**STAFF
RECOMMENDATION**

Staff does not recommend approval of this petition in its current form.

Plan Consistency

The petition is **inconsistent** with the 2040 Policy Map recommendation for the Neighborhood 1 Place Type.

Rationale for Recommendation

- The proposed form is not compatible with the Neighborhood 1 place type recommendation for single family uses, duplexes and triplexes.
- While the petition would add to the variety of housing in the area, the intense form and significant increase in density is not appropriate considering the surrounding context of single-family low density residential in the area.

- The proposed plan lacks sensitivity to the existing single-family neighborhoods.
- The proposed residential community of ~~186~~ 156 units would only be served by one existing bus line that runs along Mallard Creek Road.
- The proposed plan lacks sufficient street connectivity considering the number of units proposed.
- The access to amenities in the area lack the needed infrastructure to serve the significant increase in density proposed by this petition.
- The petition could facilitate the following 2040 Comprehensive Plan Goals:
 - 1: 10 Minute Neighborhoods
 - 2: Neighborhood Diversity & Inclusion
 - 5: Safe & Equitable Mobility
 - 6: Healthy, Safe & Active Communities

The approval of this petition will revise the recommended place type as specified by the 2040 Policy Map, from the Neighborhood 1 Place Type to the Neighborhood 2 Place Type for the site.
