

## AN UPDATE ON THE IDLEWILD ROAD WATER SUPPLY PROJECT

---

To address aging water main pipes and ensure ongoing, reliable service for customers, Charlotte Water is installing larger pipes to meet the needs of the growing community. A new water main will be installed along Craig Avenue in Cotswold. This project is part of a wider initiative in the greater Idlewild area to enhance drinking water reliability.

Pipe installation work for the Craig Avenue portion of the project is expected to begin in **February 2023** and will require a road closure along Craig Avenue that is expected to remain in place till **December 2023**.
