STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the 2040 Policy Map recommendation for Regional Activity Center.

Rationale for Recommendation

- Regional Activity Centers are typically large, high-density mixed-use areas, typically along transit corridors or major roadways, that provide access to goods, services, dining, offices, entertainment, and residential uses.
- This petition falls within an area of transition between the high-intensity environment of the Uptown core and adjacent smaller-scale mixed-use areas and urban neighborhoods.

- This petition will include walkable, pedestrian-orientated mixed-use development that focuses on compatibility with adjacent development.
- The petition could facilitate the following 2040 Comprehensive Plan Goals:
 - 1: 10 Minute Neighborhoods
 - 5: Safe & Equitable Mobility
 - 6: Healthy, Safe & Active Communities
 - 8: Diverse & Resilient Economic Opportunity
 - 9: Retain Our Identity & Charm

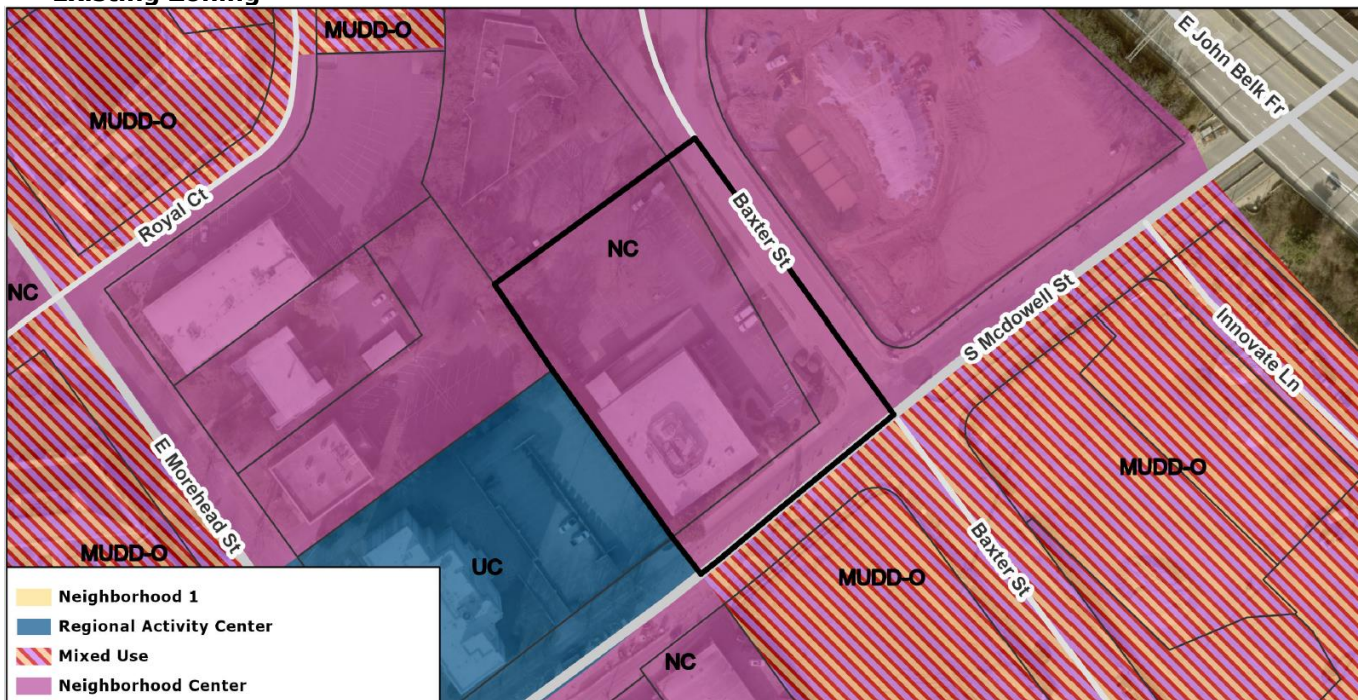

PLANNING STAFF REVIEW

• **Proposed Request Details**

This is a conventional rezoning petition with no associated site plan.

- Permit all uses by right and under prescribed conditions in the UE (urban edge) zoning district.

