STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** the 2040 Policy Map recommendation for Manufacturing and Logistics.

Rationale for Recommendation

- The surrounding area aligns with the goal of this zoning because the area helps to contribute to Charlotte’s economic viability by providing mixed-use urban places that include light manufacturing, office, residential, and retail.
- The buildings surrounding the sites include office, research and development, studios, light manufacturing, showrooms, hotels, and multi-family residential which aligns with the IMU zoning.
- This area and the requested zoning are characterized by adaptively reused buildings and low to mid-rise single-use structures that are transitioning to vertically integrated uses in a pedestrian-oriented environment.

- This zoning encourages active and passive community gathering spaces.
- The sites would encourage adaptive reuse of light industrial or underutilized buildings, embracing unique history and form.
- The petition could facilitate the following *2040 Comprehensive Plan Goals*:
 - 1: 10 Minute Neighborhoods
 - 5: Safe & Equitable Mobility

The approval of this petition will revise the recommended place type as specified by the *2040 Policy Map*, from the Manufacturing and Logistics place type to the Innovation Mixed-Use place type for the site.

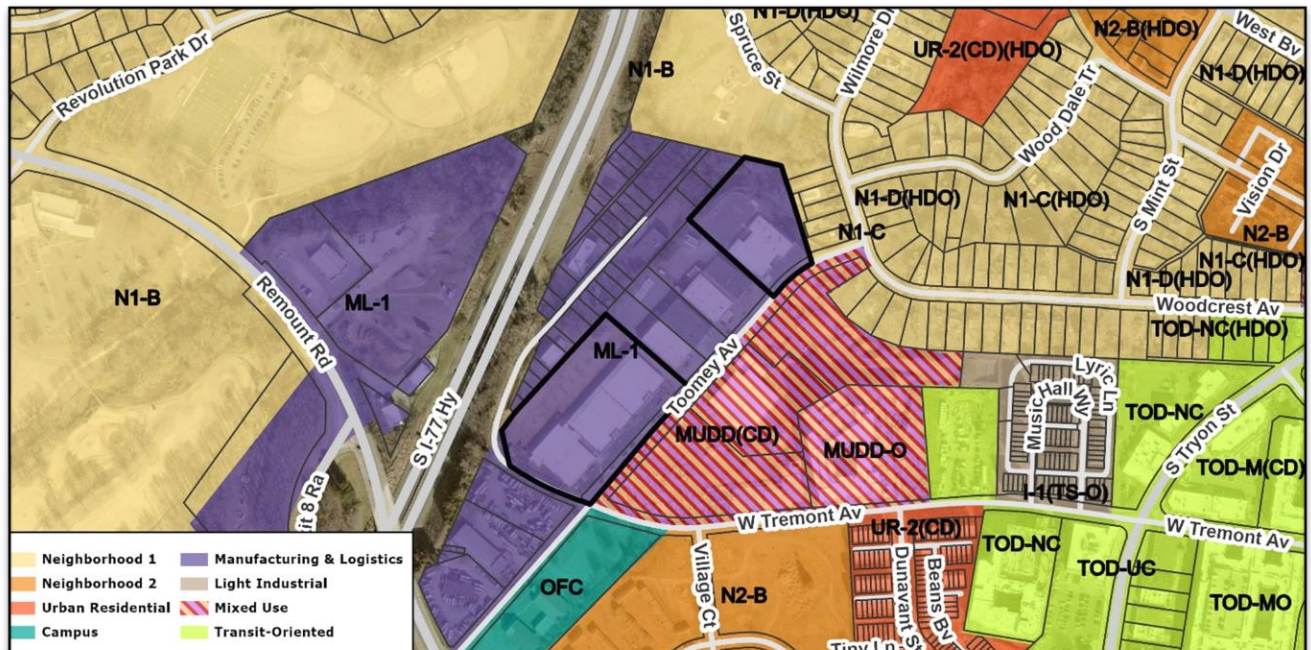

PLANNING STAFF REVIEW

• **Proposed Request Details**

This is a conventional rezoning petition with no associated site plan.

- All uses permitted by right and under prescribed conditions in the IMU (Innovation Mixed-Use) zoning district.

