Annual Comprehensive Financial Report 2025

December 23, 2025

Honorable Mayor and Members of City Council, and Residents of Charlotte, North Carolina,

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the City of Charlotte, North Carolina for the fiscal year ended June 30, 2025. The ACFR is provided to give detailed information about the financial position of the city to residents, City Council, staff, and other readers.

Management is responsible for both the accuracy of the presented data and the completeness and fairness of the presentations, including all disclosures. The financial statements have been prepared by the Finance Department in accordance with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

State law requires that all general-purpose local governments annually publish a complete set of financial statements. The city's financial statements, as required by North Carolina General Statute 159-34, have been audited by Cherry Bekaert LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements are free of material misstatement. The independent auditor concluded that there is sufficient audit evidence for rendering an unmodified opinion that the financial statements for the fiscal year that ended June 30, 2025, are fairly presented in accordance with GAAP. The report of independent auditor is presented as the first component of the financial section of this report.

Additionally, the independent audit of the city's financial statements is part of a broader federal and state mandated "Single Audit" designed to meet the special needs of federal and state grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal and state awards. These reports are available in the Single Audit section at the end of this report.

Management's discussion and analysis (MD&A) immediately follows the report of independent auditor. It provides a narrative introduction, overview and analysis to accompany the basic financial statements. This letter of transmittal is intended to complement the MD&A and should be read in conjunction with it.

City management is responsible for establishing, implementing, and maintaining a framework of internal controls designed to ensure that city assets are protected from loss, theft, or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The city's comprehensive framework of

internal controls provides reasonable – rather than absolute – assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

## ABOUT CHARLOTTE

*Charlotte is America's Queen City, opening her arms to a diverse and inclusive community of residents, businesses, and visitors alike; a safe family-oriented city where people work together to help everyone thrive.*

The City of Charlotte, located in Mecklenburg County, is in the Piedmont region of North Carolina and centered between the Appalachian Mountains and the Atlantic Ocean. Incorporated in 1768, Charlotte became the county seat of Mecklenburg County in 1774. With an estimated population of 1,069,485 Charlotte is the most populous city in North Carolina and the 14<sup>th</sup> largest city in the nation.

Since 1929, the City of Charlotte has had a Council-Manager form of government. Policy-making and legislative authority are vested in a governing body consisting of a Mayor and eleven City Council members who are elected every two years on a partisan basis. The Mayor and four Council members are elected at-large by a citywide vote. The remaining seven Council members are elected by district, from voters who reside in each district. The Mayor and Council are responsible for appointing the City Manager, City Attorney, City Clerk, and members of various boards and commissions. The Council appropriates the annual budget, sets the tax rate and approves the financing of all city operations and capital investments. The City Manager is responsible for carrying out policies and ordinances and directs the daily operations and programs of the city.

The mission of the City of Charlotte is to ensure the delivery of a full range of quality public services and to promote the safety, health and quality of life of its citizens. The city provides services including police and fire protection; street construction and maintenance; solid waste services; water and sewer utilities; storm water management; airport facilities management; and public transit services.

The city is also financially accountable for other organizations that are reported as component units. This financial accountability is determined in accordance with criteria established by the Governmental Accounting Standards Board (GASB):

- The [Charlotte Firefighters' Retirement System](#), a blended fiduciary component unit, is presented as a Pension Trust Fund.
- The [Charlotte Regional Visitors Authority](#) is reported as a discretely presented component unit.
- The [Transit Management of Charlotte \(TMOC\)](#), which assists with the administration and operation of certain transit services for CATS, is included as a blended component unit due to the city's financial accountability.

Additional information on these, and other legally separate entities and the reporting entity can be found in Note 1.a. in the Notes to the Financial Statements.

The Annual Adopted Budget and Capital Investment Plan (CIP) are foundational to Charlotte's financial planning and fiscal control, affirming the city's key strategic priorities for fiscal year 2025 of Well Managed Government, focused on equity, engagement, and the environment; Great Neighborhoods; Safe Communities; Transportation and Planning; and Workforce and Business Development and documenting the allocation of resources to fund operations and capital projects based on organizational focus and strategy. To better inform the city's top budget priorities, the budget process includes community and employee engagement activities to identify areas of concern, increase collaboration across departments, and to seek feedback on operations. No later than June 30 of each year, Council adopts a final Budget and CIP.

Budget-to-actual comparisons are provided in this ACFR for each fund for which an appropriated annual budget has been adopted. The general fund comparison is presented as part of the basic financial statements. Regarding other funds with annual and project-length budgets, detailed budget-to-actual comparisons are presented in the Required Supplementary Information and Combining and Individual Fund Statements and Schedules section of this report. Additional information on the budget can be found in the MD&A and Note 3 in the notes to the financial statements.

## LOCAL ECONOMY

The Charlotte region plays a pivotal role in the state's economy. The Charlotte region is the largest in the Carolinas, ranking 21st in the U.S. for total output and accounts for about 32 percent of the total output for the Carolinas. The Charlotte Metropolitan Statistical Area (MSA) nonfarm employment increased year-over-year in August 2024 by 1.8 percent (adding 24,200 jobs) to 1.38 million jobs from 1.36 million jobs in August 2023. These 24,200 added jobs represent about 32.6 percent of the state's total job gain over the period. It is one of the fastest-growing areas in the country, with more than 157 people moving to the region every day and the vast majority being of prime working age. This robust talent pipeline, nurtured by nationally renowned universities, colleges, and community colleges, ensures access to a skilled workforce capable of driving innovation and growth.

The city's strong financial foundation allowed it to allocate two-thirds of the federal COVID-19 Relief Funds received to directly support our community. Charlotte was allocated \$141.6 million in Local Fiscal Recovery Funds through the American Rescue Plan ACT (ARPA), receiving \$70.8 million in May of 2021 and \$70.8 million in June 2022. Charlotte engaged in deliberate planning with key community stakeholders to use these funds guided by City Council's priorities to balance the immediate needs of the city along with making long-term transformational investments for Charlotte's future. Through this framework the city identified four primary categories of investments: Workforce and Economic Development (\$32.7 million), Housing (\$47 million), Community Vitality (\$31 million), and City Operations (\$30.9 million).

**Business Environment.** According to a 2025 study by CNBC, North Carolina ranked as the number 1 state for business. The Charlotte region stands out as a premier location for corporate headquarters. Located in the heart of the Southeastern United States, the region has established itself as a significant business hub with a diverse economy. Its strategic positioning and robust transportation infrastructure make it an attractive option for companies looking to set up their headquarters in a vibrant and accessible city. The Charlotte area houses seven companies from the Fortune 500 list, according to the June 2025 rankings by Fortune Magazine. There are 19 Fortune 1000 companies in the broader Charlotte region.

The Charlotte area's seven Fortune 500 companies include Bank of America, Lowe's, Honeywell, Nucor, Truist Financial, Duke Energy and Sonic Automotive. Charlotte is also home to two of the top ten largest banks' headquarters and ranks as the nation's second largest banking center. Bank of America Corporation, the nation's second largest bank with \$2.62 trillion in consolidated assets, and Truist Financial, the nation's eighth largest bank, with \$527.5 billion are headquartered in Charlotte. Charlotte's strength as a banking headquarters city is foundational to the region's economic success.

In May 2024, community lenders, local corporate partners and the city launched one of the largest non-pandemic access to capital opportunities directed at small businesses in the history of Charlotte. Charlotte Small Business Growth Fund aims to provide \$40 million in loans to more than 2,000 underserved small businesses over the next four years. Nearly 40 percent of Charlotte's small businesses are minority-owned, making it an economic imperative to expand access to capital for these entrepreneurs.

The 1,400 acre The River District in West Charlotte, the largest undeveloped tract in the area and a transformational master planned community, has achieved meaningful milestones as of FY 2025. Foundational infrastructure such as roadways, water and sewer systems are now in place, while vertical construction has commenced with the 318 unit "NOVEL River District" apartment complex expected to welcome residents in early 2026. Concurrently, home builders have closed on initial lots for single family homes and townhomes in the first phase, Westrow, of the District. The project continues to reflect strong sustainability ambitions, earning an international "One Planet Living Leader" designation for its integration of over 500 acres of preserved green space, trails, and river access. At full build out, the community is designed to include approximately 2,300 single family homes, 2,350 multifamily units, up to 8 million square feet of commercial space, and 500,000 square feet of retail.

**Transportation and Distribution Hub.** Location and infrastructure combine with a robust production workforce to make Charlotte an ideal region for transportation, distribution, and logistics operations. The Charlotte region is strategically located between major ports and inland cities, and the region's location allows for two-day truck delivery to Miami, New York, and Chicago. Transportation assets in the region include Charlotte-Douglas International Airport, four interstate highways (I-85, I-77, I-485, and I-40), an inland terminal, and two intermodal facilities. Charlotte is also the center of the country's largest consolidated rail system with two major railroads, Norfolk Southern Railway and CSX Transportation.

Foundational to the economic success of the Charlotte region, Charlotte Douglas International Airport (CLT) is the top economic engine among North Carolina airports, according to the NCDOT Division of Aviation. In 2023, CLT served about 53 million passengers, supported 184,400 jobs, and produced around \$39.7 billion in economic output for North and South Carolina combined of which over \$36.6 billion in output and about 167,000 jobs were in North Carolina alone.

In 2024, CLT recorded 596,583 aircraft movements (takeoffs and landings), and reflects an 11 percent increase over 2023, placing it 6th globally for aircraft operations according to ACI's preliminary rankings.

Also in 2024, CLT was recognized by the Air Transport Research Society's Global Airport Performance Benchmarking Task Force as the most financially efficient airport in North America, reflecting strong performance in costs, productivity, and efficiency among 205 airports in North America, Asia Pacific, and Europe.

Part of guiding the Charlotte-Mecklenburg region's growth is managing traffic and congestion through new transportation investments, including the Red Line commuter rail. On September 9, 2024, the City of Charlotte finalized a \$91 million purchase of about 22 miles of Norfolk Southern's O-Line corridor and property at Charlotte Gateway Station, a milestone for the project. The Red Line remains a key component of the region's Transit System Plan, adopted in May 2025, which also calls for a 50 percent increase in bus service and 43 miles of new rapid-transit rail. A design update is in progress, reassessing station locations, Uptown connections, and vehicle technology. The proposed line would extend about 25 miles from Uptown Charlotte through Huntersville, Cornelius, and Davidson, with potential extension into southern Iredell County. Funding is supported by a one-cent transit sales tax authorized by the P.A.V.E. Act, signed in July 2025. Mecklenburg County voters approved the measure on November 4, 2025, which is projected to generate more than \$19 billion over 30 years to support transit, roads, and bus service.

In addition to funding, the P.A.V.E. Act authorized the creation of the Metropolitan Public Transportation Authority (MPTA), a new regional governance entity that will finance, operate, and maintain a safe, reliable, efficient, and environmentally sound public transportation system for Mecklenburg County. The MPTA is composed of a 27-member board with appointments by the City of Charlotte, Mecklenburg County, the county's towns, state leadership, and others, and will oversee the build-out of the future transit system.

With the establishment of the MPTA following voter approval of the sales tax, the Charlotte Area Transit System (CATS)—currently a department of the City of Charlotte that operates existing bus, rail, and streetcar services—will transition to the MPTA as the operating authority for existing services and the delivery of future transit projects. This governance shift is expected to provide a more coordinated, countywide approach to transit planning and operations. The Charlotte Gateway Station will serve as a hub for the Red Line, Amtrak, buses, the CityLYNX Gold Line, and future light-rail projects. NCDOT is evaluating a temporary early station to allow service before the full Gateway Station complex is complete. With voter approval of the sales tax and funding now secured, construction will proceed in phases, with service unlikely before the early 2030s.

**Recreational, Visitor and Cultural Center.** A healthy tourism sector raises the region's profile with visitors, showcases the community's southern hospitality, helps support broader economic development initiatives, upward mobility, and revenue to invest in our community. In fiscal year (FY) 2024, visitors to Mecklenburg County spent an estimated \$6.4 billion, an 8.9 percent increase over 2023. Tourism supported 37,969 jobs and generated \$2.09 billion in payroll, along with \$219.3 million in state taxes and \$200.1 million in local taxes. The Charlotte Regional Visitors Authority's activities in FY 2024 generated approximately \$1.1 billion in economic impact.

Charlotte continues to be a premier destination for tourism, conventions, and special events, including:

- National sports with the Carolina Panthers (NFL) and Charlotte Football Club (MLS) at Bank of America Stadium and the Charlotte Hornets (NBA) at the Spectrum Center
- Minor League Baseball (MiLB) with the Charlotte Knights (a Triple-A affiliate of the Chicago White Sox) at Truist Field and minor-league hockey with the Charlotte Checkers (a minor league affiliate of the NHL's Florida Panthers) at Bojangles' Coliseum
- Other teams including women's professional soccer with the Carolina Ascent FC, one of eight inaugural franchises to launch with the USL Super League in 2024, Anthem Rugby Carolina (RC) of Major League Rugby (MLR), and Carolina Chaos of Premier Lacrosse League
- Art, culture, and science at the Bechtler Museum of Modern Art; the Knight Theater; the Harvey B. Gantt Center for African American Arts & Culture; the Mint Museum; the North Carolina Blumenthal Center for Performing Arts; the Charlotte Nature Museum; and the Discovery Place Museum.
- Charlotte Convention Center, welcoming visitors and guests to conventions and trade shows, assemblies, consumer shows, and local events.
- NASCAR Hall of Fame, a signature, must-experience iconic landmark serving as the recognized home for honoring NASCAR's legends, evolving history, celebrated heritage and family-oriented traditions.

**Long-term Financial Planning.** The city's Capital Investment Plan (CIP) for long-term capital infrastructure is a multi-year plan that makes investments to support the growth and vitality of the community and the quality of life. Consistent with best practices, the city annually proposes a five-year CIP. The first year of the plan is adopted by City Council while the remaining four years are provided as a plan.

Affordability for capital projects is determined annually using comprehensive debt models that evaluate revenues dedicated to capital and future debt service requirements. The models specify the ability to issue debt that can be fully repaid with existing or planned revenues.

**Financial Policies.** The City of Charlotte has a history of sound fiscal policy and practices and has consistently held AAA ratings for over 48 years, since 1977. The city adopts a comprehensive set of financial policies to ensure that financial resources are managed in a prudent manner and to provide a foundation for financial sustainability. Compliance with these policies is

reviewed annually as part of the budget process. The policies are published in the Annual Adopted Budget and Capital Investment Plan. The city maintains a structurally balanced budget to achieve long-term financial stability for the community.

Charlotte also adheres to management practices designed to maintain diverse revenue sources and sound financial results. The city regularly evaluates and sets fees at levels designed to support the full costs of services; amortizes at least 50 percent of principal for general government general obligation debt and certificates of participation in the first ten years; and retains General Fund balance at 16 percent of expenditures.

## MAJOR INITIATIVES

The FY 2026 budget advances City Council's priorities, strengthens city programs, ensures delivery of core services, enhances employee compensation, and fosters collaboration across Team Charlotte. It was developed without a property tax increase, with supplemental adjustments funded by one-time American Rescue Plan Act (ARPA) revenue replacement funds.

**Reviewing Services for Alignment and Further Efficiencies.** As part of the FY 2026 budget planning, the City of Charlotte has prioritized operational efficiency, service alignment, and organizational realignments to better meet community needs. More than \$7 million in new efficiencies were identified through advances in technology, updated fees, and optimized service delivery. Several key structural changes are proposed, including the integration of Procurement Services and Charlotte Business Inclusion into a new Contracting and Procurement department, which will strengthen vendor outreach, promote small business participation, and improve contract monitoring. Other realignments include moving the city's Economist to the Economic Development department and transitioning the Office of Constituent Services under the Office of Mayor and City Council for closer alignment with elected officials. Additionally, a new Organizational Improvement Team will be established to streamline operations and improve customer satisfaction.

**Animal Care and Control.** As part of the FY 2026 budget, Animal Care and Control will transition from the Police Department to General Services to better reflect its civilian-led operations and to leverage administrative and operational support. A major capital investment of \$30 million is planned for a new satellite adoption center at South Tryon Street, with \$7.5 million allocated in FY 2026 toward design and development. This facility will expand capacity with dedicated space for dogs, cats, small pets, and kittens, strengthening Charlotte's commitment to animal welfare.

**Supporting Public Safety Operations.** Public safety remains a central focus, with recurring investments in communication equipment, fire engines, police vehicles, and specialty apparatus to keep pace with population growth and community expectations. The city is advancing its \$107 million firehouse expansion program, with new facilities opening in Hidden Valley, Beam Road, and the River District in FY 2026. Charlotte's first all-electric fire engine will also be deployed that year. Investments in training facilities, including a proposed Commercial Burn Building, will enhance firefighter preparedness. Staffing expansions include a new Fire Investigator and two Emergency Planners to bolster emergency management capabilities.

In addition, the FY 2026 budget strengthens Charlotte-Mecklenburg Police Department (CMPD) and Charlotte Fire Department staffing and retention through the Public Safety Pay Plan, which provides a 6.5% pay increase—including step progression—for most sworn Police and Fire employees not at the top pay step. Employees at the top step receive a 1.5% market adjustment in September and a 1.5% lump-sum payment, for a total of 3%. These investments support competitiveness in recruitment and retention while ensuring the City maintains a highly trained, professional public safety workforce.

Together, these initiatives strengthen core services, support growth, and ensure Charlotte is positioned to deliver safe, efficient, and modern public safety services.

**Maintaining a Focus on Workforce Development and Small Business.** The City of Charlotte is continuing its commitment to workforce development and small business support in FY 2026. Building on the 2025–2029 Workforce Development Strategic Plan, \$2.7 million in remaining American Rescue Plan Act funds will be used to strengthen career pathways, close skills gaps, and target industries tied to mobility investment. An additional \$900,000 from the Corridors of Opportunity program will also support workforce development initiatives. The Education to Employment (E2E) Program will continue, giving CMS graduates access to full-time, entry-level city jobs with pay and benefits across eight departments.

To further support economic growth, the city will launch a Small Business Readiness Fund with \$1.5 million to help locally owned businesses build capacity and compete for contracts in high-growth industries. Existing programs such as AMP Up Charlotte and NXT|CLT, which provide resources and education for minority- and women-owned businesses, will continue with \$450,000 in funding. Together, these initiatives reinforce Charlotte’s focus on creating equitable career opportunities and supporting small business participation in the city’s economic future.

**Moving Mobility Forward.** Charlotte is reinforcing its commitment to safe, affordable housing, economic mobility, and accessible transportation by prioritizing investments in mobility. The Strategic Mobility Plan, developed over the past three years, serves as a blueprint for addressing transportation needs and guiding investments where they will have the greatest community impact. The plan emphasizes safe, walkable neighborhoods, expanded mobility options, and reduced congestion. Its implementation strategy focuses on urgency and delivering projects quickly to meet today’s needs while also preparing for long-term growth.

In FY 2025 City Council adopted, and voters approved a Transportation Bond that provides \$55 million for Strategic Investment Areas (SIAs). Within months, all bond funding was programmed into two SIAs, with sidewalk construction beginning in early 2025. The initiative also emphasizes equity by engaging minority-women, and small-owned businesses in upcoming opportunities. By aligning departments under a shared strategy and accelerating project delivery, the city is positioning itself to manage future large-scale investments and ensure mobility improvements directly benefit Charlotte’s communities.

**Succeeding with Sustainability.** Over the past six years, Charlotte has built a strong foundation for its Strategic Energy Action Plan (SEAP), using lessons from early implementation, updated science, and evolving technology and policy. In FY 2025, the plan now called SEAP+ was refreshed with expanded public and advisory engagement, revised municipal energy goals, the addition of a renewable energy generation target, and interim milestones set for 2030 and 2035, with an overall goal of 2050. A new fourth focus area was also introduced, emphasizing system-wide connections such as waste reduction, data sharing, tree canopy preservation, water conservation, and community resilience.

In FY 2026, the Office of Sustainability will continue advancing SEAP+ by strengthening collaboration across city departments, partnering with community organizations, and engaging residents to drive progress. The plan will also emphasize efficiency by linking city service inputs and outputs to Council’s broader priorities. To support this work, the city is committing \$2.75 million (\$250,000 PAYGO and \$2.5 million in Certificates of Participation (COPS) funding) in FY 2026, reinforcing Charlotte’s commitment to sustainability and long-term resilience.

**Corridors of Opportunity .** The Corridors of Opportunity program, launched in 2020, has become a catalyst for community investment and revitalization. By leveraging federal funding, private partnerships, and neighborhood engagement, the program has generated a return of \$1.71 for every \$1.00 of city investment. In FY 2025, City Council allocated \$5 million to be used over two years to continue this work. For FY 2026, \$500,000 will be invested along Beatties Ford Road, supporting projects such as bicycle connections, new sidewalks, planting strips, pedestrian improvements, and safer intersections.

**Affordable Housing.** The 2024 \$100 million Housing Bond represents a landmark investment and a new direction for affordable housing in Charlotte. As the largest bond of its kind ever approved by voters, it will expand housing production, add thousands of new units, and broaden the types of housing and services available to residents. Unlike previous housing bonds that focused mainly on multi-family construction, this bond introduces a more holistic approach that includes supportive services to promote resident health, stability, and long-term development.

Adopted by City Council in Fall 2024, the investment is distributed across several priorities. These include \$35 million for rental housing production, \$25 million to expand homeownership opportunities, and \$14 million for rental housing preservation and anti-displacement efforts. The bond also provides \$9 million for supportive housing and shelter capacity, \$5 million for rehabilitation and emergency repair, \$5 million for an innovation pilot fund, \$5 million for site acquisition, and \$2 million for administration and evaluation.

## AWARDS AND ACKNOWLEDGMENTS

For the 40<sup>th</sup> consecutive year, the City of Charlotte received the Government Finance Officers Association of the United States and Canada (GFOA) Certificate of Achievement for Excellence in Financial Reporting for the city’s annual comprehensive financial report (ACFR) for the fiscal year ended June 30, 2024. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR that satisfies both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year

only. We are confident that the city's fiscal year 2025 ACFR also meets the Certificate of Achievement Program's requirements and will be submitting it to the GFOA for consideration of another award.

