# Water Supply Project: Surveying in your area

August 7, 2020

Dear Customer:

Charlotte Water (CLTWater) is beginning planning and design work on the Idlewild Road Water Supply Project for a new water main in your area. The proposed water main is expected to be aligned along Craig Avenue, Sharon Amity Road, Havencrest Drive, the southern and eastern edges of Sharon Memorial Park (cemetery), and McMullen Way.

In upcoming work, Charlotte Water's authorized contractor, RH Price, Inc. (RH Price), teaming with Stantec Consulting Services (Stantec), may be working on or near your property on one or more occasions. During this period, it may be necessary for personnel or authorized representatives to enter upon your property to conduct surveys or other work related to this project. Stantec shall be surveying the area to gather information related to future drinking water improvements. You may notice pavement markings, wooden survey stakes, plastic flagging or other markings related to these activities.

If we determine that this project will have any direct impact on your property, we will notify you further as the project progresses. We thank you for your cooperation and patience as we move forward with this project.