• **Existing Zoning**

- The site is currently occupied and surrounded by a mix of industrial, residential, retail uses on parcels in various zoning districts.

The requested rezoning sites are in one building, with the site spaces being at opposite ends of each other.

East of the site are residential homes.

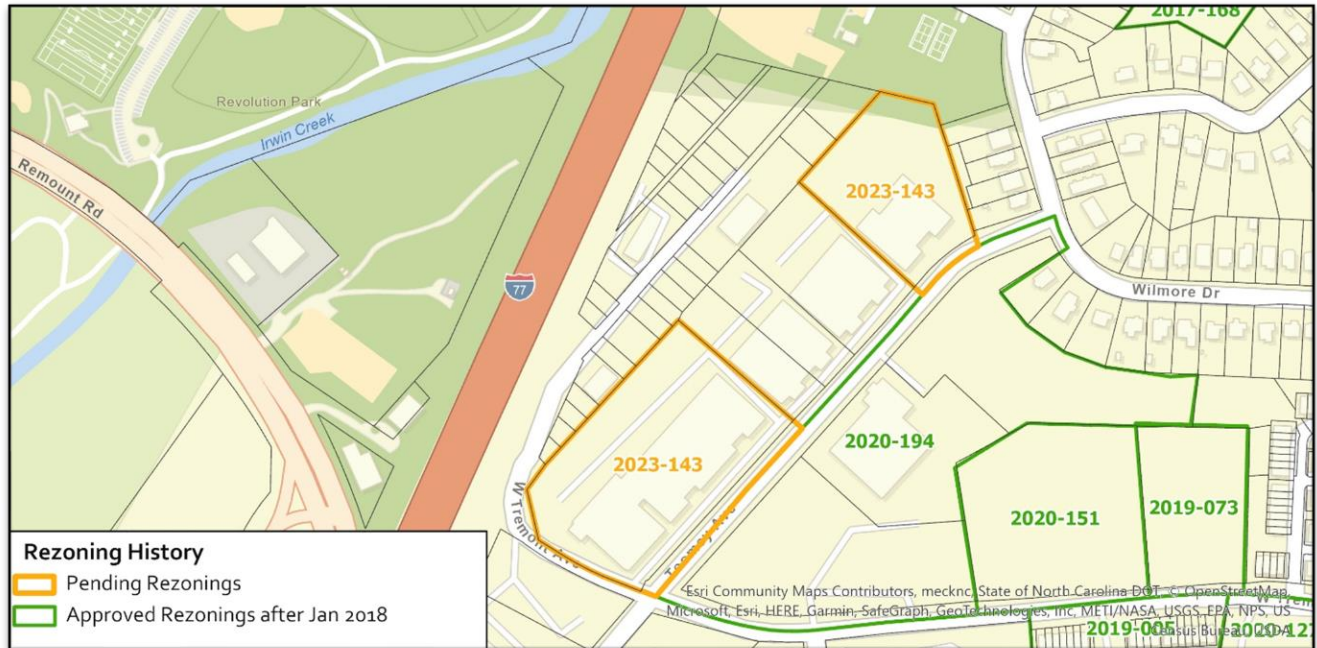

South of the site is an office building and apartment complex.

West of the site is a church and businesses.

- **Rezoning History in Area**

Petition Number	Summary of Petition	Status
2020-194	From U-1 and R-5 to MUDD(CD); 8.8 acres	Approved
2020-151	From I-1 to MUDD-O; 3.455 acres	Approved
2019-073	From I-1 to TOD-NC; 1.91 acres	Approved

• **Public Plans and Policies**

- The 2040 Policy Map (2022) calls for Manufacturing and Logistics.

• **TRANSPORTATION SUMMARY**

- The site is located at the intersection of Toomey Avenue, a City-maintained collector, and West Tremont Avenue, a City-maintained local street. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.

• **Active Projects:**

- No active transportation projects near the site

• **Transportation Considerations**

- No outstanding issues.

• **Vehicle Trip Generation:**

Current Zoning:

Existing Use: 230 trips per day (based on ML-1).

Entitlement: 145 trips per day (based on ML-1).

Proposed Zoning: Too many uses to determine number of trips (based on IMU).
