

## ELMWOOD/9<sup>TH</sup> ST PINETREE ARBORETUM

CHARLOTTE, NORTH CAROLINA

# HISTORY OF THE ELMWOOD/9<sup>TH</sup> STREET PINWOOD CEMETERIES

For over 160 years the cemetery has been serving Charlotte citizens. Starting back in 1853 the original Elmwood Cemetery only 25 acres has grown to over 70 acres which includes the 9<sup>th</sup> Street Pinewood African American cemetery. It has served the extreme rich and poor Charlotteans. Throughout the years as family members would pass on, families would plant different species of trees in remembrance of their loved one. This is how it started and now these different species of trees have grown. The cemetery division is part of the landscape division for the city of Charlotte. The city would like to share to the public the different species of tree's that have been planted throughout the years. Come and enjoy the wonderful trees that I enjoy every day.

Bill Bibby (City Cemeterian)
