PETITION NO. 2020-XXX  
DEVELOPMENT STANDARDS  
DEPENDABLE DEVELOPMENT  
03/09/2020

**Site Development Data:**

Acreage: ± 21.9 acres  
Tax Parcels: 029-621-21, 029-621-22, 029-621-23, & 029-621-24  
Existing Zoning: R-3  
Proposed Zoning: R-8MF(CD)  
Existing Uses: Single Family & Agriculture  
Proposed Uses: Up to 98 single-family attached units  
Building Height: Base maximum average height 40 feet measured at the required side yard line. 48 feet maximum average height at the front building line. Height ratio per Ordinance.

**A. General Provisions**

- These Development Standards form a part of the Rezoning Plan associated with the Rezoning Petition filed by M/I Homes to accommodate the development of a residential community on that approximately 21.90 acre site located on the south side of Ridge Road between Cooper's Ridge Lane and Highland Park Drive, which site is more particularly depicted on the Rezoning Plan (the "Site"). The Site is comprised of Tax Parcel Nos. 029-621-24, 029-621-21, 029-621-22 and 029-621-23.
- The development of the Site will be governed by the Rezoning Plan, these Development Standards and the applicable provisions of the City of Charlotte Zoning Ordinance (the "Ordinance").
- Unless the Rezoning Plan or these Development Standards establish more stringent standards, the regulations established under the Ordinance for the R-8 MF zoning district shall govern the development and use of the Site.
- The development depicted on the Rezoning Plan is schematic in nature and intended to depict the general arrangement of uses and improvements on the Site. Accordingly, the configurations, placements and sizes of the building footprints as well as the internal public streets and the internal private streets, alleys or drives depicted on the Rezoning Plan are schematic in nature and, subject to the terms of these Development Standards and the Ordinance, are subject to minor alterations or modifications during the design development and construction document phases.
- Future amendments to the Rezoning Plan and/or these Development Standards may be applied for by the then owner or owners of the Site in accordance with the provisions of Section 6.207 of the Ordinance.

**B. Permitted Uses/Development Limitations**

- The Site may be devoted only to a residential community containing a maximum of 98 single family attached dwelling units and to any incidental and accessory uses relating thereto that are allowed in the R-8 MF zoning district.

**C. Transportation**

- Vehicular access to the Site shall be as generally depicted on the Rezoning Plan. The placement and configuration of the vehicular access point are subject to any minor modifications required to accommodate final site and construction plans and designs and to any adjustments required for approval by the Charlotte Department of Transportation.
- The Site will be served by internal public streets and internal private streets, alleys or drives. Minor adjustments to the locations of the internal public streets and the internal private streets, alleys or drives shall be allowed during the construction permitting process.
- Internal sidewalks and pedestrian connections shall be provided on the Site as generally depicted on the Rezoning Plan. The internal sidewalks may meander to save existing trees.

**D. Architectural Standards**

- The maximum height in feet of the single family attached dwelling units to be constructed on the Site shall be 48 feet as measured under the Ordinance.
- The primary exterior building materials for the single family attached dwelling units to be constructed on the Site will be a combination of portions of the following: brick veneer or similar masonry products, stone, manufactured stone, stucco and cementitious siding.
- Vinyl, EIFS or masonite may not be used as an exterior building material on any building to be constructed on the Site. Notwithstanding the foregoing, vinyl may be utilized on windows, doors, garage doors, soffits, trim and railings.
- The actual widths of the single family attached dwelling units to be constructed on the Site may vary from the widths depicted on the Rezoning Plan.
- Pitched roofs, if provided, shall be symmetrically sloped no less than 5:12, except that roofs for porches and attached sheds may be no less than 2:12, unless a flat roof architectural style is employed.
- Each single family attached dwelling unit shall have a covered front stoop. The front stoop may be covered by an awning, canopy, roof extension or other architectural feature chosen by Petitioner.
- All corner or end single family attached dwelling units that face a public or private street shall have a porch or stoop that wraps a portion of the front and side of the unit or provide blank wall provisions that limit the maximum blank wall expanse to 10 feet on all building levels.
- The entrance into each single family attached dwelling unit shall be located more than 15 feet from the sidewalk located along the relevant lot's frontage on a public or private street.
- Walkways shall be provided to connect all residential entrances to sidewalks along public and private streets.
- Each single family attached dwelling unit shall have a garage.
- Garage doors shall contain translucent windows and carriage style hardware.
- Buildings containing single family attached dwelling units fronting public or private network required streets shall be limited to 5 individual units or fewer.

**E. Streetscape and Buffers**

- Petitioner shall install planting strips and sidewalks along the Site's street frontages as depicted on the Rezoning Plan.
- A minimum 37.5 foot Class C buffer shall be established along portions of the Site's western boundary line and portions of the Site's eastern boundary line as more particularly depicted on the Rezoning Plan, which buffer shall conform to the standards of Section 12.302 of the Ordinance. Pursuant to Section 12.302(8) of the Ordinance, this Class C buffer has been reduced in width by 25% from 50 feet to 37.5 feet as a result of Petitioner's commitment to install a fence that meets the requirements of Section 12.302(8) of the Ordinance in the Class B buffer.
- A minimum 50 foot Class C buffer shall be established along portions of the Site's western boundary line, portions of the Site's eastern boundary line and along the entirety of the Site's southern boundary line as more particularly depicted on the Rezoning Plan, which buffer shall conform to the standards of Section 12.302 of the Ordinance.
- In the event that an adjacent parcel of land is either rezoned to a zoning district or devoted to a use that eliminates or reduces the buffer requirements on the Site, Petitioner may reduce or eliminate, as the case may be, the relevant buffer areas set out on the Rezoning Plan accordingly.

**F. Lighting**

- All freestanding lighting fixtures installed on the Site (excluding lower, decorative lighting that may be installed along the driveways and sidewalks and landscaping lighting) shall be fully capped and shielded and the illumination downwardly directed so that direct illumination does not extend past any property line of the Site.
- The maximum height of any freestanding lighting fixtures installed on the Site, excluding street lights located along public streets, shall be 21 feet.

**G. Environmental**

- The Petitioner shall comply with the Charlotte City Council approved and adopted Post Construction Controls Ordinance.
- Development of the Site shall comply with the Tree Ordinance.

**H. Binding Effect of the Rezoning Documents and Definitions**

- If this Rezoning Petition is approved, all conditions applicable to the use and development of the Site imposed under these Development Standards and the Rezoning Plan will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of Petitioner and the current and subsequent owners of the Site and their respective successors in interest and assigns.
- Throughout these Development Standards, the term "Petitioner" shall be deemed to include the heirs, devisees, personal representatives, successors in interest and assigns of Petitioner or the owner or owners of the Site from time to time who may be involved in any future development thereof.
- Any reference to the Ordinance herein shall be deemed to refer to the requirements of the Ordinance in effect as of the date this Rezoning Petition is approved.
