

City of Charlotte Health Plan Notice

Pricing Disclosures (MRFs)

The Transparency in Coverage Final Rules requires self-funded group health plans to make machine readable files (MRFs) available that disclose in-network rates and out-of-network allowed amounts and billed charges for plan or policy years that start on or after January 1, 2022.

Congress and federal agencies intended these MRFs to be used by researchers, regulators, lawmakers, patient and consumer advocates, etc., in order to develop tools and information to support consumer choice.

BlueCross BlueShield of North Carolina is creating and publishing these required MRFs on our behalf. The MRFs for the City of Charlotte BlueCross BlueShield Blue Options Health Plans (Plan A, B, D & E) may be found here:
