**TO:** Emma Knauerhase – Entitlement Services

**FROM:** Maria Floren – Long Range Planning

**SUBJECT:** REZ 2025-046: 2040 Comprehensive Plan Consistency

**LOCATION:** 3423 Tappan Pl (PID: 09305118)

**DESCRIPTION:** Zoning Change Request from CG to N1-C – 0.17 acres.

---

The Long-Range Division of the Planning, Design and Development Department offers the following comments on the above referenced rezoning petition. Please communicate these comments with the petitioner to the greatest extent practical and incorporate into the public hearing staff analysis report.

**Plan Consistency:** This petition is **CONSISTENT** with the 2040 Policy Map recommendation for **Neighborhood 1 (N1)**. The table below represents elements of the Neighborhood 1 Place Type:

<b>Land Uses</b>	Single-family detached homes on lots are the primary use in this Place Type. Accessory Dwelling Units are frequently found on the same lots as individual single-family detached homes. Duplexes, triplexes, quadraplexes, and civic uses, such as parks, religious institutions, and neighborhood scaled schools, may also be found in this Place Type. Smaller lot single-family detached developments, small townhome buildings, and small multi-family buildings, as well as civic uses, are also found on some 4+ lane arterials.
<b>Character</b>	Characterized by low-rise residential buildings, uniformly set back from the street, and generally consistent lot sizes. Front lawns, landscaped yards, and tree-lined sidewalks are found between residences and the street, and individual back yards are commonly found for each main residential building.
<b>Mobility</b>	A very well-connected local street network provides safe and direct access throughout the neighborhood and to and through the neighborhoods and adjacent Place Types. This street network helps disperse vehicular traffic and allows residents to walk or bike to transit and nearby destinations. Arterial streets also support walking, cycling, and transit use by providing a safe and comfortable environment to reach transit or nearby destinations. Direct access to buildings, parks, and other facilities is usually from Local streets, with more limited access opportunities along arterials. Alleys are also used to provide access to residences located on narrower lots.
<b>Building Form</b>	The typical building in a Neighborhood 1 place is a single-family residential building up to 3 or 4 stories. Townhome style buildings, typically have 4-6 units. The size of civic and institutional buildings varies based on context and accessibility.

**Equitable Growth Framework (EGF) Support:** Please be advised of the following regarding the petitions support of the EGF Manual and Metrics

1. Access to Housing Opportunity – Access to housing is the highest priority need in this area according to the EGF Community Reports. ***The petition could help address the housing need by rezoning the site from the CG district to the N1-C district.***

**Rationale for Recommendation:** The petition could facilitate the following 2040 Comprehensive Plan Goals:

	<p><u>Goal 1: 10-Minute Neighborhoods</u> – All Charlotte households should have access to essential amenities, goods, and services within a comfortable and tree-shaded 10-minute walk, bike, or transit trip by 2040. <b><i>This petition’s proposal could help support this goal by potentially increasing housing density in an area with close proximity to an existing activity center.</i></b></p>
