

Public Meeting Minutes

Chandworth Storm Drainage Improvement Project

June 6, 2018

Charlotte-Mecklenburg Storm Water Services held its second public meeting on May 24 at Huntingtowne Farms Elementary School to present the proposed improvements and begin the easement acquisition phase. During this phase, easements are acquired to provide the City of Charlotte access to property to improve and maintain the storm drainage facilities.

Meeting Highlights

- Jackie Bray, Project Manager, introduced the real estate agents, Randy Hosch and Dwayne Hosch of Telics, who will be managing the easement acquisitions on behalf of the City.
- Some residents arranged meetings with the real estate agents.
- Representatives from Telics will mail a packet to affected property owners if an easement is required on your parcel.
- The project team reviewed the design plans and held a question and answer session.

If you were unable to attend the public meeting please visit the project web page to view the public meeting presentation or contact Jackie Bray with questions.

Investing in Infrastructure

Storm Water Services designs and constructs projects that make a difference in the lives of residents across the city. Our community benefits when stormwater quickly drains off roads, flood risks to homes are reduced and the health of local streams is protected or improved.

The Chandworth Project goals are to reduce street and structure flooding throughout the neighborhood.
