STAFF RECOMMENDATION Staff recommends approval of this petition.

Plan Consistency
The petition is **inconsistent** with the 2040 Policy Map recommendation for Neighborhood Center.

Rationale for Recommendation

- The TOD-CC zoning is appropriate for parcels near moderate-intensity rapid transit stations and streetcar stops, this site location is surrounded primarily by Neighborhood Center, which is a lesser intensity compared to TOD-CC.
- The site is located within a 1/4-mile of the Bruns Ave CityLYNX Gold Line transit stop.
- This zoning aims to accommodate and encourage transit oriented and transit supportive development in transit station areas where there is not a current market demand for more intense development.

- The proposed zoning would allow the site to be developed with transit supportive uses compatible with existing development.
- This proposed zoning could support the rehabilitation and reuse of existing structures. Which is important to preserve the character of the established neighborhoods.
- This zoning is appropriate for the area because it has moderate density.
- The proposed zoning aids accessibility for nearby neighborhoods and may encourage walking and cycling, supporting the concept of a complete neighborhood.
- The local street network is well-connected, designed for slow traffic, and includes good pedestrian facilities. Arterial streets provide for safe and comfortable pedestrian, bicycle, and transit travel along and across them for easy access to and from the Neighborhood Center and surrounding areas.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
 - 1: 10 Minute Neighborhoods
 - 4: Trail & Transit Oriented Development
 - 5: Safe & Equitable Mobility
 - 6: Healthy, Safe & Active Communities
- The approval of this petition will revise the recommended place type as specified by the *2040 Policy Map*, from Neighborhood Center to Community Activity Center for the site.

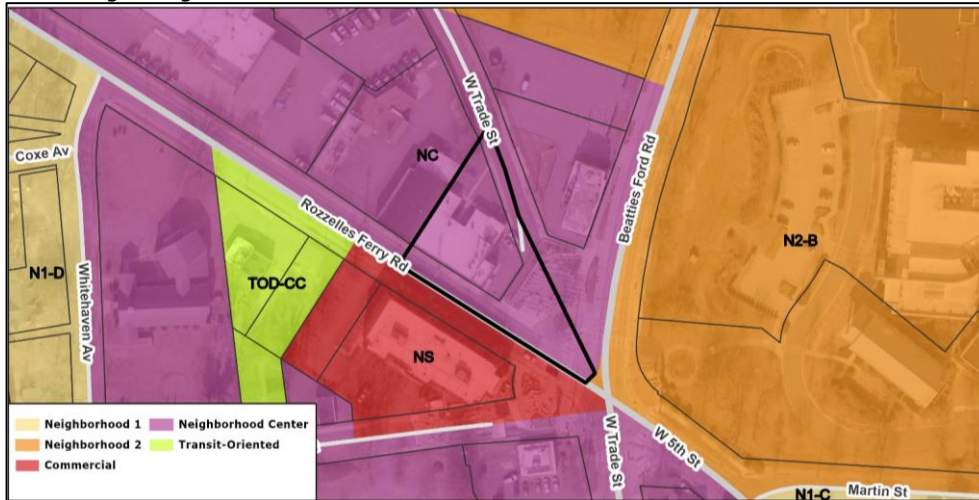

PLANNING STAFF REVIEW

Proposed Request Details

This is a conventional rezoning petition with no associated site plan.

- The petition proposes all uses permitted by-right and under prescribed conditions in the TOD-CC (transit-oriented development, Community Center) zoning district.

Existing Zoning

- The site is surrounded by a mix of zoning districts such as commercial, neighborhood 1 & 2, neighborhood center, and transit oriented development.

The site is denoted with a red star, surrounded by different uses, including restaurants, churches, and Johnson C. Smith University.

Commented [PD1]: Include full name of university. Johnson C. Smith

View of the site looking south of Rozzelle's Ferry Road, which has a handful of businesses occupying the building on site.

East of the site is a large intersection with the Bruns Ave CityLYNX is less than a half mile from the site.

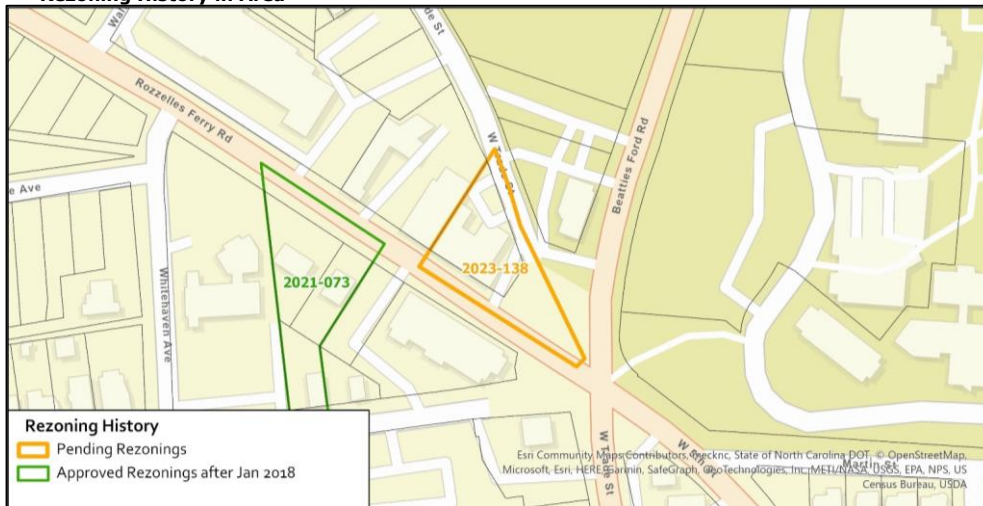

South of the site is occupied by a pharmacy and chapel with an outdoor seating area.

West of the site are residential neighborhoods with some commercial businesses.

• **Rezoning History in Area**

Petition Number	Summary of Petition	Status
2021-073	0.5 acres from B-1 PED to TOD-CC	Approved

• **Public Plans and Policies**

- The 2040 Policy Map (2022) calls for Neighborhood Center.

• **TRANSPORTATION SUMMARY**

- The site is located adjacent to Rozzelles Ferry Road, a city-maintained avenue, and Beatties Ford Road a city-maintained avenue. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.

• **Active Projects:**

- No active transportation projects near the site.

• **Transportation Considerations**

- No outstanding issues.

• **Vehicle Trip Generation:**

Current Zoning:

Existing Use: 500 trips per day (based on CC).

Entitlement: Too many uses to determine the number of trips per day (based on CC)

Proposed Zoning: Too many uses to determine the number of trips per day (based on TOD-CC).
