Beaverdam Creek Wastewater Project Update

Charlotte Water (CLTWater) and Dellinger Inc. completed installing the wastewater pipe to serve properties along Beaverdam Creek.

RESTORATION ACTIVITIES TO EXPECT:

- Seeding area with annual ryegrass
- Applying straw mulch
- Installing permanent fencing that was removed during construction
- Restoring creek banks

This project offers public wastewater treatment service to this portion of the creek basin that is currently served by septic tank systems.

INTERESTED IN APPLYING FOR SERVICE?

For eligible properties currently served by a septic system, property owners can learn more about purchasing a public wastewater connection, by going to www.charlottewater.org (Development & Connections, New Connections Residential). Email CLTWaterNewServices@charlottenc.gov or call 704-432-2854 to check availability before applying.

Learn more about the projects at www.charlottewater.org (click on “projects” drop down, then construction, and select Beaverdam Creek West Tributary Project or Dixie Berryhill Drinking Water Project).

Major updates will also be emailed via Nextdoor.

We appreciate your input. Let us know how we are doing at charlottewater.org/feedback. Thank you.
