with any applicable federal and state requirements, and any additional federal, state, county, and/or city ordinances.

C. Principal uses are defined to be inclusive of specific uses. The following regulations apply:

1. When a use meets a specific definition, it is regulated as such and cannot be regulated as part of a more inclusive use category.
2. A use that is not explicitly listed in the use matrix will be evaluated by the Zoning Administrator to determine if the use is part of a use listed.
3. A use that is not listed in the use matrix and cannot be interpreted as part of a use listed in the use matrix is prohibited.

D. All uses shall comply with any prescribed conditions as applicable. Prescribed conditions apply to certain uses within the use matrix to address additional impacts, apply specific design or siting standards, and/or link to additional regulations outside this Ordinance.

15.2 GLOBAL USE MATRIX

A. Table 15-1: Use Matrix identifies the permitted, temporary, and accessory uses allowed within each zoning district. Uses are defined in Section 15.3.

B. Table 15-1 shall be applied as follows:

1. An "X" indicates that the use is permitted by-right in the zoning district.
2. A "PC" indicates that the use is allowed in the zoning district and shall comply with the prescribed conditions of this Article (Sections 15.4 through 15.6).
3. A "C" indicates that the use shall require a conditional zoning (Section 37.2).
4. A "C/PC" indicates that the use shall comply with the prescribed conditions of this Article (Sections 15.4 through 15.6) and also shall require a conditional zoning (Section 37.2).
5. A shaded blank cell indicates the use is not allowed in the zoning district.

2. Standards for Wireless Telecommunications Towers

- a.** The maximum height of a wireless telecommunications tower is the minimum needed to function satisfactorily, evidence of which shall be provided to the Zoning Administrator.
- b.** All wireless communication towers located in a Neighborhood 1 or Neighborhood 2 Zoning District or within 400 feet of a lot within a Neighborhood 1 or Neighborhood 2 Place Type shall be required to meet concealment standards. Such concealment methods are encouraged in all zoning districts. Wireless communication towers are considered to meet concealment standards as follows:

i. Canister Design

All antennas on the tower shall be encased within canisters with the following provisions:

- (A)** The canisters shall be of a diameter no greater than 12 feet and all canisters shall be the same diameter.
- (B)** There shall be an under mount on the canisters that screens the view of the antennas from the ground.
- (C)** The tower and canisters shall be painted or constructed of the same color.

ii. Tree Design

The tower may be designed as a tree to blend with more natural surroundings. At a minimum the following standards shall be met:

- (A)** Branches of the tree design shall screen antennas and shall extend 12 inches beyond the edge of the antennas.
- (B)** Mounts and antennas shall be painted green to match the branches.

- c.** All wireless communication towers shall meet the following setback requirements:

- i.** When located in a Neighborhood 1 or Neighborhood 2 Zoning District or when abutting a lot within a Neighborhood 1 or Neighborhood 2 Place Type, towers shall be setback from all lot lines a minimum of 110% of the tower height.
 - ii.** In all other locations, towers shall meet the setback of the zoning district.
- d.** Wireless communication towers are prohibited as a second principal use on any lot that contains a single-family, duplex, triplex, or quadraplex dwelling.
 - e.** All towers shall be designed and equipped with the technological and structural capability to accommodate multiple wireless communications carriers for towers. At a minimum, colocation capability is required as follows:
 - i.** For towers up to 150 in height: A minimum of two carriers
 - ii.** For towers over 150 in height: A minimum of three carriers

- f. All wireless telecommunication towers shall be monopole construction and be painted or constructed of a neutral color that blends in with the sky including, but not limited to, galvanized silver or gray finish.
- g. The use of guyed towers is prohibited. Towers shall be monopoles, meaning self-supporting with no wires, cables, or beams.

3. Standards for Wireless Telecommunications Antennas

- a. Wireless communication antennas are permitted atop any building or structure, with the exception of prohibited on single-family, duplex, triplex, or quadraplex dwellings.
- b. No wireless communication antenna may extend more than 20 feet above the roof of the structure.
- c. Wireless telecommunication antennas on a tower shall be mounted at least 30 feet above grade, as measured to the base of the antenna.
- d. All wireless communication antennas located in a Neighborhood 1 or Neighborhood 2 Zoning District or within 400 feet of a lot within a Neighborhood 1 or Neighborhood 2 Place Type shall be required to meet concealment standards. Such concealment methods are encouraged in all zoning districts. Wireless communication antennas are considered to meet concealment standards as follows:

i. Stealth Design

(A) Wireless telecommunications antennas shall be enclosed, camouflaged, screened, obscured, or otherwise not readily apparent to a casual observer.

(B) Wireless telecommunication antennas shall be located on or in structures already permitted within zoning districts, such as water towers, clock towers, streetlights, penthouses, parapet walls (shall be behind the parapet wall), and steeples, and shall be designed to blend in with the structure.

ii. Colocation

(A) Antennas that colocate on existing wireless telecommunications towers are considered to meet the requirement of concealment. However, such antennas cannot increase the overall height of the existing wireless telecommunications tower.

(B) Antennas that colocate may be mounted in the same manner as other antennas on the tower. Where antennas are located within canisters on a tower, new antennas that colocate on the tower shall be within canisters (see item 2 above).

4. Standards for Wireless Telecommunications Facilities

- a. Wireless telecommunication facilities shall be limited to 500 square feet in gross floor area and 15 feet in height. The building height limitation may be waived by the Zoning Administrator up to a maximum height of 25 feet in order to accommodate architectural design, screening, or similar special needs.
