

Request:

Status update and current map on social districts.

Response:

Charlotte Communication: Charlotte Communication: Approximately 8 groups have indicated an interest in creating a social district but only one (Plaza Midwood Business Association) has actually submitted an application, however their application is not complete. Staff has been working with that group to help them complete their application.

There is an informational briefing on social districts planned for the City Council Business Meeting on Monday, September 25.

Additional information can be found at the website listed below. It includes an FAQ, detailed information on district requirements, contact information for people to get more information as well as the pre-application form where people can request/schedule meetings with staff for a meeting about social districts.
