Plan Consistency

The petition is **consistent** with the *Charlotte Center City 2040 Vision Plan* (2021). While this plan does not make a specific land use recommendations for the site, it encourages future development and contributes to the overall viability and livability of Center City.

Rationale for Recommendation

- The petition is an optional request to increase the allowed exterior signage for an existing uptown building.
- The petition could facilitate Goal 8 of the *Charlotte Center City 2040 Vision Plan* specially contributing to make the Tryon Street corridor a distinctive destination by increasing visual interest along the street.

- Similar signs have been requested in uptown through the same process, with the largest being 650 square feet located on the Convention Center.
- The Zoning Ordinance limits wall mounted signs to 10% of the wall area per tenant or 300 square feet, whichever is less. However, approved optional provisions could permit more intense signage.
