**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the 2040 Policy Map recommendation for Manufacturing and Logistics Place Type.

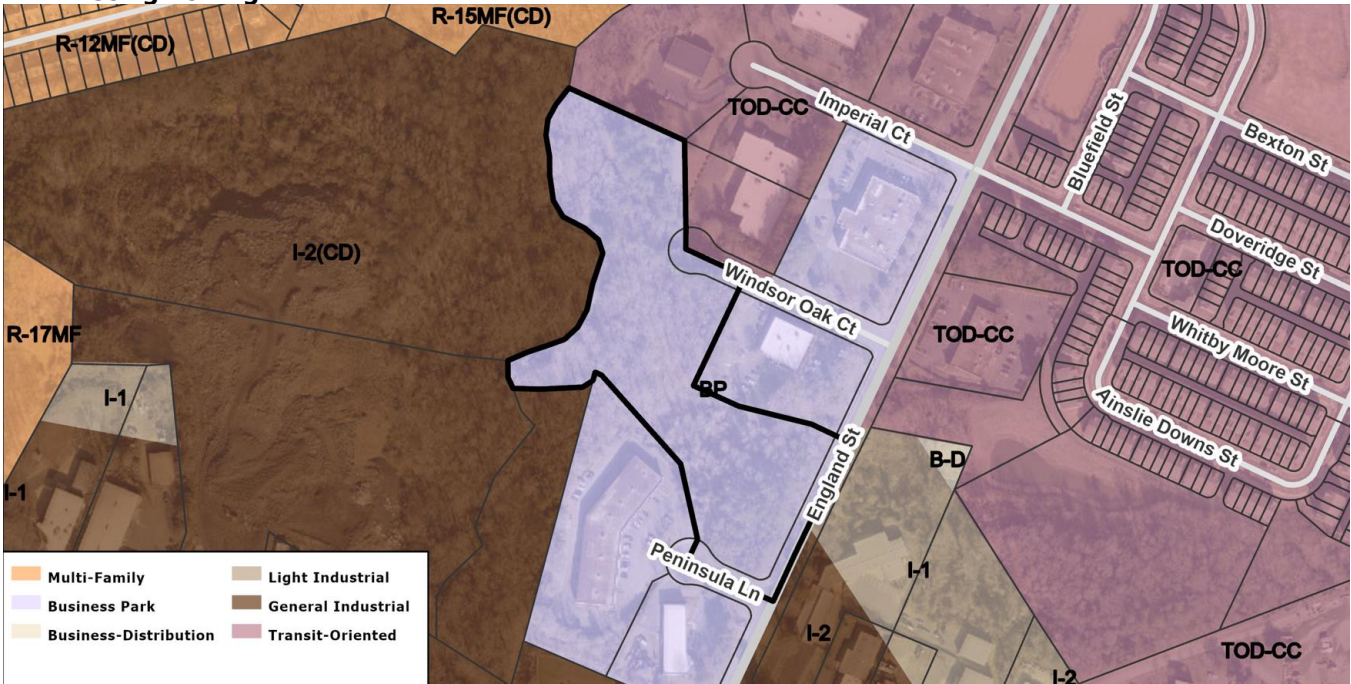

Rationale for Recommendation

- The site is surrounded by existing office spaces with a vacant lot to the west and a recycling plant abutting the vacant lot with residential units beyond the recycling plant.
- The surrounding properties are zoned mostly with TOD-CC, some BP, as well as I-2 (CD) and I-1 adjacent to the site.
- The I-2 zoning is appropriate for this area according to the policy map and when considering the surrounding zoning districts.
- The Manufacturing and Logistics Place Type from the 2040 Policy Map calls for accommodations for a range of warehouse/distribution and light industrial uses, including a variety of light manufacturing and assembly.
- This proposed zoning creates and protects warehouse and industrial areas.
- The petition could facilitate the following 2040 Comprehensive Plan Goals:

- 8: Diverse & Resilient Economic Opportunity

PLANNING STAFF REVIEW

- **Proposed Request Details**
This is a conventional rezoning petition with no associated site plan.
- **Existing Zoning**

- The site is surrounded by mostly general industrial zoning to the west, with transit-oriented zoning to the east allowing for a buffer between the site and residential neighborhoods.

Existing Zoning	Translated Zoning	Recommended Place Type
BP	OFC	Manufacturing and Logistics

The site is surrounded by a mostly vacant lot up to the pallet and recycling facility. East of the site are office buildings and small businesses allowing for a buffer between industrial use and residential neighborhoods that are located east and west from the site.

Street view of the site (right side of the picture) looking east of Windsor Oak Ct shows the office space and some outdoor storage buildings for a civil engineering company.

Street view of the site looking north from England Street shows there is a large office building located on the street with no other surrounding buildings close by.

Street view of the site looking east from England Street shows an office building located across from the site with no other surrounding buildings close by.

Street view of the site looking south from England Street shows there is a small plaza with multiple businesses including offices, a gymnastics training center, and a moving company.

Street view of the site looking west from Windsor Oak Ct shows a cul-de-sac at the end of the street.
