

Tennessee

Storm Drainage Improvement Project

PROJECT STATUS
SEPTEMBER 2023
Planning continues.

PROJECT STATUS | SEPTEMBER 2023

Charlotte-Mecklenburg Storm Water Services is working with STV Engineers, Inc. and their surveyor, Stewart Engineering, Inc. to evaluate the storm drainage system in the Tennessee Avenue area.

Representatives may need to enter your property to collect survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered.

The survey work is scheduled to begin in October and take about 3 months to complete.