For the eleventh consecutive year, the Government Finance Officers Association of the United States and Canada presented a Distinguished Budget Presentation Award to City of Charlotte, North Carolina, for its Annual Budget for the fiscal year beginning July 1, 2024. To receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device. The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Government Finance Officers Association of the United States and Canada has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to City of Charlotte, North Carolina for its Popular Annual Financial Report for the fiscal year ended June 30, 2023. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability, and reader appeal. An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year only. City of Charlotte, North Carolina has received a Popular Award for the last three consecutive years (fiscal years ended 2021-2023). Currently, the City's Popular Annual Financial Report for the fiscal year ended June 30, 2024, is still under review. However, our expectations remain positive that it will receive the award, continuing the strong track record we have maintained.

We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to GFOA to determine its eligibility for another Award.

We commend staff for their integrity, professional competency, and dedication to the work of the city throughout the year. Their commitment to maintaining the highest standards of professionalism in the fiscal management of the city is foundational to the successful preparation of this ACFR. We also credit the Mayor and City Council for their strong leadership and support in setting sound fiscal policy to ensure financial resources are managed prudently and provide a foundation for financial sustainability.

## Report of Independent Auditor

To the Honorable Mayor and Members of the City Council  
City of Charlotte, North Carolina

### Report on the Audit of the Financial Statements

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Charlotte, North Carolina (the "City") as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Charlotte Regional Visitors Authority ("CRVA"), which is the discretely presented component unit, as of June 30, 2025. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for CRVA, is based solely on the report of the other auditors.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Emphasis of Matter**

As described in further detail in Section 1 Note (d)11 to the financial statements, the City adopted the provisions of Governmental Accounting Standards Board Statement 101, *Compensated Absences*. As a result, net position has been restated. Our opinion is not modified with respect to this matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining and individual fund statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us. In our opinion, based on our audit, the combining and individual fund statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

# Management's Discussion and Analysis

Annual Comprehensive Financial Report 2025

## MANAGEMENT’S DISCUSSION AND ANALYSIS (Dollar Amounts in Millions)

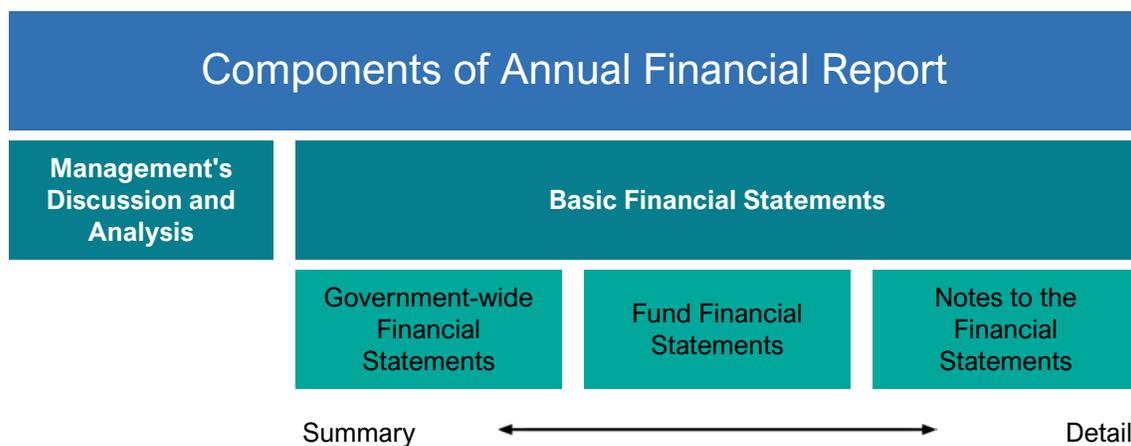

This section of the City of Charlotte’s (City) annual financial report presents a narrative overview and analysis of the City’s financial performance for the fiscal year ended June 30, 2025. Please read it in conjunction with the transmittal letter at the front of this report and the City’s financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$14,509.2 (net position). Of this amount, \$1,396.1 (unrestricted net position) may be used to meet the government’s ongoing obligations to residents and creditors.
- The overall financial position of the City improved in 2025 as evidenced by an increase in total net position of \$666.3. This increase was from business-type activities, \$535.7, and an increase in governmental activities, \$130.6.
- As of the close of the current fiscal year, the City’s governmental funds reported combined ending fund balances of \$1,284.7, a decrease of \$(32) in comparison with the prior year. This decrease resulted from a decrease in revenue from property and other taxes.
- Unassigned fund balance in the General fund was \$151.0 at June 30, 2025 and represents a traditional fund balance reserve maintained for emergencies, liquidity and overall financial strength. This meets the City Council’s goal of 16 percent of the budget for fiscal year 2025. Any amount exceeding the City Council’s goal of 16 percent is considered committed fund balance.
- The City has consistently maintained its Aaa rating from Moody’s Investors Service and AAA rating from Standard & Poor’s Ratings Services and Fitch Ratings.
- During the year, the City implemented GASB Statement 101, Compensated Absences. The implementation of the standard establishes updated guidance for accounting and financial reporting of compensated absences, such as vacation, sick leave and paid time off.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the City’s basic financial statements. The basic financial statements present two different views of the City through the use of government-wide statements and fund financial statements. This diagram shows how the components of the annual report are arranged and relate to one another.

The first two statements (pages 21-25) are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status. The remaining statements (pages 26-43) are fund financial statements that focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide statements.

- The *governmental funds statements* tell how general government services like public safety were financed in the short-term as well as what remains for future spending. A budgetary comparison statement has been provided for the General fund to demonstrate budgetary compliance.
- *Proprietary funds statements* offer short- and long-term financial information about the activities the City operates like businesses, such as the water and sewer system.
- *The fiduciary funds statements* reflect the financial relationship with the Firefighters' Retirement System, which provides benefits exclusively for certain City employees, and the Employee Benefit Trust, which accumulates resources for the provision of other postemployment benefit payments for certain retirees and their beneficiaries.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data (pages 47-119). A section is also included with required supplementary information and combining statements that provides details about non-major governmental funds, internal service funds, and fiduciary funds, each of which are totaled and presented in single columns in the basic financial statements. This section (pages 124-186) also includes detailed budgetary information required by North Carolina General Statutes.

The remainder of this overview section explains the structure and contents of the government-wide and fund financial statements.

**Government-wide financial statements.** The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies.

The *statement of net position* is the difference between the City's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Over time, increases or decreases in net position may serve as a useful indicator of whether financial position is improving or deteriorating. Other nonfinancial factors such as changes in the City's property tax base and the condition of the City's roads must be considered to assess the overall health of the City.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. The statement accounts for all of the current year's revenues and expenses regardless of when cash is received or paid.

The government-wide financial statements are divided into three categories:

- **Governmental activities** - Most of the City's basic services are included here, such as public safety, community planning and development, and streets and highways. Property taxes, other taxes, and grants and contributions finance most of these activities.
- **Business-type activities** - The City charges fees to customers to cover the costs of certain services provided. The City's water and sewer system, storm water system, airport, and public transit system are included here.
- **Component unit** - The City's annual report includes one other entity, the Charlotte Regional Visitors Authority. Although legally separate, the City appoints the governing board and provides financial support.

**Fund financial statements.** The fund financial statements provide more detailed information about the City's most significant funds, not the City as a whole. Funds are accounting groups that the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State Statutes. Other funds are established to control and manage resources designated for specific purposes.

The City has three kinds of funds:

- Governmental funds - Most of the City's basic services are included in governmental funds, which focus on (1) the flow in and out of cash and other financial assets that can readily be converted to cash and (2) the balances left at year-end that are available for spending. These funds are reported using the modified accrual accounting basis and a current financial resources measurement focus. Consequently, the governmental funds statements provide a detailed short-term view that helps determine the financial resources available in the near future to finance the City's programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that follows the governmental fund financial statements.

The City adopts an annual budget for the General fund, as required by State Statutes. A budgetary comparison statement is presented for the General fund using the City's budgetary basis of accounting. This statement reflects the following: (a) the original budget, (b) the final budget as amended, (c) actual resources, and (d) the variance between the final budget and actual resources. Because the budgetary basis of accounting differs from the modified accrual basis used in the funds statements, reconciliation is provided at the end of the statement.

- Proprietary funds - Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information. The City has two types of proprietary funds. Enterprise funds are the same as the business-type activities (shown in the government-wide financial statements), but provide more detail and additional information, such as cash flows. Internal service funds are used to report activities that provide supplies and services for the City's other programs and activities. These internal service activities predominantly benefit governmental rather than business-type activities; therefore, they have been included with governmental activities in the government-wide financial statements.
- Fiduciary funds - The City is the trustee, or fiduciary, for the Firefighters' Retirement System and the Employee Benefit Trust. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. This fiduciary activity is reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These funds are excluded from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

**Net position.** As noted earlier, net position may serve over time as a useful indicator of a government’s financial position. For the City, assets and deferred outflows exceeded liabilities and deferred inflows by \$14,509.2 at the close of the most recent fiscal year. A summary of the City’s net position at June 30, 2025 and 2024 is presented below.

	Net Position					
	Governmental Activities		Business-type Activities		Total Primary Government	
	2025	2024 Restated	2025	2024	2025	2024 Restated
Current and other assets	\$ 1,602.0	\$ 1,650.7	\$ 2,881.7	\$ 2,778.5	\$ 4,483.7	\$ 4,429.2
Capital assets	7,339.9	7,024.9	11,691.7	11,021.0	19,031.6	18,045.9
<b>Total assets</b>	<b>8,941.9</b>	<b>8,675.6</b>	<b>14,573.4</b>	<b>13,799.5</b>	<b>23,515.3</b>	<b>22,475.1</b>
<b>Deferred outflows of resources</b>	<b>591.3</b>	<b>763.9</b>	<b>89.0</b>	<b>101.2</b>	<b>680.3</b>	<b>865.1</b>
Current and other liabilities	259.1	282.5	401.0	467.1	660.1	749.6
Noncurrent liabilities	3,133.2	3,072.4	5,259.8	4,954.8	8,393.0	8,027.2
<b>Total liabilities</b>	<b>3,392.3</b>	<b>3,354.9</b>	<b>5,660.8</b>	<b>5,421.9</b>	<b>9,053.1</b>	<b>8,776.8</b>
<b>Deferred inflows of resources</b>	<b>450.3</b>	<b>513.1</b>	<b>183.2</b>	<b>190.6</b>	<b>633.5</b>	<b>703.7</b>
Net position:						
Net investment in capital assets	5,440.2	5,335.0	6,715.3	6,250.8	12,155.5	11,585.8
Restricted	526.2	447.5	431.4	482.6	957.6	930.1
Unrestricted	(275.7)	(211.0)	1,671.8	1,554.8	1,396.1	1,343.8
<b>Total net position</b>	<b>\$ 5,690.7</b>	<b>\$ 5,571.5</b>	<b>\$ 8,818.5</b>	<b>\$ 8,288.2</b>	<b>\$ 14,509.2</b>	<b>\$ 13,859.7</b>

By far the largest portion of the City’s net position (84 percent) reflects its investment in capital assets (land, buildings, roads, bridges, etc.), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to residents; consequently, these assets are not available for future spending.

An additional portion of the City’s net position (7 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position \$1,396.1 may be used to support operations and provide for payment of long-term debt.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position for the government as a whole, as well as for its business-type activities. Unrestricted net position for governmental activities is negative due to pensions and other postemployment benefit plans (OPEB), detailed in Note 5 in the notes to the financial statements.

Government-wide net position increased by \$666.3 during the current fiscal year from an increase in both governmental and business-type activities.

**Changes in net position.** The following table presents the City’s changes in net position for the fiscal years ended June 30, 2025 and 2024.

	Change in Net Position					
	Governmental Activities		Business-type Activities		Total Primary Government	
	2025	2024	2025	2024	2025	2024

Change in accounting principle	(11.4)	–	(5.4)	–	(16.8)	–
Net position - beginning, restated	5,560.1	5,329.8	8,282.8	7,725.9	13,842.9	13,055.7
<b>Net position - ending</b>	<b>\$ 5,690.7</b>	<b>\$ 5,571.5</b>	<b>\$ 8,818.5</b>	<b>\$ 8,288.2</b>	<b>\$ 14,509.2</b>	<b>\$ 13,859.7</b>

Total government-wide revenues of \$3,674.4 were derived primarily from fees, fines, and charges for services (42 percent) and property and other taxes (33 percent). These sources of revenues increased 8.7 percent from the prior year.

Tax revenues for the year increased primarily due to increased property tax revenue, which grew as a result of an average increase of approximately 3% in taxable property tax values, driven by increased local real estate values. In addition, Capital grants and contributions increased due to growth in annexed street miles year over year.

The total expenses of all programs were \$3,008.1. The expenses cover a range of services with the two largest being transportation (streets and highways, airport and public transit) for 41 percent and public safety (fire and police) for 22 percent.

Public safety expense increased over the prior year as a result of budgeted increases for salaries and wages, retirement, and overtime. Additionally, expenses related to streets and highways increased due to the completion of several major street improvement and expansion projects.

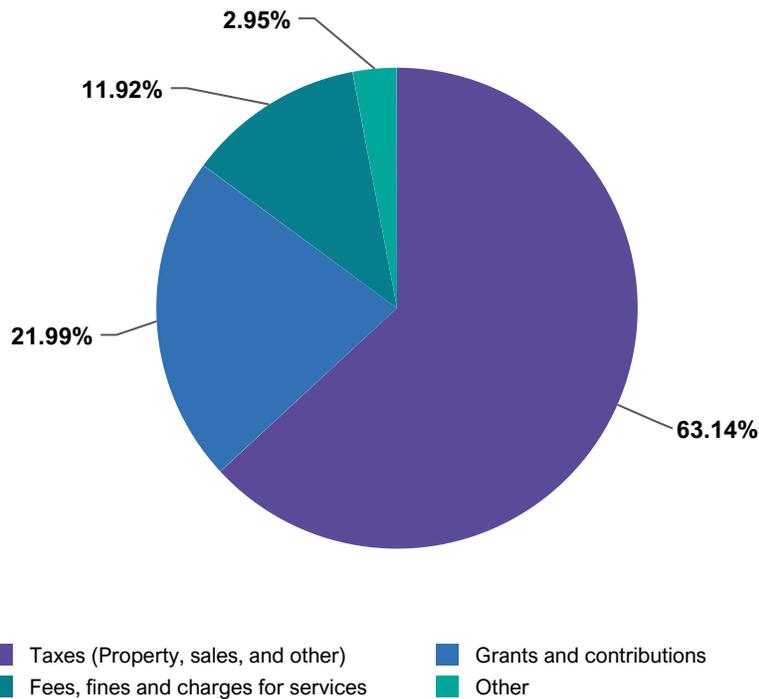

**Governmental Activities**

As shown in the chart, property, sales and other taxes (63.1 percent) and grants and contributions (22.0 percent) were the major sources of revenues for governmental activities.

Governmental revenues increased by \$103.6 compared to the prior year with increases in all major sources of revenue. This increase can be attributed to the increases in sales and property taxes and capital grants and contributions. Property taxes grew as a result of an average increase of approximately 3% in taxable property tax values, driven by increased local real estate values.

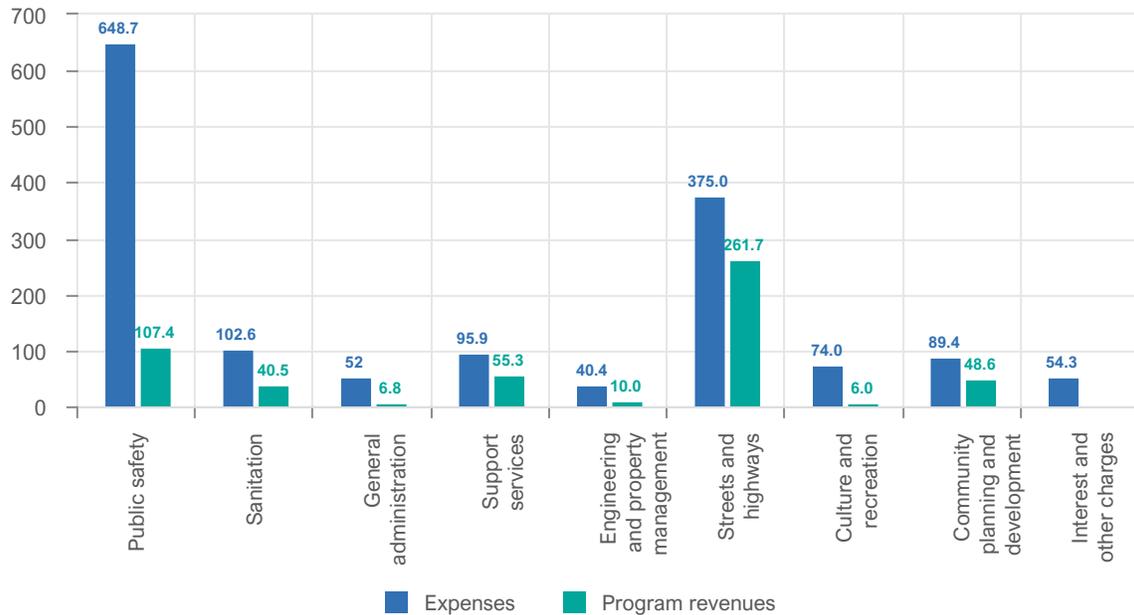

Governmental expenses increased from \$1,319.6 to \$1,532.0 during this fiscal year. This increase is attributable in part to the increase in public safety salaries and wages. The increase in expenses is also due to the completion of several major street improvement and expansion projects.

**Governmental Revenues by Source**

The following chart highlights the net cost (total cost less fees generated by the activities and intergovernmental grants) of the City’s governmental programs mainly public safety, sanitation, and community planning and development. The net cost shows the financial support provided by taxes and other general revenue sources not restricted to specific programs.

### Governmental Expenses Compared with Program Revenues

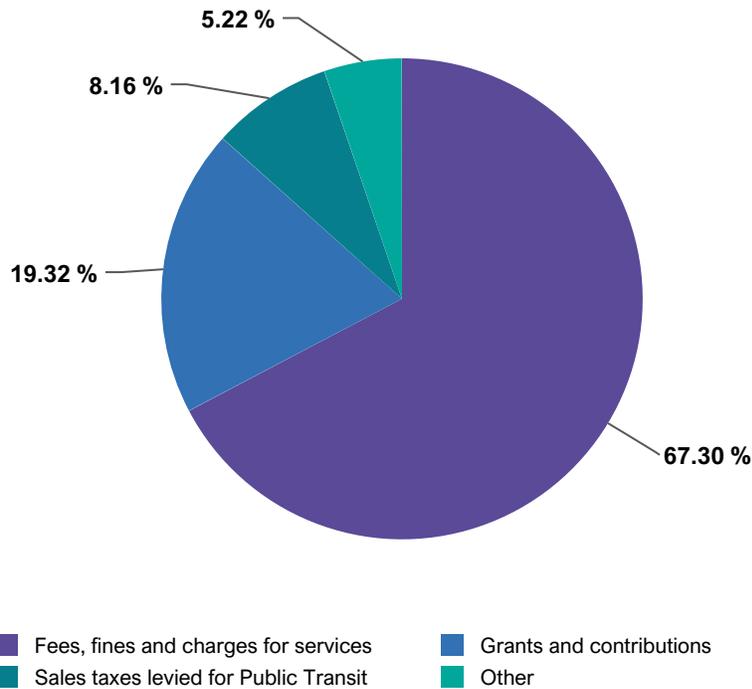

In addition to property and other taxes, the total cost of services of \$1,532.0 was supported by \$334.8 provided by other governments and organizations for specific programs and \$201.5 provided by fees, fines and charges from those who directly benefited from the programs.

#### Business-type Activities

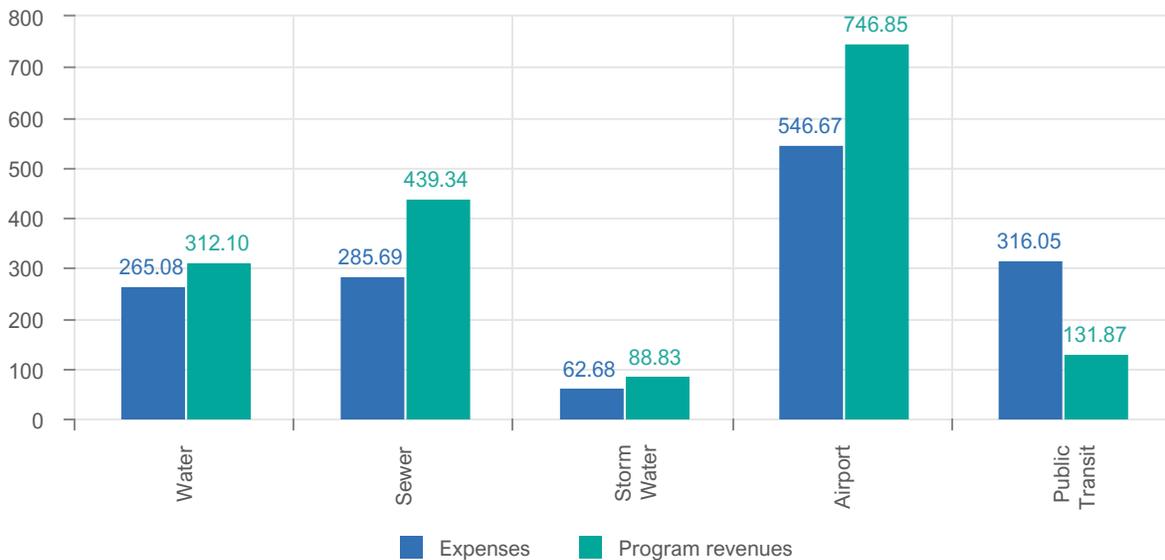

Revenues for the business-type activities were \$1,984.5, an increase of 5 percent from the prior year. This increase is mostly due to increases in fines, fees and charges for services. Specifically, Airport and Public Transit revenues were \$630.1, a 16.0 percent increase from the prior year largely due to the increase in customers traveling.

