# WATER TRANSMISSION MAIN IMPROVEMENTS & REPAIRS

---

**UPCOMING SURVEYING**  
PEACHTREE RD. & FERRELL AVE.

# SURVEYING FIELD WORK NOTIFICATION

## PEACHTREE RD. & FERRELL AVE.

### ABOUT THE PROJECT

Charlotte Water (CLTWater) completed a Water Transmission Main assessment, which identified various improvements and repairs that are needed to optimize the function and resiliency of the CLTWater's existing transmission system in this area.

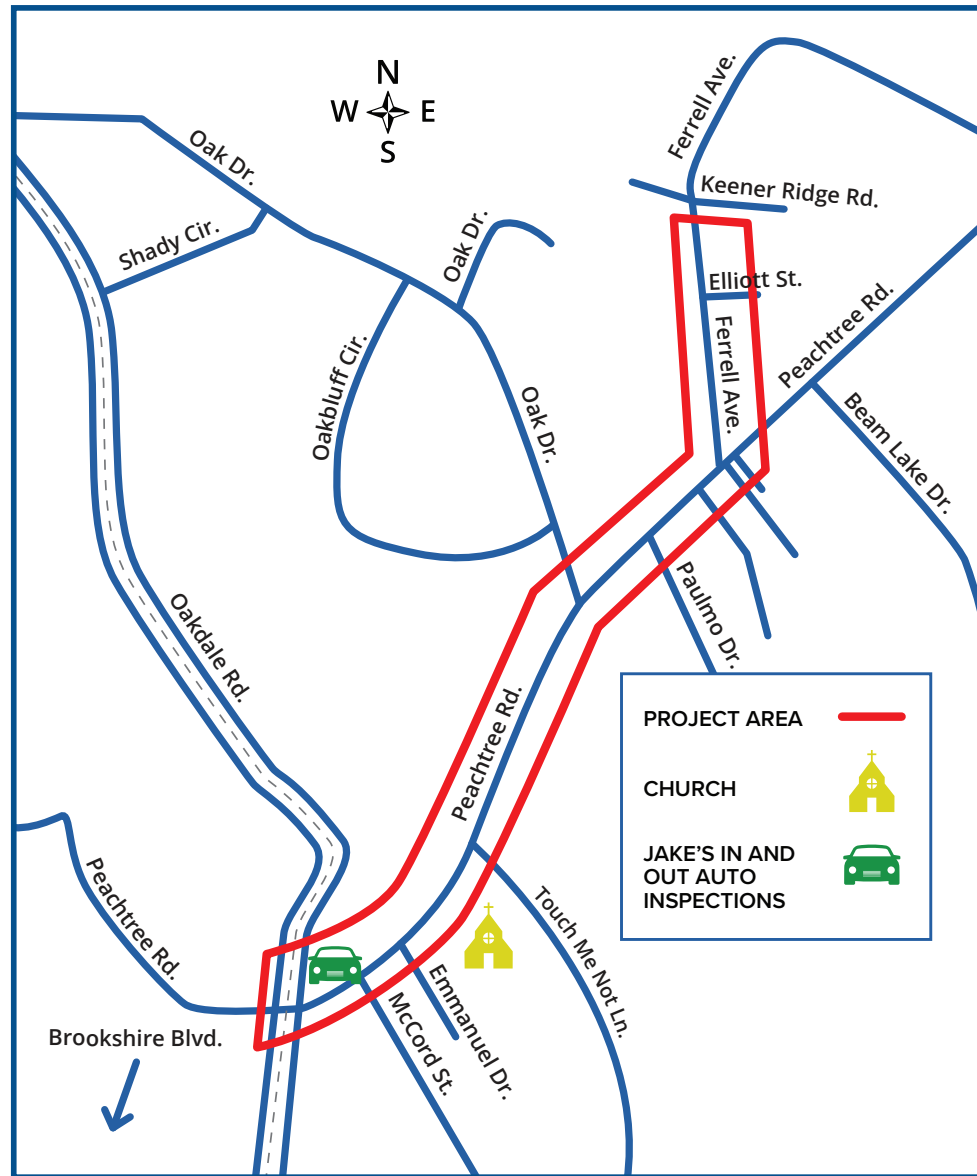

CLTWater has partnered with State Utility Contractors, CDM Smith and Stewart Engineering to further assess, design, and implement the improvements on Oakdale Rd., Peachtree Rd., and Ferrell Ave.

### WHAT TO EXPECT

- CLTWater will be conducting field investigations in your area that will ensure ongoing service for our customers.
- This letter is to notify you that authorized representatives working on behalf of CLTWater will be working near your property on one or more occasions during the planning and design phase of the project. This phase is expected to conclude in November 2023, with construction expected to begin shortly after.

### FUTURE PHASES OF WORK

- Future phases of design work may require representatives to enter upon your property to access manholes, perform surveys and perform soil borings for additional investigations if necessary.
- Residents may see minor clearing activities in the area, as well as survey stakes/flags, paint markings on the ground, and small machinery used for utility locates and geotechnical borings.
