SUBJECT: REZ 2025-009: 2040 Comprehensive Plan Consistency

LOCATION: 10905 Providence Rd W (PID: 22314152, -53, -54, -55, -56, -57, -58)

DESCRIPTION: Zoning Change Request from INST(CD) to INST(CD)SPA -- 40.425 acres.

The Long-Range Division of the Planning, Design and Development Department offers the following comments on the above referenced rezoning petition. Please communicate these comments with the petitioner to the greatest extent practical and incorporate into the public hearing staff analysis report.

Plan Consistency: This petition is **CONSISTENT** with the 2040 Policy Map recommendation for **Campus (CAMP)**.

Land Uses	<i>Primary uses vary, depending on the purpose of the Campus and may include facilities for office, research and development, education, medical, and places of assembly that require a significant amount of space for various activities spread across sites.</i>
Character	<i>This Place Type is characterized by low- to mid-rise office or civic buildings. Some institutional Campuses are more intensely developed and may include some high-rise buildings.</i>
Mobility	<i>Campuses are typically located along at least one arterial street with an internal street network that encourages walking and bicycling, particularly when sites are located near transit routes and stops. Campuses should include transit stops and mobility hubs at key entries, stations, and intersections. Arterial streets support walking, cycling, and transit use by providing a safe and comfortable environment to reach transit stops or nearby destinations.</i>
Building Form	<i>The typical building is an office or civic building and is usually no more than five stories. Residential buildings may be found in this Place Type but are less prevalent. Office Campuses may also include taller buildings where additional open space or benefits to the community are provided. Buildings may be designed with active ground floor uses to support a walkable environment and have a high degree of transparency using clear glass windows and doors. Buildings are oriented toward streets when they are adjacent to streets. When internal to a Campus, buildings are oriented to and have prominent entrances that connect to the pedestrian network for the Campus.</i>

Equitable Growth Framework (EGF) Support: Please be advised of the following regarding the petitions support of the EGF Manual and Metrics

1. Access to Employment Opportunity – Campus place types could further job growth and create opportunities for upward economic mobility. **The petition proposes an increase in office/medical space that could support this need.**

Rationale for Recommendation: The petition could facilitate the following 2040 Comprehensive Plan Goals:

Goal 8: Diverse & Resilient Economic Opportunity – Charlotteans will have opportunity for upward economic mobility through access to a diverse mix of jobs and careers that align with education and skill levels of residents and the economic strengths of the region. **This petition may support this goal by proposing a 56,000 square foot increase in medical office uses and a 13,000 square foot and 48 bed increase.**
