Planning is complete and the project team will soon start the design phase, which will take about nine months to complete. During design, the project team creates the detailed information needed to build the option that was selected during the planning phase. After design, real estate acquisition will start, which will take another nine months.

This project is part of the Central/Albemarle/Shamrock Comprehensive Neighborhood Improvement Program. Improvements include a new urban greenspace, public art, sidewalk, separate bike lanes, intersection enhancements and pedestrian medians.

Visit CharlotteFuture.com/Central to subscribe for project updates, or text the phrase **charmeck cnip** to **468-311**. If you have any questions, please contact Project Manager Mark Grimshaw at 704-619-4333 or mgrimshaw@charlottenc.gov.