The chart below highlights the net cost of the City’s business-type programs. For all business-type activities, except Public Transit, user rates and fees are established to provide for operating expenses, debt service costs and adequate working capital. Public Transit passenger fares are established to provide reasonably priced public mass transportation and therefore may not cover all operating costs. In addition to fare revenues, state operating assistance grants, a one-half percent sales tax and contributions from other local governments fund the transit program.

### Business-type Revenues by Source

### Business-type Expenses Compared with Program Revenues

Overall, business-type activities expenses are up \$130.0 over the prior year, which is attributed to increases in salary and benefits, increased costs for city services, increase costs in materials/supplies, internal fleet costs, increased light rail maintenance and bus safety operations.

## FINANCIAL ANALYSIS OF THE CITY'S FUNDS

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At June 30, 2025, the governmental funds reported a combined fund balance of \$1,284.7, a decrease of \$32, or (2.4) percent, from last year. This amount consists of the following:

- (a) \$24.2 non-spendable for inventories, perpetual care, and prepaid items,
- (b) \$522.6 restricted for State Statute and specific programs,
- (c) \$475.1 committed primarily for capital projects,
- (d) \$58.6 assigned for debt service, and
- (e) \$147.4 unassigned.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$151.0, while total fund balance reached \$239.2. The City's Capital Investment Plan Financial Policies include a policy to maintain fund balance at 16 percent of the operating budget. Any portion in excess of 16 percent is dedicated to capital expenses, unless otherwise directed by City Council.

Another major governmental fund is the debt service fund. The debt service fund has a total fund balance of \$173.3, all of which will be used for either the payment of debt service or is restricted by State Statute. Debt service fund balance decreased \$17.0 from the prior year which was a result of a purchase of the O-Line from railroad operator Norfolk Southern Corporation in support of the Charlotte Area Transit System (CATS) Red Line Commuter Rail Project.

Another major governmental fund is the capital projects fund. The capital projects fund has a total fund balance of \$447.7, almost all of which is committed for future capital projects. Capital project fund balance decreased \$(85.5) from the prior year. This is due to significant expenditures related to facility renovations for the Spectrum Center and transit corridor development.

**Proprietary funds.** Proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position at the end of the year amounted to \$399.4 in the Water and Sewer fund, \$95.2 in the Storm Water fund, \$968.7 in the Airport fund and \$231.2 in the Public Transit fund. The changes in net position for the funds were \$221.0, \$32.2, \$267.7 and \$16.9, respectively. Factors concerning the finances of these funds have already been addressed in the discussion of the business-type activities.

## GENERAL FUND BUDGETARY HIGHLIGHTS

Revenues were \$7.6 above the final budgeted amount. Property tax, investment earnings, and administrative charges were \$8.5 more than expected. Property tax revenues exceeded expectations due to fiscal year 2024 being a revaluation year and revenues being estimated based on a higher appeals rate than was actually achieved. Higher investment earnings resulted from increased cash balances and interest rates throughout the year. Administrative charges resulted from continuous efforts by city staff to collect fees to reimburse costs.

The fiscal 2025 budget increased 7.6 percent over the fiscal 2024 budget to address the Mayor and Council's strategic priorities: well-managed government, great neighborhoods, safe communities, transportation planning, and workforce and business development. The development of the FY 2024 budget was guided by the strategic priorities with funding directed towards programs and services that support these priorities. The priorities serve as the foundation for funding decisions and setting objectives. The two largest revenue sources in the general fund are property tax and sales tax which comprise 70.1 percent of total revenue. Actual expenditures were \$3.9 less than final budgeted amounts for fiscal year 2025. The proposed budget was developed with the goal of maintaining core services and taking care of our highest priority needs while not burdening residents.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital assets.** At June 30, 2025, the City had \$19,031.4 (net of accumulated depreciation and amortization) in capital assets consisting primarily of land, buildings, roads, and water and sewer lines. This amount represents a net increase of \$985.5, or 5.5 percent over last year. The following is a summary of capital assets at June 30, 2025 and 2024:

	<b>Capital Assets</b>					
	(Net of Depreciation and Amortization)					
	<b>Governmental Activities</b>		<b>Business-type Activities</b>		<b>Total Primary Government</b>	
	<b>2025</b>	<b>2024</b>	<b>2025</b>	<b>2024</b>	<b>2025</b>	<b>2024</b>

<b>Totals</b>	<b>\$ 7,339.9</b>	<b>\$ 7,024.9</b>	<b>\$ 11,691.5</b>	<b>\$ 11,021.0</b>	<b>\$ 19,031.4</b>	<b>\$ 18,045.9</b>

This year’s major capital asset additions included:

- Red Line Acquisition - \$91.1
- Spectrum Arena - \$137.4
- Stowe Regional WRRF - \$147.3
- Fourth Parallel Pre-Construction - \$203.3

At June 30, 2025, authorized and unexpended capital projects totaled \$3,679.0 as follows: Governmental \$1,822.3, Water and Sewer \$550.4 , Storm Water \$123.4, Airport \$901.8, and Public Transit \$280.4. The City has plans to issue additional debt to finance these projects in addition to using resources currently available.

More detailed information about the City’s capital assets is presented in Note 4.f. to the financial statements.

**Long-term debt.** At June 30, 2025, the City had \$6,993.8 of debt outstanding in bonds, installment purchases, derivative instrument liability, and other financing agreements. This was an increase of \$406.1 over last year. Details by type of debt are presented in the following table:

	Outstanding Debt					
	Governmental Activities		Business-type Activities		Total Primary Government	
	2025	2024	2025	2024	2025	2024
General obligation bonds (backed by the City's taxing authority)	\$ 820.7	\$ 912.6	\$ -	\$ -	\$ 820.7	\$ 912.6

Leases	16.4	17.6	4.2	4.9	20.6	22.5
SBITAs	32.2	53.9	5.0	9.7	37.2	63.6
<b>Totals</b>	<b>\$ 1,871.4</b>	<b>\$ 1,753.6</b>	<b>\$ 5,122.4</b>	<b>\$ 4,834.1</b>	<b>\$ 6,993.8</b>	<b>\$ 6,587.7</b>

New debt for 2025 included the issuance of refunding and taxable Housing GO bonds (\$66.2), revenue bonds for refunding and various Airport projects (\$505.5), installment purchases for refunding and various City projects (\$91.2), bond anticipation notes (\$298.6), an installment purchases draw program ( \$100.6), and state revolving loans (\$0.6).

The City's sound financial condition is evidenced by the continuation of its Aaa rating from Moody's Investors Service and AAA rating from Standard & Poor's Ratings Services and Fitch Ratings. Charlotte is one of the few major cities in the nation that maintains the highest financial category rating from these rating agencies. This achievement is a primary factor in keeping interest costs low on the City's outstanding debt.

The City's total debt of \$6,993.8 arises from both governmental and business-type activities. The largest portion of debt is revenue bonds, 63.6 percent, which are backed by specific fee revenues, rather than the City's taxing authority.

North Carolina General Statutes limit the amount of general obligation debt that the City can issue to 8 percent of the total assessed value of taxable property. The legal debt margin for the City at June 30, 2025 was \$15.4 billion. The City had \$774.0 in authorized but unissued debt for streets, housing, and neighborhood improvements.

More detailed information about the City's long-term liabilities is presented in Note 4.j. of the financial statements.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The following economic indicators impact the City's budget outlook:

- During fiscal year 2025, 19,969 building permits were issued with a value of over \$7.0 billion compared to 23,517 permits for 2024.
- Retail sales during fiscal year 2025 were \$36.0 billion compared to \$35.0 billion for fiscal year 2024. Sales tax revenue is projected to increase by 0.2 percent next year.
- The June 2025 unemployment rate was 4.0 percent compared to 3.7 percent for the State and 4.1 percent for the nation. As of March 2025, employment grew by 1.0 percent, adding 11,073 jobs compared to the same period last year.

- Assessed property valuations are expected to exceed \$231.8 billion for 2026 compared to \$226.3 billion for 2025, or an increase of 2.4 percent.

The fiscal 2026 operating budget is \$2,193.7, an increase of 8.6 percent over fiscal year 2025. The development of the 2026 budget included a review of revenue and financial approaches that maintain a good value to tax and rate-payers, are consistent with Council policy, and uphold the city's strong financial ratings.

The 2026 General fund budget increased by \$46.7 to \$943.5 and reflects a 5.2 percent increase from fiscal year 2025. The two largest revenue sources in the General fund are property tax and sales tax which comprise approximately 68.7 percent of total revenue.

The following are highlights for the 2026 budgets for the business-type activities:

- The Water and Sewer budget is \$275.4, a 10.5 percent increase over 2025, and includes an increase of \$14.5 to update funding to more accurately reflect operational needs in contracted services, maintenance materials and supplies, chemicals for treatment, and energy utilities.
- The Storm Water budget is \$34.7, a 5.6 percent increase from 2025 and includes an increase of \$7.0 to adjust cash transfers to capital projects based on Storm Water's financial planning and capital project schedule.
- The Airport budget is \$295.6, a 9.3 percent increase from 2025. This restores funding to reflect the return of passengers and to respond to inflationary pressures. There is also an increase of \$11.2 to provide support for increases in costs of goods and services across the aviation department.
- The Public Transit budget is \$264.7, a 1.4 percent increase over 2025, and includes an increase of \$6.9 to provide funds needed to support increased salary and benefit for general employees and Law Enforcement Officers.

## CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide residents, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability. Questions concerning this report or requests for additional financial information should be directed to the City of Charlotte's Finance Department, 600 East Fourth Street, Charlotte, NC 28202-2848.

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**RECONCILIATION OF THE GOVERNMENTAL FUNDS**  
**BALANCE SHEET TO THE STATEMENT OF NET POSITION**  
**June 30, 2025**  
**(Dollar Amounts in Thousands)**

Total fund balances for governmental funds	\$ 1,284,689
Total net position reported for governmental activities in the statement of net position is different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds	7,256,368
Right to use lease assets used in governmental activities are not financial resources and therefore are not reported in the funds	15,236
Right to use SBITA assets used in governmental activities are not financial resources and therefore are not reported in the funds	66,815
Contributions to pension plans in the current fiscal year are deferred outflows of resources	88,275
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds	24,439
Deferred outflows and inflows related to changes in noncurrent liabilities are neither financial resources nor due and payable in the current period and therefore are not reported in the funds	(29,507)
Internal service funds are used to charge the costs of insured and uninsured risks of loss as well as employee health and life claims to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position	30,099
Noncurrent liabilities are not due and payable in the current period and, therefore, are not reported in the funds (Note 2.a.)	(1,981,347)
Net pension liability	(943,764)
Pension related deferrals	135,083
Net OPEB liability	(209,327)
OPEB related deferrals	(46,405)
Total net position of governmental activities	<u>\$ 5,690,654</u>

CITY OF CHARLOTTE, NORTH CAROLINA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2025  
(Dollar Amounts in Thousands)

Net change in fund balances - total governmental funds	\$ (31,880)
The change in net position reported for governmental activities in the statement of activities is different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which capital outlays exceeded depreciation and amortization expense in the current period. (Note 2.b.)	99,264
Contributions to the pension plan in the current fiscal year are not included on the statement of activities.	88,275
The net effect of various miscellaneous transactions involving capital assets (ie, sales and donations) is to decrease net position. (Note 2.b.)	214,285
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(2,165)
The issuance of long-term debt (eg, bonds and installment purchases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position in the government-wide statements. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (Note 2.b.)	(138,573)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (Note 2.b.)	(106,058)
Internal service funds are used to charge the costs of insured and uninsured risks of loss as well as employee health and life claims to individual funds. The net revenue of certain activities of the internal service funds is reported with governmental activities.	<u>7,342</u>
Change in net position of governmental activities.	<u>\$ 130,490</u>

CITY OF CHARLOTTE, NORTH CAROLINA

RECONCILIATION OF THE STATEMENT OF BUDGETARY COMPARISON TO THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES

GENERAL FUND

FOR THE YEAR ENDED JUNE 30, 2025

(Dollar Amounts in Thousands)

Sources (inflows) of resources:

Actual amounts (budgetary basis) "available for appropriation" from the statement of budgetary comparison	\$ 921,119
Differences - budget to GAAP:	
Contributed fund balance is a budgetary resource available for appropriation but is not a current-year revenue for financial reporting purposes.	(11,853)
The difference between lease revenue as measured under GASB 87 and rent revenue received according to the terms of lessor lease agreements is included as an adjustment to charges for current services for financial reporting purposes.	(1,175)
Interest revenue recognized on the GASB 87 lease receivable is included as miscellaneous revenue for financial reporting purposes.	207
Transfers from other funds are inflows of budgetary resources but are not revenues for financial reporting purposes.	(2,053)
Proceeds from the sale of salvage and land are budgetary resources but are regarded as other financing resources, rather than revenue, for financial reporting purposes.	(812)
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds	<u>\$ 905,433</u>

Uses (outflows) of resources:

Actual amounts (budgetary basis) "total charges to appropriations" from the statement of budgetary comparison	\$ 921,119
Differences - budget to GAAP:	
The difference between lease capital outlay as measured by GASB 87 and lease expense paid according to the terms of lessee lease agreements is included as an adjustment to expenditures by function for reporting purposes	(1,025)
The difference between SBITA capital outlay as measured by GASB 96 and SBITA expense paid according to the terms of SBITA agreements is included as an adjustment to expenditures by function for reporting purposes	(5,021)
Principal and interest portions of GASB 87 lease payments and GASB 96 SBITA payments are included within Debt service - Principal and Debt service - Interest and other charges for financial reporting purposes.	11,723
Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.	(7,077)
Transfers to other funds are outflows of budgetary resources but are not expenditures for financial reporting purposes.	(44,444)
Total expenditures as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds	<u>\$ 875,275</u>

The notes to the financial statements are an integral part of this statement.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Charlotte and its discretely presented component unit conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

### a. Reporting Entity

The City of Charlotte (City) is a municipal corporation that is governed by an elected mayor and eleven-member council. As required by generally accepted accounting principles, these financial statements present the City and its two component units, entities for which the City is financially accountable. The Charlotte Firefighters' Retirement System (System) is so intertwined with the City that it is, in substance, the same as the City. Accordingly, the System is blended and reported as a Fiduciary Fund as if it was part of the City. The Charlotte Regional Visitors Authority (Authority) is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

The following table describes the City's component units:

Component Unit	Criteria for Inclusion	Reporting Method	Separate Financial Statements
Charlotte Firefighters' Retirement System	The System provides retirement, disability and death benefits to civil service employees of the Charlotte Fire Department. These services are exclusively for the City.	Fiduciary Fund	Charlotte Firefighters' Retirement System 428 East Fourth Street, Suite 205 Charlotte, North Carolina 28202
Charlotte Regional Visitors Authority	A "special district" as defined by state statutes. The City Council appoints the governing board and the City pays outstanding general obligation bonded debt. Net operating proceeds are to be used to pay principal and interest on the bonded debt or as otherwise directed by City Council.	Discrete	Charlotte Regional Visitors Authority 501 South College Street Charlotte, North Carolina 28202

Transit Management of Charlotte (TMO) is a legally separate entity reported as a blended component unit of the City. As such, its financial activities are included in the City's enterprise funds.

INLIVIAN (formerly The Charlotte Housing Authority), which is excluded from the City's financial statements, is considered a related organization. The City Council appoints the governing board; however, the City has no financial benefit or burden regarding INLIVIAN.

### b. Basis of Presentation

*Government-wide Statements:* The statement of net position and the statement of activities display information about the primary government (the City) and its component unit. These statements include the financial activities of the overall government, except for fiduciary activities. These statements distinguish between the governmental and business-type activities of the City as well as the City and its discretely presented component unit. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

(Dollar Amounts in Thousands)

The statement of activities presents a comparison between direct expenses and program revenues for a given function or activity. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include (a) charges paid by recipients of goods or services offered by the program and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues, including all taxes, are reported as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are certain charges between the City's enterprise functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

*Fund Financial Statements:* The fund financial statements provide information about the City's funds, including the fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds, charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The City reports the following major governmental funds:

*General Fund:* This is the City's primary operating fund. The General Fund accounts for all financial resources of the general government, except those that are required to be accounted for in another fund.

*Debt Service:* This fund accounts for the resources accumulated and payments made for principal and interest on debt of governmental activities.

*Capital Projects:* This fund accounts for financial resources, primarily proceeds from bonds, other financing agreements and taxes, used for the acquisition, construction and improvement of capital equipment and facilities.

The City reports the following major enterprise funds:

*Water and Sewer:* This fund accounts for the activities of Charlotte Water, provider of water and sewer services.

*Storm Water:* This fund accounts for the activities of Storm Water Services, administrator of storm water programs and policies.

*Airport:* This fund accounts for the activities of the Charlotte Douglas International Airport.

*Public Transit:* This fund accounts for the activities of the Charlotte Area Transit System, provider of public mass transportation.

The City reports the following fund types:

*Internal Service:* These funds account for (a) the general insurance program of the City, as well as risk management services provided, on a cost-reimbursement basis, to other governmental units and agencies in Mecklenburg County, and (b) funds contributed by the City and its employees for health and life benefits, and (c) fleet management to account for maintenance, repair, commissioning, and decommissioning services for the city and Mecklenburg County fleet of vehicles..

*Fiduciary:* These funds account for (a) resources accumulated for the provision of benefit payments to the Charlotte Firefighters' Retirement System members and their beneficiaries, and (b) resources accumulated for the provision of other postemployment benefit payments for retirees and their beneficiaries.

### c. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the City are maintained during the year using the modified accrual basis of accounting.

*Government-wide, Proprietary, and Fiduciary Fund Financial Statements:* The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

*Governmental Fund Financial Statements:* Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The City considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. At June 30, 2025, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year.

Sales taxes and certain intergovernmental revenues, such as the beer and wine tax, collected and held by the State at year-end on behalf of the City are recognized as revenue. Sales taxes are considered a shared revenue for the City because the tax is levied by Mecklenburg County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes, are reported as general revenues rather than program revenues.

Under the terms of grant agreements, the City funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the City's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then general revenues.

(Dollar Amounts in Thousands)

#### d. Assets, Deferred Outflows and Inflows, Liabilities and Net Position/Fund Balances

##### (1) Cash and Investments

The City maintains a cash management pool to facilitate disbursement and investment and maximize investment income. Earnings on the pooled funds are apportioned and credited to the funds monthly based on the average daily balance of each fund. Since individual funds may deposit additional amounts at any time and may withdraw funds at any time without prior notice or penalty, the pool is used essentially as a demand deposit account and considered cash and cash equivalents. The pool is used by all funds except the Firefighters' Retirement System Fund. For arbitrage purposes, the City also maintains separate pools for the proceeds of each bond sale subsequent to 1986 in compliance with the Internal Revenue Code relative to yield restrictions and rebate requirements.

For funds not included in the pools described above, cash and cash equivalents consist of cash, demand deposits, and short-term, highly liquid investments. Short-term refers to investments with an original maturity of three months or less at date of acquisition. Highly liquid investments are those that are both readily convertible to known amounts of cash and so near their maturity that the risk of changes in value because of changes in interest rates is insignificant.

The restricted cash and cash equivalents/investments are restricted pursuant to bond covenants and other financing agreements. All restricted money market funds of the enterprise funds are considered cash and cash equivalents. The remaining amount of restricted assets is considered investments.

The NCCMT Government Portfolio, a SEC-registered (2a-7) money market mutual fund, is measured at fair value. Because the NCCMT Government Portfolio has a weighted average maturity of less than 90 days, they are presented as an investment with a maturity of less than 6 months.

The North Carolina Cooperative Liquid Assets Securities System (NC CLASS) and North Carolina Investment Pool (NCIP) are investment pools created by an interlocal agreement and an indenture of trust pursuant to N.C.G.S. Section 159-30(c)(10). Funds of the participants are invested in high-quality, short-term fixed income instruments and are rated 'AAA' by S&P Global Ratings. These investments are measured at amortized cost (net asset value), which approximates fair value. Because the pools have a weighted average maturity of no more than 60 days, they are presented as investments with a maturity of less than six months.

Money market investments that have a remaining maturity at the time of purchase of one year or less are reported at amortized cost. Non-participating interest earning investment contracts are reported at cost.

Investments of the Charlotte Firefighters' Retirement System are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

**Component Unit:** The Authority considers investments with an original maturity of three months or less to be cash equivalents.

##### (2) Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property tax and accounts receivables are shown net of an allowance for uncollectibles. Notes receivable in governmental funds consist of housing rehabilitation and economic development loans that are generally not expected or scheduled to be collected in the subsequent year.

**(3) Lease Receivables**

The City’s lease receivables are measured at the present value of lease payments expected to be received during the lease term. Under the lease agreements, the City may receive variable lease payments that are dependent upon the lessee’s revenue. The variable payments are recorded as an inflow of resources in the period the payment is received.

A deferred inflow of resources is recorded for the lease. The deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is recognized on a straight-line basis over the term of the lease.

**(4) Inventory and Prepaid Items**

Inventories are valued at cost (first-in, first-out), which approximates market. Governmental inventory consists of expendable supplies that are recorded as expenditures as used rather than when purchased.

Business-type inventories consist of materials and supplies held for subsequent use. The cost of these inventories is expensed when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements and expensed as the items are used.

**(5) Capital Assets**

Donated capital assets are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. General infrastructure assets are reported at estimated historical cost using deflated replacement cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized.

Capital assets are assets with an initial, individual cost of \$5 or more, except intangible assets and subscription-based information technology arrangements which have a minimum cost of \$100. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings	20 – 50 years
Infrastructure	40 years
Improvements other than buildings	5 – 125 years
Intangibles	5 – 20 years
Machinery and equipment	3 – 40 years

The right to use lease assets are initially measured at an amount equal to the present value of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The right to use lease assets are amortized on a straight-line basis over the life of the related lease.

The right to use Subscription-Based Information Technology Arrangement (SBITA) assets are initially measured at an amount equal to the present value of the SBITA liability plus any SBITA payments made at the start of the SBITA term, if applicable, plus capitalizable initial implementation costs at the start of the SBITA term, less any incentives received from the SBITA vendor at the start of the SBITA term. The right to use SBITA assets are amortized on a straight-line basis over the SBITA term.

