

## DAVIDSON SOUTH STREET WASTEWATER IMPROVEMENT PROJECT

---

### THOMPSON STREET: UPCOMING CONSTRUCTION

Charlotte Water (CLTWater) and the Davidson South Street Wastewater Improvement Project Team will begin investigation activities in the Thompson Street area as they continue work on the project. The following activities are expected to begin \_\_\_\_\_ and will last for approximately 5-6 weeks. During this time, residents can expect:

- Staging of machinery & soft digging
- Lane closures & flagging activities
- CLTWater reminds residents to observe posted traffic signage & take safety precautions while in the area

# DAVIDSON SOUTH STREET WASTEWATER IMPROVEMENT PROJECT

## - ABOUT THE PROJECT -

The goal of the Davidson South Street Wastewater Improvement Project is to address current and future sewer capacity needs for the area. Primarily this will be addressed with the installation of a new larger diameter sewer along South Street between Davidson Elementary School and Lorimer Road. In addition to this work, a portion of the existing sewer force main along North Thompson Street will also be replaced. Construction of both portions of the project are expected to be complete in Fall 2023.
