The presentation covered the general nature of the rezoning petition, important rezoning process dates and petitioner's pending revisions to the proposed site plan.

Much of the initial discussion focused on the similarities and differences to the residential area surrounding the proposed development. Petitioner's team explained the layout of the single-family attached housing and the plans to address stormwater control and tree save. Emphasis was placed on the tree save buffer surrounding the development. The neighbors asked some clarifying questions and inquired about the target prices. Petitioner explained that it would be market rates and the attendees expressed that that was their preference. The attendees expressed general contentment with the proposal and indicated that they would speak with other neighbors.

Petitioner discussed further communications going forward and offered to have subsequent meetings for other neighbors that were unable to attend. Petitioner's agent provided the presentation to the attendees so that they could share with their neighbors.

Petitioner's agent offered to have follow-up meetings with the attendees and other interested neighbors upon request.