**(6) Deferred Outflows and Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. The Deferred Outflows of Resources financial statement element represents a consumption of net assets that applies to a future period and so will not be recognized as an expense or expenditure until then.

*(Dollar Amounts in Thousands)*

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. The Deferred Inflows of Resources financial statement element represents an acquisition of net assets that applies to a future period and so will not be recognized as revenue until then.

**(7) Noncurrent Liabilities**

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary funds statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable premium or discount. Bond issuance costs are expensed in the reporting period in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

The City enters into interest rate swap agreements to modify interest rates on outstanding debt. The swaps are reported at fair value in the government-wide and proprietary fund financial statements.

**(8) Compensated Absences**

For the year ended June 30, 2025, the financial statements include the adoption of GASB Statement 101, compensated absences. Employees earn vacation leave at the rate of 10 to 20 days per year and can accrue a maximum of 20 to 40 days, depending on the length of service. Effective January 1, 2016, vacation in excess of the maximum accumulation is transferred into the employee’s wellbeing leave balance. Unused vacation days are payable upon termination, resignation, retirement, or death. A liability is accrued for earned leave that carries over and is more likely than not to be used or paid out. The City used the last-in, first-out (LIFO) flow assumption method to calculate the liability for compensated absences.

The City’s wellbeing leave policy provides for unlimited accumulation of wellbeing leave. This leave is earned at the rate of one day per month. Wellbeing leave can be taken for the physical or mental health care of the employee or family member. Wellbeing leave is lost upon termination or resignation, unless the employee retires and immediately begins drawing a retirement benefit. Employees may be paid twenty percent of outstanding wellbeing leave, with a maximum of 43.5 days, upon retirement. Twenty percent of outstanding wellbeing leave, up to a maximum of 43.5 days is payable upon the death of an employee.

Compensated absences payable includes accumulated unpaid vacation leave and wellbeing leave. The government-wide and proprietary fund financial statements have been restated in fiscal year 2025 due to the implementation of GASB 101.

**(9) Net Position/Fund Balances**

*Net Position:* Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are externally imposed by creditors, grantors, contributors, bond covenants, regulations of other governments or by State statute.

Net position in governmental activities is restricted for other purposes as follows:

Public safety	48,213
Culture and recreation	321,209
Community planning and development	50,935
Streets and highways	4,066
Total (Note 1.d.(9a))	<u>\$ 424,423</u>

*Fund Balances:* In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

*Nonspendable fund balance* – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

*Inventories* - \$1,429 of fund balance that is not an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

*Leases* - \$889 of fund balance that is not an available resource because it represents the year-end balance of the lease receivable in excess of the deferred inflow of resources for the lease receivable, which is not a spendable resource.

*Perpetual care* - \$3,581 of fund balance that is required to be retained in perpetuity for maintenance of cemeteries.

*Prepaid items* - \$10,284 of fund balance that is not an available resource because it represents the amount of prepaid expenses.

*Long-term notes receivable* - \$8,000 of fund balance that is not an available resource because it represents the long-term amount of loans and notes receivables.

*Restricted fund balance* – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

*Restricted for State statute* - \$98,176 of fund balance that is not an available resource for appropriation in accordance with State law [G.S.159-8(a)]. North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute." Appropriated fund balance shall not exceed total cash and investments less liabilities, encumbrances, and deferred revenues arising from cash receipts, as determined at the end of the previous fiscal year budget. Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as nonspendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of Restricted Net position and Restricted Fund balance on the face of the balance sheet.

*Restricted for other purposes* - \$424,423:

*Public safety* - \$48,213 of fund balance that is restricted by revenue source for public safety and 911 system expenditures.

*Cultural and recreation* - \$321,209 of fund balance that is restricted by revenue source for convention center and tourism expenditures.

*Community planning and development* - \$50,935 of fund balance that is restricted by revenue source for neighborhood expenditures.

*Streets and highways* - \$4,066 of Powell Bill and other fund balance that is restricted by revenue source for street construction and maintenance expenditures. For the Special Revenue funds, this amount represents the balance of the total unexpended Powell Bill and other grant funds.

(Dollar Amounts in Thousands)

*Restricted for capital projects* – \$56,815 of fund balance from unspent bond proceeds restricted for capital projects.

*Committed fund balance* – This classification includes amounts that can only be used for specific purposes imposed by ordinance approved by the City Council, the highest level of decision-making authority. Any changes or removal of specific purposes requires action by the City Council.

*Committed for capital projects* - \$379,439 of fund balance committed by the City Council for capital projects.

*Committed for debt service* - \$95,625 of fund balance committed by the City Council for advance planning for bond referenda and loans to other funds for the purchase of capital equipment.

*Assigned fund balance* – This classification includes amounts that the City intends to use for specific purposes.

*Assigned for Debt service* - \$58,598 of fund balance in the Debt Service fund that is not nonspendable, restricted, or committed that will be used for future payment of debt service requirements. By approval of the budget of the Debt Service fund, the City Council has assigned this amount to the purpose of the Debt Service fund.

*Unassigned fund balance* – This classification includes \$150,960 in the General fund, and (\$3,530) in Other Governmental Funds that have not been restricted, committed, or assigned to specific purposes or other funds. The general fund is the only fund reporting a positive unassigned fund balance.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted amounts to have been spent first. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in-order by committed, assigned, and unassigned fund balance.

The City's Capital Investment Plan Financial Policies, which are approved annually by the City Council, include a policy to maintain the General fund balance at sixteen percent of the operating budget. Any portion of the General fund balance in excess of sixteen percent of budgeted expenditures is dedicated to capital expenses, unless otherwise directed by City Council.

## **(10) Pensions**

The City participates in a cost-sharing, multiple-employer, defined benefit pension plan administered by the State, the Local Governmental Employees' Retirement System (LERS); a single-employer Law Enforcement Officers' Special Separation Allowance (LEOSSA); and a postemployment benefit plan, the Employee Benefit Trust Plan (EBTP).

For purposes of measuring the net pension asset or liability, deferred outflows and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans and additions to/deductions from the defined benefit pension plans' fiduciary net position have been determined on the same basis as they are reported by the state-administered defined benefit pension plan and the LEOSSA. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The City's employer contributions are recognized when due and the City has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the state-administered defined benefit pension plans.

For purposes of measuring the net OPEB asset or liability, deferred outflows and inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the EBTP and additions to/deductions from the EBTP fiduciary net position have been determined on the same basis as they are reported by the EBTP. For this purpose, the EBTP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments for all plans are reported at fair value.

**(11) Adoption of New Accounting Pronouncement**

During the fiscal year, the City adopted the provisions of GASB Statement No. 101, Compensated Absences, which supersedes the previous standard, GASB 16. This new standard requires a liability to be recognized for both: 1) Leave that has not been used which applies to leave attributable to services already rendered, that accumulates, and is more likely than not to be used for time off or otherwise paid in cash or non-cash means; and 2) Leave that has been used but not yet paid or settled. In addition, the calculation of the liability for the City incorporates the employee's pay rate and associated salary related costs, such as social security (6.2%), Medicare (1.45%), 401K contribution (3.00%), and law enforcement additional contribution (5.00%). Management determined that the implementation of Statement No. 101 was material and restated the beginning net position and fund balance as of July 1, 2024.

The vacation and well-being leave, and compensatory time liability amounts were summed together, and salary-related payments were integrated (at varying points of the calculation) to arrive at a total re-measured FY24 compensated absence liability of \$122,304. This is an increase from the previous FY24 measurement of \$105,480 under Statement No. 16. Utilizing the same methodology, the FY25 liability totaled \$130,016.

(Dollar Amounts in Thousands)

**2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**a. Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net position**

The governmental fund balance sheet includes a reconciliation between fund balance – total government funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that “Noncurrent liabilities are not due and payable in the current period and, therefore, are not reported in the funds.”

Bonds and installment purchases payable	\$ 1,432,928
Net of premiums and discounts	134,075
General obligation bond anticipation notes	139,829
Installment purchases draw program	110,000
Derivative instrument liability	3,069
Swaption borrowing payable	2,898
Compensated absences	96,499
Lease payable	16,340
SBITA payable	31,896
Accrued interest payable	13,813
Net adjustment to reduce fund balance of total governmental funds to arrive at net position-governmental activities	<u>\$ 1,981,347</u>

**b. Explanation of certain differences between the governmental funds statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities**

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense.”

Capital outlay	\$ 267,586
Depreciation expense	(150,663)
Amortization expense	<u>(17,659)</u>
Net adjustment to decrease net changes in fund balance – total governmental funds to arrive at changes in net position of governmental activities	<u>\$ 99,264</u>

Another element of that reconciliation states “The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to decrease net position.” In the statement of activities, only the loss on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital assets sold.

Donation of capital assets	\$ 217,525
Capital contribution to fleet management	(1,390)
Sales of capital assets	<u>(1,850)</u>
Net adjustments to decrease change in net position differs from the change in fund balance by the cost of capital assets sold	<u>\$ 214,285</u>

Another element of that reconciliation states, “The issuance of long-term debt (e.g., bonds and installment purchases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is issued, whereas these amounts are deferred and amortized in the statement of activities.”

Debt issued or incurred:	
Issuance of general obligation bonds	\$ (59,995)
Issuance of general obligation bond anticipation notes	(80,099)
Issuance of installment purchases	(91,213)
Issuance of installment purchases draw program	(100,576)
Plus premium on debt issuance	(6,236)
Lease purchases	(1,008)
SBITA purchases	(27,445)
Swaption borrowing	431
Principal repayments:	
General obligation bonds	141,250
General obligation bond anticipation notes	-
Installment purchases	34,650
Lease liabilities	2,212
SBITA liabilities	34,501
Lease modifications resulting in a decrease in lease liabilities	40
SBITA modifications resulting in a decrease in SBITA liabilities	14,915
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ (138,573)

Another element of that reconciliation states, “Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.”

Accrued interest	\$ 2,657
Amortization on deferred loss on refundings	(337)
Amortization on deferred gain on refundings	(6,135)
Amortization on deferred amount on refundings	(32)
Amortization of debt premiums	22,121
Compensated absences	(2,858)
Pension expense	(145,058)
OPEB expense	23,584
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ (106,058)

(Dollar Amounts in Thousands)

### 3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### Budgetary Information

As required by State statutes, prior to July 1 each year City Council adopts an annual appropriation ordinance for all funds except for the city’s Internal Service and Fiduciary Funds. At the conclusion of each fiscal year, City Council re-appropriates unexpended appropriations in certain funds where the programs, activities, or projects require multiple years to implement. This includes the Capital Projects Funds, Public Safety and Other Grants, General COVID Relief, American Rescue Plan Act, Neighborhood Development, Emergency Telephone System Special Revenue Funds and the Capital Projects Funds for each Enterprise Fund.

The annual budgets are adopted at the fund level and Capital Projects Funds are adopted at the function and project levels which are the legal levels of budgetary control. Amendments to the budget at this level require approval of the City Council. During the year, several amendments to the budget were necessary. Administrative control is maintained through the establishment of more detailed line-item budgets. The budget is entered into the accounting records and comparisons of actual to budget are made throughout the year. City administration has the authority to amend line-item budgets within the levels authorized by City Council. The final budgets shown in the statements are as amended at June 30, 2025.

Annual budgets are adopted on the modified accrual basis except that they account for encumbrances carried from the prior fiscal year into the current year. Current year’s appropriations are charged for encumbrances when commitments for the expenditures of monies are issued. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities in the current year because the commitments, if fulfilled would be honored during the subsequent year.

The accompanying Statement of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual (Non-GAAP Basis) – General Fund presents comparisons of the original and final budget with actual data. Since the legally adopted budget is on a basis which differs from GAAP, the actual data is similarly presented on a budgetary basis for comparison purposes. A reconciliation of the non-GAAP basis to the GAAP basis is presented.

#### Deficit in Fund Balance of Individual Fund

For the fiscal year ended June 30, 2025, there was a negative fund balance in the General COVID Relief fund of \$3,530. This deficit resulted from an excess of expenditures over collected revenues. This deficit is expected to be reimbursed from FEMA.

### 4. DETAILED DISCLOSURES ON ALL FUNDS

#### a. Deposits

As of June 30, 2025, the bank balances and carrying amounts of bank deposits were as follows:

	Bank Balance	Carrying Amount
City - Governmental and Business-type Activities	\$ 278,796	\$ 153,125
City - Fiduciary Funds	147	8,565
Component unit - Authority	13,682	12,725

All deposits of the City are made in board-designated official depositories and are secured as required by State statutes. The City may designate as an official depository any bank or savings and loan association whose principal office is located in North Carolina. In addition, the City may establish time deposit accounts such as Negotiable Order of Withdrawal (NOW) and Super NOW accounts, money market accounts, and certificates of deposit. The City and the Authority have petty cash of \$359 and \$273 respectively.

According to the City’s policy regarding custodial credit risk for deposits, all of the City’s deposits are either insured or collateralized by using the Pooling Method. Under the Pooling Method, a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer’s agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the City, these deposits are considered to be held by the City’s agent in the City’s name. The amount of the pledged collateral is based on an approved averaging method for non-interest-bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the City or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the City under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. Of the City’s bank balances, \$1,250 was covered at the federal depository insurance coverage level and \$64,343 was covered by collateral held under the Pooling Method.

**Component Unit:** The Authority must comply with the requirements of the State statutes as previously described for the City. Of the bank balances, \$250 was covered by federal depository insurance coverage. The remaining balances were covered by collateral held under the Pooling Method.

**b. Investments**

State Statute 159-30 authorizes the City and the Authority to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high-quality issues of commercial paper and bankers’ acceptances; repurchase agreements having third-party safekeeping; and the North Carolina Capital Management Trust (NCCMT), an SEC registered mutual fund. The City is not authorized to enter into reverse repurchase agreements. The investments of the Charlotte Firefighters’ Retirement System (System) Pension Trust fund are governed by the North Carolina Act (Act) establishing the System. This Act authorizes additional investment types which include corporate bonds, common stock, guaranteed investment contracts and mutual funds. The investments of the Employee Benefit Trust Plan (EBTP) are governed by State statute 147-69.2(b)(1)-(6)&(8). This legislation authorizes additional investment types which include corporate bonds, common stock, and mutual funds.

**City – Governmental and Business-type Activities** – The investments and maturities at June 30, 2025 were as follows:

Investment type	Fair Value	Investment Maturities (in Years)		
		Less than 1	1-3	More than 3
U.S. Treasuries	\$ 650,809	\$ 485,574	\$ 165,235	\$ –
U.S. Agencies	1,917,755	1,303,883	514,764	99,108
Commercial paper	22,350	22,350		–
Mutual funds	70,832	N/A	N/A	N/A
NCCMT Government Portfolio	700,359	N/A	N/A	N/A
NCIP	10,149	N/A	N/A	N/A
NC Class	10,157	N/A	N/A	N/A
<b>Total</b>	<b>\$ 3,382,411</b>	<b>\$ 1,811,807</b>	<b>\$ 679,999</b>	<b>\$ 99,108</b>

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2025**

*(Dollar Amounts in Thousands)*

The following is a summary of the fair value hierarchy of the fair value of investments as of June 30, 2025:

Investments by fair value level	June 30, 2025	Fair Value Measurements Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements Using Quoted Prices in Active Markets for Similar Assets (Level 2)
Debt securities			
U.S. Treasuries	\$ 650,809	\$ 485,574	\$ 165,235
U.S. Agencies	1,917,755	-	1,917,755
Commercial paper	22,350	-	22,350
Mutual funds	70,832	70,832	-
Total investments by fair value level	\$ 2,661,746	\$ 556,406	\$ 2,105,340

Category	Investments Measured as NAV	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
NCCMT Government Portfolio	700,359	-	Daily	N/A
NCIP	10,149	-	Daily	N/A
NC Class	10,157	-	Daily	N/A
	720,665	\$ -		
Total investments	\$ 3,382,411			

Investments classified in Level 1 of the fair value hierarchy are valued using quoted prices in active markets. Level 2 debt securities are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities benchmark quoted prices. Investments in NC Class, NCIP, and the NCCMT Government Portfolio are reported at amortized cost (NAV), which approximates fair value, in accordance with GASB guidance.

*Interest Rate Risk:* As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy structures the investment portfolio so security maturities match cash flow requirements for ongoing operations, avoiding the need to sell securities on the open market prior to maturity. Also, the City's investment policy requires the investment of operating funds primarily in shorter-term securities (0-5 years), money market mutual funds, or similar investment pools.

*Credit Risk:* The City's investment policy seeks to minimize credit risk by pre-qualifying and conducting ongoing due diligence of the financial institutions, broker/dealers, and intermediaries with which the City will do business and diversifying the investment portfolio so the impact of potential losses from any one type of security or from any one individual issuer will be minimized. State law limits investments in commercial paper to the top rating issued by nationally recognized statistical rating organizations (NRSROs). As of June 30, 2025, the City's investments in commercial paper carried at least S&P A1, Moody's P1 or Fitch F1 ratings. The City's investments in the NCCMT Government Portfolio carried a credit rating of AA+ by S&P as of June 30, 2025. The City's investments in U.S. Agencies (Federal Home Loan Bank, Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and Federal Farm Credit Bank) are rated AA+ by S&P and Aaa by Moody's.

*Custodial Credit Risk:* For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At June 30, 2025, the City had no investments subject to custodial credit risk. The City's investment policy limits custodial credit risk by providing that purchased securities be delivered to a third-party safekeeping bank designated by the City.

*Concentration of Credit Risk:* The City's investment policy limits the amount of commercial paper or bankers' acceptances to a maximum of 25 percent of the portfolio. For commercial paper, a maximum of \$20 million may be invested in any one issuer. For bankers' acceptances, the maximum investment is limited to 10 percent of the portfolio for any one issuer.

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2025**

(Dollar Amounts in Thousands)

**City – Fiduciary Fund: Charlotte Firefighters’ Retirement System** – The investments and maturities at June 30, 2025 were as follows:

Investment type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	More than 10
U.S. Treasuries	\$ 15,167	\$ 6,453	\$ 844	\$ 3,543	\$ 4,327
U.S. Agencies	46,922	272	524	644	45,482
Corporate bonds	68,157	229	11,578	13,180	43,170
Common stocks	84,888	N/A	N/A	N/A	N/A
Mutual funds	488,777	N/A	N/A	N/A	N/A
<b>Total</b>	<b>\$ 703,911</b>	<b>\$ 6,954</b>	<b>\$ 12,946</b>	<b>\$ 17,367</b>	<b>\$ 92,979</b>

**Interest Rate Risk:** The System does not have a formal investment policy that limits investment maturities.

**Credit Risk:** The System is authorized to invest in bonds with a quality rating of no less than investment grade and unrated U.S. Treasuries and Agencies. The quality ratings of investments in fixed income securities as described by nationally recognized statistical rating organizations at June 30, 2025 were as follows:

Quality Rating	Fair Value	Percentage of Portfolio
AAA	\$ 6,793	5.22%
Ba1 > Aa2	63,111	48.46%
Total credit risk debt securities	69,904	53.68%
U.S. Government fixed income securities:		
Government National Mortgage Association	5,470	4.20%
U.S. Treasury	15,167	11.64%
Not rated	39,704	30.48%
Total fixed income securities	\$ 130,245	100.00%

**Concentration of Credit Risk:** The System limits the amount of equity holdings in any one company not to exceed eight percent or benchmark weight +1%, whichever is greater, of the market value of the portfolio; the amount of equity holdings in any one sector to 30 percent of the fair value of the portfolio; and the amount of fixed-income securities in any one corporation to five percent of the fair value of the portfolio without the consent of the board. There is no limit on securities backed by the full faith and credit of the U.S. Government or any of its instrumentalities.

Investments by fair value level	June 30, 2025	Fair Value Measurements Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements Using Quoted Prices in Active Markets for Similar Assets (Level 2)	Fair Value Measurements Using Unobservable Inputs (Level 3)
U.S. Treasuries	\$ 15,167	\$ 15,167	\$ –	\$ –
U.S. Agencies	46,922	–	46,922	–

Total investments	<u>\$ 703,911</u>			

Investments classified in Level 1 of the fair value hierarchy are valued using quoted prices in active markets. Level 2 debt securities are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' benchmark quoted prices.

**City – Fiduciary Fund: Employee Benefit Trust Plan (EBTP)** – At June 30, 2025, the EBTP had investments of \$179,056 in mutual funds. The mutual fund investments classified at Level 1 of the fair value hierarchy are valued using quoted prices in active markets.

**Interest Rate Risk:** The EBTP does not have a formal investment policy that limits investment maturities.

**Credit Risk:** The EBTP adheres to State statutes which limit credit risk by limiting investments in below investment grade securities and restricting the purchase of non-exchange traded investments.

**Concentration of Credit Risk:** The EBTP diversifies investments according to a strategic asset allocation across a range of company capitalizations in domestic and international equities as well as domestic and global bonds. The EBTP limits the amount of equity holdings in any one company to eight percent of the fair value of the portfolio; the amount of equity holdings in any one sector to 30 percent of the fair value of the portfolio; and the amount of fixed-income securities in any one corporation to five percent of the fair value of the portfolio. There is no limit on securities backed by the full faith and credit of the U.S. Government for any of its instrumentalities.

**Component Unit** – At June 30, 2025, the Authority had investments of \$41,382 in the NCCMT's Government Portfolio, which carried a credit rating of AAA by S&P.

*(Dollar Amounts in Thousands)*

**c. Receivables**

The receivable amounts presented in the accompanying financial statements are net of the following allowances for doubtful accounts:

<u>Governmental</u>	
General	\$ 22,613
Debt Service	1,808
Capital Projects	276
Nonmajor Governmental	235
Total Governmental	<u>24,932</u>
 <u>Proprietary</u>	
Water and Sewer	66,841
Storm Water	15,622
Airport	74,009
Public Transit	4,618
Total Proprietary	<u>161,090</u>
Total	<u>\$ 186,022</u>

In February 2002, City Council approved an interest-free loan to the Authority for \$5,000 for the renovation of Ovens Auditorium. In May 2007, Council approved a new repayment schedule for the loan agreement. The term of the loan was extended by thirty years and established a \$160 per year repayment through fiscal year 2037. At June 30, 2025, the balance of the loan outstanding was \$1,811.

