

Galway

Storm Drainage Improvement Project

PROJECT STATUS
JUNE 2025
Planning begins.

PROJECT STATUS | JUNE 2025

Charlotte-Mecklenburg Storm Water Services is working with Gavel & Dorn Engineering, PLLC and their surveyor Southeast Geomatics Group, to evaluate the storm drainage system in the Galway area.

Representatives may need to enter your property to collect survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered.

The survey work is scheduled to begin in June and take about 3 months to complete.
