

The Site may be devoted only to a rent/income restricted residential community containing a maximum of two hundred (200) multi-family dwelling units and any incidental and accessory uses relating thereto that are permitted in the UR-2 zoning district. Incidental and accessory uses may include, without limitation, amenities for the residents, such as but not limited to a clubhouse, playground, tot-lot, picnic area, fitness center, and/or other amenities as listed in Section IV.8, below.

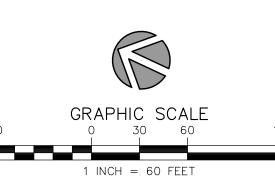

- vehicular access points are subject to any minor modifications required to accommodate final site and construction plans and designs and as required for approval by the Charlotte Department of Transportation (CDOT) and/or the North Carolina Department of Transportation (NCDOT). The Petitioner will complete and submit a Right-of-Way Abandonment Petition form to CDOT for review related to the existing paper right-of-way extending Dr. Carver Road through the Site. The decision of this rezoning petition does not correlate with the decision of the possible abandonment, as this decision is issued within the separate Right-of-Way Abandonment process hat is controlled by North Carolina General Statutes. Inless stated otherwise herein, the Petitioner shall ensure that all transportation improvements are substantially completed and all rights-of-way dedicated in fee simple conveyance to the City of Charlotte prior to the issuance of the Site's first
- Preferred Exterior Building Materials: All principal and accessory buildings shall be comprised of a combination of portions of brick, brick veneer, natural stone (or its synthetic equivalent), stucco, cementitious siding, fiber cement ("HardiPlank") and/or
- Prohibited Exterior Building Materials: (i) vinyl siding, excluding along siding of interior breezeways, vinyl handrails, windows, soffits, doors, garage doors, railings, or trim, and (ii) concrete masonry units not architecturally finished.
- Building Placement and Site Design: Building placement and Site design shall focus on and enhance the pedestrian onment through the following standards: Building Street Frontage: buildings adjacent to West Boulevard shall be arranged and oriented with a front appearance
- along West Boulevard through the use of entrances and or walkways directly to the sidewalk fronting West Boulevard. Building entrances shall be at or slightly (1 or more) above grade and shall be highly visible and architecturally treated as prominent pedestrian entrances through a combination of at least three (3) of the following features: (i) decorative pedestrian lighting sconces; (ii) architectural details carried above the ground floor; (iii) covered porches, canopies, awnings or sunshades; (iv) archways; (v) transom windows; (vi) terraced or raised planters that can be utilized as seat walls; (vii) common outdoor seating enhanced with specialty details, paving, landscaping or water features; (viii) double doors; (ix) stoops or stairs; and/or (x) contrasting pavement from primary sidewalk.