**(1) Lease Receivable**

The City leases land, buildings, machinery and equipment, water and sewer systems, Airport facilities (non-regulated leases), and infrastructure capital assets to various third-party tenants doing business in the City of Charlotte. These leases have terms including options to extend between 1 and 99 years, with payments required monthly, semiannually, or annually. In addition to fixed payments and variable payments that are fixed in substance, the present value of which are included in the lease receivable, the City receives variable payments that depend on future performance of the lessee or usage of the underlying asset and non lease payments that are excluded from the measurement of the lease receivable and recognized as inflows of resources.

In fiscal year 2025, the City recognized \$20,833 of lease revenue and \$3,767 of interest revenue related to these leases. In addition, the City recognized \$37,630 in variable lease revenue not included in the lease receivable. As of June 30, 2025, the City's lease receivables were valued at \$149,929. The deferred inflow of resources associated with these leases to be recognized as revenue over the remaining terms of the leases is \$139,765.

The principal and interest requirements to maturity for the lease receivable at June 30, 2025, are as follows:

Year Ending June 30	<u>Governmental Activities</u>	
	Principal	Interest
2026	\$ 912	\$ 163
2027	778	151
2028	500	129
2029	480	121
2030	447	114
2031-2035	2,415	454
2036-2040	1,964	276
2041-2045	1,310	152
2046-2050	902	69
2051-2055	487	13
2056-2057	-	-
	<u>\$ 10,195</u>	<u>\$ 1,642</u>

The principal and interest requirements to maturity for the lease receivable at June 30, 2025, are as follows:

Year Ending June 30	<u>Business-type Activities</u>					
	Water and Sewer		Airport		Public Transit	
	Principal	Interest	Principal	Interest	Principal	Interest
2026	\$ 295	\$ 37	\$ 17,629	\$ 2,783	\$ 518	\$ 342

(Dollar Amounts in Thousands)

**(2) Regulated Leases**

The City has leasing agreements for aeronautical use of the Airport’s airfield, terminal, and other facilities as defined by the Federal Aviation Administration. The City leases land and buildings to third parties under these agreements.

As of June 30, 2025, the remaining amount of expected future minimum payments under these agreements is as follows:

Year Ending June 30		
2026	\$	48,928
2027		5,240
2028		5,344
2029		6,144
2030		4,493
2031-2035		19,653
2036-2040		15,085
2041-2045		6,595
2046-2050		2,137
2051-2055		167
2056-2058		18
Total minimum future rental income	\$	<u>113,804</u>

In July 2016, the City and American Airlines Group, Inc. (American Airlines), Frontier Airlines, Jet Blue, Southwest Airlines, Delta Air Lines, United Airlines and Spirit Airlines (collectively, the Signatory Airlines) entered into an Airline Use and Lease Agreement (AUA) for usage of Charlotte Douglas International Airport (Airport) facilities to conduct business as air transportation businesses. This agreement is non-cancellable and terminates no later than 2026 with no option to extend. Under the terms of this agreement, Signatory Airlines pay the Airport monthly based on the annual rental rate and fee schedule. Rate calculations are based on total estimates of cost and expenses, estimates of passengers and total landed weight, and other factors. Final settlements are made each year after the audit of the Airport fund’s Annual Comprehensive Financial Report. Other airlines operating at the Airport are billed at rates established by the City’s ordinances.

Pursuant to the AUA, the Signatory Airlines lease certain premises in the passenger terminal building (terminal) and are obligated to pay landing fees and terminal rentals which, in the aggregate, are sufficient to enable the City to pay the annual operating expenses of the airfield and terminal, and the annual debt service on General Airport Revenue Bonds (GARBs) issued by the City to fund airfield, terminal, and other airport improvements. Under the Agreement, American Airlines exclusively leases terminal space and facilities on the ramp levels of Concourses A, B, C, D, and E, ancillary space on the ticketing level of those Concourses, airline club space, and office space in the mezzanine of the Airport Atrium. American Airlines also preferentially leases gates on A, B, C, D and E Concourses. Delta, United, Southwest, Jet Blue, Spirit, and Frontier exclusively lease support space on the ramp level of Concourse A; these airlines also preferentially lease gates on Concourse A. All of the Signatory Airlines under the agreement exclusively lease airline ticket counter support space in the Airport lobby and baggage service office space in the baggage claim area of the Airport. All Signatory Airlines also preferentially lease ticket counters in the Airport lobby.

In addition, the agreement grants American Airlines preferential use of boarding gates, aircraft parking, and other areas at the Airport. No other airlines have exclusive or preferential use of more than five percent of terminal space or other areas of the Airport as of June 30, 2025. Exclusive and preferential use of space are summarized as follows:

Charlotte Douglas International Airport Leased Terminal Space										
	American	Delta	United	Southwest	JetBlue	Spirit	Frontier	Joint Use	Other Space	Total
Airline Leased Space (sq. ft.)	<b>463,189</b>	<b>47,613</b>	<b>23,838</b>	<b>9,740</b>	<b>849</b>	<b>5,824</b>	<b>6,865</b>	<b>307,276</b>	-	<b>865,194</b>

Common and preferential use gate assignments										
Number of gates	93	7	4	2	-	2	2	-	13	<b>123</b>

For the year ended June 30, 2025, the City recognized \$46,365 of inflows of resources from fixed lease revenue payments and \$15,802 of inflows of resources from variable lease payments not included in expected future minimum payments related to these regulated lease agreements. Variable lease payments were based on usage measures and included landing fees, bag processing fees, gate use fees, international facility use fees, and ticket counter use fees.

*(Dollar Amounts in Thousands)*

**d. Property Taxes**

Pursuant to State statutes, property taxes levied on July 1, the beginning of the fiscal year, are due September 1; however, penalties do not accrue until January 6. The taxes levied effective July 1, 2024 were based on the assessed values listed as of January 1, 2024, which is the lien date. The City and Mecklenburg County have a common tax base and overlapping bonded debt. Mecklenburg County is the City's agent for listing and collecting property taxes levied. The distribution of the City's levy for 2025 (tax rate per \$100 valuation) to its funds is shown below:

General	\$	0.2096
Debt Service		0.0551
Capital Projects		0.0094
Total	<u>\$</u>	<u>0.2741</u>

In addition, special taxes are levied on areas referred to as Municipal Services Districts. The purpose of these taxes is to aid the revitalization of these areas. The tax rates for 2025 for Districts 1, 2, 3, 4, 5 and 6 were \$0.0128, \$0.0218, \$0.0332, \$0.0280, \$0.0262 and \$0.0381, respectively.

**e. Restricted Assets**

Cash, cash equivalents and investments are restricted in the accompanying statements as follows by fund:

<u>Governmental</u>		
Debt Service	\$	65
Capital Projects		56,815
Other governmental funds		32,407
Total Governmental		<u>89,287</u>
 <u>Enterprise</u>		
Water and Sewer		6,051
Airport		710,460
Total Enterprise		<u>716,511</u>
Total	<u>\$</u>	<u>805,798</u>

These fund assets are restricted pursuant to bond orders and other financing agreements.

**f. Capital Assets**

Capital asset activity for governmental activities for the year ended June 30, 2025 were as follows:

<u>Governmental activities</u>	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets not being depreciated:

**g. Interfund Receivables, Payables and Transfers**

The following is a summary of interfund receivables, payables and transfers, respectively, at June 30, 2025 by fund:

Due to/from other funds:	Interfund Receivables	Interfund Payables
Debt Service	\$ 9,408	\$ –
Capital Project	–	6,226
Nonmajor governmental	–	3,550
Enterprise - Water and Sewer	307	–
Enterprise - Airport	61	–
Total	\$ 9,776	\$ 9,776

The balances between Debt Service, Capital Projects, Nonmajor governmental, Water and Sewer, Airport, and General COVID Relief are to advance funding for expenditures until grant reimbursement is received. The balances between Capital Projects and Debt Service are to advance funding for a project until permanent financing is approved.

Due to/from primary government and component unit for reimbursable expenditures:

Primary Government:	Receivable Entity	Payable Entity
Debt Service	\$ 1,513	\$ –
Capital Projects	298	32
Nonmajor governmental	–	1,098
Enterprise - Airport	–	51
Component Unit - Authority	1,181	1,811
Total	\$ 2,992	\$ 2,992

**CITY OF CHARLOTTE, NORTH CAROLINA**

**i. Deferred Outflows and Inflows of Resources and Unavailable Revenues**

The City has several deferred outflows of resources. Deferred outflows of resources are comprised of the following:

	City	Component Unit
Pension deferrals	\$ 531,168	\$ 6,458
OPEB deferrals	14,058	1,608
Contributions to pension plan in current fiscal year	120,073	3,531
Accumulated decrease in fair value of hedging derivatives	3,069	-
Loss on refundings	9,666	-
Unamortized bond refunding charges	2,329	-
	\$ 680,363	\$ 11,597

Deferred inflows of resources are comprised of the following:

	City	Component Unit
Lease receivables	\$ 139,766	\$ 891
Prepaid taxes	748	-
Pension deferrals	350,780	162
OPEB deferrals	66,413	3,375
Gain on refundings	75,763	-
	\$ 633,470	\$ 4,428

In addition, governmental funds report unavailable revenues in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period.

At the end of the current fiscal year, the governmental funds reported unavailable revenues as follows:

	General	Debt Service	Capital Projects	Nonmajor Governmental	Total Governmental
Property taxes receivable	\$ 7,138	\$ 1,808	\$ 239	\$ 126	\$ 9,311
Accounts receivable	3,539	-	30	-	3,569
Other\other governmental agencies\component units	-	1,512	298	131	1,941
	\$ 10,677	\$ 3,320	\$ 567	\$ 257	\$ 14,821

The change in compensated absence liability is presented as a net change. The beginning balance is restated due to implementation of GASB 101.

For governmental activities, LGERS, LEOSSA and net OPEB liability are primarily liquidated by the General Fund. Payments due to participants are made by Internal Service Funds.

Total Business-type Activities	\$ 5,006,291	\$ 743,490	\$ 443,190	\$ 5,306,591	\$ 176,272

The change in compensated absence liability is presented as a net change. The beginning balance is restated due to implementation of GASB 101.

The government-wide statement of net position includes \$46,783 of long-term liabilities due within one year for business-type activities in the liabilities payable from restricted assets. The remaining amount of \$129,489 is displayed as noncurrent liabilities, due within one year on that same statement.

**(1) General Obligation Bonds**

The City issues general obligation bonds to finance acquisition or construction of major capital facilities and the purchase of other major capital items. Bonded indebtedness has also been issued to advance refund several general obligation bonds. The following table summarizes the City's general obligation bonds:

Purpose	Interest Rates	Date Issued	Final Maturity	Original Issue	Balance June 30, 2025
Governmental Activities:					
Taxable Housing, Series 2013A	1.00% - 4.15%	09/05/2013	2030	\$ 34,370	\$ 10,725

Total Airport					<u>1,800,355</u>
Total Business-type Activities					<u>\$ 3,978,605</u>

Interest on the variable-rate bonds is determined by a remarketing agent based upon market conditions.

The principal and interest on the Water and Sewer and Storm Water Revenue Bonds are payable from net revenues of the water and sewer and storm water systems, respectively. Pursuant to the general trust indentures, the City has covenanted to charge rates that produce net revenues which (1) including 50 percent of the surplus fund, after providing for a two-month operating reserve, are at least 120 percent of the principal and interest requirements plus 100 percent of non-revenue bond debt service requirements and (2) are at least 110 percent of the principal and interest requirements plus 100 percent of non-revenue bond debt service requirements. Based on the fiscal year 2025 Water and Sewer Fund budgets, revenue bond debt service coverage was at least 2.8 percent. Based on the fiscal year 2025 Storm Water Fund budgets, revenue bond debt service coverage was at least 3.2 percent.

The principal and interest on the Airport Revenue bonds are payable from net revenues of the Airport. Pursuant to the Revenue Bond Order, the City has covenanted to charge rates which produce revenues sufficient to cover principal and interest payments.

The revenue bonds do not constitute a legal or equitable pledge, charge, lien or encumbrance upon any of the City's property or upon any of its income, receipts or revenues, except as provided in the Revenue Bond Orders or Lease. Neither the credit nor the taxing power of the City is pledged for the payment of the principal or interest, and no owner has the right to compel the exercise of the taxing power of the City or the forfeiture of any of its property in connection with any default under the Revenue Bond Orders or Lease.

Revenue bond debt service requirements to maturity are as follows:

Total Public Transit					<u>206,125</u>
Total Business-type Activities					<u>\$ 221,257</u>

Interest on the variable-rate installment purchases is determined by a remarketing agent based upon market conditions. The City entered into an interest rate swap agreement for the variable rate Hall of Fame 2009D. See note 4.j.9 for additional information concerning derivative instruments.

These installment purchase contracts are non-general obligation financings. In accordance with State statutes, no deficiency judgment may be rendered against the City for amounts owed and the taxing power of the City may not be pledged directly or indirectly to collateralize amounts due pursuant to these contracts.

The City's outstanding non-direct and direct placement installment purchases of \$680,683 are secured with collateral of public safety, convention center, cultural arts, NASCAR Hall of Fame, and other government facilities.

The City enters into installment purchase contracts for the purchase of capital equipment. These financings are payable over five years.

Water and Sewer's outstanding non-direct and direct placement installment purchases of \$14,621 and Storm Water's outstanding direct placement installment purchase of \$511 are secured with collateral of equipment purchased. The City's outstanding installment purchases of \$206,125 for Public Transit are secured with collateral of transit-related facilities and parking decks.

Installment purchases debt service requirements to maturity are as follows:

**(4) Installment Purchases Draw Program**

The City has available a direct placement certificates of participation draw program to finance improvement and renovation projects for various City facilities. The aggregate principal amount of the certificate program outstanding at any one time shall not exceed \$110,000. The certificate program does not constitute a general obligation or other indebtedness of the City, and does not constitute a direct or indirect pledge of the faith and credit or taxing power of the City. In addition, the City has entered into a Certificate Purchase and Advance Agreement. The certificate will be replaced by certificates of participation. The certificate will mature no later than the third anniversary of the closing date or September 21, 2026. The City had direct placement certificates payable of \$110,000 outstanding at June 30, 2025. Interest rates are based upon market conditions.

*(Dollar Amounts in Thousands)*

Direct placement certificates of participation draw program debt service requirements to maturity are as follows:

Year Ending June 30	Governmental Activities	
	Principal	Interest
2026	\$ -	\$ 4,105
2027	110,000	933
	<u>\$ 110,000</u>	<u>\$ 5,038</u>

**(5) General Obligation Bond Anticipation Note**

The City has available a direct placement general obligation bond anticipation note program to finance street improvements, neighborhood improvements, public improvements and housing projects. The aggregate principal amount of the note outstanding at any one time shall not exceed \$200,000. The note is a general obligation of the City, and the City has pledged its faith and credit to the payment of the principal of and interest on the note. In addition, the City has entered into a Note Purchase and Advance Agreement. The note will be replaced by general obligation bonds. The note will mature no later than the third anniversary of the closing date or November 7, 2026. The City had direct placement general obligation bond anticipation notes payable of \$139,829 outstanding at June 30, 2025. Interest rates are based upon market conditions.

Direct placement general obligation bond note debt service requirements to maturity are as follows:

Year Ending June 30	Governmental Activities	
	Principal	Interest
2026	\$ -	\$ 5,148
2027	\$ 139,829	\$ 1,833
	<u>\$ 139,829</u>	<u>\$ 6,981</u>

**(6) Revenue Bond Anticipation Note**

The City has available a Water and Sewer direct placement revenue bond anticipation note program to finance the cost of water and sewer system improvements. The aggregate principal amount of the note outstanding at any one time shall not exceed \$500,000. The note is payable from net revenues of the water and sewer systems. The note does not constitute a legal or equitable pledge, charge, lien or encumbrance upon any of the City's property or upon any of its income, receipts or revenues, except as provided in the Revenue Bond Orders. Neither the credit nor the taxing power of the City is pledged for the payment of the principal or interest, and no owner has the right to compel the exercise of the taxing power of the City or the forfeiture of any of its property in connection with any default on the note. In addition, the City has entered into a Note Purchase and Advance Agreement. The note will be replaced by water and sewer revenue bonds. The note will mature no later than the third anniversary of the closing date or June 26, 2027. The City had direct placement Water and Sewer revenue bond anticipation notes payable of \$301,506 outstanding at June 30, 2025. Interest rates are based upon market conditions.

The City has available an Airport direct placement revenue bond anticipation note program to finance the cost of Airport improvements. The aggregate principal amount of the note outstanding at any one time shall not exceed \$280,000. The note is payable from net revenues of the Airport. The note does not constitute a legal or equitable pledge, charge, lien or encumbrance upon any of the City's property or upon any of its income, receipts or revenues, except as provided in the Revenue Bond Orders. Neither the credit nor the taxing power of the City is pledged for the payments of the principal or interest, and no owner has the right to compel the exercise of the taxing power of the City or the forfeiture of any of its property in connection with any default on the note. In addition, the City has entered into a Note Purchase and Advance Agreement. The note will be replaced by general Airport revenue bonds. The note will mature no later than the third anniversary of the closing date or September 28, 2026. The City had Airport direct placement revenue bond anticipation notes payable of \$23,106 outstanding at June 30, 2025. Interest rates are based upon market conditions.

Direct placement revenue bond anticipation note debt service requirements to maturity are as follows:

Year Ending June 30	<u>Business-type Activities</u>			
	Water and Sewer		Airport	
	Principal	Interest	Principal	Interest
2026	\$ -	\$ 11,642	\$ -	\$ 871
2027	301,506	11,514	23,106	215
	<u>\$ 301,506</u>	<u>\$ 23,156</u>	<u>\$ 23,106</u>	<u>\$ 1,086</u>

**(a) Federal Revolving Loan**

Pursuant to the North Carolina Clean Water Revolving Loan & Grant Act of 1987 and the Federal Clean Water Act Amendments of 1987 and the American Recovery and Reinvestment Act of 2009, the City utilized loan proceeds to construct clean water infrastructures. The direct borrowing loans to be repaid are one-half of the total project costs reimbursed with zero percent interest. Principal is forgiven for one-half of the total project costs reimbursed.

Debt service requirements to maturity are as follows:

<u>Business-type Activities</u>	
Year Ending June 30	Principal
2026	\$ 66
2027	66
2028	66
2029	66
2030	66
2031-2033	118
	<u>\$ 448</u>

**(b) State Revolving Loan**

Pursuant to the North Carolina Clean Water Revolving Loan & Grant Act of 1987, the City was awarded direct borrowing state revolving loans through the North Carolina Department of Environmental Quality. The City utilized loan proceeds to construct wastewater treatment works projects. The maximum loan term is twenty years. As of June 30, 2025, interest rates varied from zero to 1.71 percent.

*(Dollar Amounts in Thousands)*

Debt service requirements to maturity are as follows:

Year Ending June 30	Business-type Activities	
	Principal	Interest
2026	\$ 5,401	\$ 1,203
2027	5,401	1,186
2028	5,401	1,116
2029	5,401	1,046
2030	5,401	976
2031-2035	27,005	3,828
2036-2040	26,326	2,074
2041-2045	13,329	438
	<u>\$ 93,665</u>	<u>\$ 11,867</u>

### **(7) Leases**

The City has entered into agreements to lease certain land, office and warehouse facilities, machinery, and other equipment. The lease agreements have been recorded at the present value of the future lease payments as of the date of their inception. The terms and conditions for these leases vary and generally contain renewal options for periods ranging from 1 to 29 years. If the City is not reasonably certain to exercise these renewal options, the options are not considered in determining the lease term and associated potential option payments are excluded from the present value calculation of the right to use lease asset and the lease liability determination. The City's leases generally do not include termination options for either party to the lease or restrictive financial or other covenants. As a result of the leases, the City has recorded the right to use assets with a total net book value of \$15,250 for governmental activities and \$14,143 for business-type activities. The right to use assets are discussed in more detail in section 4f of this note.

Payments due under the lease contracts include fixed, periodic payments over the lease terms plus, for many of the City's leases, variable and non lease component payments. For the City's leases, variable lease payments that depend on future performance or usage of the underlying asset and non lease components are excluded from the measurement of the lease liability and recognized as outflows of resources.

In fiscal year 2025, the City recognized \$1,990 in variable lease payments not previously included in the measurement of the lease liability. As of June 30, 2025, the City's lease payables were valued at \$20,599.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2025, were as follows:

<u>Governmental Activities</u>		
Year Ending June 30	Principal	Interest
2026	\$ 2,279	\$ 388
2027	2,316	339
2028	1,887	294
2029	1,353	265
2030	1,283	239
2031-2035	3,875	849
2036-2040	2,245	304
2041-2045	315	163
2046-2050	456	99
2051-2055	345	18
	<u>\$ 16,354</u>	<u>\$ 2,958</u>

Year Ending June 30	<u>Business-type Activities</u>							
	Water and Sewer		Storm Water		Airport		Public Transit	
	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
2026	\$ 418	\$ 79	\$ 9	\$ 1	\$ 196	\$ 16	\$ 74	\$ 4
2027	440	72	9	-	201	11	76	2
2028	438	60	5	-	176	7	39	-
2029	292	50	-	-	150	3	-	-
2030	310	42	-	-	50	1	-	-
2031-2033	1,362	76	-	-	-	-	-	-
	<u>\$ 3,260</u>	<u>\$ 379</u>	<u>\$ 23</u>	<u>\$ 1</u>	<u>\$ 773</u>	<u>\$ 38</u>	<u>\$ 189</u>	<u>\$ 6</u>

**(8) Subscription-Based Information Technology Arrangements (SBITAs)**

The City has entered into subscription-based information technology arrangements (SBITAs). The SBITA agreements have been recorded at the present value of the future subscription payments as of the date of their inception. Accordingly, the City's estimated incremental borrowing rates of 2.41% to 3.57% were used to discount the SBITA payments. As a result of the subscriptions, the City has recorded the right to use assets with a total net book value of \$67,142 for governmental activities and \$6,512 for business-type activities. The SBITA liability balance was \$37,162 at June 30, 2025.

