Plan Consistency

The petition is **consistent** with the *2040 Policy Map* recommendation for Regional Activity Center at this site.

Rationale for Recommendation

- The TOD-UC zoning district may be applied to parcels within a ½-mile walking distance of an existing rapid transit station or within a ½-mile walking distance of an adopted Metropolitan Transit Commission (MTC) alignment station location.
- The rezoning of this parcel will allow the site to be redeveloped for transit-supportive uses.

• **Public Plans and Policies**

- The 2040 Policy Map (2022) recommends Regional Activity Center for this site.

- **TRANSPORTATION SUMMARY**

The site petition is located adjacent to South Graham Street, a City-maintained primary street, and Minter Place, a privately-maintained local street. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.
