**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the 2040 Policy Map recommendation for Neighborhood 1

Rationale for Recommendation

- This petition is appropriate and compatible as the site is within an area designated by the 2040 Policy Map for the Neighborhood 1 Place Type.
- The petition is situated among lots with typical lot dimensions that are approximately 50' in width for most of the adjacent properties and lot areas that mostly range between 7,000 and 8,000 square feet. This site has a lot width of 85' and a lot area just under 15,000 square feet, significantly larger dimensions than the neighboring properties.
- The N1-C and N1-D zoning districts allow the same single family residential uses. The primary differences between the two Neighborhood 1 districts are limited to dimensional standards such as

lot width. The minimum lot width in the N1-D district is 40' as opposed to 50' in the N1-C district. This petition would allow for slightly more flexibility in the dimensional standards for the site but will maintain the same single-family intent and allowed uses that currently exist under the N1-C zoning.

- **Proposed Request Details**

This is a conventional rezoning petition with no associated site plan.

- **Existing Zoning**

There are also multiple multi-family stacked developments in the locale, Major businesses in the near vicinity of the site include multiple restaurants and/or bars as well as various retail good establishments, a vehicle fueling facility, and a minor vehicle repair facility.