The future minimum subscription obligations and the net present value of these minimum payments as of June 30, 2025, were as follows:

<u>Governmental Activities</u>		
Year Ending June 30	Principal	Interest
2026	\$ 9,652	\$ 967
2027	6,293	679
2028	5,293	491
2029	3,372	333
2030	1,918	230
2031-2035	5,680	346
	<u>\$ 32,208</u>	<u>\$ 3,046</u>

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2025**

(Dollar Amounts in Thousands)

Year Ending June 30	Business-type Activities					
	Water and Sewer		Airport		Public Transit	
	Principal	Interest	Principal	Interest	Principal	Interest
2026	\$ 1,128	\$ 59	\$ 1,291	\$ 66	\$ 300	\$ 12
2027	480	25	1,049	37	115	3
2028	285	11	241	7	—	—
2029	65	2	—	—	—	—
2030	—	—	—	—	—	—
	<u>\$ 1,958</u>	<u>\$ 97</u>	<u>\$ 2,581</u>	<u>\$ 110</u>	<u>\$ 415</u>	<u>\$ 15</u>

**(9) Derivative Instruments**

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2025 classified by type, and the changes in fair value of such derivative instruments for the year ended are as follows:

	Changes in Fair Value		Fair Value at June 30, 2025		Notional
	Classification	Amount	Classification	Amount	
<u>Governmental Activities</u>					
Cash flow hedges:					
Pay-fixed interest rate swap	Deferred outflow	\$ (1,015)	Debt	\$ (3,069)	\$ 54,515

The mid-market values of the interest rate swaps were estimated using the income approach. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted to a single net present value amount. The interest rate swaps are classified in Level 3 as the valuation relies primarily on unobservable inputs.

The following table displays the objective and terms of the City's hedging derivative instruments outstanding at June 30, 2025 along with the credit rating of the associated counterparty:

Type	Objective	Notional Amount	Effective Date	Maturity Date	Terms	Counterparty Credit Rating
Pay-fixed interest rate swap	Hedge of changes in cash flows on the 2009D Hall of Fame Certificates of Participation	\$ 54,515	8/18/2009	6/1/2035	Pay 4.725%; receive SOFR	Aa2/A+

**Interest Rate Risk:** The City is exposed to interest rate risk on its interest rate swaps. On its pay-fixed, receive-variable interest rate swaps, as SOFR decreases, the City's net payment on the swaps increases.

**Basis Risk:** The City's hedging derivative instruments expose the City to basis risk since the variable payment received from the counterparty is determined on a basis different from that used to calculate the bond floating rate for the associated bonds. As of June 30, 2025, the rate received by the City for the 2009D agreement was 4.43 percent, whereas the bond floating rate paid by the City was 4.42 percent.

**Termination Risk:** Either the City or its counterparties may terminate the hedging derivative instruments if the other party fails to perform under the terms of the contract. Termination could result in the City being required to make a termination payment.

**Rollover Risk:** The City is exposed to rollover risk on hedging derivative instruments that are hedges of debt that may be terminated prior to the maturity of the hedged debt. If the option to terminate the hedging derivative instrument is exercised, then the City will be re-exposed to the risks being hedged by the hedging derivative instrument.

*Hedging Derivative Instrument Payments and Hedged Debt:* As of June 30, 2025, aggregate debt service requirements of the City’s variable-rate debt and net receipts/payments on associated hedging derivative instruments are as follows. These amounts assume that current interest rates on variable-rate bonds and the current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary.

Year Ending June 30	Governmental Activities				
	Variable-Rate Instruments			Hedging Derivatives, Net	Total
	Principal	Interest			
2026	\$ 4,555	\$ 2,403	\$ 171	\$ 7,129	
2027	4,805	2,208	153	7,166	
2028	5,065	1,996	138	7,199	
2029	5,355	1,772	122	7,249	
2030	5,655	1,535	106	7,296	
2031-2035	29,080	3,639	251	32,970	
	\$ 54,515	\$ 13,553	\$ 941	\$ 69,009	

*Commitments:* The City’s derivative instruments include provisions that require the City to post collateral in the event its credit rating falls below A3 by Moody’s and A- by S&P. The hedging derivative instruments will be collateralized at fair value with cash and/or U.S. government securities. Collateral will be posted with the City or its agent. At June 30, 2025 the aggregate fair value of all hedging derivative instruments with these collateral posting provisions is (\$3,069). If the collateral posting requirements were triggered at June 30, 2025 the City would not be required to post collateral to its counterparties because they had negative fair values. The City’s general obligation debt rating is Aaa from Moody’s and AAA from S&P; therefore, no collateral has been posted at June 30, 2025.

**(10) Refundings**

In August 2024, the City issued \$59,995 in General Obligation Refunding Bonds, Series 2024 with a fixed interest rate of 5.00 percent. The net proceeds from this current refunding of \$65,755 (after payment of \$476 in underwriting fees and other issue costs) were used to refund \$65,550 of outstanding fixed rate General Obligation Refunding Bonds, Series 2014A. The refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$11,364. This difference, reported in the accompanying financial statements as a gain on refundings, is being charged to operations through the year 2035 using the straight-line method. The City completed the refunding to reduce the total debt service payments over a period of 10 years by \$5,226 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$4,551.

In September 2024, the City issued \$181,295 in Storm Water Fee Revenue Refunding Bonds, Series 2024 with interest rates ranging from 4.00 to 5.00 percent. The net proceeds from this current refunding of \$197,230 (after payment of \$1,007 in underwriting fees and other issue costs) were used to refund \$72,415 of outstanding fixed rate Storm Water Refunding Revenue Bonds, Series 2014 and pay off \$124,900 of outstanding Revenue Bond Anticipation Notes, Series 2022. The refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$9,274. This difference, reported in the accompanying financial statements as a gain on refundings, is being charged to operations through the year 2044 using the straight-line method. The City completed the refunding to reduce the total debt service payments over a period of 30 years by \$7,568 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$5,410.

*(Dollar Amounts in Thousands)*

In June 2025, the City issued \$265,595 in Airport Revenue Bonds, Series 2025A with interest rates ranging from 5.00 to 5.25 percent. The net proceeds of \$278,307 (after payment of \$2,210 in underwriting fees and other issue costs) and \$10,212 in debt service reserve funds were used to refund \$51,565 of outstanding fixed rate Airport Revenue Bonds, Series 2014A, finance the costs of various improvements to the Charlotte Douglas International Airport, and fund the debt service reserve funds for the 2025A bonds. The refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$7,545. This difference, reported in the accompanying financial statements as a gain on refundings, is being charged to operations through the year 2035 using the straight-line method. The City completed the refunding to reduce the total debt service payments over a period of 20 years by \$16,515 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$14,079.

### **(11) Other Debt Information**

In prior years, the City defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. At June 30, 2025, \$22,900 of bonds outstanding are considered defeased.

As of June 30, 2025, the City has authorized but unissued bonds of \$773,983 consisting of \$474,434 for street improvements, \$150,000 for housing and \$149,549 for neighborhood improvements.

Pursuant to the North Carolina General Statutes, the City's outstanding general obligation debt is subject to a legal limitation based on eight percent of the total assessed value of real and personal property. As of June 30, 2025, the City's legal debt limit was \$17,986,542. The outstanding debt subject to this limit was \$2,590,756, leaving a net legal debt margin of \$15,395,786.

In accordance with Section 148 of the Internal Revenue Code of 1986, as amended, and Sections 1.103-13 to 1.103-15 of the related Treasury Regulations, the City must rebate to the federal government "arbitrage profits" earned on governmental bonds issued after August 31, 1986. Arbitrage profits are the excess of the amount earned on investments over the interest paid on the borrowings. At June 30, 2025, the City had a liability of \$1,544 for estimated arbitrage profits payable from business-type activities.

Under an irrevocable letter of credit issued by Truist Bank, the City is entitled to draw an amount sufficient to pay the amount demanded under the sewer construction contract between the City and Classic Neighborhood Development, LLC (the total amount not to exceed \$256). The letter of credit is valid through February 27, 2026 (automatically extended for successive one-year periods, unless Truist Bank notifies the City at least 30 days before the then current expiration date that issuer elects not to extend the expiration date).

In the event of default of any City debt, the City agrees to pay the purchaser on-demand interest on any and all amounts due and owing by the City under the related documents. Within the various credit entities of the City, new debt is issued on parity with existing debt. General obligation debt is backed by the full faith and credit of the City, installment purchase contracts are backed by pledged collateral, and revenue bonds are backed by revenue bond covenants.

### **(12) Early Extinguishment**

On June 11, 2025, the City early redeemed \$5,185 of the Airport Series 2014A revenue bonds.

**k. Fund Balance**

The following schedule provides information on the portion of General fund balance that is available for appropriation:

Total fund balance - General Fund	\$	239,163
Less:		
Nonspendable Leases		889
Nonspendable Prepaid Items		187
Long-term Notes Receivables		8,000
Stabilization by State Statute		79,116
Fund balance policy		150,960
Remaining Fund Balance - Committed for Capital Projects	\$	11

**5. PENSION PLANS AND OTHER BENEFITS**

*Primary Government:* The City participates in the North Carolina Local Governmental Employees' Retirement System (LGERS), administered by the State of North Carolina; the Charlotte Firefighters' Retirement System (System), administered through a board of trustees; and the Law Enforcement Officers' Special Separation Allowance (LEOSSA) managed by the City. The City also participates in a Supplemental Retirement Income Plan for Law Enforcement Officers.

The Statement of Net Position consolidates the deferred outflows of resources, pension liability and deferred inflows of resources related to pensions for LGERS and System (net pension liability) and LEOSSA (total pension liability) as follows:

	LGERS	Firefighters' System	LEOSSA	Total
Deferred Outflows of Resources - City contributions subsequent to the measurement date	\$ 85,498	\$ 28,307	\$ 6,268	\$ 120,073
Other Deferred Outflows	130,119	388,096	12,953	531,168
Pension Liability	418,136	520,061	161,072	1,099,269
Deferred Inflows of Resources - Pension deferrals	8,298	326,215	16,267	350,780
Pension Expense	122,186	62,935	18,021	203,142

Detailed information for all plans follows.

(Dollar Amounts in Thousands)

**a. Local Governmental Employees' Retirement System (LGERS)**

*Plan Description:* The City of Charlotte and the Charlotte Regional Visitors Authority (Authority), a component unit of the City, are participating employers in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEO) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Annual Comprehensive Financial Report (ACFR) for the State of North Carolina. The State's ACFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 707-0500, or at [www.osc.nc.gov](http://www.osc.nc.gov).

*Benefits Provided:* LGERS provides retirement and survivor benefits. Retirement benefits are determined at 1.85 percent of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service. Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

*Contributions:* Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. City of Charlotte and Authority plan members are required to contribute six percent of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. Contractually required contribution rates for the year ended June 30, 2025, were 16.08 percent of compensation for law enforcement officers for the City and 14.35 percent for general employees and firefighters for the City and the Authority, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the City of Charlotte and the Authority, respectively, were \$85,498 and \$3,531 for the year ended June 30, 2025.

*Refund of Contributions:* City and Authority employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include four percent interest. State law requires a 60-day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

**City of Charlotte** – At June 30, 2025, the City reported a liability of \$418,136 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2023. The total pension liability was then rolled forward to the measurement date of June 30, 2024 utilizing update procedures incorporating the actuarial assumptions. The City’s proportion of the net pension liability was based on a projection of the City’s long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2024, the City’s proportion was 6.202 percent which was a decrease of 0.0788 percent from its proportion measured as of June 30, 2023.

For the year ended June 30, 2025, the City recognized pension expense of \$122,186. At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 73,273	\$ 493
Changes of assumptions	–	–
Net difference between projected and actual earnings on pension plan investments	56,845	–
Changes in proportion and differences between City contributions and proportionate share of contributions	–	7,805
City contributions subsequent to the measurement date	85,498	–
Total	\$ 215,616	\$ 8,298

\$85,498 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	
2026	\$ 35,707
2027	79,955
2028	12,586
2029	(6,428)
	\$ 121,820

**Component Unit** – At June 30, 2025, the Authority reported a liability of \$17,660 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2023. The total pension liability was then rolled forward to the measurement date of June 30, 2024 utilizing updated procedures incorporating the actuarial assumptions. The Authority’s proportion of the net pension liability was based on a projection of the Authority’s long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2025, the Authority’s proportion was 0.262 percent which was an increase of 0.025 percent from its proportion measured as of June 30, 2023.

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2025**

*(Dollar Amounts in Thousands)*

For the year ended June 30, 2025, the Authority recognized pension expense of \$5,475. At June 30, 2025, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,094	\$ 21
Changes of assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	2,401	-
Changes in proportion and differences between Authority contributions and proportionate share of contributions	962	141
Authority contributions subsequent to the measurement date	3,531	-
<b>Total</b>	<b>\$ 9,988</b>	<b>\$ 162</b>

The amount of \$3,531 reported as deferred outflows of resources related to pensions resulting from Authority contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2025. Other amounts reported as deferred inflows of resources (net of deferred outflows of \$6,458) related to pensions will be recognized in pension expense as follows:

Year Ending June 30	
2026	\$ 1,971
2027	3,880
2028	717
2029	(271)
Thereafter	-
	<u>\$ 6,297</u>

Actuarial Assumptions: The total pension liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.25 to 8.25%, including inflation and productivity factor
Investment rate of return	6.50%, net of pension plan investment expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2023 valuation were based on the results of an actuarial experience study for the period January 1, 2015 through December 31, 2019.

Future ad hoc cost of living adjustment amounts are not considered to be substantively automatic and are, therefore, not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2024 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	33.0%	2.4%
Global Equity	38.0%	6.9%
Real Estate	8.0%	6.0%
Alternatives	8.0%	8.6%
Opportunistic Fixed Income	7.0%	5.3%
Inflation Sensitive	6.0%	4.3%
Total	<u>100.0%</u>	

The information above is based on 30-year expectations developed with the consulting actuary for the asset, liability and investment policy study for the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 2.38 percent. All rates of return and inflation are annualized.

*Discount Rate:* The discount rate used to measure the total pension liability was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate:* The following presents the City and the Authority's proportionate share of the net pension liability calculated using the discount rate of 6.50 percent, as well as what the City and the Authority's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.50 percent) or one percentage point higher (7.50 percent) than the current rate.

	1% Decrease (5.50%)	Discount Rate (6.50%)	1% Increase (7.50%)
City's proportionate share of the net pension liability (asset)	\$ 740,949	\$ 418,136	\$ 152,578
Authority	31,294	17,660	6,444

*Pension Plan Fiduciary Net Position:* Detailed information about the pension plan's fiduciary net position is available in the separately issued Annual Comprehensive Financial Report (ACFR) for the State of North Carolina.

(Dollar Amounts in Thousands)

**b. Charlotte Firefighters' Retirement System (System)**

*Plan Description:* The Charlotte Firefighters' Retirement System (System) administers the Charlotte Firefighters' Retirement System Plan, a single-employer defined benefit pension plan. System membership is comprised of civil service employees of the Charlotte Fire Department. Section 12 of G.S. Chapter 926 of the 1947 Session Laws, as amended, officially known as the Charlotte Firefighters' Retirement System Act (Act), assigns the authority to establish and amend benefit provisions to the System. Management of the plan is vested in the System's Board of Trustees, which consists of 11 members – four appointed by the Resident Judge of the Superior Court of Mecklenburg County, three who serve by virtue of their positions with the City of Charlotte, three elected by the members and one elected by the retirees. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Charlotte Firefighters' Retirement System, 428 East Fourth Street, Suite 205, Charlotte, North Carolina 28202, or by calling (704) 626-2728.

*Plan Membership:* At June 30, 2024, the actuarial valuation date, System membership consisted of the following:

Retired participants and beneficiaries currently receiving benefits	876
Terminated participants and beneficiaries entitled to benefits but not yet receiving benefits	20
Active participants	1,115
Total	<u>2,011</u>

*Basis of Accounting:* For purposes of measuring the net pension liability, deferred outflows of resources related to pensions, and pension expense, information about the fiduciary net position of the System and additions to/ deductions from fiduciary net position have been determined on the same basis as they are reported by the System. Contributions are recognized in the period in which contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Interest and dividend income is reported as earned. The net appreciation in the fair value of investments includes realized gains and losses on investments that were both bought and sold during the year.

*Benefits Provided:* The System provides retirement and permanent and total disability benefits to the uniformed employees of the Fire Department of the City of Charlotte. Retirement benefits are determined as 2.6 percent of the member's final average salary multiplied by the years of credited service. A member's final average salary is calculated as the average monthly compensation received by the member during any two consecutive years of membership which produces the highest average and is contained within the last five years of membership. Plan members are eligible to retire with full retirement benefits at age 60 with five years of creditable service, at age 50 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits with 25 years of creditable service. Early retirement benefits are reduced by three percent for each year the early retirement date precedes age 50. Survivor benefits are available to eligible beneficiaries of members who die while in active service. Eligible beneficiaries may elect to receive a lump sum equal to the return of the member's accumulated contributions, plus those contributions made by the City on their behalf, plus interest of four percent per year. In lieu of the lump sum, the beneficiary may elect an annuity which is the actuarial equivalent of the lump sum. The plan does not provide for automatic post-retirement benefit increases.

*Contributions:* Benefit and contribution provisions are established by State law and may be amended only by the North Carolina legislature. Contributions to the pension plan from the City were \$28,307 for the year ended June 30, 2025.

*Refund of Contributions:* If an employee ceases employment with less than five years of service credit, accumulated employee contributions are refunded to the employee or designated beneficiary. After five or more years of service, the employee may elect to receive a refund of the employee's accumulated contributions with interest compounded annually at four percent or receive an accrued benefit at age 60.

*Method Used to Value Investments:* The investments of the System are reported at fair value. Securities and mutual funds traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair value.

*Investment Policy:* The North Carolina Act (Act) which established the System requires the Board of Trustees to act with the same care, skill, prudence and diligence under the circumstances then prevailing, that a prudent person acting in a similar capacity and familiar with those matters would use in the conduct of a similar enterprise with similar aims. The Act requires the Trustees to design an investment plan to further the purpose of the System by giving consideration to the following: (a) diversification of investments, (b) liquidity and return relative to cash flow needs and (c) projected return. In accordance with the Act, the Board of Trustees has developed and periodically revises a policy statement of investment goals, objectives, and guidelines, which specifically define vehicles that may be used for the investment of System funds. The System invests in the U.S. government securities, corporate bonds, common stocks and mutual funds.

*Concentrations:* The System had individual fixed income or equity investments at June 30, 2025 managed by the following organizations that represented five percent or more of the System’s net position:

State Street Global Advisors	37%
Barrow Hanley	9%
Neuberger Berman	9%
Wellington Management Company	6%
Westwood Developed Markets	6%
Lazard / Wilmington Collective Trust	6%

*Rate of Return:* For the year ended June 30, 2024, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 11.74 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2025, the System reported a liability of \$520,061. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024.

*Actuarial Assumptions:* The total pension liability in the July 1, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.75% to 9.00%, including inflation
Investment rate of return	7.00%, net of pension plan investment expense, including inflation

Mortality rates were based on The Pub-2010 Safety Retiree Headcount-Weighted Below Median Mortality Table adjusted by 87.5 percent for males projected generationally with Scale MP-2019 for the period after service retirement. The Pub-2010 Safety Disabled Retiree Headcount-Weighted Mortality Table projected generationally with Scale MP-2019 is used for the period after disability retirement. The Pub-2010 Safety Employee Headcount-Weighted Mortality Table projected generationally with projection Scale MP-2019 is used for deaths in active service.

(Dollar Amounts in Thousands)

The actuarial assumptions used in the July 1, 2024 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2019.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Broad Domestic Equity	36.0%	5.8%
International Equity	26.0%	6.6%
Domestic Fixed Income	23.0%	1.0%
Non U.S. Fixed Income	5.0%	0.3%
Real Estate	10.0%	4.9%
Total	100.0%	

*Discount Rate:* The discount rate used to measure the total pension liability was 5.40 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions and employer contributions will be made at the current contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments of 7 percent was applied to all periods of projected benefit payments. The Single Equivalent Interest Rate (SEIR) of 5.40 percent was used to determine the total pension liability as of June 30, 2024.

*Changes in the Net Pension Liability:*

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
Balances at June 30, 2023	\$ 1,153,958	\$ 603,781	\$ 550,177
Service cost	40,816	-	40,816
Interest	57,931	-	57,931
Benefit Changes	-	-	-
Difference between expected and actual experience	4,033	-	4,033
Changes of assumptions or other inputs	(40,724)	-	(40,724)
Contributions-employer	-	20,621	(20,621)
Contributions-employee	-	13,700	(13,700)
Net investment income	-	58,675	(58,675)
Benefit payments, including refunds of employee contributions	(49,393)	(49,393)	-
Administrative expense	-	(794)	794
Other Changes	-	(30)	30
Balances at June 30, 2024	\$ 1,166,621	\$ 646,560	\$ 520,061

*Sensitivity of the Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate:* The following presents the System's net pension liability calculated using the discount rate of 5.40 percent, as well as what the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (4.40 percent) or one percentage point higher (6.40 percent) than the current rate:

	1% Decrease 4.40%	Discount Rate 5.40%	1% Increase 6.40%
System's net pension liability	\$ 682,622	\$ 520,061	\$ 386,505

For the year ended June 30, 2025, the System recognized pension expense of \$62,935. At June 30, 2025, the System reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 45,206	\$ 785
Changes of assumptions	326,236	325,430
Net difference between projected and actual earnings on pension plan investments	16,654	-
City contributions subsequent to the measurement date	28,307	-
Total	\$ 416,403	\$ 326,215

\$28,307 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	
2026	\$ 13,570
2027	37,042
2028	6,297
2029	(9,953)
2030	24,651
Thereafter	(9,726)
	\$ 61,881

**c. Law Enforcement Officers' Special Separation Allowance (LEOSSA)**

*Description:* The City of Charlotte administers a public employee retirement system (LEOSSA), a single employer defined benefit pension plan that provides retirement benefits to the City's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of creditable service or have attained 55 years of age and have completed five or more years of creditable service. The LEOSSA is equal to 0.85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. A stand-alone financial report is not issued for the LEOSSA.