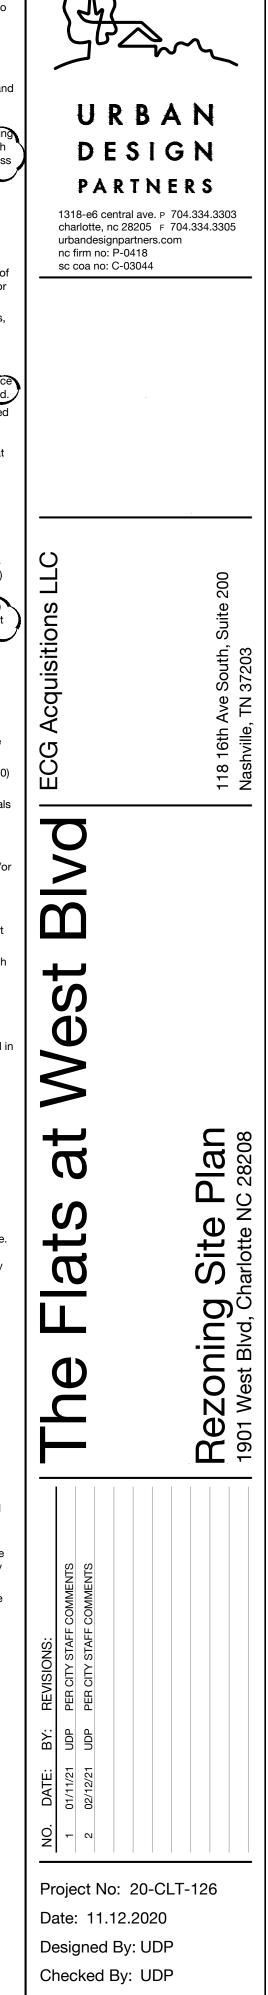

- a. Building Massing: buildings exceeding 120 feet in length shall include modulations of the building massing/façade plane (recess, projection, architectural treatment, etc.). Modulations shall be a minimum of sixty (60) feet wide and s hall extend or recess a minimum of two (2) feet, extending through all floors. Modulations shall occur every sixty (60) feet, if provided. Building Height: the maximum height in feet of each portion of the building fronting West Boulevard shall be three (3)
- stories, buildings not fronting West Boulevard may be a 4/5-split, where generally depicted on the Rezoning Plan. A no point shall the buildings exceed five (5) stories.
- Vertical Modulations and Rhythm: building elevations shall be designed with recognizable vertical bays or articulated architectural façade features. The bays and features may include, but no limited to, a combination of exterior wall offsets, projections, and/or recesses, pilasters, and/or change in materials. Building Base: buildings shall be designed with a recognizable base. A minimum of three (3) elevations of each
- building shall be articulated with a wainscot of preferred exterior building materials listed above of a minimum of one Blank Walls: building elevations facing West Boulevard shall not have expanses of blank walls greater than twenty (20)
- Architectural features such as, but not limited to, banding, medallions, building articulation, and/or change in materials
- Roof Form and Articulation: roof form and rooflines shall be designed to avoid the appearance of a large monolithic roof
- a. Long rooflines (pitched or flat) shall avoid continuous expanses without variation by including changes in height and/or
- b. For pitched roofs, if provided, the allowed minimum pitch shall be 5:12 (five feet in vertical height for every twelve in horizontal length), excluding buildings with a flat roof and parapet walls.
- Service Area Screening: Site service areas (dumpsters, refuse areas, recycling, storage) shall be screened from view through
- a. Service areas will be screened via opaque fences, walls and/or evergreen shrubbery.
- b. Utility structures need to be screened architecturally or with evergreen plant material.
- Walls shall be designed to match and complement the building architecture of the residential buildings of the Site. All dumpsters will be screened with solid enclosures and gates. Petitioner agrees to meet all requirements as stated in Chapter 9 and 12 of the Charlotte City Code regarding solid waste, compactor and recycling areas.
- Amenities: The Petitioner shall provide a minimum of four (4) of the following amenities on the Site:

The Petitioner shall comply with the Charlotte City Council approved and adopted Post Construction Stormwater Ordinance. The location, size, and type of storm water management systems depicted on the Rezoning Plan are subject to review and approval as part of the full development plan submittal and are not implicitly approved with this rezoning. Adjustments may be necessary in order to accommodate actual storm water treatment requirements and natural site discharge points

- All freestanding lighting fixtures installed on the Site (excluding lower, decorative lighting that may be installed along the driveways and sidewalks and landscaping lighting) shall be fully capped and shielded and the illumination downwardly directed so that direct illumination does not unreasonably extend past any property line of the Site.
- Any lighting fixtures attached to the buildings to be constructed on the Site shall be decorative, capped and downwardly

- If this Rezoning Petition is approved, all conditions applicable to development of the Site imposed under the Rezoning Plan and these Development Standards will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and subsequent owners of the Site and their respective successors in interest and
- Throughout these Development Standards, the terms, "Petitioner" and "Owner" or "Owners" shall be deemed to include the heirs, devisees, personal representatives, successors in interest and assigns of the Petitioner or the owner or owners of any part of the Site from time to time who may be involved in any future development thereof.
- Any reference to the Ordinance herein shall be deemed to refer to the requirements of the Ordinance in effect as of the date
