Plan Consistency

The petition is **inconsistent** with the 2040 Policy Map recommendation for the Neighborhood 1 Place Type.

Rationale for Recommendation

- The uses proposed by this petition though not consistent with the Policy Map recommendation, would offer a better transition from the surrounding uses to the existing single-family properties adjacent to the proposed site.
- This petition contributes to the goals of the Comprehensive Plan to mitigate the condition of industrial uses adjacent to residential uses.
- This petition offers to provide sensitivity to the adjacent sites by proposing a 75-foot Class B buffer along the western boundary of the site.

- The petition proposes streetscape improvements on its frontage along Cannon Avenue, to include an 8-foot planting strip and 6-foot sidewalk.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
  - 8: Diverse & Resilient Economic Opportunity

The approval of this petition will revise the recommended place type as specified by the *2040 Policy Map*, from the Neighborhood 1 Place Type to the Commercial Place Type for the site.

**TRANSPORTATION SUMMARY**

- The site is located adjacent to Cannon Avenue, a City-maintained minor collector, east of Wild Rose Lane, a City-maintained local street. A Traffic Impact Study (TIS) is not required for this site due to the site generating less than 2500 daily trips. The proposed site plan will generate less vehicular trips than what is currently entitled under the existing zoning. CDOT has coordinated with the petitioner on construction of an 8 ft planting strip and 6 ft sidewalk along Cannon Ave. All CDOT issues have been addressed.
