STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the 2040 Policy Map recommendation for the Neighborhood Center Place Type.

Rationale for Recommendation

- The petition limits the number of uses to be allowed on the site by right and under prescribed conditions.
- The petition attempts to balance the provision of commercial services with protection of residential areas.
- Adaptive reuse of an existing building will protect and enhance the existing character.
- The petition is compatible with adjacent uses considering the existing building and character will be retained.
- The petition limits the number of uses to be allowed on the site by right and under prescribed conditions.

- Neighborhood Center Place Type from the 2040 Policy Map calls for the development of pedestrian friendly, mixed-use environments that provide nearby residents with convenient access to goods and services. The proposed conditional plan and use limitations help to provide better alignment with the goals of the place type.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
 - 1: 10 – Minute Neighborhoods

The approval of this petition will revise the recommended place type as specified by the *2040 Policy Map*, from the Neighborhood Center Place Type to the Commercial Place Type for the site.
