**ZONING COMMITTEE DISCUSSION**

Staff provided a summary of the petition and noted that it is consistent with the *2040 Policy Map*.

Commissioner Russell asked if this was an additional parcel that was being added to the previously approved development (petition 2022-055). Staff stated that the request was more akin to removing the parcel from the previous rezoning. Staff stated that the parcel was included in petition 2022-055 and is currently zoned R-22MF(CD) like the rest of the overall site but that the previous site plan did not show any proposed development on the subject parcel. Staff stated that it will likely be developed as part of the previously approved development but that it was comply with the N2-B zoning standards rather than the R-22MF standards of the rest of the site.

Chairman Welton asked about the parcels to the south of the site already zoned N2-B but the *Policy Map* recommending the Neighborhood 1 Place Type. Staff stated that the parcels to the south are developed as single-family homes but they were zoned multi-family under the previous Zoning Ordinance so when the UDO took effect in June 2023, the parcels automatically translated to the N2-B zoning district.

There was no further discussion of this petition.
