*Air Quality Comments:* The petitioner will be asked to complete an applicability questionnaire to determine if an air quality permit is required.

*Ground Water Services Comments:*

*Summary: Contamination sites exist in the vicinity, so there may be restrictions for water supply wells.*

Groundwater & Wastewater Services records indicate contamination site(s) exist on or within 1,500 feet of the properties included in the petition. An established Area of Regulated Groundwater Usage (ARGU) as defined by the Mecklenburg County Groundwater Well

Regulations extends 1,500 feet around the contamination sites. In an ARGU where municipally supplied water is available water supply wells for potable water supply, irrigation or open loop geothermal systems may not be permitted or constructed on or within 1,000 feet of contamination sites. Wells may be permitted with special construction and sampling requirements between 1,000 and 1,500 feet of contamination sites.

*Storm Water Services Comments:* “A Floodplain Development Permit from the City of Charlotte is required for all proposed construction within the regulated floodplain. There are specific building requirements for any proposed structure located within the regulated floodplain. See City of Charlotte Unified Development Ordinance Article 27 for details.”

*Solid Waste Comments:* No comments

**MCAQ Scope of Review:**

Mecklenburg County Air Quality (MCAQ) has reviewed the petitions with regard to air quality regulations for stationary sources and demolition and/or renovation of structures (e.g. National Emission Standards for Hazardous Air Pollutants for asbestos). Comments may also be made regarding incompatible land uses, sources of Toxic Air Pollutants, proximity to Risk Management Plan facilities, and proximity to known nuisance conditions or sensitive populations. MCAQ has conducted the review based on information submitted by the petitioner, review of aerial photographs (as available through the Mecklenburg County Polaris system), review of the “Air Pollution Facility Information Online” database available from the MCAQ website, and review of Mecklenburg County Health Department records. The review is cursory based on limited information provided within petition applications and site plans.