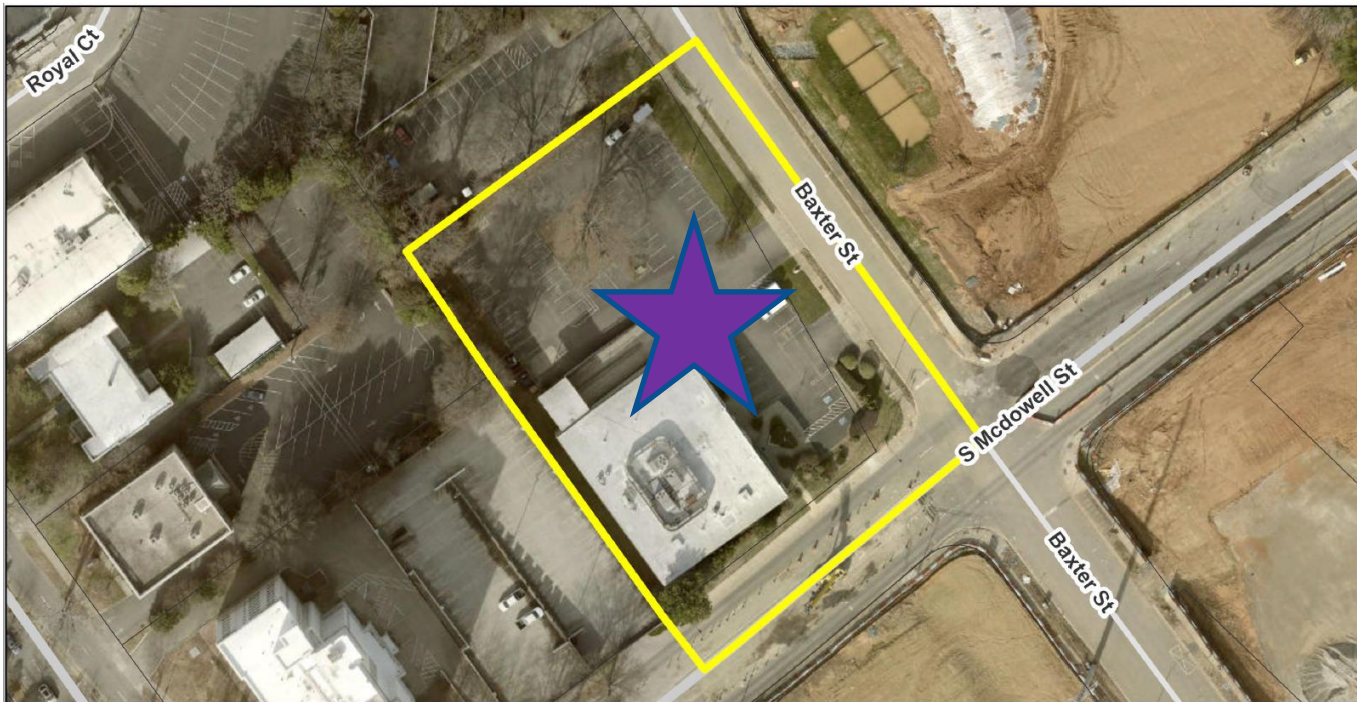

• **Existing Zoning**

- The rezoning site is developed with an office building located just outside the I-277 Loop and surrounded by a mix of residential and non-residential uses.

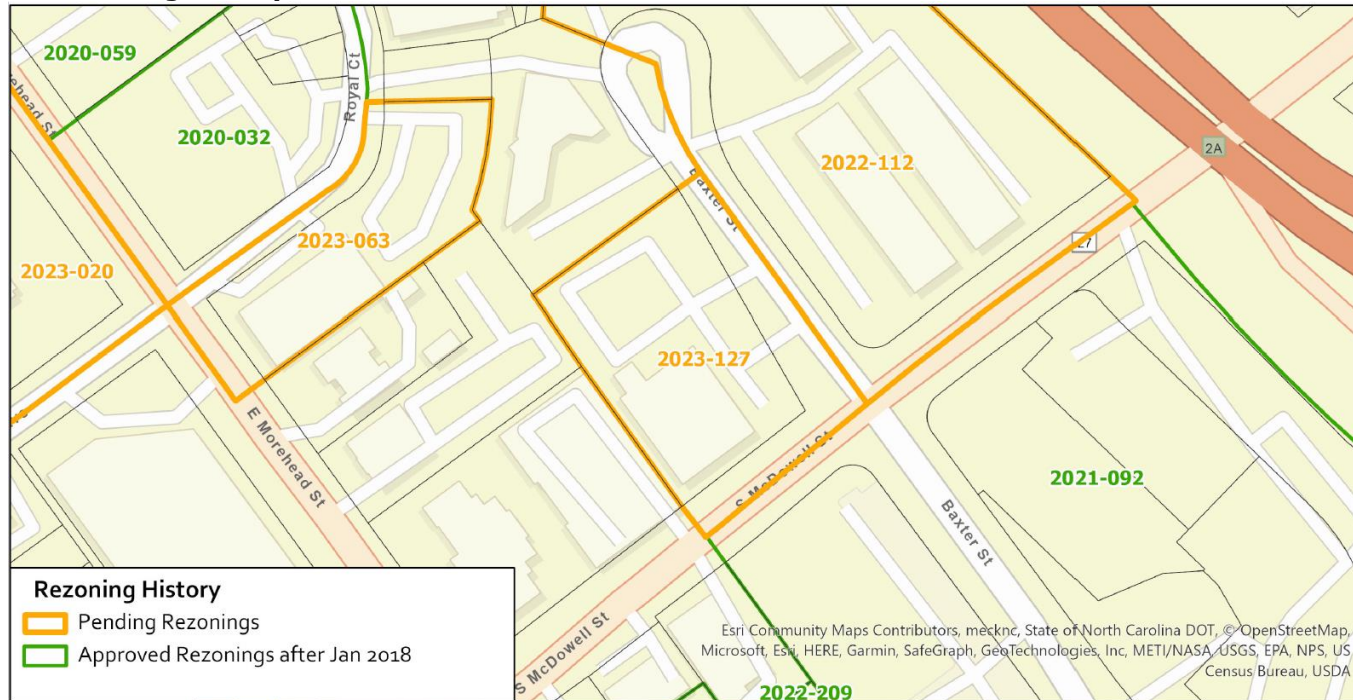

The site is developed with an office building.

The rezoning site (denoted by purple star) is developed with an office building and surrounded by a mix of residential and nonresidential uses.

• **Rezoning History in Area**

• **Public Plans and Policies**

- The 2040 Policy Map (2022) recommends the Regional Activity Center Place Type.

- **TRANSPORTATION SUMMARY**

The petition is located adjacent to S. McDowell Street, a city maintained local street, and Baxter Street, a city maintained local street. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.

- **Active Projects:**

- No active transportation projects near the site.

- **Transportation Considerations**

- No outstanding issues.

- **Vehicle Trip Generation:**

Current Zoning:

Existing Use: 290 trips per day (based on 20,058 square feet office).

Entitlement: too many uses to determine (based on NC zoning district).

Proposed Zoning: too many uses to determine (based on UE zoning district).