All full-time law enforcement officers of the City are covered by the LEOSSA. At December 31, 2023, the LEOSSA's membership consisted of:

Inactive plan members currently receiving benefits	537
Active plan members	1,679
Total	2,216

*Basis of Accounting:* The City has chosen to fund the LEOSSA on a pay-as-you-go basis. Pension expenditures are made from the General fund, which is maintained on the modified accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

The LEOSSA has no assets accumulated in a trust that meet the criteria in GASB Statement 73.

*Actuarial Assumptions:* The entry age actuarial cost method was used in the December 31, 2023 valuation. The total pension liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%	
Salary increases	3.25% to 7.75%, including inflation and productivity factor	
Discount rate	4.28%	

*Discount Rate:* The discount rate used to measure the TLP is the S&P Municipal Bond 20-year High Grade Rate index.

*Mortality Assumption:* All mortality rates use Pub-2010 amount-weighted tables.

*Mortality Projection:* All mortality rates are projected from 2010 using generational improvement with Scale MP-2019.

*Deaths After Retirement (Healthy):* Mortality rates are based on the Safety Mortality Table for Retirees. Rates for all members are multiplied by 97 percent and Set Forward by 1 year.

*Deaths After Retirement (Disabled Members at Retirement):* Mortality rates are based on the Non-Safety mortality Table for Disabled Retirees. Rates are Set Back 3 years for all ages.

*Deaths After Retirement (Survivors of Deceased Members):* Mortality rates are based on the Below-median Teachers Mortality Table for the Contingent Survivors. Rates for the male members are Set Forward 3 years. Rates for female members are Set Forward 1 year. Because the contingent survivor tables have no rates prior to age 45, the Below-median Teachers Mortality Table for Employees is used for ages less than 45.

*Deaths Prior to Retirement:* Mortality rates are based on the Safety Mortality Table for Employees.

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2025**

*(Dollar Amounts in Thousands)*

December 31, 2023 is the actuarial valuation date upon which the TPL is based. The result was rolled forward using standard actuarial techniques to the Measurement Date. The roll forward calculation adds the annual normal cost (also called the service cost), subtracts the actual benefit payments for the plan year and then applies interest for the year. The procedure used to determine the TPL as of December 31, 2024 is shown in the following table:

	TPL Reported for Year Ending 2023	Development of TPL for Year Ending 2024 Prior to Assumption Change	Development of TPL for Year Ending 2024 after Assumption Change
TPL Roll Forward			
Interest Rate	4.00%	4.00%	4.28%
Valuation Date for Measurement	12/31/2022	12/31/2023	12/31/2023
TPL as of December 31, 2023	\$ 164,649	\$ 165,694	\$ 162,577
Entry Age Normal Cost for the period January 1, 2024 - December 31, 2024 at the End of the Year	4,742	4,742	4,493
Actual Benefit Payments for the Period January 1, 2024 - December 31, 2024 at the End of the Year	12,684	12,684	12,684
TPL as of December 31, 2024	\$ 163,040	\$ 164,127	\$ 161,072
Experience Actuarial (Gain)/Loss		\$ 1,087	
Discount Rate Change (Gain)/Loss			\$ (3,055)

No significant changes, other than the change in the Municipal Bond Index Rate, have occurred between the Valuation Date and the Measurement Date.

*Contributions:* The City is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund amounts necessary to cover the benefits earned on a pay-as-you-go basis through appropriations made in the General Fund operating budget. The City's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the LEO Separation are financed through investment earnings. The City paid \$12,684 as benefits came due for the reporting period.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:**

At June 30, 2025, the LEOSA reported a total pension liability of \$161,072. The total pension liability was measured as of December 31, 2024 based on a December 31, 2023 actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2024 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2025, the City recognized pension expense of \$18,021.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 8,005	\$ 2,391
Changes of assumptions and other inputs	4,948	13,876
City contributions subsequent to the measurement date	-	-
Total	\$ 12,953	\$ 16,267

\$6,268 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	
2026	\$ 1,221
2027	(4,029)
2028	(268)
2029	(208)
2030	(32)
	<u>\$ (3,316)</u>

Sensitivity of the City's Total Pension Liability to Changes in the Discount Rate: The following presents the City's total pension liability calculated using the discount rate of 4.28 percent, as well as what the City's total pension liability would be if it were calculated using a discount rate that is one percentage point lower (3.28 percent) or one percentage point higher (5.28 percent) than the current rate:

	1% Decrease 3.28%	Discount Rate 4.28%	1% Increase 5.28%
Total pension liability	\$ 172,328	\$ 161,072	\$ 150,758

Schedule of Changes in Total Pension Liability

Total pension liability as of December 31, 2023	\$ 164,649
Service cost	4,742
Interest	6,333
Difference between expected and actual experience	1,087
Changes of assumptions and other inputs	(3,055)
Benefit payments	(12,684)
Total pension liability as of December 31, 2024	<u>\$ 161,072</u>

The plan currently uses mortality tables that vary by age, and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2023 valuation were based on the results of an experience study completed by the Actuary for the Local Government Employees' Retirement System for the five-year period ending December 31, 2019.

**d. Supplemental Retirement Income Plan for Law Enforcement Officers**

*Description:* The City contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the City. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Annual Comprehensive Financial Report (ACFR) for the State of North Carolina. The State's ACFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 707-0500 or at [www.osc.nc.gov](http://www.osc.nc.gov).

*(Dollar Amounts in Thousands)*

*Funding Policy:* Article 12E of G.S. Chapter 143 requires the City to contribute each month an amount equal to five percent of each officer’s salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. The City is currently making contributions for the 1,647 law enforcement officers. Contributions for the year ended June 30, 2025 were \$17,377 which consisted of \$8,093 from the City and \$9,284 from the law enforcement officers.

**e. Death Benefit Plan**

The City provides death benefits to law enforcement officers through the Death Benefit Plan for members of the Local Governmental Employees’ Retirement System (LGERs), a multiple-employer, State-administered, cost sharing plan funded on a one-year term cost basis. The benefit is paid to beneficiaries of employees who die while still in active service after one year as a contributing member or die within 180 days of their last day of service, provided the contributions have not been withdrawn. The benefit is a lump-sum payment equal to the employee’s highest salary for 12 consecutive months during the 24 months before the death. The lump-sum payment will be at least twenty-five thousand but no more than fifty thousand. All death benefit payments are made from the Death Benefit Plan. The City has no liability beyond the payment of monthly contributions. Contributions are determined as a percentage of monthly payroll, based upon rates established annually by the State. Because the benefit payments are made by the Death Benefit Plan and not by the City, the City does not determine the number of eligible participants. For the fiscal year ended June 30, 2025, the City made contributions to the State for death benefits. The City’s contributions for employees engaged in law enforcement represented 0.14 percent of covered payroll.

**f. Other Postemployment Benefits**

*Description:* The City of Charlotte Employee Benefit Trust Plan (EBTP) is a single-employer defined benefit healthcare plan administered by the City of Charlotte. The EBTP provides health and welfare benefit plans for the benefit of eligible retired employees of the City. Section 4.05 of the Charlotte City Code assigns the authority to establish benefit provisions for EBTP to the City Council. A stand-alone financial report is not issued.

*Plan Membership:* At June 30, 2024 the EBTP membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits payments	2,197
Active members	2,093
Total	<u>4,290</u>

*Benefits Provided:* The EBTP provides healthcare benefits for retirees hired before July 1, 2009 and have at least ten years of consecutive City service in a benefit eligible position and immediately begin drawing a retirement benefit. The City pays a percentage of the cost of coverage for employees’ benefits through private insurers based on years of service. Sworn public safety officers hired on or after July 1, 2009 are eligible to participate in a Retirement Health Reimbursement Plan (RHRP). This benefit provides a weekly City contribution into a Health Reimbursement account and upon vesting, the employee can use it to pay for qualified healthcare expenses in retirement or at the time of separation of service.

*Contributions:* The contribution requirements of plan members and the City are established and may be amended by the City Council. The required contribution rates for plan members were dependent on the years of service and the coverage selected. Monthly rates ranged from \$238 to \$5,898 per retiree.

City Contributions to EBTP based on years of creditable service  
Date Hired

Years of Creditable Service	Date Hired	
	Pre-July 1, 2009	On or after July 1, 2009
less than 10 years	0%	0%
10 to 20 years	51%	0%
20 + years	60%	0%

The City Council set the employer contribution rate to contribute the projected pay-as-you-go-financing requirements, with additional amounts to prefund benefits as determined annually. For the current year, the City contributed \$10,527 to the plan.

*Investments:* The Long-Term Investment Program (LTIP) represents an investment program in which long-term capital reserves of the City are invested under expanded investment authorization outlined in State law G.S. 147-69.2(b) (1)-(6) and (8) as rewritten with additional investment authorization in Senate Bill 703, ratified June 3, 2009, in order to diversify investment assets of the City. In addition, the LTIP is expected to be a source of funding for OPEB obligations of the City.

The LTIP is overseen by its Board which works with an external investment consultant to manage the LTIP by developing and monitoring its investment policy, including asset allocation, selecting qualified investment managers to manage LTIP assets, and to monitor and evaluate individual investment manager performance.

The LTIP policy regarding the allocation of invested assets is established and may be amended by the LTIP Board by a majority vote of its members. It is the policy of the Board to pursue an investment strategy with moderate risk that provides a rate of return that exceeds the rate of inflation and that is above average compared to relevant market benchmarks. The Board also seeks prudent diversification of the portfolio across a broad selection of distinct asset classes. The LTIP discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. LTIP investments are valued at fair value. The following was the Board's adopted asset allocation policy based on an analysis of historical and projected capital market return patterns and consistent with the moderate risk tolerance defined in its policy.

Asset Class	Target Allocation
Non-Domestic Equity	18%
Domestic Equity	50%
Non-Domestic Fixed Income	20%
Domestic Fixed Income	12%
Total	100%

*Rate of Return:* For the year ended June 30, 2025, the annual money market weighted rate of return on investment, net of investment expenses, was 14.3 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The components of the net OPEB liability of the City at June 30, 2025 were as follows:

Total OPEB liability	\$ 353,087
Plan fiduciary net position	180,350
City's net OPEB liability	\$ 172,737
Plan fiduciary net position as a percentage of the Total OPEB liability	51.08%

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2025**

*(Dollar Amounts in Thousands)*

*Actuarial Assumptions:* The total OPEB liability was determined on an actuarial valuation as of June 30, 2024, using the following key actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Real wage growth	0.75%
Wage inflation	3.25%
Salary increases, including wage inflation	
General Employees	3.25% - 8.41%
Firefighters	3.75% - 9.00%
Law Enforcement Officers	3.25% - 7.90%
Long-term Investment Rate of Return, net of OPEB plan investment expense, including price inflation	7.25%
Municipal Bond Index Rate	
Prior Measurement Date	3.93%
Measurement Date	5.20%
Year FNP is projected to be depleted	
Prior Measurement Date	N/A
Measurement Date	N/A
Single Equivalent Interest Rate, net of OPEB plan investment expense, including price inflation	
Prior Measurement Date	7.25%
Measurement Date	7.25%
Health Care Cost Trends	
Pre-Medicare Medical and Prescription Drug	7.00% for 2024 decreasing to an ultimate rate of 4.50% by 2034.
Medicare Medical and Prescription Drug	5.125% for 2024 decreasing to an ultimate rate of 4.50% by 2027.

Total OPEB liabilities were rolled forward to June 30, 2024 and June 30, 2025 for the employer and the plan, respectively, utilizing updated procedures incorporating the actuarial assumptions.

Mortality rates were based on the Pub-2010 mortality tables, with adjustments for LGERS experience and generational mortality improvements using Scale MP-2019.

Discount Rate: The discount rate used to measure the total OPEB liability at June 30, 2025 was 7.25 percent. The projection's basis was an actuarial valuation performed as of June 30, 2024.

Sensitivity of the Net OPEB Liability to e Discount Rates: The following exhibit presents the net OPEB liability of the EBTP as of June 30, 2025 as well as what the EBTP's liability would be if it were calculated using a discount rate that is one percentage point lower (6.25 percent) or one percentage point higher (8.25 percent) than the current rate.

	1% Decrease 6.25%	Discount Rate 7.25%	1% Increase 8.25%
Net OPEB liability	\$ 212,016	\$ 172,737	\$ 139,836

*Sensitivity of the Net OPEB Liability to Healthcare Cost Trend Rates:* The following presents the net OPEB liability of EBTP as of June 30, 2025, as well as what the EBTP net OPEB liability would be if it were to calculate the healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current healthcare cost trend rate.

	Healthcare Cost Trend Rate		
	1% Decrease	Current	1% Increase
Net OPEB liability	\$ 135,536	\$ 172,737	\$ 217,234

*Changes in Net OPEB Liability, OPEB Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB* as of June 30, 2025, EBTP reported a net OPEB liability of \$172,737.

At June 30, 2025, the components of the net OPEB liability of the EBTP, measured as of June 30, 2025, were as follows:

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a)-(b)
Balances at June 30, 2024	\$ 373,906	\$ 165,962	\$ 207,944
Service cost	4,626	-	4,626
Interest	26,498	-	26,498
Difference between expected and actual experience	(44,318)	-	(44,318)
Changes of assumptions or other inputs	9,507	-	9,507
Contributions-employers	-	10,527	(10,527)
Net investment income	-	23,410	(23,410)
Administrative expense	-	(2,417)	2,417
Benefit payments	(17,132)	(17,132)	-
Net change	(20,819)	14,388	(35,207)
Balances at June 30, 2025	\$ 353,087	\$ 180,350	\$ 172,737

*Reconciliation of Total OPEB Liability and Net OPEB Asset by Governmental and Business-type Activities*

	Governmental Activities	Business-type Activities				Subtotal	Total
		Water and Sewer	Storm Water	Airport	Public Transit		
Net OPEB liability	\$ 210,614	\$ -	\$ 861	\$ -	\$ -	\$ 861	\$ 211,475
Net OPEB asset	-	(27,817)	-	(10,478)	(443)	(38,738)	(38,738)
City's net OPEB liability (asset)	\$ 210,614	\$ (27,817)	\$ 861	\$ (10,478)	\$ (443)	\$ (37,877)	\$ 172,737

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2025**

*(Dollar Amounts in Thousands)*

*Changes of Assumptions:* Changes of assumptions and other inputs reflect a change in the discount rate from 5.28 percent in 2022 to 7.25 percent in 2023. Medical claims cost and rates were changed based on most recent experience and changed to the current schedule. The impacts of the Affordable Care Act (ACA) and the Inflation Reduction Act (IRA) were addressed in this valuation. The impact of the COVID-19 pandemic was considered in the valuation; however, no changes were incorporated at this time due to the level of uncertainty regarding the impact on both plan costs and contribution levels going forward.

For the year ended June 30, 2025, the EBTP recognized OPEB income of (\$16,597). At June 30, 2025, the EBTP reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ —	\$ 37,239
Changes of assumptions or other inputs	14,058	18,515
Net difference between projected and actual earnings on plan investments	—	10,659
Total	<u>\$ 14,058</u>	<u>\$ 66,413</u>

Total amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB benefits will be recognized in OPEB expense as follows:

Year Ending June 30	
2026	\$ (27,353)
2027	(17,908)
2028	(4,754)
2029	(2,340)
2030	—
Thereafter	—
	<u>\$ (52,355)</u>

**g. Deferred Compensation Plan**

The City offers employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, which is available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The plan assets are placed in trust for the exclusive benefit of the participants and their beneficiaries and therefore are not included in the City's financial statements. In addition, in 2019 the city created a Retiree Health Investment Account for public safety employees hired on or after July 1, 2009. The city contributes \$25.00 per week per eligible employee. For the year ended June 30, 2025, the City contributed \$2,417.

*(Dollar Amounts in Thousands)*

The City provides a deferred compensation plan created in accordance with the Internal Revenue Code Section 401(a). The plan, which is available to the City Manager position, permits the City to provide compensation that can be deferred until future years. The deferred compensation is not available to the City Manager until termination, retirement, death or unforeseeable emergency. The plan assets are placed in trust for the exclusive benefits of the participant and therefore are not included in the City’s financial statements.

The City participates in the NC 401(k) Plan which is a retirement savings plan administered by the North Carolina Department of the State Treasurer, and available exclusively to North Carolina public employees who are actively contributing to one of the NC Retirement Systems.

**6. OTHER INFORMATION**

**a. Airport Leasing Arrangements with Tenants**

A major portion of the Airport’s assets are leased under operating agreements with airlines and other tenants. The total cost and accumulated depreciation of the assets at June 30, 2025 were as follows:

Land	\$ 444,439
Buildings	1,609,148
Runways	713,593
Improvements other than buildings	1,433,274
Intangibles	20,152
Machinery and equipment	235,882
Total	4,456,488
Less: accumulated depreciation	1,440,665
Total	\$ 3,015,823

**b. Passenger Facility Charges**

The Federal Aviation Administration (FAA) authorized the Airport to collect Passenger Facility Charges (PFC) of \$4.50 per qualifying enplaned passenger commencing June 1, 2025. The net receipts from PFC are accounted for on the accrual basis of accounting in the statement of revenues, expenses and changes in fund net position and are restricted for use on FAA approved projects. The Airport has been authorized to collect PFC in the aggregate amount of \$4,855,068. Cash collections during fiscal year 2025 were \$120,049 and aggregate collections from inception through June 30, 2025 were \$1,238,854.

**c. Insurance**

**(1) Employee Health and Life**

The City provides health and life benefits to employees and retirees. Private companies administer these benefits pursuant to administrative services agreements. The City maintains insurance coverage with private carriers for life claims, vision claims and excess coverage for health claims in excess of five-hundred thousand. The City has an Employee Health and Life Insurance Fund (EHLIF), an internal service fund, to account for and finance its health and life insurance program.

All City funds participate in the program and make payments to the EHLIF for both an amount per employee and a proportionate share of the administrative cost. The amount per employee is based on actuarial estimates of amounts needed to pay prior and current year claims. The employees and retirees contribute a portion of the cost for health coverage. The City provides basic life insurance and accidental death and dismemberment benefits for employees in the amount of two times the employees’ salary up to a maximum of five-hundred thousand. Employees may purchase additional life insurance up to a maximum of five times their salary. The City provides short-term disability that equals 60 percent of salary for up to 26 weeks.

Liabilities include amounts for both reported and incurred but not reported claims. The changes in the fund's liabilities follow:

	Beginning of Year	Claims and Changes in Estimates	Claims Payments	End of Year
2025	\$ 11,472	\$ 119,459	\$ (115,952)	\$ 14,979
2024	10,642	101,158	(100,328)	11,472

At June 30, 2025 the EHLIF held \$23,176 in cash and cash equivalents for payments of these claims.

**(2) Risk Management**

The City is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has a Risk Management Fund (RMF), an internal service fund, to account for and finance its insured and uninsured risks of loss. Currently, insurance coverage is purchased for excess property damage for buildings, contents, and light rail trains; excess workers' compensation; excess vehicle and general liability; network security liability; police professional liability; police helicopter hull liability; drone liability; airport liability; City bus liability and passenger railway liability for the light rail train operations. Insurance coverage includes vehicle and general liability claims in excess of \$2,000 but less than \$22,000 per occurrence, workers' compensation claims in excess of \$2,000, property damage claims in excess of \$250 and flood insurance of \$100,000 in all flood zones, except \$10,000 in flood zone A in excess of federal flood program maximums, network security coverage in the amount of \$20,000 and drone liability in the amount of \$2,000. The finance officer is bonded for \$1,000. Employees who handle funds or have access to inventories are covered under a crime policy for \$500. The actuarially determined losses for the remaining risks and deductible amounts are funded in the RMF. Settled claims have not exceeded insurance coverage in the past three years. All funds of the City participate in the risk management program and make payments to the RMF based on historical cost information or actuarial estimates of the amounts needed to pay prior and current year claims.

Pursuant to administrative agreements, the City provides risk management services to Mecklenburg County, the Charlotte-Mecklenburg Board of Education, and Medic. There is no transfer or pooling of risks among entities. Amounts collected or due and amounts paid or to be paid to settle claims for Mecklenburg County, the Charlotte-Mecklenburg Board of Education, and Medic are reported as a net liability on an accrual basis. At June 30, 2025, \$1,292 was held as deposits for these entities. This amount is reflected as a long-term liability, Due to Participants, in the RMF.

The claims liability of \$83,020 reported in the RMF at June 30, 2025, is based on GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Claims liabilities are based on the estimated ultimate cost of settling the claims, which includes incremental claim adjustment expenditures/expenses (i.e., outside legal assistance) and estimated recoveries on unsettled claims as required by GASB Statement No. 30. The changes in the fund's liabilities follow:

	Beginning of Year	Claims and Changes in Estimates	Claims Payments	End of Year
2025	\$ 77,435	\$ 26,895	\$ (21,310)	\$ 83,020
2024	71,118	31,610	(25,293)	77,435

At June 30, 2025 the RMF held \$88,405 in cash and cash equivalents for payments of these claims.

*(Dollar Amounts in Thousands)*

**d. Commitments and Contingencies**

Noise litigation suits have been filed against the City in connection with the operation of the Charlotte Douglas International Airport. In the opinion of the City's attorney and management, the ultimate outcome of the suits is not expected to have significant impact upon the financial position or results of operations of the Airport Fund.

The City is also party to a number of other civil injustice lawsuits and legal actions. In the opinion of the City's attorney and management, the ultimate outcome of these legal matters is not expected to have a significant impact upon the City's financial position.

The City is currently evaluating a number of environmental issues including two former landfill sites. Until site assessments and further studies are completed, the cleanup costs can only be estimated. During the current fiscal year a provision for cleanup costs of \$802 has been provided within the financial statements. In the opinion of City management, costs ultimately incurred are not expected to have a material effect on the City's financial position after giving effect to the provision for cleanup costs.

The City manages a Brownfield Assessment Grant Program which assists property and business owners and infill developers in overcoming barriers that contamination presents for the redevelopment of underutilized brownfield sites in distressed business districts and neighborhoods. The Program provides fifty percent matching funds, up to \$20 per site, to property owners for site assessment, design of remediation activities, and legal expenses for redevelopment sites suspected of contamination. When the City enters into the agreements, it legally obligates itself to participate in the cleanup activities of the remediation effort. The amount of the liability is derived from the grant agreements and assumes no unexpected change orders.

The City has received a number of federal and state grants for specific purposes that are subject to review by the grantor agencies. Such reviews could lead to requests for reimbursement to the grantor agencies for expenditures disallowed under terms of the grants. The City management believes that such disallowances, if any, would not be significant.

Charlotte Water settled previously reported litigation for \$106 million. On July 3, 2023, Charlotte Water made its first settlement payment of \$90 million. On July 1, 2024, Charlotte Water made its second and final settlement payment of \$16 million.

On September 24, 2024, a federal trial court granted summary judgment against the City, determining that the City violated the federal Drivers Privacy Protection Act (DPPA). The Court also certified a proposed class of plaintiffs. On October 8, 2024, the City filed a petition asking for an appeal of the Court's class certification order. The City also intends to appeal the summary judgment order ruling. For fiscal year 2024, the City accrued \$7.3 million related to the summary judgment. If the City is unsuccessful in its appeals, the City estimates the amount of the liability could range up to \$50 million.

Authorized capital projects at June 30, 2025 are comprised of the following by fund:

	Project Authorization	Expended	Unexpended
<u>Governmental</u>			
Capital Projects	\$ 5,577,945	\$ 3,755,622	\$ 1,822,323
<u>Enterprise</u>			
Water and Sewer	5,426,064	4,875,622	550,442
Storm Water	1,286,879	1,163,503	123,376
Airport	4,376,798	3,475,025	901,773
Public Transit	2,517,829	2,237,427	280,402
Total Enterprise	<u>13,607,570</u>	<u>11,751,577</u>	<u>1,855,993</u>
Total	<u>\$ 19,185,515</u>	<u>\$ 15,507,199</u>	<u>\$ 3,678,316</u>

Financial resources are available to fund the total amount of unexpended authorizations.

Outstanding encumbrances are amounts needed to pay any commitments related to purchase orders and contracts that remain unperformed at year-end. For governmental funds, encumbrances are included within the restricted, committed or assigned fund balances, as appropriate and are established in the funds as follows:

General	\$ 7,077
Capital Projects	320,338
Nonmajor governmental	46,483
Total	<u>\$ 373,898</u>

The City has construction and other contractual commitments at June 30, 2025 as follows by fund:

<u>Governmental</u>	
General	\$ 327,415
Nonmajor governmental	45,907
Total Governmental	<u>373,322</u>
<u>Enterprise</u>	
Water and Sewer	167,479
Storm Water	37,056
Airport	379,445
Public Transit	77,897
Total Enterprise	<u>661,877</u>
Total	<u>\$ 1,035,199</u>

(Dollar Amounts in Thousands)

**e. Arena**

Spectrum Center (formerly Time Warner Cable Arena) was constructed and financed by the City and opened in October 2005. The primary tenant of the arena is the National Basketball Association's Charlotte Hornets. Terms of a twenty-five-year lease entitle the team to all operating revenues and the team is responsible for all operating expense, including non-basketball related events. The City and the team each contribute annually to a capital reserve fund. Any capital expenses in excess of the reserve are the responsibility of the City. While the City retains ownership of the facility, the Charlotte Regional Visitors Authority provides operation support for the Arena. The original arena project, \$200 million was funded primarily through a combination of installment financing obligations supported by a portion of an occupancy tax and a dedicated rental car tax, private contributions and the sale of City assets. The City is entitled to damages based on the number of years remaining on the lease if the team violates the agreement. The City and the Hornets reached an agreement in 2022 for the City to invest \$245 million in capital renovations and upgrades that increase the competitiveness and help bring additional events to the City, and an additional \$30 million toward a Practice Facility that will be located across the street as a part of a planned mixed use development. The Hornets have agreed to take on any cost overruns related to the \$245 million capital improvements, and the city's commitment to the practice facility is capped at \$30 million. The Hornets have agreed to extend their lease until 2045, as a result of the city's contribution to the Arena and Practice Facility. The first tranche of financing for the capital repairs was issued through a privately placed short term variable rate installment financing agreement in 2024. The first tranche of the privately placed short term variable rate installment financing agreement was refunded in fiscal year 2026 with series 2025A, par approximately \$ 126 million. Proceeds from 2025A issuance were used to finance cost of improvements and renovations to the City's Spectrum Center Arena and other governmental facilities including the practice facility and parking deck. The second tranche of the privately placed short term variable rate installment financing agreement was issued in fiscal year 2026 for Not To Exceed (NTE) \$ 135.6 million, and is anticipated to be refunded in FY 2027.

**f. NASCAR Hall of Fame**

NASCAR Hall of Fame was constructed and financed by the City and opened in May 2010. The \$140 million project was funded through a combination of installment financing obligations supported by a dedicated two percent occupancy tax and private loans repaid through land sales and private contributions. The City also receives a portion of sponsorship money and deferred NASCAR royalty payments to help service the debt. The City owns the facility and the Charlotte Regional Visitors Authority is fully responsible for Hall operations. The City is responsible for any capital costs for the facility, and may supplement capital maintenance and repair costs through the dedicated revenues if funds are available.

**g. Cultural Arts Facilities**

The Cultural Arts Facilities consist of the Harvey B. Gantt Center for African-American Arts & Culture, the Bechtler Museum of Modern Art, the Mint Museum, and the Knight Theater, and are known collectively as the Levine Center for the Arts. All four facilities opened in fiscal year 2010 and are owned by the City, with Mecklenburg County entitled to a 30 percent share when the debt is retired. The \$120 million project is part of a \$600 million mixed-use development project, including the 50 story Duke Energy Center. The projects were funded through a combination of installment financing obligations supported by City revenues and ongoing City and County contributions derived from a synthetic tax increment finance payment of \$1,650 (divided proportionally between the City and County) annually through 2026. In addition, Wells Fargo Corporation is under contract to pay the difference between actual tax collections and \$1,650 annually. All four sites are leased by the City to non-profits, which are responsible for operating the facilities. The City and County (70/30 share) are responsible for capital repairs and major maintenance.

**h. Bank of America Stadium**

On June 19, 2024, the City Council approved business terms with Tepper Sports and Entertainment (TSE) to fund improvements to Bank of America Stadium for up to \$650 million, and additional funding for traffic control. TSE has agreed to take on any cost overruns above the \$650 million commitment from the City and extend the lease for both Carolina Panthers and Charlotte FC agreeing to a lease extension through the 2045-2046 seasons. The renovation project is planned to invest in the community asset, through maintaining and enhancing the stadium and building a new Field House, and will also improve accessibility and increase sustainability. The City and TSE are working toward finalizing and executing all agreements in the 4th quarter of 2025 following City Council approval of final lease terms and receiving National Football League and Major League Soccer approval of agreements. The first tranche of financing for the \$ 650 million is anticipated in early 2026.

**i. American Airlines**

American Airlines Group Inc., (American Airlines) is the major passenger airline serving Charlotte Douglas International Airport (Airport). For the fiscal year ended June 30, 2025, American Airlines and its affiliates provided 31.65 percent of the Airport's operating revenues.

American Airlines conducts its passenger air carrier operations at the Airport pursuant to several agreements, the most significant of which is the City of Charlotte's 2016 Airline Use and Lease Agreement (Airline Agreement), which has also been executed by Frontier Airlines, Southwest Airlines, Delta Air Lines, United Airlines and Spirit Airlines (collectively, the Signatory Airlines). Pursuant to the Airline agreement, the Signatory Airlines lease certain premises in the passenger terminal building (terminal) and are obligated to pay landing fees and terminal rentals which, in the aggregate, are sufficient to enable the City to pay the annual operating expenses of the airfield and terminal, and the annual debt service on General Airport Revenue Bonds (GARBs) issued by the City to fund airfield, terminal and other airport improvements.

**j. Subsequent Events**

On July 31, 2025, the City issued \$146,110 in Water and Sewer System Refunding Revenue Bonds, Series 2025, to refund \$158,180 of outstanding fixed rate Water and Sewer System Refunding Revenue Bonds, Series 2015. The City completed the refunding to reduce the total debt service payments over a period of 15 years by \$12,606 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$9,819.

On August 7, 2025, the City issued \$126,295 in Taxable Certificates of Participation, Series 2025, to pre-pay \$110,000 of outstanding Certificates of Participation draw program, Series 2023A and finance improvements to government facilities.

On August 7, 2025, the City entered into a direct placement Installment Financing Contract draw program to finance the cost of government facilities. The aggregate principal amount of the contract outstanding at any one time shall not exceed \$136,500.

On October 15, 2025, the City issued \$75,000 in Taxable General Obligation Housing Bonds, Series 2025A, to acquire, construct, develop and equip housing projects.

On November 13, 2025, the City issued \$177,610 in General Obligation Refunding Bonds, Series 2025B, to prepay \$195,801 of the 2023C GO Bond Anticipation Note.

On November 13, 2025, the City entered into a direct placement General Obligation Bond Anticipation Note, Series 2025C to finance transportation and neighborhood improvements. The aggregate principal amount of the note outstanding at any one time shall not exceed \$200,000.

On November 21, 2025, the City permanently reduced the commitment amount for the Airport direct placement revenue bond anticipation note, Series 2023, to \$180,000.

*(Dollar Amounts in Thousands)*

On November 4, 2025, Mecklenburg County voters approved a one percent sales tax increase dedicated to funding transit projects. Along with this approval, the establishment of a new transit authority was authorized to manage the city's transportation system more effectively. The P.A.V.E. Act authorized the creation of the Metropolitan Public Transportation Authority (MPTA), a new regional governance entity that will finance, operate, and maintain a safe, reliable, efficient, and environmentally sound public transportation system for Mecklenburg County. With the establishment of the MPTA, the Charlotte Area Transit System (CATS)—currently a department of the City of Charlotte that operates existing bus, rail, and streetcar services—will transition to the MPTA as the operating authority for existing services and the delivery of future transit projects.

Actuarially determined contribution rates are calculated as of July 1, two years prior to the end of the fiscal year in which contributions are reported. Methods and assumptions used to determine contribution rates for the most recent year in the schedule:

Actuarial cost method	Entry Age
Amortization method	Level percent of pay, closed
Remaining amortization period	4-29 years
Asset valuation method	5-year smoothed market
Inflation	2.50%
Salary increases	3.75% – 9.00%, including inflation
Investment rate of return	7.00%, net of pension plan investment expense, including inflation

## NONMAJOR GOVERNMENTAL FUNDS

### Special Revenue Funds

Special Revenue Funds are used to account for the proceeds from specific revenue sources (other than funding for major capital projects) that are restricted to expenditures for specified purposes.

- Convention Center Tax Fund – Accounts for room occupancy and prepared food and beverage tax revenues to be used for convention and tourism purposes, including debt service, maintenance and operation of convention center facilities, and promotion of tourism.
- Tourism Fund – Accounts for room occupancy and other tax revenues to be used for tourism purposes.
- Hall of Fame Tax Fund – Accounts for room occupancy tax and private contribution revenues to be used for the NASCAR Hall of Fame.
- Municipal Services District Fund – Accounts for property tax on property within designated Municipal Services Districts to be used to enhance economic vitality and quality of life within the districts.
- Public Safety and Other Grants Fund – Accounts for federal and state grants to be used for public safety, including police, fire and emergency management, and other governmental-type activities.
- Law Enforcement Emergency Relief Fund – Accounts for funds received from the Emergency and Pension Fund of Mecklenburg County to invest and pay death benefits to the beneficiaries of law enforcement officers who die in the line of duty.
- American Rescue Plan Act Fund – Accounts for funds received under the Coronavirus State and Local Fiscal Recovery Fund to be used for expenditures incurred to address negative economic impact caused by the COVID-19 public health emergency.
- General COVID Relief – Accounts for funds received under the Coronavirus Aid, Relief, and Economic Security Act (CARES) and Federal Emergency Management Agency (FEMA) Public Assistance Program to be used for expenditures to address the COVID-19 pandemic.
- National Opioid Settlement Fund – Accounts for funds from pharmaceutical and drug distribution companies that were involved in lawsuits filed by State, local, and tribal governments due to the opioid epidemic. These funds are to be used specifically for expenditures related to opioid remediation activities.
- Neighborhood Development Fund – Accounts for federal grants to be used for neighborhood activities which develop viable urban communities providing adequate housing and economic opportunities, principally for persons of low and moderate income.
- State Street Aid Fund – Accounts for motor fuel taxes distributed by the State on the basis of local street mileage and population, to be used for maintenance, repair, and construction of streets and highways.
- Emergency Telephone System Fund – Accounts for revenues remitted by the NC 911 Board from service charges imposed on voice communications service connections to be used for the operation and enhancement of the 911 system.

### Permanent Fund

A permanent fund is used to report resources that are legally restricted to the extent that only earnings, not principal, may be used.

- Perpetual Care Fund – Accounts for monies held by the City for cemetery maintenance.

### **DEBT SERVICE FUND**

The Debt Service fund is used to account for the accumulation of resources and the payment of principal, interest and related costs for all long-term debt other than debt issued for and serviced by business-type activities.

### **CAPITAL PROJECTS FUND**

The Capital Projects fund accounts for financial resources, primarily bond proceeds and property taxes, used for the acquisition, construction or improvement of capital assets.

## ENTERPRISE FUNDS

Enterprise funds are used to account for operations that charge a fee for service to customers similar to private business enterprises. The City has four enterprise operations.

- Water and Sewer Fund – Accounts for the operation of Charlotte Water, provider of water and wastewater services.
- Storm Water Fund – Accounts for the operation of Charlotte Storm Water Services, administrator of storm water programs and policies.
- Airport Fund – Accounts for the operation of the Charlotte Douglas International Airport.
- Public Transit Fund – Accounts for the operation of Charlotte Area Transit System, provider of community-wide public transportation services.

## INTERNAL SERVICE FUNDS

Internal service funds are used to account for centralized services provided to City departments and other governmental units and agencies on a cost-reimbursement basis.

- Risk Management Fund – Accounts for the general insurance program, claim and loss control services for the City, as well as services provided on a cost-reimbursement basis to other governmental units and agencies in Mecklenburg County.
- Employee Health and Life Fund – Accounts for funds contributed by the City and employees for health and life benefits.
- Fleet Management Fund - Accounts for management and maintenance of commercial vehicles and equipment for the City of Charlotte and Mecklenburg County.

Annual Comprehensive Financial Report 2025

STATISTICAL SECTION

This part of the City of Charlotte’s annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government’s overall financial health.

Financial Trends ..... 190  
 These schedules contain trend information to help the reader understand how the government’s financial performance and well-being have changed over time

Revenue Capacity ..... 196  
 These schedules contain information to help the reader assess the government’s most significant local revenue source, the property tax

Debt Capacity ..... 202  
 These schedules present information to help the reader assess the affordability of the government’s current levels of outstanding debt and the government’s ability to issue additional debt in the future

Demographic and Economic Information ..... 210  
 These schedules offer demographic and economic indicators to help the reader understand the environment within which the government’s financial activities take place

Operating Information ..... 212  
 These schedules contain service and infrastructure data to help the reader understand how the information in the government’s financial report relates to the services the government provides and the activities it performs

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

## Notes:

<sup>(1)</sup> In 2017, the City added 106 public safety positions. In 2020, the City hosted the Republican National Convention, funded by a Federal grant. In 2020 and 2021, COVID-19 was declared a world-wide pandemic and impacted operations. 2021, 2022, and 2023 restated to remove accrued revenue related to FEMA grants.

<sup>(2)</sup> In 2015, a discounted payoff was accepted in full satisfaction of a portion of private loan.

<sup>(3)</sup> In 2017 and 2019, expenses decreased due to increased capitalization of streets and right-of-ways maintained by the City. In 2022 the City identified capital assets where estimated lives were not in compliance with the City's Capital Asset Policy which went into effect October 1, 2020.

<sup>(4)</sup> In 2016, the Business Privilege License Tax ended.

<sup>(5)</sup> In 2018, Public Transit blue line light rail extension to the University area went into operation and the Airport expanded Concourse A.

<sup>(6)</sup> In 2017, Public Transit grant reimbursements were received for blue line light rail extension that went into operations in 2018.

<sup>(7)</sup> In 2020 and 2021, COVID-19 was declared a world-wide pandemic and impacted revenue streams.

<sup>(8)</sup> In 2022, transfers are related to Goldline that was put in production in August of 2021.

<sup>(9)</sup> In 2023, an increase in operating and maintenance expenses related to airport expansion.

<sup>(10)</sup> In 2024, sales tax revenues previously reported as taxes were reclassified as intergovernmental.

## NOTES:

<sup>(1)</sup> In 2021, number of physical arrests decreased due to COVID-19 pandemic. Orders were issued by the Chief Judge for the County which suspended enforcement of all Order for Arrest except in cases of domestic violence and several other violent crime offense types.

<sup>(2)</sup> Recycling contract was cancelled in 2015 and new award began in 2016.

<sup>(3)</sup> In 2022, funding challenges reduced resurfacing.

<sup>(4)</sup> In 2019, transferred to a new system capturing each pothole separately.

<sup>(5)</sup> In 2017, City Council approved more low income tax credit housing projects. In 2020, additional funding sources supported an increase in production.

<sup>(6)</sup> 2019 rain events caused an increase in the number of service requests received.

<sup>(7)</sup> In 2020 and 2021, decrease is due to the impacts of the COVID-19 pandemic restrictions. In 2022, increase is due to the COVID-19 pandemic restrictions being lifted.

<sup>(8)</sup> In 2019, revenue miles were restated to reflect consistency with National Transit Database (NTD).

<sup>(9)</sup> In 2022, fire calls increased due to population increase. Also during 2019 and 2021, less people made calls for medical emergencies due to COVID-19.

# Single Audit

Annual Comprehensive Financial Report 2025

## Report of Independent Auditor on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Mayor and  
Members of the City Council  
City of Charlotte, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Charlotte, North Carolina (the "City"), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 23, 2025.

Our report includes a reference to other auditors who audited the financial statements of the Charlotte Regional Visitors Authority, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported separately by those auditors. The financial statements of the Charlotte Firefighters' Retirement System were not audited in accordance with *Government Auditing Standards*.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered City's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, we do not express an opinion on the effectiveness of City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Report of Independent Auditor on Compliance for Each Major Federal Program and on Internal Control over Compliance Required by OMB Uniform Guidance and the State Single Audit Implementation Act

To the Honorable Mayor and  
Members of the City Council  
City of Charlotte, North Carolina

### Report on Compliance for Each Major Federal Program

#### **Opinion on Each Major Federal Program**

We have audited the City of Charlotte, North Carolina's (the "City"), compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2025. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

#### **Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"); and the State Single Audit Implementation Act. Our responsibilities under those standards, Uniform Guidance, and the State Single Audit Implementation Act are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

#### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, Uniform Guidance, and the State Single Audit Implementation Act will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards in the United States of America, *Government Auditing Standards*, Uniform Guidance, and the State Single Audit Implementation Act we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Uniform Guidance and the State Single Audit Implementation Act, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Report on Internal Control over Compliance***

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

***Report on Schedule of Expenditures of Federal and State Awards Required by Uniform Guidance and the State Single Audit Implementation Act***

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated December 23, 2025, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal and State awards is presented for purposes of additional analysis as required by the Uniform Guidance and State Single Audit Implementation Act and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal and State awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and State Single Audit Implementation Act. Accordingly, this report is not suitable for any other purpose.

## Report of Independent Auditor on Compliance for Each Major State Program and on Internal Control over Compliance Required by OMB Uniform Guidance and the State Single Audit Implementation Act

To the Honorable Mayor and  
Members of the City Council  
City of Charlotte, North Carolina

### Report on Compliance for Each Major State Program

#### ***Opinion on Each Major State Program***

We have audited the City of Charlotte, North Carolina's (the "City"), compliance with the types of compliance requirements identified as subject to audit in the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission that could have a direct and material effect on each of the City's major State programs for the year ended June 30, 2025. The City's major State programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major State programs for the year ended June 30, 2025.

#### ***Basis for Opinion on Each Major State Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"); and the State Single Audit Implementation Act. Our responsibilities under those standards, Uniform Guidance and the State Single Audit Implementation Act are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major State program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

#### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's State programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, Uniform Guidance, and the State Single Audit Implementation Act will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major State program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, Uniform Guidance, and the State Single Audit Implementation Act, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Uniform Guidance and the State Single Audit Implementation Act, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Report on Internal Control over Compliance***

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a State program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a State program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

***Report on Schedule of Expenditures of Federal and State Awards Required by Uniform Guidance and the State Single Audit Implementation Act***

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated December 23, 2025, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal and State awards is presented for purposes of additional analysis as required by the Uniform Guidance and State Single Audit Implementation Act and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal and State awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and State Single Audit Implementation Act. Accordingly, this report is not suitable for any other purpose.

**CITY OF CHARLOTTE, NORTH CAROLINA**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS**  
**JUNE 30, 2025**

**1. Basis of Presentation**

The accompanying schedule of expenditures of federal and State awards (SEFSA) includes the federal and State grant activity of the City of Charlotte, North Carolina (the “City”) under the programs of the federal government and the State of North Carolina for the year ended June 30, 2025. The information in this SEFSA is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the State Single Audit Implementation Act. Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

**2. Summary of Significant Accounting Policies**

Expenditures reported in the SEFSA are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**3. Difference Between Powell Bill State Report and the SEFSA**

The City of Charlotte reported \$14,199,500 of expenditures on the Powell Bill Expenditures Report for FY2025, as per the statutory deadline of August 1, 2025. The same expenditure amount is reported on the SEFSA. However, subsequent payments totaling \$117,990 were processed in FY2026 for products and services provided in FY2025, after the report was filed. If the adjustment had been included, the SEFSA would have reflected total expenditures of \$14,317,490 for Powell Bill.
